This document was last updated June 7, 2012

Please see individual web pages at http://catalog.waketech.edu for the most current information.

Should you have any questions or comments please direct them to policies@waketech.edu or 919-866-5603. Thank you.
Welcome to Wake Tech!

We’ve prepared this catalog for you – to help you select the courses, academic programs, and career pathway you need to create the future you want.

Our curriculum (for-credit) courses can help you earn a degree, diploma, or certificate, credentials that are vital for finding a good job and building a successful career. Your Wake Tech studies can also be the first steps toward more education, opening doors to additional studies and advanced degrees. With our continuing education (non-credit) classes you can learn specialized skills, grow professionally, or explore creative or entrepreneurial interests.

Wake Tech has provided high-quality education and training for the Wake County region for half a century! Our top-notch instruction and hands-on learning experiences prepare students and workers at every level to meet the challenges of the future. We stay “ahead of the curve” with innovative approaches, while maintaining the standard of excellence that has always been our hallmark. Wake Tech graduates are doing great things in health care, computer technologies, hospitality, and many other fields – here in our community and beyond.

We hope you’ll find the options you need here at Wake Tech, and we’re glad to be a part of the exciting journey ahead.

Sincerely,

[Signature]

Dr. Stephen C. Scott
President

Remember to check the online College Catalog for the most up-to-date information at [http://catalog.waketech.edu](http://catalog.waketech.edu)
ABOUT THE CATALOG
The Wake Technical Community College Catalog is an information and reference guide on College policies, facilities, degree, certificate and diploma programs, course offerings, services, and personnel. The statements in the catalog are for informational purposes only, and should not be considered the basis of a contract between the institution and the student.

Generally, the provisions outlined in the catalog are applicable as stated, but Wake Technical Community College reserves the right to initiate changes, including but not limited to academic requirements for graduation, without direct notification to individuals. Any statement in this catalog is subject to change by the College. Though the College catalog is produced as a reference guide, each student is responsible for keeping apprised of current requirements for graduation for a particular degree program. Please visit our website at http://catalog.waketech.edu for the most recent version of this catalog.

DISABILITY SUPPORT
Wake Technical Community College does not discriminate on the basis of disability in the admissions or employment processes or in access to programs, facilities, or activities. The following persons, whose offices are at the Main Campus, located at 9101 Fayetteville Rd., (401 South) have been designated to coordinate compliance with the non-discrimination requirements of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973:

- Disability Services/Access for Students
  Janet Killen - 919-866-5670
  Sorenson Video Phone – 919-324-1508

- Employment Access
  Benita Clark, Chief Human Resources Officer 919-866-5937

- Facilities Access
  Wendell Goodwin, Facilities Engineering Officer 919-866-5148

EQUAL ACCESS
Wake Technical Community College is committed to the policy that all persons shall have equal access to its programs, facilities and employment without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, or sexual orientation. For more information, see the Non-Discriminatory Policy in the Admissions section of this catalog.

SEX CRIMES PREVENTION ACT
The Federal Campus Sex Crimes Prevention Act requires registered sex offenders/predators to provide to the Wake County Sheriff’s Office notice of each institution of higher education in the state at which the offender/predator is employed, carries on a vocation, or is a student. Any member of the Wake Technical Community College community who wishes to obtain further information regarding sexual offenders/predators in their area may refer to any of the following websites:

- State websites
  http://www.fbi.gov/hq/cid/cac/states.htm

- National Sex Offender Public Registry
  http://www.nsopr.gov

- NC Sex Offender and Public Protection Registry
  http://www.ncfindoffender.gov or call 919-856-6900.

CHANGE IN STUDENT DATA
Changes of name, address, telephone numbers, or e-mail must be reported, in writing, to the Registration and Student Records Services Division immediately upon change. Address change requests may be submitted via WebAdvisor.

Send changes to Registration and Student Records Services Division, Wake Technical Community College, 9101 Fayetteville Road, Raleigh, NC 27603

OTHER CHANGES
The Board of Trustees and/or administration of Wake Technical Community College reserve the right to change at any time, without notice, graduation requirements; fees and other charges; curriculum, course structure, and content; and other such matters as may be within its control, notwithstanding any information set forth in this catalog.
GENERAL INFORMATION

HISTORY
Wake Technical Community College is a tax-supported, public, non-profit, educational institution under the control of a Board of Trustees. It is part of the North Carolina Community College System, and is accredited by the Southern Association of Colleges and Schools. Authority for the establishment of the College is found in Chapter 115D of the General Statutes of North Carolina.

The College was chartered on April 3, 1958, as the Wake County Industrial Education Center. Operation actually began October 7, 1963, with 34 curriculum students on campus and 270 enrolled in the various industrial training programs. On January 8, 1964, the Center was formally dedicated as W.W. Holding Industrial Education Center and transferred from the Wake County Board of Education to a Board of Trustees. On March 3, 1966, W.W. Holding Industrial Education Center was granted approval by the State Board of Education as W.W. Holding Technical Institute and licensed to award the Associate in Applied Science degree. The name was changed to Wake Technical Institute in September 1974 and to Wake Technical College on March 1, 1980. The name was changed to Wake Technical Community College on December 1, 1987.

The College was first accredited by the Southern Association of Colleges and Schools on December 3, 1970.

MISSION
Mission Statement
The mission of Wake Technical Community College is to improve and enrich lives by meeting the lifelong education, training, and workforce development needs of the communities we serve.

Supporting Comments
The College is committed to promoting individual success in the workplace and higher education and to promoting cultural, social, and economic development.

In pursuit of its mission, this public two-year comprehensive postsecondary educational institution adheres to an open-door policy by offering quality accessible and affordable educational opportunities to all adults regardless of age, sex, socioeconomic status, ethnic origin, race, religion, or disability. To meet the needs of its community, the College focuses on providing support services, resources, community outreach, and partnerships; programs in basic skills development; vocational, technical, and occupational training; and college/university transfer preparation.

VISION
At Wake Technical Community College, our vision is a college that exceeds the expectations of our stakeholders for effective lifelong education, training, and workforce development by providing world-class programs and services.

CORE VALUES
Wake Technical Community College will structure its operations, training and educational programs around the Core Values of accountability, respect, responsibility, critical thinking, communication, and collaboration.

Accountability - Accountability is essential for an environment of learning. Those who are accountable stand by their words and actions, taking full responsibility for what they create and for what they contribute to the community.

Respect - Respect is a prerequisite for enhancing learning. Community members who respect themselves and others help create a safe, yet open, climate of learning.

Responsibility - Responsibility is the root of success. Students who assume personal responsibility for their education will reach their goals. Responsible students also make contributions to their communities.

Critical Thinking - Critical thinking is the fundamental purpose of higher education. The ability to solve problems through the application of the appropriate skills is critical to all disciplines.

Communication - Communication is increasingly the key competency for living and working in the information age. Communicating effectively in oral and written forms through traditional and new media is a powerful tool for personal and career success.

Collaboration - Collaboration, by bringing together individual knowledge and talents, creates teams that are greater than the sum of their parts. Such teamwork maximizes benefits to individuals and the community.
COLLEGE GOALS

Student Success
Provide a dynamic learning environment to ensure successful achievement of students’ goals by administering sound policies, curricula, instruction, and support services.

Workforce Development
In collaboration with Regional Economic Development Partnerships, identify the workforce needs of emerging jobs in rural and urban economies in North Carolina. Develop and implement the educational and training programs necessary to meet the workforce needs of each community college service area in North Carolina and promote recruitment, retention, and development of high quality faculty and staff necessary to achieve the educational and training objectives of the community college system and provide North Carolina with a world-class workforce.

Diverse Populations Learning Needs
Provide North Carolina citizens with the opportunity to develop essential skills for lifelong learning. Upgrade and retrain North Carolina learners for the workplace through flexible, accessible, and customized educational and training programs within their communities.

Resources
Continuously research, analyze, and secure the resources necessary to fulfill the mission of the North Carolina Community College System and develop processes for measuring the effectiveness of resource allocations and utilization, within the North Carolina Community College System.

Technology
Encourage and support North Carolina Community College faculty and staff in the effective and efficient uses of instructional technology and administrative computing systems to improve the delivery of academic programs to North Carolina citizens.

Community Services
Provide courses and support service activities for the enrichment of the community’s civic, economic, and cultural needs.

PROGRAMS & SERVICES
The College translates its mission, vision, values, and goals into action through clearly defined programs and services. Specifically, the College:

- offers credit programs leading to associate degrees, diplomas, and certificates designed for immediate entry into employment, an associate degree in general education, and associate degrees designed to transfer to four-year institutions. The College also offers pre-curriculum programs for students to develop academic proficiency so that they may successfully complete curriculum courses;

- provides occupational career enhancement programs for individuals and support for economic development to businesses, industries, and agencies. Basic skills education, English as a Second Language and a wide variety of continuing education courses and programs for personal enrichment are offered on campus and throughout the county. The College further serves its constituents by providing a broad range of community services, partnerships, and outreach programs;

- provides a wide range of support services designed to assist students in successfully fulfilling their education and occupational goals. These services, developed to meet the diverse needs of individual students, begin with their initial contact with the College and continue throughout their enrollment and job placement or transfer for further study; and

- practices sound fiscal management and systematic planning to provide facilities, equipment, and state-of-the art technology to ensure quality education opportunities at secure facilities accessible to Wake County citizens.

ACCREDITATION

Southern Association of Colleges and Schools Accreditation (SACS)
Wake Technical Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees, diplomas, and certificates. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Wake Technical Community College.
Specific Program Accreditation

Automotive Systems Technology Accreditation
The college's Automotive Systems Technology associate degree program has received certification by the National Automotive Technicians Education Foundation (NATEF) and accredited by National Institute for Automotive Service Excellence (ASE). All eight areas meet the strict industry standards required for ASE MASTER certification. This is the highest level of achievement recognized by the National Institute for Automotive Excellence (ASE).

Criminal Justice Program Accreditation
The college’s Criminal Justice Technology program is accredited by the North Carolina Criminal Justice Education and Training Standards Commission.

Culinary Technology Program Accreditation
The college’s Culinary Technology program is accredited by the American Culinary Federation.

Dental Assisting and Dental Hygiene Programs Accreditation
The college’s programs in Dental Assisting and Dental Hygiene have received accreditation (without reporting requirements) status from the American Dental Association, Commission on Dental Accreditation. A copy of the appropriate accreditation standards and/or the Commission’s policy and procedure for submission of complaints may be obtained by contacting the Commission at 211 East Chicago Avenue, Chicago, IL 60611-2678, or by calling 1-800-621-8099, extension 4653.

Detention Officer’s Certificate
The college’s Detention Officer’s Certificate program has been accredited by the North Carolina Sheriffs' Education and Training Standards Commission to offer the certification course for individuals seeking to become detention officers effective March 16, 2011. North Carolina Sheriffs’ Education and Training Standards Commission; North Carolina Department of Justice; 9001 Mail Service Center; Raleigh, North Carolina 27699-9001.

Heavy Equipment and Transport Technology/ Construction Equipment Systems Program Accreditation
The college’s Heavy Equipment and Transport Technology/Construction Equipment Systems Program is accredited by Accreditation Board of the Associated Equipment Distributors.

Medical Assisting Program Accreditation
Wake Technical Community College’s Medical Assisting Diploma program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Medical Assisting Education Review Board (MAERB).

Medical Lab Technology Program Accreditation
The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) is the accrediting agency for the Medical Laboratory Technology program and the approving agency for the Phlebotomy program. The NAACLS is located at 5600 N. River Road, Suite 720, Rosemont, IL 60018-5119 (Telephone number 773-714-8880).

Radiography Program Accreditation
Wake Technical Community College’s program in Radiography is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is located at 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3182 (Telephone number 312-704-5300).

Surgical Technology Program Accreditation
The college’s Surgical Technology program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) on recommendation of the Accreditation Review Committee for Surgical Technology (ARC-ST).

APPROVALS
The following Wake Tech programs have been reviewed by and met the standards for approval of the organizations/agencies indicated:

- Emergency Medical Technology - North Carolina Office of Emergency Medical Services
- Human Services Technology - North Carolina Department of Health and Human Services, Division of Health Service Regulation
- Nursing - North Carolina Board of Nursing
- Phlebotomy - National Accrediting Agency for Clinical Laboratory Sciences
- Veteran's Services - North Carolina Approving Agency for Veterans Education and Training

FOUNDATION
Wake Technical Community College Foundation solicits private support from corporations, foundations and individuals.

Gifts are used for emergency financial aid and student scholarships, equipment, recognition awards, professional development, facility improvements, and a variety of other purposes outside the scope of traditional college funding sources. The Foundation also enables the College to meet emergency funding needs as well as special opportunities that improve Wake Tech’s ability to serve the community.

All private gifts to Wake Technical Community College should be directed to the Wake Technical Community College Foundation, a tax-exempt, 501(c)(3) nonprofit corporation, operating exclusively for the benefit of the College and Wake Tech students.

Donors or advisors should send correspondence to:

Executive Director
Wake Technical Community College Foundation
9101 Fayetteville Road
Raleigh, North Carolina 27603-5696
919-866-5924
omcongleton@waketech.edu
Website: http://foundation.waketech.edu/

LOCATIONS
Courses are offered at Wake Technical Community College locations throughout Wake County.

Main Campus
9101 Fayetteville Road
Raleigh, North Carolina 27603
919-866-5000
http://maincampus.waketech.edu

Wake Tech’s Main Campus, located seven miles south of Raleigh on US 401, opened its doors as the Wake County Industrial Education Center in 1963 with a first class of 34 students. Today, the campus serves thousands of students each year in continuing education (non-credit) and curriculum education (for-credit) programs. Courses are offered days, evenings, weekends, and via distance education technologies.
Continuing education courses available at the Main Campus include professional training and upgrading in building/trades licensure, computer applications, and notary; and personal enrichment in foreign languages, health and wellness, motorcycle safety, and photography and videography. This campus also serves student needs for developing basic skills, English as a second language competency, and the knowledge required for GED success.

For those seeking college credit and credentials, the campus offers all the coursework necessary for two-year associate degrees for career placement and university transfer, as well as for job-ready technical diplomas and certificates requiring one year or less. The Main Campus houses accredited for-credit programs preparing students for occupations and further study in applied technologies, business technologies, computer technologies, engineering technologies, as well as the arts, humanities, mathematics, natural sciences, and social sciences.

Wake Tech’s Main Campus also provides students with a comprehensive set of resources and services. Resources include a library, computer labs, skills labs, smart classrooms/conference rooms, a bookstore, and a restaurant. Services include admissions, career counseling and placement, academic advising, disability support, student life, and tutoring.

Northern Wake Campus
6600 Louisburg Road
Raleigh, North Carolina 27616
919-532-5502
http://northerncampus.waketech.edu

Wake Tech’s Northern Wake Campus opened in August 2007 with two instructional buildings and a regional plant for heating and cooling. Building A is where core subjects, such as English and history, are taught. It’s also the home of Student Services, including admissions, counseling, disability support services, and financial aid. Building B offers a two-story library and state-of-the-art chemistry and biology labs. It also has a bookstore and an Individualized Learning Center (ILC). A third classroom building, Building D, opened in August 2009 with computer labs, physics labs, fine arts classrooms, a distance learning classroom, and a drama room. It also has a coffee shop and wireless Internet access. There are volleyball and tennis courts for physical education.

Curriculum programs on the Northern Wake Campus include the Associate in Arts (A.A.)/Associate in Science (A.S.) for University Transfer degree programs as well as an Honors Program option. Students can also take a variety of Continuing Education classes, including art, foreign language, and basic skills. The Northern Wake Campus is the home of the Wake Tech Wachovia/Wells Fargo Center for Entrepreneurship, which provides resources for small business owners.

The Northern Wake Campus has the distinction of being the first college campus in the nation to have all LEED-certified buildings. “LEED” stands for Leadership in Energy and Environmental Design and is the U.S. Green Building Council’s highest standard for environmentally-responsible construction.

Western Wake Campus
Millpond Village
3434 Kildaire Farm Road
Cary, North Carolina, 27511
919-335-1000
http://westerncampus.waketech.edu

The Western Wake Campus opened its doors in the fall of 2005 and has consistently grown in both course offerings and support services. Western Wake offers the Associate in Arts (A.A.) for University Transfer degree program, which includes 64 hours of coursework in English, math, science, and the social sciences, equivalent to the general education requirements for a bachelor’s degree in a four-year college or university.

The Business and Industry Services Division provides customized employee training for area businesses. Training can be tailored for industrial, clerical, supervisory, and management occupations and includes the following:

- Apprenticeship – Customized apprenticeship programs in various trades
- Professional Development and Corporate Training – Personal development programs customized to meet the needs of participating businesses and individuals
- Customized Training Program – Customized training assistance in support of full-time production and direct customer service positions created in North Carolina. The program enhances the growth potential of NC companies while preparing North Carolina's workforce with the skills for successful employment in emerging industries. Eligible businesses and industries include manufacturing, technology intensive companies (e.g., Information Technology, Life Sciences), regional or national warehousing and distribution centers, customer support centers, air courier services,
national headquarters for operations outside North Carolina, and civil service employees providing technical support to U.S. military installations in North Carolina.

- Small Business Center – Technical and managerial assistance to current and prospective business owners and operators through a variety of seminars, study courses, and one-on-one assistance

Continuing Education offers a wide variety of non-credit courses, including employability skills such as resume writing, career exploration, and basic computer classes. Other Continuing Education classes include BioWork, an entry-level biotech training certificate; medical health care office occupation certificate; English as a Second Language (ESL) competency; and online GED preparation.

Wake Tech’s Western Wake Campus provides students with support services that include admissions and advising, financial aid, disability support services, a Learning Resource Center with a library and Individualized Learning Center (ILC), a computer lab, wireless access, and student government information.

Health Sciences Campus
2901 Holston Lane
Raleigh, North Carolina 27610
(behind Wake Medical Center)
919-747-0400
http://healthsciencescampus.waketech.edu

The Health Sciences campus offers both curriculum and continuing education programs in health sciences.

For those seeking careers or further credentials in the healthcare fields, our Health Sciences campus offers job-ready curriculum programs that lead to an associate degree, diploma or certificate. The Health Sciences campus houses accredited programs preparing students for occupations in Associate Degree Nursing, Dental Assisting, Dental Hygiene, Emergency Medical Science, Human Services Technology, Medical Assisting, Medical Laboratory Technology, Phlebotomy, Radiography and the imaging specialties of Computed Tomography and Magnetic Resonance Imaging, Surgical Technology, Therapeutic Massage, Associate Degree Nursing, and Pharmacy Technology (in collaboration with Johnston Community College).

Our programs are designed to meet the needs of our students as well as the standards of care mandated by employers and our accrediting bodies. All of our curriculum (for-credit) programs are taught by professionals in their fields and include clinical or co-op experiences. Our affiliations with major health care institutions, physician offices, dental offices, and other clinical sites in the area provide our students with excellent clinical training in all areas of specialization.

Admission to many of the health sciences programs is selective and limited.

Continuing Education classes offered at the Health Science Campus include: emergency medical technology, certified nursing assistant, medical terminology, medical coding, CPR, pharmacy technician practice, and mammography technician continuing education. Our Basic Skills program offers English as a Second Language (ESL) at the Health Science Campus.

Public Safety Education Campus
321 Chapanoke Road
Raleigh, North Carolina 27603
http://publicsafetycampus.waketech.edu

Wake Tech’s new Public Safety Education Campus (PSEC) opened as a training center in January 2008, to serve the growing needs of area law enforcement and other public service agencies. Two years later, it was expanded into a campus with the addition of degree programs, a library, an individualized learning center (ILC), and student services. At more than 65,000 square feet, the PSEC is the first centralized training facility of its kind in Wake County.

The campus is home to Wake Tech’s Criminal Justice, Latent Evidence, and Fire Protection Technologies programs, as well as the Basic Law Enforcement Training and Certified Nursing programs. It provides in-service training for law enforcement officers, firefighters, corrections officers, and emergency medical service providers.

The Public Safety Education Campus is one of the most advanced public safety and law enforcement training facilities in the Southeast, with features that include a state-of-the-art forensics lab, an incident command center, a simulations room, a defensive tactics room, and a mock courtroom and jail.
The News and Observer Adult Education Center (AEC)
1920 Capital Boulevard
Raleigh, North Carolina 27604
http://basicskills.waketech.edu/

The News & Observer Adult Education Center is home to Wake Tech’s Basic Skills Division. Basic Skills is designed primarily to help adults learn to read; improve math, reading, and writing skills; earn a high school diploma or GED certificate; and learn English as a second language.

The Basic Skills program is also designed to help underemployed/unemployed persons prepare for employment or further education, developmentally disabled persons achieve their potential, and families strengthen literacy skills and family bonds. No tuition is charged.

Basic Skills classes are offered at community sites as well as on Main Campus and at the Adult Education Center. Placement and orientation are conducted at class sites.

Contact the Adult Education Center at 919-334-1500 to schedule an appointment or to learn more about Basic Skills programs and their locations.

State Personnel Development Center
101 West Peace Street
Raleigh, North Carolina 27603
919-733-2474

Wake Technical Community College and the Office of State Personnel/Human Resource Development formed a partnership over 20 years ago to make computer software and technology training available to state employees. Wake Tech instructors teach one- and two-day short courses, curriculum classes and on-line courses on the most current software programs with a focus on those used throughout state government.

VISITORS AND CHILDREN ON CAMPUS
http://visitors.waketech.edu

Visitors are welcome on the Wake Tech campus. For the safety and security of all, immediately upon arriving, visitors are required to register at the receptionist desk at any campus. At the receptionist desk, visitors may obtain information and directions as needed. The College cannot accommodate extended non-official visits; individuals who have not registered or who are found loitering on campus may be required to leave.

Visitors, children, and any other persons not enrolled at Wake Tech are not allowed in the library or in classrooms, laboratories, or any other instructional areas (on or off campus) without prior authorization.

Children under the age of 15, who are not enrolled at Wake Tech, must be accompanied by a parent, guardian or other adult at all times and must not be left unattended in any area of the College.

At community schools sites, only persons attending classes or other College activities are permitted on the premises. Wake Tech students or employees violating the above regulations on any Wake Tech campus or community schools site will be subject to disciplinary action, up to and including termination of their enrollment or termination of their employment.

Remember to check the online College Catalog for the most up-to-date information at http://catalog.waketech.edu
ADMISSION POLICIES
Open Door Policy
Wake Technical Community College follows the Open Door Policy established by the State Board of Community Colleges. This policy provides for the admission of any person who has reached the age of 18 or who has graduated from high school. This policy is based on the belief that the College has something to offer at all educational levels and that through effective guidance a person can find his or her place in the proper educational program.

Admission to the college does not guarantee admission to a program with specific admission requirements or placement criteria.

Wake Technical Community College reserves the right to refuse admission to any applicant who has been suspended or expelled from another educational institution. Such applicants will be evaluated individually.

