# Help, I don't have any experience!

Feel like you have nothing to put on your resume? Think again! Use the examples below to showcase your in-class experiences, volunteer/community involvement, or freelance opportunities.

#### **In-Class Experience**

You can include time in school on your resume. Use bullets to describe the skills gained while in your program; maybe they came from projects or assignments or have been developed through multiple classes. You want to demonstrate to a potential employer that you can do the job! So write your school experiences as if they were a job.

Sometimes you may want to describe your entire school experience in 1 entry. That is demonstrated in the two examples below:

#### Human Services Student

Wake Technical Community College, Raleigh, NC

- Research and present statistics on teen opioid use and trends in prevention and interventions.
- Co-lead a 45-min psycho-education session on youth suicide and awareness for a 10-person group.
- Collaborate with Human Services Club to support foster children duffle bag packaging event.

#### Supply Chain Management Student

Wake Technical Community College | Raleigh, NC

- Analyzed retail industry data to understand and improve supply chain process controls.
- Completed 16 case studies with industry applications to explore use of supply chain principles.
- Developed and implemented strategies to support adjustments/negotiations as needed.
- Worked with diverse teams across functions and cultures to accomplish assignments.

Other times, you may want to highlight a single project or course you completed. This can help to drill into specifics and gives an opportunity to further demonstrate key industry knowledge. Multiple projects or class entries are fine.

#### NCHHS Website Redesign

Wake Technical Community College

- Optimized state childcare website by restructuring site organization and customizing CSS styles.
- Utilized responsive design best practices to develop more mobile-friendly website interface.
- Enhanced online usability by simplifying site navigation and eliminating broken links and on-page clutter.

#### "Arachnophobia: Impairment Case"

Wake Technical Community College

- Collaborated with a four-person team on FASB Accounting Standards codification.
- Determined classification, proper handling of impairment, and assessed impaired land value.
- Researched and documented factual findings for submission.

### Freelance/Community Involvement

For freelance/community involvement, we want to be mindful that how we are stating things is clear and honest. Were you paid for your work? Then maybe we call it a contract position. Was the work unpaid? Let's call you a volunteer or say it was a "Freelance Project". Still include dates/timelines.

Help your neighbor build a website? Troubleshoot AV/IT issues at your church?	Tech Support (Volunteer), Catholic Diocese of Raleigh, NC
	<ul> <li>Provided technical support for hardware, software, and cloud based computing issues.</li> </ul>
	<ul> <li>Increased troubleshooting skills and strength in communicating updates to customer. Gained knowledge of (specific programs, issues, etc.)</li> </ul>
Do you help your family with their small business? Order supplies, update accounts, process payments?	Administrative Support, Ocasio Realty, Garner, NC
	<ul> <li>Support 500k business operations by overseeing supply inventory, document updates, and scheduling logistics.</li> </ul>
	• Ensure accuracy of listing information via computer system.
	• Conduct local market research and collaborate with 5-person team focused in maintaining client satisfaction.
Do you organize activities for your kids? Volunteer with PTA, their sports teams, etc.?	Freelance Project Management, Raleigh SoB, NC
	<ul> <li>Organize annual ballet showcase bringing in \$10k+ in donations and financial support.</li> </ul>
	<ul> <li>Schedule 15-20 volunteers, providing training and onboarding to support their roles.</li> </ul>
	<ul> <li>Maintain vendor relationships and process facility usage agreements, costume orders, while maintaining event budget.</li> </ul>