Non-Discriminatory Policy
Wake Technical Community College offers Equal Employment and Educational Opportunities to all employees, students, prospective employees, and prospective students. Affirmative Action, Equal Educational Opportunities and compliance with the American with Disabilities Act are viewed by the Board of Trustees as an integral part of the mission and purpose of Wake Technical Community College.

Questions concerning this policy should be addressed to:

Student Matters
Dean of Student Development/Student Conduct Officer
Main Campus: 919-866-5404
Northern Wake Campus: 919-532-5663

Employee Matters
Vice President for Northern Wake Campus and Human Resources, 919-532-5522

STEPS TO ENROLLMENT

1. Submit the Online Application for Admission, http://admissions.waketech.edu
2. Submit all official high school transcripts if required for placement into a particular program of study. If it is determined your high school transcript is not from a valid institution, it may affect your ability to receive financial aid
3. Submit official college transcripts for consideration of transfer of credits in your chosen program of study. However, all college transcripts are required for Health Science programs of study.
4. Apply for financial aid, if needed
5. Take appropriate placement tests (unless waived)
6. Contact advisor for course selection
7. Attend orientation, if required by program area
8. Attend class

Any individual wishing to apply to Wake Technical Community College should complete the Online Application for Admission at http://admissions.waketech.edu/.

The application form should indicate the individual’s classification as a curriculum student applicant, a special/visiting student applicant, or a concurrently enrolled (or dual enrollment) student applicant, as follows:

- **A curriculum student applicant** is any person who is pursuing admittance into a degree, diploma, or certificate program. Curriculum applicants must complete the standard Online Application for Admission and submit official high school transcripts, if required for placement into a program of study. Current and/or subsequent registrations and awarding of financial aid will be blocked if official transcripts are not on file.

- **A special/visiting student applicant** is any applicant who is planning to enroll in one or more curriculum courses but is not pursuing admission into a degree, diploma, or certificate program. Special/visiting student applicants must complete the standard Online Application for Admission and meet all course prerequisites. To verify completion of prerequisite courses, applicants must complete the Special Student Prerequisite Approval Form (https://secure.waketech.edu/eaglesnest/forms/files/1188_SSSpecStudPrereqAppr.pdf) and provide official or unofficial transcripts before registering.
Note: Generally, the special credit status is limited to 16 semester hours. Special credit students are not eligible for financial aid or veterans' benefits, nor are they permitted to earn any degree, diploma, or certificate awarded by the College. Students wishing to change from special credit to curriculum status must complete the standard Online Application for Admission and submit all necessary transcripts.

- **High School Programs**

  The Career and College Promise program provides seamless dual enrollment educational opportunities for eligible North Carolina high school students. For information about eligibility for the program contact the Director of Admissions.

**Transcripts for Incoming Students**

Each curriculum applicant must have official copies of transcripts of all previous high school and college (if any) work submitted directly to Wake Tech. Transcripts become the property of the College upon receipt and may not be copied for student use. Faxed copies are NOT considered official transcripts. Acceptance by Wake Tech is conditional, based on receipt of all official, official transcripts.

**High School:** Applicants who are high school seniors must have their school submit a transcript showing work through the first semester of the senior year, as soon as possible after the semester has ended, and a supplementary transcript showing graduation at the close of school. Students are required to submit all official transcripts. Current and/or subsequent registrations and awarding of financial aid may be blocked if official transcripts are not on file.

**GED:** Applicants who have a high school equivalency certificate should request that an official copy be sent directly to Wake Tech. Applicants can obtain documentation from the State GED Office in the state where the GED was issued.

**College:** Official transcripts of previous education in other colleges and universities should be submitted to Wake Tech. Applicants presenting transcripts of completed associate degrees, or higher, will not need to submit high school transcripts, except in Health Sciences curricula, where ALL transcripts are required.

**How do I request my transcript from Wake Tech?** Print the Transcript Request form online and deliver/mail or fax to Registration and Student Records Services in the Student Services Building, Room 254, on Main Campus – or you may complete and submit the request online. For more information see the Registration and Records chapter or go to http://www.waketech.edu/student-services/registration-student-records/transcripts.

**PLACEMENT TESTING**

The COMPASS placement examination is administered to each applicant pursuing a degree, diploma, or certain certificate programs to determine the individual’s skill level and readiness. Advisors use test results to place students in the appropriate mathematics, English, reading and writing classes. Placement test results are also used to determine whether developmental instruction is needed.

A student may be exempt from taking the COMPASS placement text or portions of the placement test if they meet one of the following criteria:

- SAT scores of 520 or higher in Critical Reading (or Verbal) and 600 or higher in the Math section of SAT test, scores must be less than 5 years old at the time you apply to Wake Tech or
- ACT scores of 21 or higher in Reading, Writing, and Math sections of the ACT test, scores must be less than 5 years old at the time you apply to Wake Tech or
- A grade of “C” or better in college-level English and math course

Students who are non-native speakers of English will take the COMPASS-EFL test and may be required to enroll in English as a Foreign Language courses. More information regarding English as a Foreign Language can be found in the Student Services section under Academic Support and Opportunities. Applicants who have been notified that they need placement testing may make an appointment online at http://testingcenter.waketech.edu or call (919) 866-5461 to schedule an appointment.

To prepare for this computerized placement test, applicants should visit http://testingcenter.waketech.edu/ for additional test preparation and sample test sites.
Placement Requirements for Curriculum Programs of Study

**Associate Degree and Diploma Programs**
- High school diploma or equivalent
- Sufficient mathematics and science to meet specific program requirements
- Placement inventories to aid in course placement and academic guidance
- Medical examination for certain Health Sciences programs
- Additional minimum requirements in some programs (contact the admissions advisor at 919-866-5000 for more information)

**Certificate Programs**
- Demonstrated ability to benefit from the training by having acceptable placement test scores or completion of 6 credit hours of college level coursework
- Placement inventories to aid in course placement, and academic guidance
- Medical examination for certain Health Sciences programs
- Additional minimum requirements in some programs (contact the admissions advisor at 919-866-5000 for more information)

In some instances, licensing or employment within certain fields may be limited by an individual's prior criminal record. Prospective students should check with an admission counselor or appropriate academic department head to determine if such sanctions apply to them.

**CLASS SCHEDULE PUBLICATIONS**
Class schedules for upcoming terms are made available approximately two to three months prior to the start of the term. Online class schedules are available on the Wake Tech website: [http://www.waketech.edu](http://www.waketech.edu).

The “Wake Tech Curriculum Education Credit Courses Registration Guide” for current and prospective students is available on the Wake Tech website. The guide is also available on the Main Campus, Health Sciences Campus, Adult Education Center, Western Wake Campus, and Northern Wake Campus; at community schools sites; at Wake County libraries; and through most chambers of commerce.

**COURSE REGISTRATION INFORMATION**
Students who are admitted to a curriculum degree, diploma, or certificate program will receive course planning and registration information from an admissions advisor or an Advising Center advisor. Based on the student's program of study, course planning and registration information after initial enrollment is obtained from a faculty advisor or Advising Center advisor.

Special students (those who have not declared a program of study) are not assigned a faculty advisor, Advising Center advisor, or admissions counselor; however, special students may seek course planning from the Advising Office as needed.

Registration is conducted online via WebAdvisor: [http://webadvisor.waketech.edu](http://webadvisor.waketech.edu). Click "Log in" if you are a current student; then select “Search for Sections” or “Search and Register” under the Registration heading. More detailed information is available by clicking on “WebAdvisor’s How to’s” at the bottom of the page.

Access to the registration system may be blocked if a financial or academic hold has been placed on a student’s records. Some classes may require special permission to register from the curriculum dean. Visit Wake Tech's Registration and Student Records Services [http://registration.curred.waketech.edu](http://registration.curred.waketech.edu) or WebAdvisor at [http://webadvisor.waketech.edu](http://webadvisor.waketech.edu) for more information.

Your registrations will be deleted if payment is not received by the deadline listed for the period in which you registered. Students are responsible for paying for all scheduled classes by the published due dates. Wake Tech no longer mails invoices. Payment amounts and deadline dates are available from WebAdvisor. Students are strongly encouraged to pay tuition and fees by credit or debit card at the time of registration to avoid waiting in line for the cashier.

Currently enrolled degree, diploma, and certificate-seeking students are notified of upcoming registration periods through the academic calendar, on the Student Portal, and notices around campus, by faculty advisors, and by email sent to each student's Wake Tech email address. The student is responsible for scheduling an appointment with an advisor.

**Course Load**
The maximum course load is 20 credit hours per term. To carry more than the maximum load, students pursuing a degree, diploma, or certificate must obtain an electronic override permission from the dean or the dean's designee.
LIMITED ENROLLMENT PROGRAMS
Some Wake Tech programs have more applicants than available space, as follows:

- Air Conditioning, Heating, and Refrigeration Technology
- Associate Degree Nursing
- Automotive Systems Technology
- Basic Law Enforcement Training
- Computed Tomography and
- Cosmetology
- Construction Management Technology
- Magnetic Resonance Imaging Technology
- Dental Assisting
- Dental Hygiene
- Emergency Medical Science
- Medical Assisting
- Medical Laboratory Technology
- Phlebotomy
- Radiography
- Surgical Technology

These “limited enrollment” programs may have unique admission requirements and may use additional criteria, such as postsecondary coursework, related work experience, or professional certification, for selecting applicants. Limited enrollment programs may also have their own policies, procedures, schedules, and deadlines, which are subject to change. Interested applicants should begin by contacting the Admissions Office and talking to an admissions advisor, who will answer initial questions and guide them through the next steps in the process. The advisor will then schedule an interview to further evaluate applicants’ interests and abilities and provide more detailed information about specific programs of study.

CHANGE OF PROGRAM
Any student wishing to change from one curriculum to another must initiate the change through an Advisor at the Main, Northern Wake, Health Sciences, Western Wake, or Public Safety Education Campus. Students receiving VA educational benefits must also file a change of program request (VA form 22-1995) with the College VA certifying official (Financial Aid).

INTERNATIONAL STUDENTS
The International Student Office assists international student applicants who wish to apply for a student (F-1) visa. It also assists F-1 visa students in communicating with Citizenship and Immigration Services (CIS) regarding authorization of application for appropriate employment, extension of I-20 expiration date, transferring an I-20 to another college or university, travel abroad, and re-entry procedures and documentation of F-1 status. In addition, international students may seek advice and referral information on all aspects of living and studying in the United States. All international (F-1) students and other (non-immigrant) visa holders who want to convert to F-1 status are required by CIS regulations to have a current record of local and foreign addresses on file with the college.

Information about the application process for international students can be found at http://international.waketech.edu/.

READMITTED STUDENTS
Any student who withdraws from the College for reasons other than academic or administrative may be considered for readmission at any subsequent semester. Applicants who have not attended for two years or more must submit a new application. A student who has been dismissed for academic or administrative reasons for one semester or more may re-enroll upon approval by the Associate Vice President for Enrollment Services after a review of the student's situation with the division dean. Requests for re-enrollment must be in writing and addressed to the Dean of Students. Readmission and any conditions or restrictions attached to such readmission are at the discretion of the College.

Health Sciences curricula may have readmissions policies that differ from the general policies of the College. These policies will be made available to Health Sciences students in the Student Policy Handbook for each program.

STUDENT COMPLETION
Information about student completion in each of the academic programs is available to students online at http://www.nces.ed.gov/IPEDS/COOL. Other related information available via the Wake Tech website includes the Critical Success Factors and the Fact Book.

The availability of this information satisfies the federal requirement regarding dissemination of student consumer information.

OFFICIAL COMMUNICATION WITH STUDENTS POLICY

New policies and policy changes will be communicated to students on the official Updates web page, located at http://Updates.waketech.edu.

Every curriculum student is provided with an official Wake Tech email account through the student portal (my.waketech.edu).

- Students must first activate their my.waketech.edu account, wait 24 hours, and then activate the email account.
- This college-issued email account is to be used for all email correspondence with instructors and other college officials.

Official correspondence from the college (communications from instructors, information about registration or financial aid, etc.) will be sent to students’ Wake Tech email address ONLY. Instructors and college officials may refuse to accept student emails sent from other addresses.

For more information, visit my.waketech.edu and click on “Support”. Video tutorials are available in the FAQ/Knowledge Base at http://www2.waketech.edu/lore/studkb/category.php?id=9.

TRANSCRIPT REQUESTS

The Wake Tech Registration and Student Records Services Division is responsible for all student records and for the protection of student rights as provided by the Family Education Rights and Privacy Act (FERPA). Transcripts of academic record will be issued only with written authorization by the student.

Official copies of transcripts may be obtained in person, with a photo I.D., at the Registration and Student Records Services Division in room 243A of the Student Services Building. Transcripts may also be requested by mail or fax or made online by downloading an order form at http://www.waketech.edu/student-services/registration-student-records/transcripts. Mail, fax, and online requests will be processed within 2 business days. One copy of a transcript will be provided per request.

Official Wake Tech transcripts are $5 per copy. Student copies are available at no charge; however, no transcripts will be provided to students with outstanding debt to the College.

ADVANCED STANDING

Advanced standing is a means by which students can satisfy graduation requirements by applying transfer work and credits from placement examination. When it is determined that work from another college is equivalent to a Wake Tech course(s), students are given an equivalency for the advanced standing work, meaning that it is deemed equivalent to a specified Wake Tech course. However, no academic credit is awarded, and thus the equivalency will not count toward the student’s grade point average.

Equivalencies will be noted on the official transcript as transferred equivalencies or non-course equivalencies. Equivalencies will be taken into consideration for program completion at Wake Tech only. Acceptance of advanced standing work at one college does not necessarily mean that acceptance will be given at every college. Students are encouraged to review the advanced standing policies at any college for which they may be considering to transfer or enroll.

Advanced Placement (AP) Credit

The College Entrance Examination Board (CEEB) sponsors an advanced placement program that enables high school students to complete college-level courses while still in high school, to demonstrate college-level achievement through examinations, and to receive college course credit when they matriculate to an institution of higher education. The CEEB examinations are offered in the high schools by the Educational Testing Service (ETS).

College Level Examination Program (CLEP) Credit

CLEP is a program that offers the student the opportunity to earn college credit for knowledge acquired outside the conventional classroom. College-level competency may have been acquired through personal reading, formal study, job experience, non-credit course work, television-taped courses, correspondence courses, military training, adult courses, and advanced studies in high school. For information regarding the CLEP Testing Program, contact the College Board at http://www.collegeboard.org/.

Dantes Standardized Subject Tests (DSST)

The DANTES Program (Defense Activity for Nontraditional Education Support) is a testing service conducted by Educational Testing Service (ETS). DANTES, an agency of the Department of Defense, was created to help service members obtain credit for knowledge and skills acquired through nontraditional educational experiences. Since World War II, DANTES has sponsored and administered tests that provide qualified military personnel with the opportunity to obtain academic credit.
DANTES Subject Standardized Tests provide a way for military personnel to obtain credit by examination for knowledge of material commonly taught in college courses.

Curriculum French and Spanish Placement Exams
NOTE: Students who believe their language skills will exempt them from more than one course should take the CLEP exam. For more information on CLEP testing, visit www.collegeboard.com.

The following students MUST take the Wake Tech PLACEMENT EXAM to determine the level at which they should continue their foreign language studies:

- Native speakers: Students who received their primary literacy education in French or Spanish.
- Heritage learners: Students who have not received their primary literacy education in French or Spanish. Language skills acquired vary by household and may not include reading and writing skills in the second language.
- Students who have earned a grade of B (87) or better on each of the THREE years of high school study of the same language.
- Students who have lived or have studied in a Spanish or French speaking country.
- Incoming transfer students returning to the study of French or Spanish begun in high school, but not previously pursued at the college level.

Students may take the Language Placement Exam in a given foreign language only once; they may not take the exam if they are currently taking or have taken a foreign language course at Wake Tech. If a student believes his or her placement level is too low or too high, he or she should contact the Foreign Language Department Head. Foreign language faculty reserve the right to request that students take the Language Placement Exam.

Department and Special Course Challenge Examinations
Students seeking credit for non-transferable learning experiences for any course, except College/University Transfer and Pre-Curriculum, may request a challenge examination. Subject matter for which credit is sought must be equivalent to the course(s) being challenged. Challenge examination requests will not be accepted for incomplete or failed course work. Requests must be made with full justification to the appropriate academic dean or designee at the time of registration. Upon approval, the appropriate dean or designee will either direct the student to contact the Individualized Learning Center, on Main Campus, to schedule a time for the examination or contact the dean or department head to schedule the examination. Students who successfully challenge a course will receive credit for the course with a grade of "X" The course will not enter into grade-point average computations, but will count toward the total hours earned.

Students must register and pay tuition for courses to be challenged and must submit requests for challenge examinations after registering for the course(s) to be challenged. In order to get credit on the transcript record, it is necessary to remain registered for a class that has been challenged successfully. ENG 111, 112, 113, and 114, and all other College/University Transfer courses may not be challenged; instead, students may take the appropriate CLEP, AP, or DANTES exam.

Note: French and Spanish native speakers are not eligible to receive credit for 100 level foreign language classes.

Students who think that their language skills will earn them credit for more than one course and want to get as much credit as quickly as possible should take the CLEP exam. For specific information on CLEP testing, please visit the website for http://www.collegeboard.org/.

Students may take the Language Placement Exam in a given foreign language only once. They may not take the test once they are currently taking or have taken a foreign language course at Wake Tech. If a student believes he/she may have been placed into a too low or high level class, he/she needs to contact Melania Aguirre-Rabon, Foreign Language Department Head, PLM 204H, miaguirr@waketech.edu.

Foreign language faculty reserve the right to request that a student take the Language Placement Exam. In as much as some divisions have adopted more restrictive challenge examination procedures, students should make every effort to start the challenge examination process as soon as they register for the course(s). Students must take all challenge examinations no later than the 10-percent point of the semester or term. Students may obtain information on the results of their examination by inquiring at the Registration and Student Records Services Division. Positive photo identification will be required. Results of challenge examinations will be mailed after the exams have been graded and results forwarded to the Enrollment and Records Services Division.

Most challenge exams are administered within the appropriate department, however, a select number of courses including BUS 110, 121, 137, 147, 153; ENG 101; MAT 070, 080; PSY 101, 110, and 118 may be taken in the Individualized Learning Center (ILC) on main campus. Students challenging these select courses must obtain approval from the Division Dean and
REGISTRATION AND RECORDS

contact the ILC (919-866-5276) to schedule an appointment to take the exam. Both the Division Dean approved form # 610 and student photo identification is required for ILC administered challenge exams.

TRANSFER CREDITS

Transferred Coursework
Wake Tech will consider courses for transfer equivalency, from other colleges or collegiate institutions accredited by a commission whose responsibility is accrediting degree-granting institutions classified as collegiate, and are a commission housed in a regional or national accrediting agency.

Only those courses with a grade of "C" or higher will be considered for transfer. The course must be equivalent in content (and in college/university transfer, credit hours) to a Wake Tech Course. Official transcripts from accredited institutions will be reviewed against established standard equivalencies and transfer equivalency recommended by the appropriate dean or a designee. Decisions about whether transfer equivalency will be allowed, how much will be allowed, and how such transfer equivalency will be applied, are discretionary on the part of the College. In exercising this discretion, the college will apply principles recommended by its regional accredited and national higher education organizations that set standards for transfer credit. These principles focus on the level, content, quality, and comparability of a course, and its relevance to the student's intended program.

It is not necessary for students to request a review of transferred coursework. When official transcripts are received for an applicant in a curriculum program, the transcripts are sent to the Transfer and Non-Course Credit department for initial review against the established standard equivalencies. Any courses that are not found in the standard equivalencies database are forwarded to the Registrar and/or curriculum deans for review and decision. Recommended equivalencies are given and noted on the student’s academic record.

Please note that a granted equivalency does not mean it satisfies a graduation or program requirement. It simply means that the course is equivalent to a Wake Tech course. Whether or not the granted equivalency can be used for graduation or program requirements will depend on its listing as a requirement on the curriculum schedule for the specific program (major) in which the student is enrolled at the time of admission to the College. If a student changes programs (major), the student should request a transcript re-evaluation to determine if the change has an impact on her/his graduation or program requirements.

Some programs may also have a time limit on transferability of selected courses. The academic dean has the option of moving the student to a more current version of the program of study (curriculum schedule).

Students must complete a minimum of 25 percent of hours required for a degree, diploma, or certificate in residence at Wake Technical Community College. Final course work must be completed in residence at Wake Technical Community College.

AARTS (Army/ACE Registry Transcript System)
The AARTS transcript is an American Council on Education approved method of presenting military experience for academic credit. Students possessing an AARTS transcript for military educational experience after 1981 may submit the transcript for credit evaluation in any program except College/University Transfer and Health Sciences. In order to obtain a copy of their AARTS transcript, students may write: Manager, AARTS Operations Center, Ft. Leavenworth, KS 66027-5073.

Carolinas Associated General Contractors Articulation Agreement
Wake Tech will award equivalencies for specific CAGC courses in partial fulfillment of program requirements leading to an Associate in Applied Science degree, diploma, or certificate in Construction Management Technology. The college will award equivalencies after reviewing an official transcript from CAGC.

Certified Professional Secretary® (CPS®) and Certified Administrative Professional® (CAP®) Credentials
Students applying for entry into: Office Administration, Office Administration/Legal, Medical Office Administration, Business Administration, Business Administration/Human Resources Management, and Business Administration/Electronic Commerce will be granted credit for some courses upon proof of having earned the CAP or CPS rating within the past six years. Additional credits in keyboarding, word processing, spreadsheets, databases, business presentations, and computer literacy may be earned at Wake Tech based on the successful completion of challenge exams in these skill areas.

Dental Hygiene Program
Advanced standing is considered for students enrolled in the Dental Hygiene program if they have previously attended a Dental Assisting or Dental Hygiene program accredited by the American Dental Association, Commission on Dental Accreditation (ADA, CDA). Direct credit may be granted or a challenge exam taken for select courses within the program. More specific criteria are noted within the department's student handbook, which is provided once admitted to the program.
Emergency Medical Science Advanced Placement through Certification

Students may receive advanced standing in the EMS prefix classes through certification. Other EMS courses may be challenged by the student based on experience at the discretion of the EMS Department Head. The student must score 78 percent or better to receive challenge credit. Challenges of EMS courses to gain higher certification are not allowed.

Associate Degree Nursing-Advanced Placement Option for LPNs

Associate Degree Nursing-Advanced Placement Option awards eligible licensed practical nurses 21 credit hours toward the Associate Degree in Nursing. Applicants must meet all standard admission requirements for the Associate Degree Nursing program and must have completed BIO 168, BIO 169, BIO 155, ENG 111, PSY 150, and PSY 241 to be considered for admission.

FEES & PAYMENT

Effective August 1, 2012

Note: Tuition may be increased.

Class Tuition & Fees

The State Board of Community Colleges establishes tuition annually; and the Wake Technical Community College Board of Trustees establishes special fees associated with some classes. Tuition and fees are listed below and are subject to change without notice.

All tuition and fees are due by the published payment due dates. Students may pay:

1. BY WEB at https://webadvisor.waketech.edu. System maintenance occurs between 1 a.m. and 5 a.m. daily. During these times, the system may not be available.
2. BY DROP BOX located in front of the Cashier's Office at the Wake Tech main campus, Holding Hall, 9101 Fayetteville Road, Raleigh, NC 27603
3. BY MAIL to the Cashier's Office, Wake Technical Community College, 9101 Fayetteville Road, Raleigh, NC 27603
4. IN PERSON at the Cashier's Office at the Main Campus, Health Sciences Campus, Northern Wake Campus, or Western Wake Campus

Payments may be made using personal check, debit card, credit card (Mastercard or Visa) or cash. If you choose to pay by personal check, it is suggested that each student bring two checks to registration: one for registration and one for the purchase of books and supplies. Textbooks are purchased by students as they are needed. Costs of textbooks vary, depending upon the curriculum in which the student is enrolled.

All rates are subject to change by action of the North Carolina Legislature (tuition) and the Wake Technical Community College Board of Trustees (fees).

Tuition

North Carolina Students
16 credit hours or more $1104.00 /term
Less than 16 credit hrs. $69.00 /credit hr.

Out-of-State Students
16 credit hours or more $4,176.00 /term
Less than 16 credit hrs. $261.00 /credit hr.

Fees

Fees are established by the Trustees of the College and are subject to change without notice.

Application Fee

Wake Technical Community College does not charge any type of application fee with the exception of International Students, which are charged a $30 dollar application fee.

Student Activity Fee

$20.00 per term*
*Includes $10.00 Student Athletics Fee per term

Campus Access Fee

$5.00 per term for registrations at Main, Health, Western Wake, Northern Wake, or Public Safety Education Campuses
Computer Use/Technology Fee
$1.00 per credit hour per term ($16.00 maximum)

Professional Liability Insurance
$6.00 per term for Health Sciences Students
$6.00 per term for Cosmetology and Esthetics Students

Graduation Fee (Due When Registering For Final Term)
$35.00 for Diploma/Degree Student
*No charge for Certificate Programs

Official Transcript Fee
$5.00 each per request

Facility Fee – Community Schools
A Facility Fee of $25 per class will be charged to students attending classes at community schools locations. Fees will be collected by Wake Technical Community College at time of registration. Community school fees are established by the Wake County Public School System and are subject to change without notice.

Facility Fees -- Ice Skating, Bowling and Golf
Facility fees are charged to students registering for the following classes:
- PED 177 - $85.00
- PED 139 - $80.00
- PED 128 - $40.00

Facility Fees -- State Personnel Development Center (SPDC)
A lab facility fee of $25.00 per course is charged to students attending classes at the State Personnel Development Center (101 W. Peace Street, Raleigh, NC).

Audits
Registration and tuition charges are the same as for courses taken for credit. Audit classes earn neither credit hour nor quality points. Requests to audit must be submitted to the Office of the Registrar by the last day of registration.

Self-Supporting Registration Fees
The fee for self-supporting classes, denoted by an "S" at the end of the section number, is $76.50 per credit hour. There are no rate differences for in-state and out-of-state students and no waivers for senior citizens, dual enrollment students, staff, etc. No maximum cost based on a maximum number of credit hours, applies to self-supporting classes. For example, if you registered for 16 credit hours as an in-state student at the regular tuition rate, the tuition amount due would be $904. If you added a three-credit-hour class at the self-supporting rate, your tuition would be $904 plus $229.50 for the self-supporting registration fee.

Returned Checks and Unpaid Accounts
Any student who has a returned check shall be notified by certified letter. If the returned check is not cleared within the specified time, all academic records will be frozen until the account is cleared. Students who develop a pattern of payment by returned checks will have this payment option revoked. Once identified, these individuals will be required to pay by cash, money order, certified check or credit card. Our bank is authorized to present NSF checks for payment a second time which may result in additional fees being assessed.

Unpaid student accounts, including returned checks and unpaid parking tickets, will prevent graduation, granting of credit, or release of transcript.

Senior Citizen Tuition Waiver
A legal resident of North Carolina who is at least 65 years old may register for curriculum classes at no cost up to six credit hours for any fall, spring, or summer term. Senior citizens will also be expected to pay all regularly-assessed special fees for any course in which they enroll.

REFUND POLICY

Curriculum Classes
Refunds are processed under the North Carolina Community College System (state) refund policy.

Tuition refunds are automatically processed based on deadlines and drop dates and are mailed to the student address on file in the College's records. Therefore, it is very important that students submit address changes to the Registration and Student Records Services Division as soon as they occur.
Refund checks are only written after the 10% date in the term. Checks are mailed from the Accounting Office within four (4) weeks after the 10% date. This date is published in all class schedules and registration information each term. All refunds are paid by check.

**Tuition**
Tuition is charged on a per-credit-hour basis up to a maximum of 16 credit hours per term. There is no additional tuition charge for registration in excess of maximum credit hours. Students will be eligible for refunds when course drops or withdrawals result in enrollment for less than maximum credit hours and meet the applicable conditions described below.

Regular-schedule classes that begin the first week (seven calendar days) of the semester:

1. A **100% refund** shall be made if the student drops the class prior to the first day of the academic semester as published on the College calendar.
2. A **75% refund** shall be made if the student drops the class on or after the first day of the semester and prior to or on the official 10% point of the semester, as published in the College calendar.

Classes that begin at times other than the first week (seven calendar days) of the term:

1. A **100% refund** shall be made if the student drops the class prior to the first class meeting.
2. A **75% refund** shall be made if the student drops the class prior to or on the 10% point of the class.
3. To comply with applicable federal regulations regarding refunds, federal regulations supersede the state refund regulations stated in this Rule.
4. For a class(es) which the college collects receipts which are not required to be deposited into the State Treasury account, the college shall adopt local refund policies.

**Cancelled Classes**
A **100% refund** shall be made if the class in which the student is officially registered is cancelled by the College.

**Military Tuition**
Upon request of the student, the college shall grant a full refund of tuition and fees to military reserve and National Guard personnel called to active duty or active duty personnel who have received temporary or permanent reassignments as a result of military operations then taking place outside the state of North Carolina that make it impossible for them to complete their course requirements.

**Registration Fee-Self-Supporting Classes**
The registration fee for self-supporting classes is charged separately from (in addition to) the tuition charges. Therefore, refunds for these classes are also calculated separately. Otherwise, the policies and deadlines listed prior also apply to self-supporting classes.

To be eligible for a refund a student must officially drop the class, using WebAdvisor or via the Registration Change Request form if the registration system has closed for the term, by the deadlines indicated.

**Fees**
When the student withdraws entirely and the tuition refund is approved by the College as set forth above, student activity, community schools, and graduation fees will be refunded in total.

**Death of a Student**
In the event of a student's death, all tuition and fees the student had paid for that term may be refunded to the estate of the deceased.

**Books**
Books will be accepted for full refund when the student withdraws from the College or drops a class on or before the 10% point in the semester, provided the books have not been marked in or otherwise defaced. Requests for book refunds are to be presented with the sales receipt by the student by the 10% point in the semester to the Bookstore Manager, who is authorized to accept or reject the request for refund. Website: [http://bookstore.waketech.edu](http://bookstore.waketech.edu)
REGISTRATION AND RECORDS

REGISTRATION DATES
Students begin registering at different times, depending on their status as:

1. Degree-seeking, certificate-seeking, or diploma-seeking;
2. Newly admitted;
3. Special students (non-degree seeking); or
4. High school/Career & College Promise/early admission.

Registration windows and other important dates are located on the Registration Calendar located at the end of the admissions chapter or at http://calendars.waketech.edu. For a general overview of important dates, please see the Academic Calendar at the end of the admissions chapter. Please note that calendars are subject to change, and the calendar's web address should be viewed for the final calendar dates.

RESIDENCY CLASSIFICATION
To qualify for in-state tuition, a legal resident must have maintained his or her domicile in North Carolina for at least the 12 months immediately prior to his or her classification as a resident for tuition purposes. To be eligible for such classification, the individual must establish that his or her presence in the state during such 12-month period was for the purpose of maintaining a bona fide domicile rather than for purposes of mere temporary residency incident to education.

Aliens are subject to the same considerations as U.S. citizens in the determination of residency status for tuition purposes, except that holders of B, C, D, F, J, M, P, Q, or S visas may not be considered residents for tuition purposes and their dependent relatives are not eligible for a tuition rate less than the out-of-state rate. Holders of E, H, L, O, or R visas may (under certain circumstances) be eligible for the in-state tuition rate.

Regulations concerning residency classification for tuition purposes are set forth in detail in A Manual to Assist the Public Higher Education Institutions of North Carolina in the Matter of Student Residence Classification for Tuition Purposes. Each enrolled student is responsible for knowing the contents of this Manual, which is the controlling administrative statement of policy on this subject. Copies of the Manual are available for student inspection in the Registration and Student Records Services Division.

North Carolina Residency Forms
Residence and Tuition Status Application or https://secure.waketech.edu/eaglesnest/forms/files/427_SSncresapp.pdf
- Attachment A: Visa Information, or https://secure.waketech.edu/eaglesnest/forms/files/427A_SSncres-visa.doc
- Attachment B: Parent or Spouse of Student or https://secure.waketech.edu/eaglesnest/forms/files/427B_SSncres-sup.doc

Determination of student resident status for tuition purposes:

1. Upon applying for admission to the College, each prospective student is classified as a resident or non-resident of North Carolina for tuition purposes, according to the student's declaration at the time of application.

2. In the case of an individual who is originally classified as non-resident and later requests reclassification to resident status, the individual will be asked to complete a "Residency and Tuition Status Application." Along with the completed application, two proofs must be provided support a claim for in-state status. Additional forms may be needed if the student is not a naturalized citizen of the United States. These forms are available on the College's website. Registrar staff will review the application, make a determination about residency status, and advise the individual in writing of the decision.

Procedures for Hearing Appeals
In the event that an individual disagrees with the Registrar's ruling on his/her residency status, the ruling may be appealed to the College Residency Committee, which has been established by the President of Wake Technical Community College. The appeal must be made in writing to the Vice President of Student Services.
WE ARE HERE TO HELP!

Phone: (919) 866-5474 or advising@waketech.edu

Remember to check the online College Catalog for the most up-to-date information at http://catalog.waketech.edu
FINANCIAL AID

The Wake Tech Financial Aid program exists to ensure that no qualified student will be denied the opportunity to continue his or her education because of economic disadvantages. Through a program of scholarships, grants, work-study, and loans, students enrolled at the College are able to supplement their own resources and those of their families to complete a course of study. For detailed information on financial aid programs offered at Wake Technical Community College, and how they are distributed, refer to the publication available in the Financial Aid Office or online at http://financialaid.waketech.edu.

FINANCIAL AID APPLICATION

To apply for financial aid you must complete the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.gov. The FAFSA should be completed as soon as possible after January 1 for the upcoming academic year, using your/your parents’ prior year’s federal tax information. If you prefer not to complete the application online you may call the Central Processing Center (1-800-433-3243) and request a paper application.

Note: If the date listed above falls on a weekend or holiday, the paperwork is due the next business day.

Once your eligibility for financial aid has been determined you will receive an award letter with information about the disbursement of funds.

If your eligibility for financial aid has not been determined or your file is not complete by the dates listed above, you will be responsible for payment of your tuition, fees, and bookstore charges.

Student Responsibilities

To receive Federal Title IV assistance and state assistance:

- You must demonstrate financial need.
- You must have a high school diploma or a General Education Development (GED) certificate on file with the College.
- You must be enrolled at least half time (6 credit hours) in an eligible program of study.
- You must be a U.S. citizen or an eligible non-citizen.
- You must have a valid Social Security number.
- You must maintain satisfactory academic progress.
- You must sign a statement on the FAFSA certifying that federal student aid will be used for educational purposes only.
- You must sign a statement on the FAFSA certifying that you are not in default on a federal student loan and that you do not owe money back on a federal student grant.
- You must answer a question on the FAFSA about whether you have been convicted of possessing or selling illegal drugs.
- You must register with Selective Service, if required.

GRANTS

Wake Technical Community College offers several different federal and state grant programs. Grants are gifts of financial aid and as such do not generally have to be repaid as long as a student remains enrolled each semester. Students who withdraw completely may be required to repay a portion of federal grant funds received.

Last updated 6/7/12
Federal Grant Programs

Federal Pell Grants
Student must be a U.S. citizen or permanent resident enrolled in an eligible program; demonstrate financial need, and meet all other eligibility requirements. Students must complete the Free Application for Federal Student Aid (FAFSA). For 2012-2013, annual awards range from $555-$5550. The maximum PELL-eligible Estimated Family Contribution (EFC) is 4995, with a minimum award for a full-time student of $602. Award ranges are subject to change based on if Congressional action.

Lifetime Eligibility for Federal Pell Grants
Effective July 1, 2012, Pell grants are limited to a lifetime maximum of the equivalent of twelve full time semesters or six years (or 600%) for community colleges, vocational schools, four-year public and private universities. Limits will be tracked by the Department of Education for each institution the student has attended.

A full year (100%) of eligibility is counted regardless of the amount of the grant received. For example, a student who is eligible for $3000 in Pell grant received $1000 in the fall term, $1500 in the spring term, and $500 in the summer term, has been awarded 100% for the year. Pell grants are only available to undergraduate students, so once a student has earned a bachelor's degree, he is no longer eligible for Pell, even if the 600% eligibility has not been met. Students are also required to meet and maintain satisfactory academic progress standards to maintain eligibility.

Federal Supplemental Educational Opportunity Grants (FSEOG)
To be considered, students must be PELL-eligible and must have an EFC of zero. Students who submit the FAFSA by March 15 (and all supplemental paperwork by May 1) will receive priority consideration. Due to limited funding, the maximum award at Wake Tech is $800 per academic year. Awards will be reduced for students enrolled less than half-time.

Federal Work Study Program
Federal work study provides part-time employment opportunities to students in need of financial assistance. Students generally work 10-15 hours per week. Awards are based on available funding. Student must complete the FAFSA in order to be considered for this grant and must demonstrate financial need.

Student must be enrolled at least half-time in an eligible diploma or associate degree program and must maintain satisfactory academic progress to qualify for work study. Federal Work Study Earnings are paid on a monthly basis after a time record has been signed, approved, and processed by the Financial Aid Office.

State of North Carolina Grant Programs

North Carolina Community College Grant Program (NCCCG)
Student must complete the FAFSA to be considered for this grant and must be a North Carolina resident enrolled for at least six (6) credit hours in an eligible curriculum program. Student must have an EFC within the range determined by the state of North Carolina each academic year. Student must meet all eligibility requirements for a Federal PELL grant. Students who have already earned a bachelor's degree are not eligible.

North Carolina Education Lottery Scholarship (NCELS)
Student must complete the FAFSA to be considered for this grant and must be a North Carolina resident enrolled for at least six (6) credit hours in an eligible program of study. Student must meet all eligibility requirements of a Federal PELL grant. Students who have already earned a bachelor's degree are not eligible.

LOANS
A loan is money received that must be repaid to the lender.

William D. Ford Federal Direct Loan Program

Direct Subsidized Loans
Direct subsidized loans are need-based: To qualify for a direct subsidized loan, a student must demonstrate financial need as a result of filing the FAFSA. Eligibility is determined by the institution; funds are provided by the U.S. Treasury and repaid to agencies designated by the U.S. Department of Education. The amount that may be borrowed per year ranges from $3500 to $5500 for undergraduates, depending on grade level; it is set by the federal government. Interest on the loan is paid by the government as long as the student is enrolled at least half time. The student becomes responsible for repayment (principal and interest) six months after graduating or dropping below half-time enrollment.

**For new loans made between July 1, 2012, and July 1, 2014, interest accruing during the six-month grace period will not be paid by the federal government. The student is responsible for that interest, even though loan repayment does not begin until after the six-month grace period.**
Direct Unsubsidized Loans
Direct unsubsidized loans are not need-based: To qualify for a direct unsubsidized loan, students must still complete a FAFSA. Eligibility is based on the cost of attendance minus other expected financial aid. Students are charged interest from the date the loan funds are disbursed. Annual maximums, interest rates, and repayment provisions are the same as those for direct subsidized loans.

Direct Loans for Parents
Parents of a dependent undergraduate student may apply for a PLUS loan to help meet costs of attendance not covered by other financial aid. Completion of a FAFSA is required, and parents must submit a PLUS Request form to the Financial Aid Office certifying costs of attendance and other financial aid anticipated. PLUS loans generally offer better interest rates and repayment options than other education loans. Repayment typically starts when funds are disbursed; however, deferments are available upon request.

North Carolina Loan Programs

Loan Program for Health, Science, and Mathematics
In an effort to encourage and provide financial assistance to North Carolinians desiring career opportunities in the health, science, and mathematics disciplines, the General Assembly makes appropriations available for loans for the programs cited below:

- **Health:** Allied Health; Health Sciences
- **Science:** Computer and Information Science, Engineering and related technologies, Life Sciences, and Physical Science
- **Mathematics:** Mathematics (General, Pure, and Applied)

North Carolina Community College Loan Program
The North Carolina Community College System Office makes allocations to each community college for short-term loans to assist students who demonstrate financial need. Each community college administers the Loan Program according to its policies and procedures.

North Carolina Community College Loan Program Application (Emergency Loan)
The North Carolina Community College (NCCC) Loan Program provides limited, interest-free, short-term funds to students who meet the eligibility requirements below. The maximum loan amount is $500 per academic year. The academic year includes fall, spring, and summer. Students are limited to one loan per academic year.

Loan applications must be received by 5 p.m. on Tuesday. Loan proceeds checks are written once a week, on Thursdays, and are available for approved applicants to pick up (with picture ID) from the Main Campus Cashier's Office after 4 p.m.

To be eligible, a student must:
- Be admitted to a curriculum program and enrolled in at least six (6) credit hours
- Submitted the Free Application for Federal Student Aid (FAFSA) and be approved for financial aid for the term that the loan is requested
- Meet all other eligibility requirements for federal financial aid
- Submit documentation for loans $300 or more
- Cannot owe a prior term balance

Students are limited to one emergency loan per academic year, regardless of the fact that you may not have borrowed the maximum limit.

SCHOLARSHIPS
The Wake Tech Foundation offers a variety of merit- and financial need-based scholarships for students at Wake Technical Community College. Scholarship applications will be available in the spring of each academic year in the financial aid office and online at https://foundation.waketech.edu/scholarshipappinstructions.

Merit-based scholarships are awarded at department and division levels. Students interested in these scholarships should contact their department head or dean to discuss the nomination process. Students are strongly encouraged to apply for scholarships to help offset the rising cost of education.
FINANCIAL AID

FINANCIAL AID REFUNDS AND REPAYMENTS
After your financial aid has paid your tuition, fees, and book charges, any balance that remains in your account will be refunded to you. Refund checks are generally mailed 30 days after the last day of the schedule adjustment period. The check disbursement schedule for 2012-2013 will be posted on the website (http://financialaid.waketech.edu) by July 1, 2012.

Title IV Repayment
A student who receives Title IV financial aid funds and subsequently withdraws from school (officially or unofficially) before the 60 percent point of a given semester or term may be required to repay Pell Grant, SEOG, or Direct Loan Program funds. Such repayments are determined by criteria established by the U.S. Secretary of Education. Financial aid is intended for educational expenses only, within a specified enrollment period; once a student is no longer enrolled at least half time he/she cannot use the funds.

If a student uses Title IV financial aid funds to register for a class, decides not to attend the class, yet fails to drop the class, thereby canceling their registration, the College must refund all tuition and fees to the applicable financial aid program – and the student must then repay the College for these expenses. If the student also purchased books and supplies for the class, they must be returned to the bookstore within the published refund period. Students who do not complete these tasks will be responsible for all charges, and if they fail to pay the charges a hold will be placed on their school records.

If You Withdraw
It is imperative that you cancel your registration for any class you decide not to attend. This is especially important if you have been awarded financial aid, because your financial aid award holds your classes and prevents you from being automatically dropped for nonpayment. It is your responsibility to cancel your registration.

If you are considering withdrawing from Wake Technical Community College, we strongly urge you to speak to a Financial Aid Specialist to determine how withdrawing may affect you.

ENROLLMENT STATUS (for financial aid)
For financial aid purposes, full time enrollment is always considered twelve credit hours, regardless of whether the student is enrolled in the fall, spring, and/or summer semester. Students receiving veteran's benefits should contact their Wake Tech VA representative.

Enrollment requirements for financial aid programs are listed below:

In order to receive the maximum Pell Grant, a student must be enrolled for 12 credit hours or more each semester in an eligible program of study. Depending on eligibility a reduced Pell Grant can be received by students who are enrolled three-fourths time (9-11 credit hours), one-half time (6-8 credit hours), or less than half-time (1-5 credit hours). Only courses in your program of study can be included when determining your award for the semester. For example, if you are enrolled for twelve credit hours but you are taking a five credit hour course that is not part of your program of study, you will receive PELL Grant funds for seven credit hours only and not twelve credit hours although you are enrolled for twelve hours.

- In order to receive funding from the North Carolina Community College Grant or the North Carolina Education Lottery Scholarship students must be enrolled at least halftime.

- Student must maintain continuous enrollment with a minimum of six credit hours to receive funding from the Direct Loan Program and be enrolled at least six credit hours at the time when funds are disbursed.

FINANCIAL AID FOR STUDENTS WITH DISABILITIES
Vocational Rehabilitation is a public service program operated through the Division of Vocational Rehabilitation, Department of Human Resources. Vocational Rehabilitation offers several financial resources to assist individuals with disabilities. Students may be eligible for financial assistance to complete a course of study to meet individualized needs. Prospective students should contact the nearest Division of Vocational Rehabilitation Services office.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS FOR FINANCIAL AID RECIPIENTS
Effective July 1, 2011

Federal regulations require schools to monitor the academic progress of each student who applies for financial aid and to certify that each student applicant is making satisfactory academic progress toward a degree, diploma, or certificate. Federal regulations require schools to establish Standards of Satisfactory Academic Progress (SAP) that include qualitative and quantitative measures of progress and a timeframe for completion of a program of study.
These standards are applied to students who receive financial aid from any of the following programs: Federal Pell Grant, Federal Supplemental Education Opportunity Grant, North Carolina Community College Grant, North Carolina Education Lottery Scholarship, North Carolina Student Incentive Grant, Federal Direct Subsidized and Unsubsidized Loans, Federal Direct PLUS loans, and institutional grants, scholarships and loans. Students’ academic performance is evaluated at the end of each semester of enrollment. Any student not meeting the minimum standards outlined below will be given financial aid warning status and notified by email from the Financial Aid Office. The student must meet the minimum requirements by the end of the financial aid warning semester; if not, financial aid will be terminated until the standards are met.

Pre-Curriculum Coursework
Although pre-curriculum courses do not count toward completion of a degree, federal regulations require that pre-curriculum courses be included when calculating cumulative GPA and cumulative completion rate for the purpose of determining Satisfactory Academic Progress for financial aid recipients. Federal regulations also state that students may not receive financial aid (including grants and loans) for more than 30 credit hours of pre-curriculum coursework. Students who exceed this limit will be denied financial aid, and denial cannot be appealed. Students are limited to one Direct Loan for completion of pre-curriculum coursework.

Qualitative: Cumulative Grade Point Average (GPA) Requirement
In accordance with federal regulations, a student’s cumulative GPA must be reviewed at the end of each semester of attendance, including summer.

1. Students must have earned a cumulative 2.0 GPA when grades are reviewed at the end of the semester.
2. Students who do not earn the required cumulative 2.0 GPA will be placed on financial aid warning for their next semester of attendance.
3. While on financial aid warning, the student remains eligible for financial aid:
   a. If the student earns a cumulative 2.0 GPA (or higher) by the end of the financial aid warning semester, the warning will be lifted (provided the student meets all other SAP guidelines).
   b. If the student does not earn a cumulative 2.0 GPA by the end of the financial aid warning semester, financial aid will be terminated. The student will not qualify for financial aid effective the next semester of attendance until such time as the student again meets all SAP guidelines.

Quantitative: Completion Rate Requirement
In accordance with federal regulations, students must successfully complete at least 67% of cumulative credits attempted in order to meet the requirements for financial aid. For example, if a student has attempted 60 credit hours during enrollment, he/she must successfully complete 40 or more of those hours. Student completion rates are reviewed at the end of each semester of attendance, including summer.

1. Students must earn a cumulative 67% completion rate. Grades are reviewed at the end of each semester.
2. Students who do not earn a cumulative 67% completion rate will be placed on financial aid warning for their next semester of attendance.
3. While on financial aid warning, the student remains eligible for financial aid:
   a. If the student completes sufficient credits to earn a 67% completion rate by the end of the financial aid warning semester, the warning will be lifted (provided the student meets all other SAP guidelines).
   b. If the student does not complete sufficient credits to earn a 67% completion rate by the end of the financial aid warning semester, financial aid will be terminated. The student will not qualify for financial aid effective the next semester of attendance until such time as the student again meets all SAP guidelines.

Maximum Time Frame
The maximum time frame within which to complete a degree (or other program of study) is 150% of the published length of the program. For example, if the published length of a program of study is 64 semester hours, a student may attempt up to 96 semester hours (64 x 150% = 96). To determine the published length of a program, please refer to the Wake Technical Community College Academic Catalog.

A student who exceeds the maximum allowable time frame for completing a program of study may appeal. The student must provide a graduation plan signed by his/her academic advisor; if the plan is deemed reasonable, the student will receive financial aid on a probationary basis for one or more semesters until the degree is completed. Failure to comply with the plan will result in termination of financial aid.

Appeals
Students may appeal the termination of their financial aid eligibility in the event of documented extenuating circumstances, such as illness or injury of the student or the death of an immediate family member. The appeal must address why the student failed to make satisfactory progress and what has changed in the student’s situation that will allow the student to
demonstrate satisfactory academic progress in the future. Appeals must be submitted in writing to the Financial Aid Office and addressed to the director. The Satisfactory Academic Progress Appeals Committee will review the appeal and notify the student in writing regarding the status of the appeal. Students are limited to two termination appeals requests while attending Wake Tech. All requests for appeals must be submitted according to the following timetable:

- Fall semester appeals must be submitted by August 1
- Spring semester appeals must be submitted by December 1
- Summer semester appeals must be submitted by May 1

If the date indicated above falls on a weekend or holiday, the appeal is due the next business day.

Students whose appeals have been approved will be placed on financial aid probation for their next semester of attendance. The student will, in conjunction with the SAP committee, develop an individualized academic plan that must be followed in order to continue enrollment. The plan may include requirements for academic performance, meetings with an academic advisor, or Wake Tech counseling services. Students who meet these requirements will continue to be on probation for the next semester, and a new academic plan will be developed. Continued eligibility for financial aid is contingent on meeting the requirements of each semester’s academic plan. Financial aid probation status will not end until the student successfully establishes a cumulative 2.0 GPA and 67% completion rate. Failure to meet the requirements of the academic plan will result in termination of financial aid the next semester of attendance.

Treatment of Selected Grades

**Withdrawals:** Credit hours in which a student receives a grade of "W", “WP”, and “F” are included in the number of hours attempted but do not count toward successfully completed hours; consequently, students who withdraw may have difficulty meeting the satisfactory progress requirements.

**Incompletes:** Students will not be affected by “incompletes” at the time of the review.

**Transfer Credit:** Students transferring from another institution will be considered making satisfactory progress at the time of enrollment. A student’s maximum timeframe for receiving financial aid will be reduced by the number of transferred credit hours applied towards his/her program of study at Wake Tech.

**Audits:** An audit (AU) grade is not considered attempted coursework. It is not included in the determination of grade point average or completion rate. A student cannot receive financial aid for an audited course.

**Credit by examination:** Credit hours earned by examination are considered attempted and completed coursework and therefore will be considered in calculating a student’s completion rate. Financial aid does not pay for credit hours earned by examination.

**Repeated course:** Although Wake Tech policy allows a student to repeat any course twice, with the best grade being used to calculate the student’s cumulative GPA, federal financial aid regulations treat repeated courses differently. While students may continue to receive federal financial aid for repeated courses, all hours attempted and earned (previous and best) are counted toward the student’s cumulative total and the calculation of satisfactory academic progress. Students are permitted to receive financial aid only once for a previously passed course.

**Summer terms:** Credit hours attempted and earned during summer term will be included in the calculation of satisfactory academic progress, just as those earned during any other enrollment period.

**Successful completion:** A grade of A, B, C, D, X, or P is considered successful course completion. A grade of F is not considered a successful completion.

**ELIGIBILITY STATUS**

**Satisfactory:** Students who have met the criteria explained above, cumulative GPA of 2.0 and cumulative completion rate of 67%, have satisfactory status.
Financial Aid Warning: Students who have not earned the required GPA or completion rate will be placed on financial aid warning for the following semester. Satisfactory academic progress will be monitored at the end of each semester to determine if the student meets the standards and is eligible to continue to receive financial aid.

Financial Aid Termination: Students on financial aid warning status who have not successfully earned a cumulative GPA of 2.0 and cumulative completion rate of 67% at the conclusion of the warning period will have their financial aid terminated. Financial aid will also be terminated for students who have attempted the maximum allowable credit hours for their program of study.

Financial Aid Probation: Students whose appeals have been approved by the Satisfactory Academic Progress Appeals Committee are placed on financial aid probation.

Notification of Financial Aid Termination or Warning: The Financial Aid Office will send an email to any student who is placed on financial aid warning or terminated; however, failure to receive correspondence does not negate a termination or warning status.

Regaining Eligibility: Students who continue to attend school without federal financial aid may regain eligibility for financial aid by earning a cumulative GPA of 2.0 and a cumulative completion rate of 67%. A student may request reconsideration of eligibility for financial aid by submitting a written request to the Financial Aid Office once all requirements are met.

Petition of Waiver of Satisfactory Academic Progress Standards: Students who have been disqualified from receiving financial aid may request a waiver of the satisfactory progress requirements by submitting a Satisfactory Academic Progress Appeals Form, if extenuating circumstances have affected academic performance. The circumstances must be explained and documented in writing and submitted to the Satisfactory Academic Progress Appeals Committee. Extenuating circumstances may include but are not limited to illness or injury of the student or an immediate family member, death of a family member, and full-time employment. If the student’s financial aid is reinstated, the student is expected to meet the satisfactory academic progress standards by the end of the semester. All appeals are reviewed by the SAP Appeals Committee, and the decision of the Committee is final. Appeals are not retroactive; they are approved for the current semester only. The Committee is composed of the Financial Aid Director, the College Registrar, an Academic Counselor, and a faculty member.

Returning students are evaluated on a continuing basis from the last enrollment, unless an extenuating circumstance is considered. Returning students who enrolled under an earlier academic progress policy will be required to meet the standards of the current policy upon returning.

Complete academic record: To measure a student’s satisfactory progress toward degree, diploma, or certificate requirements, the student’s complete academic record at Wake Tech must be evaluated, whether or not the student received aid for the entire time of enrollment. Any course grades of W or WF that were forgiven by Wake Tech must be included in a student’s cumulative record when determining satisfactory academic progress standards. When students complete coursework for more than one major, academic progress standards for each major must be met to receive student aid.

NOTE: Warning status or termination status due to failure to make satisfactory academic progress can be changed only by successfully completing classes – a student may not improve his or her status by simply “sitting out” a semester. Once the student meets both SAP requirements – a cumulative GPA of 2.0 and a cumulative completion rate of 67% – the student’s status will change and he or she will be considered in good standing for financial aid.

The Financial Aid Director (or designee) is the person authorized by Wake Technical Community College to provide financial aid information to students. Office hours: 8 a.m.-7 p.m., Monday-Thursday, and 8 a.m.-4 p.m. on Friday.

VETERAN AFFAIRS (VA)

Website: http://veterans.waketech.edu

Most Wake Tech programs are approved for the training of veterans, Ready Reservists, North Carolina National Guard members, and the spouses and children of deceased or 100-percent disabled veterans. Veterans who wish to use the education benefits of the G.I. Bill must first establish their eligibility with the Department of Veterans Affairs (VA) by submitting a Form 22-1990, Application for VA Education Benefits, or by applying online at www.gibill.va.gov. Veterans separated from service within the last ten years who hold an Honorable Discharge usually qualify for the education benefits, which provide, in general, 36 months of full-time training.
Veterans who have served on active duty on or after September 11, 2001, may be eligible for Post 9/11 GI Bill benefits. Benefits are payable for training on or after August 1, 2009. More information about these benefits are available at [www.gibill.va.gov](http://www.gibill.va.gov).

Certain military personnel on active duty are also eligible for education benefits under the G.I. Bill. Interested persons should contact their duty station Education Officer for details before applying for admission to the College. Veterans attending Wake Tech under the G.I. Bill receive a monthly reimbursement from the Department of Veterans Affairs. The reimbursement is based on course load; for example, a veteran carrying a half-time load would receive half the benefit. To receive the full benefit, the veteran must be enrolled for at least 12 credit hours. Veterans should contact the College VA certifying official, located in the Financial Aid Office, for more information.

Veterans are afforded the same rights as any Wake Tech student and must meet the same academic requirements and standards. Veterans will not be certified for VA benefits until all entrance/admissions criteria, including official high school and college transcripts, if applicable, are on file. Transfer credit granted from prior college experience must also be on file. Veterans must meet the grade-point average (GPA) standards established in Wake Tech’s Academic Probation and Suspension policy. A veteran failing to meet GPA standards at the end of a term will be placed on academic probation. A veteran failing to meet those standards at the end of the next term in attendance will have his enrollment certification to the VA terminated. Certification of enrollment to the VA will not be restored until GPA standards are met, and then only upon request by the veteran.

Veterans dropped from a course by the College for violating the attendance policy will be immediately reported to the VA, and appropriate adjustments will be made in G.I. Bill payments.

**Enrollment of Veterans in Non-Traditional Courses**

Veterans receiving VA education benefits may enroll in non-traditional courses (including telecourses, Internet and videocassette courses, independent studies, and others) provided that:

- The course or courses are required by their current program of study.
- The veteran has passed any previous non-traditional courses attempted.

All remedial work indicated by placement testing has been completed.

- The veteran has met with the VA certifying official to discuss policies and procedures before registering for a course.
- The veteran has reviewed the Distance Education Student Self-Assessment on the Wake Tech website (or in the schedule of classes) to determine if suited for distance learning.

There is no additional charge for enrolling in non-traditional courses.

For more information about veterans’ educational benefits, visit [http://veterans.waketech.edu](http://veterans.waketech.edu)

**TRANSFER STUDENTS SEEKING FINANCIAL AID**

Any student who transfers to Wake Technical Community College from any other school beyond high school must provide official transcripts from all schools attended, including high school. The transcripts must be evaluated by Wake Technical Community College before there can be an offer of financial aid or certification of eligibility for Veterans education benefits.

Remember to check the online College Catalog for the most up-to-date information at http://catalog.waketech.edu
ACADEMIC RECOGNITION

President's List
The College publishes a “President's List” at the end of each academic term. The list is composed of students who have achieved a grade-point average of 4.0 at the end of that particular term based on a minimum of 12 credit hours attempted in the Fall and Spring semesters; a minimum of 8 credit hours must be attempted for the Summer term.

Dean’s List
The College publishes a “Dean’s List” at the end of each academic term. The list is composed of students who have achieved a minimum grade-point average of 3.50 at the end of that particular term based on a minimum of 12 credit hours attempted in the Fall and Spring semesters; a minimum of 8 credit hours must be attempted for the Summer term.

President's Award for Excellence
The President's Award for Excellence is the top academic award presented by Wake Technical Community College. This award recognizes students who excel in academic achievement, attitude, attendance, and motivation.

Six students (one from each academic division) are selected to receive the President's Award for Excellence during each calendar year. Division deans and instructors select award recipients.

Each recipient receives a personal plaque of commendation, presented by the College President. Recipients' names are engraved on a trophy that is permanently displayed in the College's trophy case.

Who's Who Among Students In American Junior Colleges
Each spring, second-year students are nominated for Who's Who Among Students in American Junior Colleges based upon the student’s scholarship ability; participation and leadership in academic and extracurricular activities; citizenship and service to the College; and potential for future achievement.

ATTENDANCE POLICY

Absence
Absences from class are a serious deterrent to good scholarship. The College, therefore, stresses regular class attendance. The College recognizes that students should have an opportunity to develop personal responsibility and should have some discretion in attendance to meet the demands imposed by other responsibilities. Students anticipating absences should notify their instructor in advance. If prior notification is not possible, the student should contact the instructor immediately upon returning to the College to determine the next course of action.

Students are expected to be in attendance at least 90 percent of all scheduled class meetings. An absence is defined as missing one-third or more of any regularly scheduled class meeting. In the event that a student's absences in a class exceed 10 percent and the absences are not justified to the satisfaction of the instructor, the instructor will submit Student Course Withdrawal Form to the Registration and Student Records Services Division, or to the email drop box designated for withdrawals, to document the last date of attendance. An absence is defined as missing one-third or more of any regularly schedule class meeting.

For information on grades associated with attendance policy violations, see section entitled “Assignment of Grades for Attendance Policy Violations and Withdrawal”.

Tardiness and Early Departure
Students are also expected to arrive to class on time and stay for the entire class period; arriving late or leaving early disrupts the learning environment. Because even the most conscientious students occasionally experience extenuating circumstances, classroom doors will not be locked to enforce this policy, although doors may be locked for security or pedagogical reasons. Doors will be opened for tardy students.

A pattern of tardiness and/or early departure will have consequences. Tardies and early departures will be considered part of students' attendance violations. Tardies and early departures not justified to the satisfaction of the instructor will be equated to absences at a rate of one absence per two tardies and/or early departures. Students should see course syllabi or other course documentation for specific details.

Accommodating Absences Due To Religious Observances
Wake Tech recognizes its legal and ethical responsibilities to accommodate students who must miss classes to participate in religious observances. North Carolina law requires that students be permitted at least two excused absences per year for these purposes. Wake Tech students are allowed up to two class days of excused absences per academic year for religious observances.
It is the student's responsibility to contact the instructor for each course in which work will be missed. The student must provide written notification to the instructor within the first two weeks of the semester, identifying the religious observance and date of the planned absence.

Faculty members must provide a suitable accommodation for affected students. Specific accommodations may vary, depending on course content, mode of instruction, and size of class.

Examples of suitable accommodations include but are not limited to:

- Establishing a class policy allowing all students to drop one exam or assignment grade;
- Providing an opportunity for a makeup exam or equivalent assignment;
- Allowing extra-credit assignments to substitute for missed class work; and
- Other reasonable accommodations determined by the course instructor.

Students are responsible for missed class content. Students must request and should be provided with any instructional materials given out during their absence.

ADD, AUDIT & WITHDRAWAL POLICIES

Adding a Course
A student may change his registration by adding a course through the last day to add, as published in the academic calendar. A student who finds it necessary to add a course should confer with his advisor. Adds may be completed via WebAdvisor until the end of the published registration period. Adds after the registration systems close must be submitted in person to the Registration and Student Records Services Division on a completed Request for Registration Override form signed by the dean.

Dropping a Course
A student may change his registration by dropping a course prior to the 10% (subject to change) date of the semester/term. A student who finds it necessary to drop a course should confer with his advisor. Drops may be completed via WebAdvisor until the end of the published registration period.

Drops after the 10% date of the semester/term and on or prior to the 60% point of terms are considered withdrawals and must be submitted to the Registration and Student Records Services Division on a Student Course Withdrawal form. A drop during this time frame will result in a grade of "W."

A student who drops a class is advised that this may affect his financial aid. Financial aid students may contact the Financial Aid office to determine whether funds will be affected.

Audits
Registration (including tuition charges) for courses to be audited is the same as for courses to be taken for credit. Audit courses carry no credit hours and earn no grade points. The student must submit a Request to Audit form to the Registration and Student Records Services Division no later than the last day to add. Departmental approval to audit is not required to audit at this point.

Students who would like to be considered for audit after the last day to add must obtain the signature of the instructor and dean or dean's designee on the Request to Audit form before submitting it to the Registration and Student Records Services Division. Audit requests will not be accepted after the mid-point of the term.

Withdrawal Policy
A student who finds it necessary to withdraw from a course, courses, or the College must complete a Student Course Withdrawal Form. The form must be presented to the instructor of each course from which the student is withdrawing. The instructor must note the student's last date of attendance on the form. The student must also obtain signatures of Financial Aid staff or Veterans' Affairs staff if receiving financial aid or veterans' benefits. The student should then submit the completed form to the Registration and Student Records Services Division for grade processing. Students taking online courses need to send an e-mail to the instructor of each course declaring the student's intent to withdraw. The instructor will then submit the necessary information to the Registration and Student Records Services Division.

Assignment of Grades for Attendance Policy Violations and Withdrawals
A part of faculty responsibility at Wake Technical Community College is the assignment of student grades according to methods which are professionally acceptable, communicated to everyone in the class, and applied to all students equally.

Grade of W:
Students who withdraw or who are withdrawn for any reason, including attendance policy violations, on or before the 60% point are assigned a grade of W. No grade of W will be assigned after the 60% date. In accordance with the state refund

Last updated 6/7/12
policy for community colleges, there is no tuition refund allowable after the 10% date of the term, even for withdrawal for any reason other than military deployment or death of the student.

Grade of WP:
A grade of WP is given when a student withdraws after the 60% point for a legitimate, extenuating circumstance such as medical reasons, death in the family, change in job schedules (i.e., suddenly required to travel), changes in daycare, no transportation, etc. It is the student's responsibility to justify the extenuating circumstances to the satisfaction of the instructor. The grade of WP counts the same as a W in the determination of the student's GPA. In accordance with the state refund policy for community colleges, there is no tuition refund allowable after the 10% date of the term, even for withdrawal for any reason other than military deployment or death of the student.

Grade of WF:
Students who withdraw or who are withdrawn after the 60% point with no legitimate, extenuating circumstances will be assigned a grade of WF. If a student stops attending class before the last test, final project, and/or final exam and has violated the attendance policy, then that student will receive the grade of WF. The grade of WF counts the same as an F in the determination of the student's GPA. In accordance with the state refund policy for community colleges, there is no tuition refund allowable after the 10% date of the term, even for withdrawal for any reason other than military deployment or death of the student.

Grade of F:
A grade of F indicates that the student completed the class (continued to attend class without violation of the attendance policy) but earned the F (failing) grade. If a student stops attending class before the last test, final project, and/or final exam but has not violated the attendance policy, then that student will receive the grade earned, including zeroes for the work missed. In accordance with the state refund policy for community colleges, there is no tuition refund allowable after the 10% date of the term, even for withdrawal for any reason other than military deployment or death of the student.

Grade of I (Incomplete)
A grade of I may be given at the discretion of the instructor if the instructor decides that the student (who has contacted the instructor to request an incomplete) has a legitimate reason for missing the last test, or final project, or final exam, or other assignment. The instructor must make arrangements for the student to make up the work for the final grade(s) within the time allowed for completion of incompletes (by the fifth week of the following semester). A grade of I will automatically revert to a grade of F unless the work is made up and a Grade Change form is submitted by the instructor. In accordance with the state refund policy for community colleges, there is no tuition refund allowable after the 10% date of the term, even for withdrawal for any reason other than military deployment or death of the student.

Students enrolled in courses offered on schedules other than the standard sixteen-week semester and the regular summer term should consult the Wake Technical Community College Planning Calendar to determine the last day to withdraw and receive a grade of "W."

In accordance with the state refund policy for community colleges, there is no tuition refund allowable after the 10% date of the term, even for withdrawal for any reason other than military deployment or death of the student. Students who need to withdraw due to medical reasons are advised to review the withdrawal policy.

ENROLLMENT STATUS
A full-time student is a person enrolled for twelve or more semester hours of credit in the fall or spring semesters and nine or more semester hours of credit in the summer term.

A part-time student is a person enrolled for less than twelve semester hours of credit pursuing a degree, diploma, or certificate program in the fall or spring semesters and less than nine semester hours of credit in the summer term.

A special student is any student who is enrolled in a credit course, but is not working toward a degree, diploma, or certificate.

For financial aid purposes only, full-time status is 12 hours credit or more each semester.

GRADES
Students are graded according to the following grade-point system in all courses, except Pre-Curriculum.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Per Credit</th>

<td>Credit by Examination</td>
</tr>
</tbody>
</table>

A grade of Incomplete (I) will be given only when circumstances justify additional time for the completion of a course. An Incomplete must be removed by the end of the fifth full academic week of the term immediately following that in which the Incomplete was incurred. If it is not removed by this date, the Incomplete will be recorded as an "F" in the student's permanent record.

The grade awarded for participation in Cooperative Education will be either "P" (Pass) or "F" (Fail). These grades are not used in computing the grade-point average. Grades are available online approximately two business days after the deadline for faculty to submit final grades. To view grades, access WebAdvisor. Click on Current Students and select Grades under Academic Profile. Grades are mailed at the end of the semester only to students who complete a Request for Official Grade Mailer. Information regarding grade appeals is listed within the Student Rights and Responsibility policy.

**Computation of Grade-Point Average**

The following process is used to determine a student's grade-point average (GPA):

1. Multiply the number of semester hour credits assigned a course by the number of grade points for the grade received.
2. Add all the grade points together.
3. Divide the total grade points by the total number of semester hours attempted including grades of "F" and "WF."
4. Whenever a course is repeated, beginning Fall 2006, the best grade (except when the repeat results in a grade of I, IP, NA, AU, or X) will be used in the grade-point average computation.
Example of Grade-Point Average Computation

</tbody>
</table>

Thirty grade points divided by 17 hours attempted equals a 1.76 grade-point average for work attempted in this example. A GPA of 2.0 constitutes a "C" average. Hours attempted and grade points earned in previous terms should be included in the above procedures to determine the cumulative grade-point average.

Course Repetition
A student may repeat any course twice; each attempt will be recorded on the student’s official academic record. The best grade earned in all the attempts is calculated in the GPA. The dean responsible for the supervision of the course being taken may approve exceptions to this policy.

Grade Posting By Faculty
The Family Policy Compliance Office (FPCO), which is responsible for the administration of the Family Educational Rights and Privacy Act (FERPA) at schools and colleges, has issued a technical letter stating that grades may not be posted by Social Security Number (SSN), or part thereof, without the written consent of the student.

Wake Tech faculty are neither required to post grades nor prohibited from posting them; however, faculty may post grades only for those students who have given their written consent. Even with student consent, full social security numbers must never be used as identifiers.

Faculty should distribute FERPA Consent to Post Grades forms to students in classes for which they intend to post grades. The consent forms should be turned in to the faculty member’s dean with the final grade report and maintained for no less than three years. After three years, grade report records may be destroyed provided no litigation, claim, audit, or other official action involving the records has been initiated. If any official action has been initiated, the records should be destroyed in office after the official action is complete and attendant issues resolved. (Item 45550, Records Retention and Disposition Schedule Amendment, as amended August 1, 2002).

For faculty posting grades electronically on Blackboard, written consent is not required provided a student's grade is posted where only the student can access it with a secure password (i.e., individual grade books). Faculty may not post grades on a Blackboard site to which all class members have access; such an action would constitute the disclosure of personally identifiable information without student consent.

Faculty may send grades to individual students via email only when there is written authorization from the student on file. Authorization should be maintained by the instructor and College registrar; WebAdvisor will be the official means of final grade notification.

Grade Forgiveness
A student who has not been enrolled in curriculum courses in the College for 60 consecutive months (five years) or longer may submit a Grade Forgiveness request to the Registration and Student Records Services Division. Under this policy, the student may request that previous grades of "WF" or "F" not be used in calculating the cumulative grade point average. A grade of FG will replace the original grade on the transcript; however, the FG grade is not included in the GPA. This ruling has no bearing on any other institutions or how they calculate GPA.

Prior to re-evaluation for grade forgiveness, the student must be re-admitted to the college, register for courses, and complete at least 12 credit hours of course work at the 100 level or above, with a minimum quality point average of 2.0. Requests for re-evaluation are processed weekly, and the student will be notified in writing at the mailing address on file. A student may request grade forgiveness only once while at Wake Tech.
Satisfactory Academic Progress
At the end of each academic term, students’ semester and cumulative grade point averages (GPAs) are calculated. Each student is expected to make satisfactory progress, defined as a cumulative GPA of at least 2.0, based on credit hours attempted. Students with the minimum cumulative GPA are considered to be in good standing.

Credit hours for pre-curriculum courses are not counted in credit hours attempted; thus, grades from pre-curriculum classes are not counted toward cumulative GPA. Likewise, courses with a grade of NA (never attended), AU (audit), X (challenged), W (withdrawn), or WP (withdrawal passing) are not considered in credit hours attempted and are not counted toward cumulative GPA.

Academic Standing Levels

Warning
If the cumulative GPA of a student is below 2.0 at the end of his or her initial semester, when final grades are submitted to the Registrar, the student will be placed on academic warning. Students who have been placed on academic warning will receive e-mail notification from Student Services at their college-issued address. Students on academic warning will be encouraged to consult with a Student Services advisor or faculty advisor within the first ten days of the semester to learn about available academic and counseling services.

Probation
If the cumulative GPA of a student who is already on academic warning remains below 2.0 at the end of the semester, when final grades are submitted to the Registrar, he or she will be placed on academic probation. Students who have been placed on academic probation will receive e-mail notification from the Curriculum Dean of Registration & Student Records at their college-issued address.

Students on academic probation will have a restriction placed on their record by the Registrar to prevent access or continued access to the registration system and will be required to meet with a Student Services advisor or counselor to develop an Academic Success Contract. Depending on the student's major, the advisor should release the restriction to restore the student’s access to the registration system once the Academic Success Contract has been created and signed by the student.

Suspension
If the cumulative GPA of a student who is already on academic probation remains below 2.0 at the end of the semester, when final grades are submitted to the Registrar, he or she will be placed on academic suspension. Students who have been placed on academic suspension will receive e-mail notification from the Curriculum Dean of Registration & Student Records at their college-issued address.

Suspension means that students are blocked from registering for classes and may not remain in any classes for which they have pre-registered. The Registrar will drop registration for suspended students when the notifications are sent. The Registrar will authorize a refund of any tuition and fees paid. The Financial Aid Director will cancel financial aid for the term. Students on academic suspension are not allowed to participate in college functions, including but not limited to athletics, student activities, and clubs; or to use college facilities, such as the student lounge, etc. As non-enrolled students, they are considered visitors and must abide by college rules for visitors.

Appeal Process for Students on Academic Suspension
Students on academic suspension may request an appeal in order to continue their enrollment by submitting an Appeal of Academic Suspension form to the Registrar. The appeal will be considered by the Academic Standing Review Committee if the student's transcript shows that while the cumulative GPA of 2.0 has not been achieved, significant progress has been made. Significant progress would mean a minimum 2.0 GPA for the most current term and/or a grade of C or better in all pre-curriculum courses for the current term. Appeal decisions will be sent to the student’s Wake Tech e-mail address.

If the appeal is approved, the student must meet with a counselor or advisor to develop an Academic Success Contract; the registration hold will then be removed to restore the student’s access to the registration system. Students should understand that course availability may be limited, and that there should be no expectation of availability of the courses from which they may have been dropped. A student who fails to adhere to the conditions specified on the Academic Success Contract, at any point during the semester, will have his registration deleted. Students who have been granted an appeal are not eligible to participate in intercollegiate athletics, as the primary goal is to improve academic performance.

If the appeal is denied, the student must sit out for one semester.

Reinstatement Process for Students Not Appealing Academic Suspension
Students who choose not to appeal their academic standing may request reinstatement for a future term (after sitting out one term of suspension) by submitting a Reinstatement Request to the Counseling Services Department.
In order for reinstatement to be considered, students must attend a required Student Success Workshop sponsored by the Counseling Services department. Requests for reinstatement must be received one month prior to the start date of the term for which the student wants to re-enroll.

**Satisfactory Progress in Health Sciences Curricula**
Certain policies pertaining to student progress in the Health Sciences curricula differ from general College policies. These policies will be given to each student enrolled in a Health Sciences curriculum.

**Satisfactory Progress in Pre-Curriculum Courses**
The objective of the pre-curriculum program is to assist students in obtaining the academic skills they need to succeed in a curriculum program. Therefore, a student taking required pre-curriculum courses must earn a grade of "C" or better to progress to a curriculum program or to the next level in a pre-curriculum course. A grade of "F" requires the student to repeat the course.

**Graduation Requirements**
To be eligible for graduation, a student must complete all prescribed courses for the curriculum in which he or she is enrolled. Students must have a cumulative GPA of 2.0 in their program of study. Grade-point average is calculated by dividing the total number of grade points earned by the total number of credit hours attempted. Courses used in this calculation are those completed at Wake Technical Community College and listed in the student's curriculum outline as "minimum requirements," along with any additional courses approved by the appropriate academic dean.

Students must complete a minimum of 25 percent of hours required for a degree, diploma, or certificate in residence at Wake Technical Community College. Final coursework must be completed in residence at Wake Technical Community College.

In order to graduate, each student must fulfill all financial obligations to the College, including graduation fees. Graduation fees are to be paid during registration for the term in which the graduation requirements will be completed.

**GRADUATION**
Graduation exercises are held at the end of the fall and spring semesters for all students who have completed degree or diploma requirements since the last graduation. Prospective graduates must request a graduation clearance by submitting an "Application for Graduation" form to the Registration and Student Records Services Division. The deadline for submitting this application is the last day of registration of the term in which the student will complete the requirements for the degree, diploma, or certificate.

Potential Summer graduates who will enroll in their final coursework are allowed to participate in the May graduation ceremony. They must request a graduation clearance by submitting an "Application for Graduation" form to the Registration and Student Records Services Division by the last day of registration for the Spring term.

**Persistence Toward Graduation**
Information concerning the rate of persistence toward graduation for Wake Technical Community College may be obtained from a member of the counseling staff.

**POLICY CHANGES**
Any statement in the Wake Tech Catalog is subject to change by the College.

New policies and upcoming policy changes will be communicated to students on the official Updates Web page, located at [http://Updates.waketech.edu](http://Updates.waketech.edu) and via their assigned my.waketech.edu.

Students are provided an email address upon acceptance and enrollment to the College. Should they choose not to receive communication via e-mail, they must refer to the official Updates Web page for information.

**PRE-CURRICULUM**
The Pre-Curriculum program is designed to prepare students for college-level coursework by helping them develop the reading, English, and mathematics skills required for entry into curriculum courses. Any person who has a high school diploma or a GED may enroll in pre-curriculum courses. The number of courses and the time required to complete them will vary. Some students may need only one course, while others may take several semesters to complete a series of courses.

Students are placed in pre-curriculum courses on the basis of their admissions test scores, the recommendation of their advisor or instructor, or their own voluntary selection. Students who require pre-curriculum courses in more than one discipline will be required to take a study skills course, ACA 090. This course has been designed to improve pre-curriculum students’ success in both pre-curriculum and curriculum courses. Depending on individual circumstances and pending advisor approval, students may take pre-curriculum and curriculum courses during the same term. Most pre-curriculum courses are offered every term, both day and evening. A student taking required pre-curriculum courses must earn a grade
of “C” or better on a seven-point scale to progress to the curriculum program or next pre-curriculum course level. A grade of “F” requires the student to repeat the course.

**Pre-Curriculum Courses:**
ENG 070, ENG 080, ENG 090, RED 070, RED 080, RED 090, MAT 050, MAT 060, MAT 070, MAT 080, and ACA 090

**PREREQUISITES**

Some courses may have pre-requisite or co-requisite course requirements, which ensure that the student is ready to move on to a higher level course. All students are required to successfully complete the course prerequisites and co-requisites listed before enrolling. Students who do not have confirmed prior credit, equivalency via placement test scores, or transfer equivalency that satisfies the stated prerequisites and co-requisites may be administratively dropped from the course. Course prerequisites and co-requisites may be found by clicking on the course number on WebAdvisor course schedules.

As this information is public and available, students who drop on their own or due to a faculty-requested drop after the first day of class and before the published 10% date, are only eligible for a 75% refund. Therefore, students are advised to review course prerequisites and co-requisites carefully before enrolling.

**SECURITY OF STUDENT RECORDS**

**Annual Notice To Students Of Their Rights Under The Family Educational Rights And Privacy Act Of 1974**

Annually, Wake Technical Community College informs students through the publication of the Student Handbook of the Family Educational Rights and Privacy Act of 1974, as amended. This act, with which the College intends to comply fully, protects the privacy of educational records, establishes the rights of students to inspect and review their educational records, and provides guidelines for the correction of inaccurate or misleading data through informal and formal hearings. To the extent consistent with the Act, students who seek the correction of inaccurate or misleading data or who otherwise have complaints should follow the grievance procedure contained in this Handbook. Students also have the right to file complaints with the Family Educational Rights and Privacy Act Office concerning alleged failures by the College to comply with the Act.

Wake Technical Community College’s policy establishing its intent to comply with the Act is published in the College catalog. Procedures implementing the provisions of the Act are published in the Student Handbook. Questions concerning the Act and Wake Technical Community College’s policy should be referred to the Enrollment and Records Services Division.

**Care of Records:**

**Policies and Procedures**

Wake Technical Community College, in the execution of its responsibilities to students, maintains accurate and confidential student records. The College staff recognizes the rights of students to have access to their educational and personal records in accordance with College policy and the Family Educational Rights and Privacy Act of 1974.

**Definition of Term “Educational Records”**

The term “educational record” as defined under the provisions of the Act include files, documents, and other materials that contain information directly related to students and that are maintained by an educational institution or an authority on behalf of the institution.

The term “educational record,” under the provision of the act, does not include the following:

1. Records of institutional, supervisory, and administrative personnel that are in the sole possession of the maker and that are not accessible or revealed to any other person except a substitute for the above named personnel.
2. Records and documents of security officers of the institution that are kept apart from such educational records.
3. Records on students that are made or maintained by a physician, psychiatrist, psychologist, counselor, or other recognized professionals or paraprofessionals acting in their official capacity and that are made, maintained, or used only in connection with a provision for treatment of the student and not available to anyone other than persons providing such treatment, except that such records can be personally reviewed by a physician or other appropriate professional of a given student’s choice.
4. Alumni or former student records.

Students may not review or inspect:

1. Financial records of the parents of the students or other information therein contained.
2. Confidential recommendations if a given student has signed a waiver of the student’s rights of access, provided that such a waiver may not be required of the student.
Control Provisions on Student Records and Student Information

The official student file shall not be sent outside the Admissions Office, Registration and Student Records Services Division, Financial Aid Office, Placement Office, or Cooperative Education Office except in circumstances specifically authorized in writing by the President or appropriate vice president.

Students have the right to inspect their own records covered by the Act whether recorded in hard copy, electronic data processing media, or microfilm. The Registrar has been designated by the College to coordinate the Inspection and Review Procedures for Student Education Records. Requests to review records must be made in writing, specifying the item or items of interest. Records will be made available for review within forty-five (45) days. Upon inspection, students are entitled to an explanation of any information contained in the record.

Students may have copies of their records except:

1. When a financial “hold” exists.
2. When the copy requested is a transcript of an original or source document that exists elsewhere.

A fee of $.50 per page will be charged for copies of records other than the student’s transcript(s) of academic records.

Transcripts and other information, except as provided by the Act, are released only with the written consent of the student. Such written consent must:

1. Specify the records or the data to be released, to whom it is to be released, and the reason(s) for release.
2. Be signed and dated by the student.

Disclosure of Information Without the Student’s Consent

Educational records will be disclosed without written consent of students to properly identified and authorized representatives of the Comptroller General of the United States; the Secretary of Education; state educational officials; and the Department of Veterans Affairs, for audit and evaluation of federal and state-supported programs, or in connection with enforcement of the federal or legal requirements that relate to such programs. Routine requests for student data from agencies such as the Department of Education, OEO, research agencies, and state-reporting agencies may be honored without prior approval of the student only in formats where students are not identified.

Confidential information requested by other than federal or state agencies as specified above will be released only under the following conditions:

1. An official order of a court of competent jurisdiction.
2. Subpoena. (Students will be notified immediately by registered mail that their records are being subpoenaed.)
3. To parents of students upon the parent providing a certified copy of the parent’s most recent Federal Income Tax Form in which the student is identified as a dependent.

Requests for confidential information will be honored without prior consent of the student in connection with an emergency, if the knowledge of such information by appropriate persons is necessary (in view of a responsible person) to protect the health or safety of the student or other persons.

Faculty and administrative officers of the College who demonstrate a legitimate educational need will be permitted to look at the official student record for a particular student.

The College may make the following “Directory Information” available to the public unless the student notifies the Registrar in writing by the end of the first week of the term that such information is not to be made available.

1. Student’s name
2. Date of birth
3. Email address
4. Physical Address
5. Major field of study or program
6. Dates of enrollment
7. Degrees, Diplomas, or Certificates received
8. College honors

Any release of student information for public use or use by the media except that specified above must have prior written approval by the student(s) involved.
Record of Who Has Access
A record of access to the official student record will be maintained within the record itself. This record will show the name, address, date, and purpose of the person who has been granted access. All persons who have access will be included in this record except those institutional employees who, because of the nature of their duties, have been granted access.

Student’s Rights to Question Contents of Official Records
A student has the right to view his official records maintained by the College. Furthermore, a student may question any inaccurate or misleading information and request correction or deletion of that data from the official records. All such requests will be sent to the Registrar and will become a part of that student’s record.

All requests for correction of a student record will be acted upon within 45 days of receipt of that request. If the custodian can verify that such data is, in fact, in error, appropriate corrections will be made and the student will be notified in writing when the correction has been completed. In the event the Registrar fails to resolve the student’s requests to the student’s satisfaction, the student may continue the grievance through compliance with the grievance procedure contained in this Handbook. If the outcome of the grievance is in agreement with the student’s request, the student will be permitted to review his record to verify that the change has been made correctly. If the student’s request is denied, he will be permitted to append a statement to the record in question, showing the basis for his disagreement with the denial. Such appendages will become a permanent part of the record.

VISION, VALUES, AND MISSION
Our vision is to eliminate barriers and create opportunities that enable all students to experience success. Our actions are guided by these values:

- The well-being of all students
- Innovation in problem solving
- The positive affirmation of student achievement
- Professionalism and ethical behavior
- Cooperative and collaborative efforts that include enthusiasm, respect, and humor

Our mission is to provide the resources to assist, enhance, support and sustain student enrollment, learning, and development in order for all students to experience success and complete their educational goals.

ACADEMIC SUPPORT & OPPORTUNITIES

Academic Advisement
The purpose of the faculty advising system is to help provide the most effective, helpful educational environment possible.

Advisors are available to students through regularly scheduled office hours to counsel students with any questions or concerns they may have. Students have the responsibility for planning their programs of study with the help of their faculty advisor. This involves

1. keeping up to date with College and division curriculum requirements;
2. keeping informed of academic deadlines and changes in academic policies; and
3. consulting with the faculty advisor at each pre-registration period and at other times as needed.

Associate of Applied Sciences Students
Every student enrolled in an Associate of Applied Science degree, diploma, or certificate is assigned a faculty advisor. Initially Associate of Applied Sciences students will see a Student Services advisor; after the first semester, they will see their assigned faculty advisor.

College/University Transfer Students
Students in the A.A., A.S., or A.S./Pre-Engineering programs are assigned to Student Services advisors that work with specifically College/University transfer students

Bookstore
Website: http://bookstore.waketech.edu
Students are encouraged to take advantage of online ordering and home delivery.

Students may purchase from the College Bookstore necessary books, software, computer and general supplies, and other items such as stationery, class rings, and pins. Book buy back available for all books with market value at any time during the semester regardless of the source of purchase.

Locations and Hours

Main Campus
8 a.m.-7 p.m., Monday-Thursday
8 a.m.-3 p.m., Friday
Special hours of operation are posted on the bookstore door as needed.

Northern Wake Campus
8 a.m.-2 p.m., Monday-Thursday
8 a.m.-12 p.m., Friday

In addition, both bookstores will open from 5:30 p.m. – 6:30 p.m. every Monday and Tuesday night. A temporary bookstore is located at the Health Sciences Campus at the beginning and end of each semester for approximately two weeks.

Students should be aware of the following operational policies of the Bookstore:

Last updated 6/7/12
1. Required textbooks for a particular term are available through the drop/add period. Immediately following the tenth academic day of a semester, most of the unsold books are returned to the publishers.

2. Cash refunds for returned books will only be authorized with presentation of the bookstore cash register receipt. Books returned for refund must be new and in undamaged condition containing no writing or marks. Requests for refund for books must be made during the first ten academic days of the semester.

Career Center
The Career Center is a resource for Wake Tech students who want to learn more about the world of work and understand issues and trends related to career success and satisfaction.

Career Center counselors provide guidance to students as they define goals, craft educational programs that reflect those goals, and seek to evaluate and make well-informed decisions about colleges, courses of study, and career possibilities.

The Center maintains a variety of resource materials for students to use, including
- Personalized assessments (in both electronic and hard copy format)
- Reference books, including the Outlook Handbook, ONET, Vocational Biographies, Career Focus series, our Career Resource Guide, and other state and national guides
- Career videos and software
- Occupational and career Internet links
- College catalogs and videos

The Center also offers workshops and classes on exploring and preparing for careers of various kinds.

Locations and Hours

Main Campus: Student Services Building, Room 143a
8 a.m.-5 p.m., Monday-Thursday
8 a.m.-4 p.m., Friday
Evenings by appointment

Northern Wake Campus: Building A, Room 223
8 a.m.-5 p.m., Monday-Thursday
8 a.m.-4 p.m., Friday

http://counseling.waketech.edu/career.php

Counseling Services
The Counseling Services Department provides an array of resources and services to support students in clarifying values, interests, and strengths and setting goals.

1. Career Coaching: Counselors provide career coaching tailored to students’ specific needs, to help them clarify and implement career and life goals; guidance in career planning, using occupational information systems to improve student’s understanding of the world of work and enhance their decision-making skills. Counselors also administer career assessments for students who are uncertain about a career or course of study and serve as advisors.

2. Personal Counseling: Counselors provide individual, personalized counseling sessions to help students weather relationship difficulties, frustration, stress, loss of motivation, sadness, or a general inability to cope with pressures and problems. The counselors help students develop the skills, attitudes, and understanding to reach their goals and find their place in the world

3. Referral Services: Counselors make referrals to off-campus agencies and other resource providers as needed for students facing potential crisis situations.

4. Academic Success Counseling: Counselors help students address academic difficulties such as low grades, poor study habits, test anxiety, and balancing college, work, and family; and assist them in general problem solving. Counselors may also refer students to other academic support services on campus as appropriate.
5. **Workshops and Special Events**: Workshops are offered on stress management, test anxiety, time management, career interest and preparation, interpersonal relationships, and practical college survival strategies. The department also sponsors health and wellness events, such as alcohol and domestic violence awareness.

**Locations and Hours**

**Main Campus**: Student Services Building, Room 143  
8 a.m.-5 p.m., Monday-Thursday  
8 a.m.-4 p.m., Friday  
Evenings by appointment

**Northern Wake Campus**, Building A, Room 218  
8 a.m.-5 p.m., Monday-Thursday  
8 a.m.-4 p.m., Friday

**Individualized Learning Center (ILC)**

Free services are available at Main Campus, Health Science Campus, Northern Wake Campus, Western Wake Campus, Public Safety Education Campus, and on-line for Distance Learning students.

The Individualized Learning Center (ILC) offers study opportunities geared to the academic needs of individual students through the Writing /Study Skills Center, the Foreign Language Help Center, the Math/Computer Center, and the Health Sciences Center:

- One-on-one tutoring
- Online support for distance learning students
- Computer-assisted instruction
- Videocassettes, CDs, DVDs
- Instructor-directed workshops

Any Wake Tech student or employee may use the ILC at his or her convenience. All users must present a valid Wake Tech ID to register and use the timekeeping system.

Admission test preparation (COMPASS, TEAS, and others) is available through independent study or by qualifying for services in the Basic Skills Center. Challenge exams for certain Wake Tech courses are available with proper identification and approval paperwork from the academic department. An independent study, self-paced tutorial program for proficiency in high school level Chemistry can be completed through independent study in the ILC.

**English As A Foreign Language (EFL)**

Website: [http://eff.waketech.edu/](http://eff.waketech.edu/)

The English as a Foreign Language (EFL) department offers academic English courses for individuals whose native language is not English and who wish to study at the college and university level in the United States. These courses comprise an intensive English language program that focuses on language for academic purposes; courses are offered on four proficiency levels in grammar, composition, reading, and listening/speaking. See the course descriptions listed as EFL in the course descriptions sections of this catalog for specific course information. This program meets the requirements for
those students who have a student visa. Prospective students who wish to obtain a student visa should go to the International Student website at http://efl.waketech.edu. Tuition rates are the same as those for other curriculum classes offered at Wake Tech.

The EFL office is located on the Main campus in the Technical Education Building, Room 109. Prospective students can call 919-866-5325 for more information.

**College ID**

**Students**

A college ID card (student photo identification card) will be provided to each registered student. The college ID card must be carried by the student at all times. Students on all campuses which includes, Main, Northern, Health Sciences, Western and Public Safety must obtain a current semester validation sticker that will be affixed to their card (effective Fall 2010). Semester validation stickers can be obtained at various locations on each campus.

The card is required for using campus services and attending campus functions and also serves as a library card. Campus security or any college official may ask a student for the college ID card at any time while on campus or at any off-campus activity sponsored by the college. Students without a valid college ID card will be asked to leave the campus unless their purpose can be substantiated by a college official. The initial college ID card will be free; a duplicate will cost the student $5.00 .

The College reserves the right to change days and times of availability as needed.

**Main, Western, Health Sciences, and Public Safety Education Campuses**

8 a.m.-5 p.m., Monday-Thursday
8 a.m.-4 p.m., Friday

**North Campus**

8 a.m.-7 p.m., Monday-Thursday
8 a.m.-4 p.m., Friday

**Employees and Volunteers**

A college ID card will be provided to each employee and volunteer. The college ID card or another name badge must be worn by the employee or volunteer at all times while on any Wake Tech campus or when conducting official Wake Tech business off campus.

**Career and Employment Resources**

Website: http://careers.waketech.edu

The Career and Employment Resources division offers support to students, graduates, and alumni in the development of curriculum-related skills (through experiential education) and job search and success skills.

**Cooperative Education** (Co-op) is an academic program combining classroom instruction with practical work experience, paid or unpaid, that relates directly to students’ curriculum studies. The combination of theory and practice allows students to explore career choices while earning academic credit and even income. Students may access the Co-op link above for additional information and eligibility requirements.

Because of the intrinsic value Cooperative Education has for students, it is a requirement in many technical and vocational curricula at Wake Tech. In some cases, Co-op credit can be applied to satisfy electives and other requirements. (The College reserves the right to add, remove, or alter the Co-op component in any curricula, as needed.)

Student eligibility for a Co-op work assignment is determined by the Coordinator of Cooperative Education, based on the student's prior work experience, academic performance, health/fitness for the assignment, attitude, appearance, and other select criteria, as well as position availability. Every effort is made to find Co-op work experiences for all students; however, placement cannot be guaranteed. If eligible, the student is interviewed by potential Co-op employers. Once a student accepts a Co-op employment position, he or she must satisfactorily complete all orientation sessions, seminars, and assignments in order to graduate; completion will be verified by the student’s academic advisor or the Coordinator of Cooperative Education. Co-op courses completed for one program may not count toward the completion of another program.

The Cooperative Education program is designed to be as flexible as possible, to accommodate individual career plans. Students may choose part-time, full-time, or other work arrangements for their Co-op experience, depending on employers’ needs.
As its name suggests, Cooperative Education involves the cooperation of Wake Technical Community College, Wake Tech students, and participating employers. The program, therefore, has guidelines and procedures to which all parties must adhere. The benefits of cooperative education are numerous:

Benefits to Student
- Relates theory to practice and helps improve students’ academic motivation
- Creates an opportunity to learn and apply job skills (preparing a resume, networking, interview skills, etc.)
- Helps the student develop and enhance interpersonal skills
- Provides professional experience prior to graduation as well as post-graduation employment opportunities
- Paid Co-op positions provide income for students. (Note: some Co-op positions are unpaid.)

Benefits to Employer
- Provides a cost-effective resource for recruitment as well as access to a diverse pool of potential employees
- Results in lower training costs for those students who are later hired as regular employees
- Enhances college relations and provides employers with a unique opportunity to have input into the curriculum.

Wake Tech began offering its students the benefits of Cooperative Education in 1966 and was the first community college in North Carolina to do so. Students who participate in Co-op enter the highly-competitive job market with several months of work experience in addition to their diploma or degree. Experience may provide a decided advantage in the search for employment.

Employment Resources at Wake Tech (which include assistance with the development of important job search skills and access to information on employment opportunities) are for curriculum education students seeking full-time employment upon graduation and for those seeking part-time, temporary employment while enrolled at the college. Services are also available to alumni of curriculum education programs for five years following graduation. The Career Readiness and Employment Resources division coordinates all on-campus employer and military recruiting as well as managing job boards for part-time and full-time employment, internships, and Cooperative Education opportunities. Each curriculum program offered at Wake Tech is actively engaged in the development of relationships with employers and the creation of job opportunities for students and alumni.

The College does not guarantee employment to any student or employees to any employer. Services are offered at no charge to employers or to students and alumni.

Libraries
Wake Technical Community College operates five libraries, as well as providing student resources through a library website at http://library.waketech.edu

Library services are free, and any Wake Tech student or employee may use any of the library services or resources at his or her convenience. All users must complete a library application form and have a valid Wake Tech photo ID, in order to establish a library account.

Last updated 6/7/12
Each library location offers the following services and resources:

1. Access to print (books, periodicals) and audiovisual materials (DVD, VHS, audio books)
2. Electronic databases (NC LIVE, SIRS, JSTOR, Cochrane Library, Science Direct, and more)
3. Interlibrary Loan
4. Online Renewals
5. Research Guides & Tutorials and Database Instruction
6. Ask-A-Librarian Services (Email, Instant Messaging, and NC KNOWS - Virtual Reference)

Overdue Materials & Fines
Books - $0.10 per day, per item (max. $10.00)
Audiovisual & Special Reserve Items - $1.00 per day (max. $10.00)

Fines should be paid in a timely manner to avoid registration blocks. Students with outstanding library fines of $5.00 or more will not be allowed to register for the next semester or obtain their semester grades. At this time, the final notice is mailed and student records will be blocked until all materials are returned and fines are paid.

Student Government Association
The Student Government Association (SGA) is the campus organization that represents the interests of all Wake Tech students. Each curriculum student enrolled at Wake Technical Community College is required to pay the Student Administration Fee and shall be a member of the Wake Technical Community College Student Government Association and governed by its rules and regulations.

Visit http://studentactivities.waketech.edu/clubs/sga to learn more about Wake Tech's SGA.

Student Handbook
All regulations and policies pertaining to student conduct are listed in the student handbook. The handbook may be viewed online at http://handbook.waketech.edu. Students are responsible for reading the information in the student handbook. One of the conditions of enrollment is the student must follow the Student Code of Conduct, which is located in the Student Handbook.

Student Publications
Wake Tech's Student Government Association sponsors a newspaper, titled The Student Voice, which is written, edited, and managed by students with the assistance of an advisor from the Art, Humanities, and Social Sciences Division.

Publications Policy
Publications are defined to include but are not limited to the following: newspapers, pamphlets, newsletters, brochures, flyers, books, posters, or magazines. Publications may not be printed or distributed without official approval of the Dean of Students. Approved campus organizations may post and distribute their publications if said publications have been approved by the president of the organization, the organization's advisor, and the Dean of Student Development.

All publications (print, electronic, or other) containing URLs or references to the Wake Tech web site must be sent to the webmaster (webmaster@waketech.edu) prior to finalization to ensure that URLs are listed correctly.

Publications containing profanity, language that is offensive to race, sex, or creed, grammatically incorrect statements, and misspelled words will not be approved for printing or distribution. All publications must represent the dignity, mission, and standards of the College. Organizational publications must also be consistent with the philosophy and mission of the organization.

The College reserves the right to rescind approval for on-campus activity for any organization that violates this policy. Individuals found guilty of not conforming to this Publications Policy will face disciplinary action, including suspension from the College.

From time to time, changes made to published, College policies will affect students. The College reserves the right to make such changes and holds students responsible for keeping themselves informed about these changes. Announcements of changes will be emailed to student’s “my.waketech.edu” email address and can be found online at http://updates.waketech.edu/ or distributed through the electronic newsletter, which is sent to all currently enrolled students.

This policy does not apply to off-campus groups and individuals. Off-campus groups and individuals are allowed to distribute their publications in the designated areas of the main campus and the north campus in accordance with the College’s Solicitation policy. See General Information, Solicitation.
Wake Tech Alumni Association
The College encourages its alumni to share information about personal and professional accomplishments through a link on the College website. Inquiries about alumni news should be directed to the College’s Foundation Office. An online alumni magazine is in development.

ATHLETICS
The mission of Wake Tech’s athletics program is to enhance the college experience for all students by promoting fitness, building awareness of the importance of lifelong physical activity, and developing character and leadership ability through athletic activities and events. Wake Tech encourages all students to participate in athletics, develop athletic skills and abilities, and strive to realize their full potential.

The program offers high-quality instruction and support services with the collaborative efforts of faculty, staff, administration, trustees, and the community. Wake Tech offers equal opportunity for all in compliance with the regulations of Title IX and adheres to an established code of conduct for all athletes and program participants.

Wake Tech is a proud member of the National Junior College Athletic Association (NJCAA), Region X.

Support Wake Tech athletics: Become an Eagle Club member! Learn more at athletics.waketech.edu.

STUDENT CHAPTERS OF PROFESSIONAL ORGANIZATIONS & CLUBS
The Office of Student Development supports and encourages professional organizations and clubs at Wake Technical Community College. Professional organizations and clubs give students a unique opportunity to develop leadership skills, network with professionals in a given field of study, and get involved. Students interested in joining a club should visit the Office of Student Activities in the Student Services Building on the Main Campus.

A complete listing of clubs is available online at http://studentactivities.waketech.edu/clubs/.

GUIDELINES FOR ORGANIZATION APPROVAL
All student organizations must be approved by the College through the Office of Student Development. The following are procedural guidelines for obtaining new student organization approval:

- Students wishing to create a new organization must request an application from the Director of Student Activities. The application period for establishing a new organization is spring semester; applications received during the fall semester will be considered for approval for the following academic year. The application must include the name of the organization, its purpose, objectives, recommendation for a faculty advisor, procedures for electing officers, means and methods for financing, and other information as requested by the Dean of Students.

- The organization must receive approval from the Director of Student Activities, the Dean of Students, the Senior Vice President of Student Services, and the President of the College before becoming an official college organization

DISABILITY SERVICES
The mission of Disability Support Services (DSS) is to adapt the College’s general services to the specialized, individual needs of otherwise qualified students with disabilities, for the purpose of providing equal access to all programs, facilities, and activities.

Students requesting disability accommodations from the College must self-identify to Disability Support Services. Students are required to submit current documentation of their disability to DSS to determine eligibility prior to the implementation of services. Students requesting accommodations from the College must have a disability as defined by Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Self-identification and providing documentation can be initiated at any time; however, the student must allow reasonable time for accommodations to be implemented.

Consistent with the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973, Wake Technical Community College is committed to equality of educational opportunity and ensures that no qualified person shall by reason of a disability be denied access to, participation in, or the benefits of any program or activity operated by the College. Each qualified person with a disability shall receive necessary reasonable accommodations to ensure equal access to educational opportunities, programs, and activities in the most integrated setting appropriate.

To obtain additional information or to read documentation guidelines and/or DSS Policies and Procedures, please go to the DSS website http://disabilityservices.waketech.edu or contact the DSS office at 919-866-5670 or by Sorensen Video Phone (919) 324-1508.
ONLINE / DISTANCE EDUCATION

Wake Technical Community College offers students two options for online/distance education instruction: Internet courses, and hybrid courses. These alternatives to traditional seated classes allow students to take courses at times convenient to their schedules. Each course is facilitated by a qualified, competent instructor who develops the course so that the learning outcomes are comparable to a traditional seated class, who serves as a resource to the students, and who provides a syllabus and course guidelines. Costs and credits earned are the same as on-campus courses, and students have access to equivalent services and resources. Students interested in taking a distance education course should visit Wake Tech Online at http://online.waketech.edu/.

Internet Courses

Students registered for Internet courses may be offered the opportunity to attend an orientation or other meeting at the College, but generally the subject matter is presented online and distributed through the College's Blackboard server, http://dist-ed.waketech.edu. Students must have access to a personal computer with Internet connection and browser software. Wake Tech faculty develop and teach online courses.

Before enrolling in an Internet course, students should:
1. Preview the Internet course, http://online.waketech.edu/students/previews.html
2. Participate in the online student orientation, http://online.waketech.edu/students/online.html
3. Review the information posted on the online/distance education website, http://online.waketech.edu/
4. Take the self-assessment entitled “Are You Prepared for an Online Course?”

Hybrid Courses

Hybrid courses combine regular classroom meetings with Internet instruction, reducing the number of hours a class meets on campus during the semester. The instructor determines the class schedule, which is published online. Students must have access to a personal computer with Internet connection and browser software.

Before enrolling in a hybrid course, students should:
1. Preview the hybrid course at http://online.waketech.edu/students/previews.html; and
2. Review the information posted on the online/distance education website at http://online.waketech.edu/.

Testing Center

Online and hybrid course instructors may require students to take tests on campus. The Distance Education Testing Center is located in Room 265 on the Western Wake Campus. Hours are posted online at http://online.waktech.edu/testcnt.html or students may call 919-335-1071.

Library Resources

To maintain a sound learning environment, students enrolled in distance education courses have access to the libraries on the Main, Health Sciences, Northern Wake, Public Safety Education, and Western Wake campuses.

Although traditional library services are available to all students, the College has expanded its services to accommodate distance learning. The library's website, http://library.waketech.edu, is available to on-campus, off-campus, and distance education students. The website provides information on interlibrary loans, loan periods, hours of operation, and electronic and print databases. The website has links that provide access to other libraries, resources, search engines, and services such as NC LIVE.

Please view the Libraries section in the Student Services chapter or their website for hours and locations.

PATHWAYS MINORITY MALE MENTORING PROGRAM

The mission of the Pathways Minority Male Mentoring Program (Pathways 3MP) is to increase the success of minority male students at Wake Tech in the areas of academic growth, retention, and graduation.

Pathways 3MP was developed in partnership with the NC Community College System office and Wake Tech students, faculty, and staff. The program is a support group of academic peers working together, along with program staff, to foster and nurture educational excellence and success among minority male students. Students are encouraged to embrace leadership and to serve as positive role models for each other through strong commitments to academic achievement, brotherhood, and service.

Pathways 3MP offers exceptional mentoring support – academic, social, and career-based. In addition, students are exposed to personal and educational enrichment opportunities that include inspirational seminars, academic workshops, statewide conferences, volunteer service at a local shelter for homeless men, and tours of four-year colleges.

Program staff are located in the Student Services Building, Room 128, on Main Campus, but they provide services at other Wake Tech campuses as well. Main office hours are Monday-Friday from 8:30 a.m. to 5:30 p.m.
OFFICE OF VOLUNTEERISM AND [STUDENT] LEADERSHIP (O.V.A.L.)
The Office of Volunteerism and Leadership was established to assist students in becoming active local and global leaders. O.V.A.L. promotes Wake Tech's core values of accountability, responsibility and collaboration by providing opportunities for service and leadership training.

O.V.A.L. partners with various community agencies to provide service opportunities for the campus community and to engage students in service projects: Habitat for Humanity, the Wilmington Street Men's Center, Food Bank of Central & Eastern Carolina, Wake County Public Schools, United Way, STOP HUNGER NOW, and Interfaith Food Shuttle, to name a few.

O.V.A.L. offers leadership training for students in addition to service opportunities. Two training programs that help students develop leadership abilities are offered on campus: The Student Leadership Challenge and Tuesday and Thursday @ 2pm. Each year, O.V.A.L. also selects students to participate in leadership training programs off campus, including Leadership Triangle-College Edition, sponsored by AT&T; the Student Leadership Development Program, sponsored by NC Community College Presidents and the NC Community College System Office; and ADVANCE, sponsored by Campus Compact.

O.V.A.L is located on Main Campus, in Room 137 of the Student Services Building. For more details about our programs, please visit our website at www2.waketech.edu/volunteer/.

GENERAL INFORMATION FOR ALL CAMPUSES

Campus Security & Safety
Website: http://securityservices.waketech.edu

The Board of Trustees of Wake Technical Community College has adopted policy statements in compliance with the dictates of the Jeanne Cleary Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act).

The College’s Director of Security Services is primarily responsible for developing rules and regulations to implement these policies. Crimes on the main campus are reported to the Wake County Sheriff’s Department (or other appropriate law enforcement agency), which investigates on-campus murder, criminal sexual assault, criminal sexual abuse, robbery, aggravated assault, aggravated battery, burglary, motor vehicle theft, liquor law violations, drug abuse violations, weapons possession, and other emergencies on campus considered to be a threat to safety. Crimes on the Adult Education campus, the Health Sciences campus, Northern Wake campus and Public Safety Education campus are reported to the Raleigh Police Department. Crimes on the Western Wake campus are reported to Cary Police Department. Crimes on the Plastics Technology campus are reported to the Zebulon Police Department. Timely reports of such occurrences are made to employees and students. In the event the perpetrator of a violent crime is subject to discipline by the College, the victim of the crime shall, at the discretion of the College’s administration, be permitted to obtain results of the disciplinary proceeding.

The College’s Security Services Division prepares, publishes, and distributes statistical reports that identify the occurrence of campus crimes and the number of campus arrests involving liquor law violations, drug abuse violations, and weapons violations. The policy statements and statistical reports are available upon request to students and employees as well as prospective students and the higher education community at Holding Hall, room 101A, Main Campus, 9101 Fayetteville road, Raleigh, NC 27603.

Security patrol and traffic control matters are handled by a private security company under contract with the College. This company is responsible to the College’s Director of Security Services, whose office is on Main Campus, in Holding Hall, room 101A and whose telephone number is 919-866-5532. The Director of Security Services also can be contacted by dialing the College’s main switchboard number, 919-866-5000 (from off-campus or from a coin telephone). Students, employees, and visitors are encouraged to report criminal activity and other emergencies on any campus at the College’s emergency number, 919-866-5911.

Students and employees are prohibited from bringing onto campus or using alcohol or illegal drugs on campus or during any College activity. Limited exceptions to this policy may be granted by the College’s President or designee. The College has a Drug and Substance Abuse Council, which offers help to students and employees in seeking counseling and/or assistance programs. From time to time workshops and seminars are conducted on campus relating to Crime and Safety, Drugs and Alcohol, Self-Defense, and Date Rape.

Other information is periodically published in the Campus Connections at http://connections.waketech.edu/ and the student newsletter, The Eagle’s Eye. The student newspaper, The Student Voice discusses and debates health, safety, self-defense, etc., issues.
Campus safety means protecting people and property. People working together can make our campuses safe and secure working and learning environments. Report suspicious persons, vehicles, and activities to the Security Patrol Officer or the Director of Security Services at 919-866-5911. Students attending classes in the evenings should walk in well-lighted areas with someone or near other people. Extra precaution should be taken by using sidewalks and crosswalks and by avoiding isolated areas. Personal valuables should be marked and NOT left unattended. Vehicles should be parked in a well-lighted area and locked.

**Presentations by Local Law Enforcement Personnel**

Presentations are conducted by the Wake County Sheriff’s Department, Raleigh Police Department, SBI, and the N.C. Highway Patrol concerning robbery, motor vehicle theft, and drugs and alcohol.

**Annual Report of Criminal Offenses**

The Clery Act, requires publication of criminal activity in the following categories. The figures shown in the tables below encompass all campuses of Wake Technical Community College.

### Main Campus

Threat Assessment & Violence Prevention
To create an atmosphere that encourages learning and productivity, Wake Tech will consider the following behaviors unacceptable:

- Injuring another person physically;
- Engaging in behavior causing concern that creates a reasonable fear of injury to another person;
- Engaging in behavior causing concern that subjects another individual to undue emotional distress;
- Possessing, brandishing, or using a weapon that is not required by the individual’s position while on College premises or engaged in College business;
- Intentionally damaging property;
- Threatening to injure an individual or to damage property;
- Committing injurious acts motivated by, or related to, domestic violence or sexual harassment;
- Retaliating against any person who, in good faith, reports a violation of this policy and,
- Any other behavior or activity that creates a threat or danger to a person or the campus environment.

This policy will be enforceable at any property, building, or other facility that is owned, leased, or used by Wake Technical Community College for any College activity. Violators will be subject to the College’s disciplinary policies and/or State statutes as appropriate.

Drug and Alcohol Policy
No student shall distribute, dispense, possess, use, or be under the influence of any alcoholic beverage, malt beverage, or fortified wine or other intoxicating liquor; or unlawfully manufacture, distribute, dispense, possess, or use or be under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, anabolic steroid, or any other controlled substance, as defined in Schedule I through V of Section 202 of the Controlled Substance Act (21 U.S.C. Section 812) and as further defined by regulation at 21 C.F.R. 1300.11 through 1300.15 or Article 5 of Chapter 90 of the North Carolina General Statutes, as amended from time to time, in any college location as defined below.

“College location” means in any college building or on any college premises; in any college-owned vehicle or in any other college-approved vehicle used to transport students to and from college or college activities; off college property at any college-sponsored or college-approved activity, event or function, such as a field trip or athletic event, where students are under the jurisdiction of the college.

Any student who violates the terms of this policy may be suspended or expelled from the college in accordance with the Student Rights, Responsibilities, and Procedures Policy, found in the Student Handbook, or may be required to or requested to participate in a drug abuse assistance and rehabilitation program approved by the Board of Trustees. If such student fails to satisfactorily participate in such program, the student shall be suspended or expelled from the college in accordance with the Student Rights, Responsibilities, and Procedures Policy.

Drug Abuse Prevention Program
The College has materials relating to drug abuse prevention available to all students, faculty, and staff. Interested individuals are encouraged to make use of these materials, which are located in the libraries on the Main, Health Sciences, Western Wake, Public Safety Education, and Northern Wake campuses.

Title IX Policy (Sexual Misconduct)

Procedures:
Title IX of the Education Amendments of 1972 states: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.”

Wake Technical Community College is committed to providing a learning, working and living environment that promotes respect, responsibility, communication, collaboration, critical thinking, and accountability in an environment free of sexual misconduct and discrimination. Sexual discrimination violates an individual’s fundamental rights and personal dignity.

Wake Technical Community College considers sexual discrimination in all its forms to be a serious offense. This plan refers to all forms of sexual discrimination, including: sexual harassment, sexual assault, and sexual violence by employees, students, or third parties. (Title 20 U.S.C. Sections 1681-1688)

Wake Technical Community College has a responsibility to ensure compliance by demonstrating that our education programs and other activities are operated in a manner consistent with Title IX regulations and provisions.
If you feel you have been subjected to sexual harassment or discrimination, you should seek assistance as soon as possible. Please review the Sexual or Gender Misconduct Plan and the related Plan Explanations listed below.
The Senior Vice President for Student Services, Rita Jerman, and the Chief Human Resource Officer, Benita Clark, are Wake Technical Community College’s Title IX Coordinators and are responsible for implementing and monitoring Wake Technical Community College’s Title IX compliance. Deputy coordinators and investigators are also trained to assist in carrying out Title IX duties.

Ms. Rita Jerman
919-866-5701
whjerman@waketech.edu

Ms. Benita Clark
919-866-7894
biclark@waketech.edu

When concerns are brought to the Coordinators’ attention or when they suspect that sexual or gender discrimination may be present, they are bound to initiate and oversee timely investigations and provide updates to the accuser and the accused. All faculty and staff are required to cooperate fully, truthfully, and expediently with investigations.

More information about Title IX

Retaliation is Prohibited
You have the right to raise concerns, to ask questions about our policies prohibiting sex or gender discrimination, and to participate in investigations without fear of retaliation. You also have the right to submit a complaint about retaliatory acts under Title IX.

How Can We Help
Our plan helps to insure the Wake Technical Community College’s community is free from discrimination based on sex or gender behavior. We are here to help assist you in an effective and efficient manner. If you feel you are experiencing sexual discrimination, the most important thing you can do is to get help. The contacts listed below will be able to guide you and provide important resources.

Who Should I Contact
If you think you have been a victim of sex or gender discrimination, or if you are aware of its existence in any of our education programs or activities, or you have any questions about the sexual or gender misconduct policy, you can get help from any of the offices/individuals below:

Faculty or Staff: Contact the Chief Human Resource Officer and Title IX Coordinator, your Supervisor, or Campus Security;

Students: Contact the Senior Vice President for Student Services, any Student Services Dean, Counseling Staff, Athletic Director, or Campus Security; and

Visitors, Applicants for employment: Contact Chief Human Resource Officer or Campus Security.

Sexual/Gender Misconduct Plan & Plan Expectations

I. PLAN STATEMENT
Members of the Wake Technical Community College’s community, guests, and visitors have the right to be free from sexual violence. All members of the campus community are expected to conduct themselves in a manner that does not infringe upon the rights of others. Wake Technical Community College believes in zero tolerance sexual or gender-based misconduct. When an allegation of misconduct is brought to an appropriate administrator’s attention, and a respondent is found to have violated this plan, serious sanctions will be imposed to reasonably ensure that such actions are never repeated.

This plan has been developed to reaffirm these principles and to provide recourse for those individuals whose rights have been violated. This plan is intended to define community expectations and to establish a mechanism for determining when those expectations have been violated.

II. EXPECTATIONS WITH RESPECT TO PHYSICAL SEXUAL MISCONDUCT
The expectations of our community regarding sexual misconduct can be summarized as follows: In order for individuals to engage in sexual activity of any type with each other, there must be clear, knowing and voluntary consent prior to and during sexual activity. Consent is sexual permission. Consent can be given by word or action, but non-verbal consent is not as clear as talking about what you want sexually and what you don’t. Consent to one form of sexual activity cannot be automatically taken as consent to any other form of sexual activity. Silence—without actions demonstrating permission—cannot be assumed to show consent.
Additionally, there is a difference between seduction and coercion. Coercing someone into sexual activity violates this plan in the same way as physically forcing someone into sex. Coercion happens when someone is pressured unreasonably for sex.

Because alcohol or other drug use can place the capacity to consent in question, sober sex is less likely to raise such questions. When alcohol or other drugs are being used, a person will be considered unable to give valid consent if they cannot fully understand the details of a sexual interaction ("who, what, when, where, why, or how") because they lack the capacity to reasonably understand the situation. Individuals who consent to sex must be able to understand what they are doing. Under this plan, "No" always means "No," and "Yes" may not always mean "Yes." Anything less than a clear, knowing, and voluntary consent to any sexual activity is equivalent to a "No."

III. EXPECTATIONS WITH RESPECT TO CONSENSUAL RELATIONSHIPS

There are inherent risks in any romantic or sexual relationship between individuals in unequal positions (such as teacher and student, supervisor and employee). These relationships may be less consensual than perceived by the individual whose position confers power. The relationship also may be viewed in different ways by each of the parties, particularly in retrospect. Furthermore, circumstances may change, and conduct that was previously welcome may become unwelcome. Even when both parties have consented at the outset to a romantic or sexual involvement, this past consent may not remove grounds for a later charge of a violation of applicable sections of the faculty/staff handbooks.

The College does not wish to interfere with private choices regarding personal relationships when these relationships do not interfere with the goals and policies of the College. For the personal protection of members of this community, relationships in which power differentials are inherent (faculty-student, staff-student, administrator-student) are generally discouraged. Consensual romantic or sexual relationships in which one party maintains a direct supervisory or evaluative role over the other party are unethical.

Therefore, persons with direct supervisory or evaluative responsibilities who are involved in such relationships must bring those relationships to the timely attention of their supervisor; this will likely result in removing the employee from the supervisory or evaluative responsibilities, or shifting the student from being taught or evaluated by someone with whom they have established a consensual relationship. While no relationships are prohibited by this plan, failure to self-report such relationships to a supervisor as required can result in disciplinary action for an employee.

IV. SEXUAL VIOLENCE -- RISK REDUCTION TIPS

Risk reduction tips can often take a victim-blaming tone, even unintentionally. With no intention to victim-blame, and with recognition that only those who commit sexual violence are responsible for those actions, these suggestions may nevertheless help you to reduce your risk of experiencing a non-consensual sexual act. Set out below are suggestions to avoid committing a non-consensual sexual act:

1. If you have limits, make them known as early as possible.
2. Tell a sexual aggressor "NO" clearly and firmly.
3. Try to remove yourself from the physical presence of a sexual aggressor.
4. Find someone nearby and ask for help.
5. Take affirmative responsibility for your alcohol intake/drug use and acknowledge that alcohol/drugs lower your sexual inhibitions and may make you vulnerable to someone who views a drunk or high person as a sexual opportunity.
6. Take care of your friends and ask that they take care of you. A real friend will challenge you if you are about to make a mistake. Respect them when they do.

If you find yourself in the position of being the initiator of sexual behavior, you owe sexual respect to your potential partner. These suggestions may help you to reduce your risk for being accused of sexual misconduct:

1. Clearly communicate your intentions to your sexual partner and give them a chance to clearly relate their intentions to you.
2. Understand and respect personal boundaries.
3. DON’T MAKE ASSUMPTIONS about consent; about someone’s sexual availability; about whether they are attracted to you; about how far you can go or about whether they are physically and/or mentally able to consent. If there are any questions or ambiguity then you DO NOT have consent.
4. Mixed messages from your partner are a clear indication that you should stop, defuse any sexual tension and communicate better. You may be misreading them. They may not have figured out how far they want to go with you yet. You must respect the timeline for sexual behaviors with which they are comfortable.
5. Don’t take advantage of someone’s drunkenness or drugged state, even if they did it to themselves.
6. Realize that your potential partner could be intimidated by you, or fearful. You may have a power advantage simply because of your gender or size. Don’t abuse that power.
7. Understand that consent to one form of sexual behavior does not automatically imply consent to any other forms of sexual behavior.

8. Silence and passivity cannot be interpreted as an indication of consent. Read your potential partner carefully, paying attention to verbal and non-verbal communication and body language.

In campus hearings, legal terms like “guilt,” “innocence,” and “burdens of proof” are not applicable, but the College never assumes a student is in violation of College policy. Campus hearings are conducted to take into account the totality of all evidence available, from all relevant sources.

The College reserves the right to take whatever measures it deems necessary in response to an allegation of sexual misconduct in order to protect students’ rights and personal safety. Such measures include, but are not limited to, modification of class schedule, interim suspension from campus pending a hearing, and reporting the matter to the local police. Not all forms of sexual misconduct will be deemed to be equally serious offenses, and the College reserves the right to impose different sanctions, ranging from verbal warning to expulsion, depending on the severity of the offense. The College will consider the concerns and rights of both the complainant and the person accused of sexual misconduct.

V. SEXUAL MISCONDUCT OFFENSES INCLUDE, BUT ARE NOT LIMITED TO:

1. Sexual Harassment;
2. Non-Consensual Sexual Contact (or attempts to commit same);
3. Non-Consensual Sexual Intercourse (or attempts to commit same); and

1. SEXUAL HARASSMENT:

   Sexual Harassment is
   • unwelcome, gender-based verbal or physical conduct that is,
   • sufficiently severe, persistent or pervasive that,
   • unreasonably interferes with, denies or limits someone’s ability to participate in or benefit from the College’s educational program and/or activities, and is
   • based on power differentials (quid pro quo), the creation of a hostile environment, or retaliation.

   Examples include: an attempt to coerce an unwilling person into a sexual relationship; to repeatedly subject a person to egregious, unwelcome sexual attention; to punish a refusal to comply with a sexual based request; to condition a benefit on submitting to sexual advances; sexual violence; intimate partner violence, stalking; gender-based bullying.

2. NON-CONSENSUAL SEXUAL CONTACT:

   Non-Consensual Sexual Contact is
   • any intentional sexual touching, however slight, with any object, by a man or a woman upon a man or a woman, that is without consent and/or by force.

   Sexual Contact includes:
   • Intentional contact with the breasts, buttock, groin, or genitals, or touching another with any of these body parts, or making another touch you or themselves with or on any of these body parts; any intentional bodily contact in a sexual manner, though not involving contact with/or/by breasts, buttocks, groins, genitals, mouth or other orifice.

3. NON-CONSENSUAL SEXUAL INTERCOURSE:

   Non-Consensual Sexual Intercourse is
   • any sexual intercourse, however slight, with any object, by a man or woman upon a man or a woman, that is without consent and/or by force.

   Intercourse includes:
   • vaginal penetration by a penis, object, tongue or finger, anal penetration by a penis, object, tongue, or finger, and oral copulation (mouth to genital contact or genital to mouth contact), no matter how slight the penetration or contact.

4. SEXUAL EXPLOITATION:

   Occurs when a person takes non-consensual or abusive sexual advantage of another for his/her own advantage or benefit, or to benefit or advantage anyone other than the one being exploited, and that behavior does not otherwise constitute one of the other sexual misconduct offenses. Examples of sexual exploitation include, but are not limited to:
   • invasion of sexual privacy;
   • prostituting another person;
   • non-consensual video or audio-taping of sexual activity;
• going beyond the boundaries of consent (such as letting your friends hide in the closet to watch you having consensual sex);
• engaging in voyeurism;
• knowingly transmitting an STI or HIV to another student;
• exposing one’s genitals in non-consensual circumstances; inducing another to expose their genitals; and
• sexually-based stalking and/or bullying may also be forms of sexual exploitation.

VI. ADDITIONAL APPLICABLE DEFINITIONS
• Consent: Consent is clear, knowing, and voluntary. Consent is active, not passive. Silence, in and of itself, cannot be interpreted as consent. Consent can be given by words or actions, as long as those words or actions create mutually understandable clear permission regarding willingness to engage in (and the conditions of) sexual activity.
• Consent to any one form of sexual activity cannot automatically imply consent to any other forms of sexual activity.
• Previous relationships or prior consent cannot imply consent to future sexual acts.
• Force is the use of physical violence and/or imposing on someone physically to gain sexual access. Force also includes threats, intimidation (implied threats), and coercion that overcome resistance or produce consent ("Have sex with me or I'll hit you. Okay, don't hit me, I'll do what you want.").
• Coercion is unreasonable pressure for sexual activity. Coercive behavior differs from seductive behavior based on the type of pressure someone uses to get consent from another. When someone makes clear to you that they do not want sex, that they want to stop, or that they do not want to go past a certain point of sexual interaction, continued pressure beyond that point can be coercive.
• NOTE: There is no requirement that a party resist the sexual advance or request, but resistance is a clear demonstration of non-consent. The presence of force is not demonstrated by the absence of resistance. Sexual activity that is forced is by definition non-consensual, but non-consensual sexual activity is not by definition forced.
• In order to give effective consent, one must be of legal age.
• Sexual activity with someone who one should know to be -- or based on the circumstances should reasonably have known to be -- mentally or physically incapacitated (by alcohol or other drug use, unconsciousness or blackout), constitutes a violation of this plan.

• Incapacitation is a state where someone cannot make rational, reasonable decisions because they lack the capacity to give knowing consent (e.g., to understand the “who, what, when, where, why or how” of their sexual interaction).
• This plan also covers a person whose incapacity results from mental disability, sleep, involuntary physical restraint, or from the taking of rape drugs. Possession, use and/or distribution of any of these substances, including Rohypnol, Ketamine, GHB, Burundanga, etc. is prohibited, and administering one of these drugs to another student is a violation of this plan. More information on these drugs can be found at: http://www.911rape.org/.

• Use of alcohol or other drugs will never function as a defense for any behavior that violates this plan.
• The sexual orientation and/or gender identity of individuals engaging in sexual activity is not relevant to allegations under this plan. For reference to the pertinent state statutes on sex offenses, please see Article 7A of Chapter 14 of the North Carolina General Statutes.

VII. STATEMENT
• Any student found responsible for violating the plan on Non-Consensual or Forced Sexual Contact (where no intercourse has occurred) will likely receive a sanction ranging from probation to expulsion, depending on the severity of the incident, and taking into account any previous campus conduct code violations.*
• Any student found responsible for violating the plan on Non-Consensual or Forced Sexual Intercourse will likely face a recommended sanction of suspension or expulsion.*
• Any student found responsible for violating the plan on sexual exploitation or sexual harassment will likely receive a recommended sanction ranging from warning to expulsion, depending on the severity of the incident, and taking into account any previous campus conduct code violations.*

*The conduct body reserves the right to broaden or lessen any range of recommended sanctions in the case of serious mitigating circumstances or egregiously offensive behavior. Neither the initial hearing officers nor any appeals body or officer will deviate from the range of recommended sanctions unless compelling justification exists to do so.

Housing
The College does not have housing facilities, but students should have no difficulty in locating satisfactory housing.
Inclement Weather Schedule

Information regarding the closing of the College because of inclement weather will be announced on local radio and television stations and is posted on Wake Tech's website. In the event that bad weather occurs after the opening of the College, announcement of the dismissal of classes will come from the administrative officer in charge at that time.

When Inclement Weather Hits:

- If the College is closed, all classes at all sites are cancelled.
- If evening classes are cancelled, all classes at all sites are cancelled.
- If the College is open but Wake County Public Schools (WCPSS) are closed, Wake Tech classes scheduled at Wake County Public School sites are cancelled.

You can determine if your classes are cancelled by:
1. Checking the Wake Tech website www.waketech.edu
2. Calling the college switchboard at 919-866-5000, or
3. Checking local media stations (radio or television) for the latest information.

Computer & Internet Acceptable Use Policy

College owned or operated computing resources are reserved for the educational, instructional, research, and administrative computing needs of the faculty, students, staff, and other individuals authorized by the College. The College's computing resources include, but are not limited to, all College computers and hardware, access to the Internet or access to any College intranet provided through College owned or operated computers, online and offline storage, network and communications facilities, telephone systems, and cellular telephone devices. Access to these computing resources is a privilege and, therefore, it is essential that all users exercise responsible ethical behavior when using these resources. Users are expected to read, understand, and comply with the College's Acceptable Use Policy.

The College monitors access to these computing resources and reserves the right, without prior notice to users, to access the College's computing resources and to use any and all information retrieved from the computing resources. Users do not have an expectation of privacy regarding their use of the computing resources, and by accessing and using the College's computing resources, users expressly consent to such monitoring, access, and use by the College. Further, information contained on the College's computing resources and in College accounts, including but not limited to e-mail, may be subject to inspection under the Public Records Law of the State of North Carolina.

The College does not attempt to articulate all required or unacceptable behavior by its users. Therefore, each user's judgment on appropriate conduct must be relied upon. To assist in such judgment, users will follow this policy:

1. College computing resources are to be used only for educational, research, or instructional purposes for which access is provided, and are not to be used for any unauthorized purpose, including but not limited to commercial purposes, unauthorized access to remote computers or non-College related activities.
2. An access account assigned to a user must not be used by any other individual. Users are responsible for the proper use of their accounts, including proper password protection and appropriate use of the College's computing resources. Obtaining another user's password, allowing friends, family, co-workers, work-study students, student workers, or any other individual use of your or another user's account, or other unauthorized use of an access account, is a serious violation of this policy.
3. Users shall not create, display, transmit, or make accessible threatening, racist, sexist, obscene, offensive, annoying or harassing language, e-mail messages, and/or material, including broadcasting unsolicited messages, sending unwanted e-mail, or impersonating other users. Remember - the College's policies against discrimination and harassment apply to communications through the College's computing resources.
4. All computer software is protected by federal copyright law. In addition, most software is proprietary and protected by legal licensing agreements. Users are responsible for knowledge of the licensing restrictions for any software used on the College's computing resources. Unless specifically granted permission, a user may not copy software, or use College-software software on anything but College-owned equipment.
5. Users shall not download, reproduce and/or distribute copyrighted or licensed materials without proper authorization from the author or creator. Additionally, users shall not publish information, messages, graphics, or photographs on any web page, without the express permission of the author or creator.
6. Users shall not engage in activities to damage or disrupt the hardware, software, or any communication associated with the College's computing resources, such as virus creation and propagation, wasting system resources, overloading networks with excessive data, or any attempt to circumvent data protection schemes or uncover security loopholes.
7. 

Users shall not waste, monopolize, interfere or misuse the College’s computing resources by, for example, requesting an excessive number of copies from a printer, playing games, or participating in chain letters or Ponzi schemes.

8. 

Users shall not access or damage any portion of the College’s computing resources or other College property, such as College records, or use the College’s computing resources for illegal activities.

9. 

Users may not connect personal or non-College-owned equipment to the campus network unless given specific authorization prior to the event. Users MAY connect laptops to smart classroom lecterns which were specifically designed for this purpose.

10. 

Students may not use employee computers. Most employee computers have access to the faculty/staff networks, colleague, and other sensitive data. For this reason, students may not use employee computers.

11. 

Users learning of the misuse of the College’s computing resources or violations of this Acceptable Use Policy should notify the Chief Information Officer or any employee of ITS immediately.

Enforcement

Failure to follow the Acceptable Use Policy and any misuse of the College’s computing resources may result in the suspension or revoking of access accounts. Employees violating the policy are subject to disciplinary action as deemed appropriate by their immediate supervisor. Students violating the policy are subject to an immediate grade penalty of “F” and will not be allowed to further participate in the class. All College policies and procedures are applicable to users of the College’s computing resources.

Any conduct, which violates local, state, or federal laws, will result in the immediate loss of all access to the College computing resources and will be referred to appropriate College offices and/or law enforcement authorities. Wake Technical Community College is not liable for actions of anyone connected to the Internet through the College’s computing resources. All users will assume full liability: legal, financial or otherwise, for their actions.

Website Policy

Official Public Web Site

WWW.WAKETECH.EDU (http://www.waketech.edu/) is the only official website of the college and as such must be administered by college officials and the college webmaster on servers maintained, or external services approved, by Wake Tech’s Information Technology Services area.

Student Portal

All information that pertains to current curriculum students only should be posted in the student portal.

Blogs

Blogs may be provided to certain entities upon request. All blog websites must reside on Wake Tech’s servers and must be the official responsibility of an employee with a key account. (Key accounts are used for login.) Blogs must be moderated by a faculty or staff member, although students may be permitted to edit blogs.

The Student Activities Department may request blogs for college clubs and organizations.

Social Networking/Supplemental Online Services

Wake Tech faculty and staff at department head level or higher may, with approval from the appropriate dean, use supplemental online services such as YouTube, Twitter, Facebook, MySpace, and others. Use of such services must be arranged through the webmaster, who will register an account with the social networking service requested, record the username and password, and notify the employee. (Username and password may not be changed.) The employee will be responsible for maintaining the service and may contact the webmaster for assistance as needed.

External Web Sites

Students, faculty, and staff are not permitted to use Wake Tech’s name or official logos, graphics, or information or to state or imply any official association with the college in websites they create outside of Wake Tech’s servers.

Violation of any of the above provisions will result in disciplinary action up to and including termination or expulsion.

Lost and Found

The purpose of this policy is to provide a standard procedure for the storage and disposal of lost or unclaimed items on the premises of Wake Technical Community College. Whenever possible, the owner of such items will be contacted first.

The following guidelines apply:

- Any lost or unclaimed item deemed unsafe or unsanitary will be discarded immediately.
- Food and other perishable items, lunch bags, and thermoses will be discarded after 24 hours.
ID cards and credit or debit cards will be shredded and discarded after 48 hours.
No lost or unclaimed items will be held longer than 30 days. After 30 days:
  - Clothing, backpacks, and other personal items will be donated to charity.
  - Cell phones and other personal electric devices will be recycled.
  - Cash will be returned to the person who turned it in or deposited in the student activities account.

Items valued at more than $200 (laptops, purses, jewelry, etc.) will be recorded in a log and locked in a secure storage area accessible only to an authorized WTCC employee. Items may be reclaimed only by someone providing identification and proof of ownership.

“Lost and Found” repositories are located in the reception areas on most campuses, with these exceptions: Main Campus repository is in the Student Services Building room 137; the Northern Wake Campus repository is located in Building D, room 206-B.

**Transportation**
Wake Technical Community College provides bus service for students between downtown Raleigh and the Main Campus. The bus stop on Main Campus is located in front of the Pucher Lemay Building. A schedule can be obtained in Holding Hall, Student Services, or the Individualized Learning Center.

**Solicitation**
Notice: No amendments, changes, or modifications may be made to this policy (Solicitation – RefID#1427) until August 1, 2014 prior to consultation with WTCC General Counsel 7/28/09

Solicitations occur in numerous forms, formats, and techniques. For the purposes of this handbook, solicitations are deemed to include, among other activities, attempts to address all or portions of the College community to express social, political, religious or other views; to disseminate written materials; or to request, accept, or collect donations or contributions.

Any individual, organization, agency, or group that desires to solicit on any property which is owned, leased, or operated under the jurisdiction of the College is required to comply with the procedures listed below.

A. **Expressive Activities**

1. **On-Campus Groups and Individuals**

   On-campus groups and individuals may reserve designated outdoor space for use in support of their activities. Arrangements for the use of outdoor space shall comply with campus reservation procedures and WTCC protocols.

2. **Off-Campus Groups and Individuals**

   a. **General provisions**

      Speakers will be granted access to designated areas so long as notice has been provided consistent with this policy, granting access will not conflict with any previously-scheduled events, and the designated area is not temporarily inaccessible or unsafe due to construction, act of God or similar cause. Access will not be denied because of a speaker’s viewpoint or the content of his or her speech. Access will be granted on a first-come, first-served, space-available basis.

      Gross, multiple, or continued violation of this solicitation policy will result in the soliciting party’s loss or suspension of future solicitation privileges on property which is owned, leased, or operated under the jurisdiction of the College.

   b. **Notice Requirement**

      Speakers must provide written notice to the Office of the President three business days in advance of an intent to speak. Click here for required form, Solicitation Request Form

      Upon arriving on campus, speakers must check in with the Office of Security Services.

   c. **Information Requirement**

      Speakers must provide the names of the persons who intend to speak on campus, the anticipated size of the group that will visit campus with the speaker, and the name, address and phone number of a responsible contact person who will be present on campus during the event.
Disclosure of this information is required to permit proper planning and will not be grounds for denying or abridging the right to engage in expressive activities in the designated area.

d. Designated Areas

The following areas are designated for expressive activities by off-campus groups and individuals:

i. Main Campus: the paved area directly outside and adjacent to the north corner of the Pucher-LeMay building

ii. Northern Wake Campus: the flagpole circle

e. Scheduling Limitations

At the beginning of the academic year, the President shall establish a schedule of two days per week for expressive activities by off-campus groups and individuals. These areas will be made available to any off-campus group or individual for up to three hours per day between 10:00 a.m. and 4:00 p.m.

In order to promote opportunities for a diversity of speakers, a speaker may not reserve the forum more than two weeks in advance.

3. Noise Restrictions

No sound amplification is permitted. Also noise levels that are reasonably likely to or do cause a material disruption to the learning environment or the normal administration or operation of the College are prohibited.

4. Grounds for Denial of Access or Removal from WTCC Property

Speakers will be denied access or removed from WTCC property for the following:

a. Failing to comply with this policy.

b. Communicating “fighting words” as defined in case law.

c. Advocating illegal conduct that is directed to inciting or producing imminent lawless action and is likely to incite or produce such action.

d. Touching, striking, or impeding the progress of pedestrians, except for incidental or accidental contact, or contact initiated by a pedestrian.

e. Photographing, audio recording, or videotaping any faculty, staff or student without first obtaining written permission from the person to be photographed, audio recorded or videotaped.

f. Engaging in disruptive or disorderly conduct that is reasonably likely to cause a material disruption to the learning environment or the normal administration or operation of the College.

g. Damaging, destroying or stealing College or private property on campus.

h. Possessing or using firearms, explosives, or dangerous weapons or substances.

i. Obstructing the free flow of pedestrian or vehicular traffic.

B. Distribution of Written Materials

Pamphlets, publications, advertisements, and any other such materials may not be distributed through any form of the College's internal mail system. Such materials may, however, be distributed by hand at such time(s) and at such location(s) as may be designated in writing by the College President, so long as the group or individual has complied with the requirements of Section A above. Distribution of written materials will not be denied based solely on the content or the viewpoints expressed in the materials.

Any individual, organization, agency, or group that distributes written materials on any property which is owned, leased, or operated under the jurisdiction of the College shall reimburse the College for any of the College’s internal or external clean-up costs associated with the distribution of such materials.

C. Posting of Messages or Materials

It is expressly prohibited for any individual, agency, organization, or group not officially affiliated with the College to use any surface such as walls, bulletin boards, trees, or the like located on any property owned, leased, or operated under the jurisdiction of the College to display any written or otherwise visual materials.
D. Commercial Use of Bulletin Boards
The College provides some bulletin board space for its students and employees to advertise or request goods and services. Other than such limited use by the College’s students and employees, bulletin boards located on any property that is owned, leased, or operated under the jurisdiction of the College may not be used for commercial purposes.

E. Donations and Contributions
On-campus individuals, organizations, and groups may solicit, accept, or collect donations or contributions on property which is owned, leased, or operated under the jurisdiction of the College for not-for-profit activities only. Prior to engaging in any such activities, individuals, organizations, and groups who desire to solicit, accept, or collect donations or contributions shall request permission in writing from the Office of the College President.

F. Goods and Services
Students who desire to solicit on any property that is owned, leased, or operated under the jurisdiction of the College to provide goods or services must make their request in writing to the Dean of Students. The request must contain a full description of the activity as to time, benefit, etc., in order to be considered. The decision as to whether such request will be allowed or denied and any conditions attached thereto shall be within the Dean’s discretion. The Dean shall respond to all such requests in writing within five (5) working days from the date the request is received. All other individuals, organizations, agencies, or causes are prohibited from canvassing, selling, offering for sale, soliciting, or promoting the sale or advancement of any goods or services on any property which is owned, leased, or operated under the jurisdiction of the College.

Click here for required form, Solicitation Request Form

END SOLICITATION POLICY –

CAMPUS USE POLICIES
Students have a right to use all resources and facilities of the College during normal operating hours with the proper authorization. Students may not utilize resources and facilities of the College after hours without prior official approval and without faculty supervision. The security personnel must be notified under these unusual circumstances.

Cell Phones
Students may not engage in any activity that is disruptive to orderly classroom instruction, without limitations to the use of cell phone or pager calls; students are therefore required to disengage all such devices when in a classroom.

Student Dress and Hygiene
Students are not allowed in any campus facility without shoes and shirts. Caps and hats should not be worn in any classroom. Underclothing must not be visible.

In addition, students must meet the specific dress requirements of their programs of study, including uniforms or personal protective equipment such as goggles, shields, etc., required in laboratory and shop settings. Students in violation of dress policies may be subject to corrective action, including removal from the setting.

Students’ overall personal appearance must reflect cleanliness and good grooming. If a student’s dress or hygiene interferes with the learning process, the student’s instructor will counsel the student. Repeat offenses will result in referral to the Dean of Students.

Emergency Exit Procedures
If the need should arise to evacuate a building because of fire or other impending danger, a general alarm will be sounded. When such an alarm is sounded, individuals should leave the building by way of the nearest exit. Individuals should become familiar with posted evacuation routes.

Food and Beverages
Food and beverages are not permitted in classrooms, laboratories, shops, learning centers, libraries, or in any instructional area. This policy applies at all Wake Tech campuses, community school locations, and other facilities.

Health and Safety
Insurance and Accidents
The College cannot assume responsibility for injuries or losses sustained on or off campus by any student. Accident insurance is included in the Student Administration fee for all curriculum students.

All students covered by the insurance policy are responsible for reading the Student Accident Insurance Brochure (Policy) and following the claim procedures. After the accident has been reported and logged with campus security, the student may present a copy of any itemized medical bills to the Office of the Registrar, to receive an Accident Insurance Claim form. The
Office of the Registrar will not release an Accident Insurance Claim form until receipt of the accident report from campus security. The accident claim must be filed within 90 days of treatment for any injury.

The College requires each person enrolling in a Health Sciences curriculum to have student malpractice liability insurance coverage in the amount of $2,000,000/ $5,000,000. This professional liability insurance may be purchased from most local insurance agencies or through a blanket liability insurance program at the College. Proof of coverage must be presented at the time of registration by providing the policy or certification of insurance. In the absence of proof of coverage, students enrolled in a Health Sciences curriculum are required to purchase professional liability insurance through the College’s blanket liability insurance program at the time of registration. Students participating in sports activities are required to have accident insurance. Additional personal injury insurance may be required for the athletics program.

Health and Safety Program Responsibility
The responsibility for the organization, supervision, personnel training, and evaluation of an institutional program of health and safety has been assigned to the Facilities Engineer or a designee.

Notification of Accidents
Notification procedures for all accidents involving students and visitors are as follows:

- Students and visitors should notify campus security at 919-866-5911 of all accidents that occur on any Wake Technical Community College campus facility.
- Campus security will complete an incident report for all accidents and forward documentation to the appropriate service areas for accident insurance, facility maintenance, etc.

Administering of First Aid
From time to time students, employees, or visitors could be injured during the course of regular College activities. In the event of minor scratches and abrasions, first aid may be administered by College employees who are responsible for areas in which first aid kits are located. Only the supplies in the kits should be used, and in no circumstances should any medication be provided for oral consumption. Security Officers on any campus will assist and administer first aid and can be contacted at the College emergency number, 919-866-5911.

In the case of more severe injuries, employees on the scene should call 911 and then contact campus security at 919-866-5911. Security will assist the injured party and arrange for the arrival of emergency medical personnel. Security will fill out an incident report and forward to the Director of Security Services for appropriate action.

The decision to call Emergency Medical Services or other medical personnel rests with the Director of Security Services or his/her designee and the injured party. The College will make appropriate efforts to secure transportation for the sick or injured student, employee, or visitor. The College will not transport nor assume responsibility for the transport of other sick or injured persons.

Media Coverage of College Activities
As a public, tax-supported community college, Wake Technical Community College complies with public information law and works with news media to provide coverage of news about the College. Occasionally, media representatives may visit College classrooms to interview and photograph students. The College welcomes these opportunities and respects the rights of students who may not wish to be interviewed or photographed. Students may be excused from classroom activities, without question, while photographs or video images are recorded.

Off-Campus Sites
Many credit and non-credit courses are scheduled at community schools and other locations county-wide. All rules and regulations of Wake Technical Community College apply at off-campus sites in addition to any rules and regulations specified by those sites.

Pets
Pets, including but not limited to dogs and cats, create several conditions the College is not equipped to handle. Pets may carry and spread parasites. Pets of any type may not be brought on campus. This policy is in no way intended to restrict access to the campus for animals specifically trained to aid individuals with disabilities.

Skate Boarding/Rollerblading
Skate boarding and rollerblading are not allowed on any Wake Technical Community College campus or site.

Smoking/Tobacco-Free Campus
Wake Technical Community College recognizes that the use of tobacco products is a health, safety, and environmental hazard for students, employees, visitors, and college facilities. The College believes that the use of tobacco products on college grounds, in college buildings and facilities, on college property, and at college-sponsored events is detrimental to the health and safety of students, employees, and visitors. The College takes seriously its obligation to provide a healthy...
No student, employee, or college visitor is permitted to use any tobacco product at any time, including during non-college hours:

- in any building, facility, or vehicle owned or leased by Wake Technical Community College;
- on any college grounds or property – including athletic fields and parking lots – owned or leased by Wake Technical Community College; or
- at any College-sponsored or college-related event, on campus or off campus.

In addition, college employees, college volunteers, contractors, or other persons performing services on behalf of the College also are prohibited from using tobacco products at any time while on duty and in the presence of students, either on or off college grounds.

Further, no student is permitted to possess a tobacco product while in any college building, on college grounds or property, at a college-sponsored or college-related event, or at any other time during which students are under the authority of college personnel.

Tobacco products may be included in instructional or research activities in college buildings if the activity is conducted or supervised by the faculty member overseeing the instruction or research and if the activity does not include smoking, chewing, or otherwise ingesting the tobacco product.

For the purposes of this policy, “tobacco products” are defined as cigarettes, cigars, blunts, pipes, chewing tobacco, snuff, and any other items containing or reasonably resembling tobacco or tobacco products. “Tobacco use” includes smoking, chewing, dipping, or any other use of tobacco products.

Signs shall be posted in a manner and location to provide sufficient notification to students, employees, and visitors of the 100 percent tobacco-free college policy.

Wake Tech shall communicate the tobacco-free policy through a comprehensive campaign that shall include printed information in student and employee handbooks, announcements at college-related events, and appropriate signage in buildings and around campus. Likewise, an enforcement protocol, identifying consequences for students, employees, and visitors who violate the policy, shall be created and communicated to all.

Wake Tech shall encourage students and employees to abstain from and/or cease smoking and the use of tobacco products. In consultation with health agencies, the administration shall offer students and employees information about tobacco and its impact on health and safety as well as access to appropriate support programs and services.

Any student who violates the terms of this policy will receive a reprimand upon his or her first offense. If a second offense occurs, the student will be placed on general probation and required to meet with the Dean of Students. A third offense by the student will incur suspension from the College for three calendar days (weekends and holidays excluded). The student will be suspended for a semester if he or she subsequently violates the terms of the Tobacco-Free Policy.

Any employee who violates the terms of this policy will receive a written warning upon his or her first offense. If a second offense occurs, the employee will be placed on probation. Any employee who subsequently violates the terms of the Smoking/Tobacco-Free Policy will be terminated.

Student Centers have been established on all Wake Tech campuses to allow students to study, relax, and get refreshments between classes. The centers provide TV, a lounge area, a cafeteria, and other services, depending on the needs of each campus location. Student Centers are located on the Main Campus (Student Services Building), the Northern Wake Campus...
When using the Wake Tech Student Centers:

Keep noise of all kinds to a minimum.
- Talk quietly
- Use earphones for electronic devices
- Do not play musical instruments unless authorized for a special event

Help to keep centers clean and accessible for all.
- Place trash and recyclables in appropriate receptacles
- Do not move furniture or tamper with equipment not designated for student use

Respect yourself and others.
- Wear appropriate clothing, including shirts and shoes
- Refrain from profane or obscene language and behavior
- Do not engage in violent or aggressive behavior of any kind, including hitting, wrestling, play fighting, or throwing objects

Failure to comply with the guidelines above will result in the loss of student center privileges for one week. A second offense will result in loss of privileges for one semester.

Telephone Calls
Public telephones are conveniently located on all campuses for students desiring to make telephone calls. A courtesy phone for student use is located on the Main Campus in the Student Services building, in the Student Development Office, 128. On the Northern campus a courtesy phone is located at the front desk in the lobby of Building A.

Students are not permitted to use any other office telephones for personal calls. Since the College does not have access to an intercom system or a messenger service, staff members will not deliver a message to a student unless it is determined to be an emergency. In an emergency, an individual who calls for a student must state the nature of the emergency; someone in Security Services will look up the student's schedule and attempt to contact him/her immediately.

Traffic Rules and Regulations
Ordinance Governing Traffic, Parking, and Registration of Motor Vehicles
Be it resolved that, pursuant to the authority vested in it by Chapter 115D-21 of the General Statutes of North Carolina, the Board of Trustees of Wake Technical Community College adopts and records in its proceedings the following rules governing parking, traffic, and registration of motor vehicles on the campuses of Wake Technical Community College. These regulations are intended only to supplement the Motor Vehicle Laws of North Carolina, all provisions of which, under the terms of the above statute, now apply to the campuses of Wake Technical Community College. From the date of filing of these regulations in the Office of the Secretary of State, they shall apply to and be in effect on the streets, roads, alleys, sidewalks, walkways, parking spaces, parking areas, and parking lots on all parts of the campuses of Wake Technical Community College.

Revised June 2011
http://facilities.waketech.edu/parkingtraffic.php

Article I. General Provisions

Section 1. Definitions
Abandoned vehicle: a motor vehicle that has remained parked for more than 10 days, which is determined to be "derelict" under North Carolina General Statute 20-137.7.

Employees: faculty members, administrative staff, clerical personnel, and all other non-student personnel employed by the college (including temporary, permanent, part-time, and full-time employment).

No parking area: any area not specifically marked, striped, or designated for parking.

Parking area: any area specifically set aside, marked, or assigned by Facility Services for the parking of vehicles, either permanently or temporarily.

Repeat offender: any person committing three (3) or more traffic or parking violations within an academic year.
Student: anyone registered or enrolled in full- or part-time academic study who is not an employee.

Visitor: anyone not identified as an employee or student according to the definitions above.

Section 2. Authority
As approved by North Carolina General Statutes, Chapter 115D-21, the Board of Trustees of Wake Technical Community College through their designee, Facility Services, shall be responsible for the registration, flow, and parking of vehicles on property owned or leased in whole or in part by the State of North Carolina and under control of the Board of Trustees of Wake Technical Community College. Notwithstanding the above, the Registrar shall be responsible for the registration of student vehicles. The provisions of the regulations shall apply to the operators of all vehicles operated on any Wake Tech campus and shall be in effect 24 hours a day, except as herein provided.

Wake Tech’s Facility Services Office, as authorized by this Ordinance and the Board of Trustees, shall exercise discretion and authority in ensuring that the necessary business of the college is conducted properly; and that parking areas and facilities on Wake Tech campuses are used for the benefit and convenience of students, faculty, staff, and visitors.

Liability: Wake Technical Community College assumes no liability or responsibility for damage to or theft of personal property or of any vehicle parked or in operation on the properties leased by or under the control of the Board of Trustees of the College.

Section 3. Violation of Ordinance
In addition to the criminal penalties set out by the North Carolina General Statutes, any person violating this or any regulation issued hereunder is subject to a civil penalty as set forth in this Ordinance.

Rules of Evidence: When a vehicle is found to be in violation of this Ordinance, it shall be considered prima facie evidence that the vehicle was parked:

1. by the person holding the College parking permit for that vehicle, or
2. by the person on file as owner of said vehicle with the North Carolina Division of Motor Vehicles or corresponding agency of another state.

Article II. Vehicle Registration and Parking Permits

Section 1. Permit Eligibility
General Provision: All faculty, staff, and students in good standing with the college are eligible for and may obtain a parking permit. Motor vehicles parked on campus by students, faculty, or staff must be registered with the college and must display a valid, official (Wake Tech-issued) vehicle parking permit.

Handicapped Parking Permits: All faculty, staff, and students in good standing with the college who possess a valid "handicapped placard" or "distinguishing license plate" issued to them pursuant to North Carolina General Statute 20-37.5 are eligible for and must obtain a distinguishable Handicapped Parking Permit from the college, as follows:

1. Complete a Wake Tech Vehicle Registration card; and
2. Present the registration card for the handicapped parking placard or distinguishing license plate that has been issued pursuant to North Carolina General Statute 20-37.5

Parking permits become invalid under the following conditions:

- Ownership of the vehicle is transferred to another person or entity.
- The permit holder's association with the college ends.
- The time period for which the permit is issued expires.
- The permit holder is issued another permit relating to the same vehicle.
- The permit holder's parking privileges are forfeited as a result of disciplinary sanctions.
- The permit holder commits three (3) or more traffic or parking violations in an academic year.

Section 2. Registration of Motor Vehicles.
Faculty/Staff vehicles must be registered through the Personnel Records Office. There is no cost to employees for vehicle registration and no limit on the number of vehicles that can be registered.
Faculty/Staff parking permits are for the exclusive use of employees and do not entitle friends or relatives of employees to park in staff spaces, even with the permit. Faculty/Staff parking permits need not be renewed unless worn or illegible.

Student vehicles must be registered as part of the routine college registration process. In order to obtain a parking permit, you will be required to provide your vehicle license plate number and the state in which the vehicle is registered. Vehicles brought onto campus after the college registration period has ended must be registered promptly. Students registered for classes at the Health Sciences Campus must obtain an entry key card for the parking deck.

Student parking permits will be issued in conjunction with student identification badges.

Faculty, staff, and students who have been issued a vehicle registration permit are responsible for parking violations involving the vehicle for which that permit has been issued.

Temporary parking permits must be obtained when a permit holder’s vehicle is unavailable and he/she drives and parks another vehicle on campus.

Parking permits must be properly displayed on the vehicles for which they have been issued. Four-wheel vehicles must display permits on the left side of the rear window; two-wheel vehicle permits must be displayed on the rear of the vehicle.

Visitors (as defined in Article I) to any campus must obtain a temporary parking permit from the reception desk and may park in spaces designated for visitor or general parking only.

Article III. Parking and Traffic Rules and Regulations

Section 1. General Provision
Faculty, staff, and students are subject to discipline in accordance with the provisions of this Ordinance and Wake Tech policy and procedure.

Section 2. Rules and Regulations
- No vehicle shall be driven in a careless or reckless manner or in a direction opposite to that indicated by appropriate signs or markings on roadways that are designated as one-way streets.
- Wake Tech campuses shall be deemed business districts, with a speed limit of 20 miles per hour.
- Vehicles parking in non-parallel parking spaces shall be parked with the front end of the vehicle at the angle to the curb indicated by marking or signs, and no vehicle shall be parked in such a manner as to occupy more than one space.
- All vehicles must park in the direction of the flow of the traffic pattern.
- Vehicles parking in a designated handicapped parking space must display a valid handicapped placard or distinguishable license plate issued to the operator or passenger (pursuant to North Carolina General Statute 20-37.5) and a valid college handicap decal. Any person parking in a designated handicapped parking space must comply with the requirements of North Carolina General Statute 20-37.6, “Parking privileges for handicapped drivers and passengers."
- Parking is prohibited as follows: on a sidewalk or walkway; along the main driveway entering the college; in the driving lanes of parking areas; in loading or unloading areas; in fire lanes; on grass or landscaped areas; in approaches or other portions of parking areas that are not clearly marked for parking.
- No faculty, staff, or student vehicle may be parked in spaces specifically reserved for certain persons or functions.
- Agents authorized by Wake Tech administration have authority to remove to a place of storage or boot any vehicle illegally stopped, parked, or abandoned, at the vehicle owner’s expense.

Section 3. Enforcement
The College shall reserve the right to revoke any parking privileges and to remove a repeat offender's valid parking permit for flagrant violation of the Traffic Rules and Regulations, including failure to pay fines.

Fines
The Accounting Office is hereby authorized to collect a $5 fine for any of the following violations:
- Back-in parking in parking space
- Driving in a hazardous manner
- Driving wrong way in drive lanes
Failure to display current parking decal
Failure to register vehicle
Failure to heed stop or yield sign
Improper display of parking decal
Parking in manner creating a hazard
Parking in more than one parking space
Parking in non-parking space
Parking in unauthorized space
Parking incorrectly in space

The Accounting Office is hereby authorized to collect a **$250.00** fine for violation of handicap parking rules and regulations.

The Accounting Office is hereby authorized to collect a **$50.00** administrative fee for removal of a boot from any vehicle.

**Towing**
The Director of Security Services is hereby authorized to have towed or place a boot on (or other lawful means of enforcement) any vehicle in violation of rules and regulations, as follows:

- unauthorized parking in a handicapped space
- unauthorized parking in reserved space
- parking in area not designated for parking
- repeated violation of the parking rules
- parking in a manner that creates a hazard
- abandoned vehicles

In addition to any fine assessed for a violation of this Ordinance, the owner of a vehicle that is towed from the College is responsible for payment of any towing and/or storage fee charged for such towing.

**Notice of North Carolina State Law Concerning Towed Vehicles**
Wake Tech provides a petition/appeal procedure for towing and parking violations.

Additionally, North Carolina G.S. 20-219.11 provides the following:
Whenever a vehicle with a valid registration plate or registration is towed as provided in G.S. 20-219.11, the authorizing person shall immediately notify the last known registered owner of the vehicle of the following:

- a description of the vehicle;
- the place where the vehicle is stored;
- the violation with which the owner is charged, if any;
- the procedure the owner must follow to have the vehicle returned to him; and
- the procedure the owner must follow to request a probable cause hearing on the towing.

The owner or any other person entitled to claim possession of the vehicle may request in writing a hearing to determine if probable cause existed for the towing. The request shall be filed with the magistrate in the county where the vehicle was towed. The magistrate shall set the hearing within 72 hours of his receiving the request.

The only issue at this hearing is whether or not probable cause existed for the towing. If the magistrate finds that probable cause did exist, the tower's lien continues. If the magistrate finds that probable cause did not exist, the tower's lien is extinguished. Any aggrieved party may appeal the magistrate's decision to district court.

For a more complete explanation of the above procedure, refer to North Carolina General Statutes, Chapter 20-219.11.

**Section 4. Suspension of Parking Privileges**
The Director of Security Services may, in addition to any other penalty, suspend for up to one year the parking privileges of any individual found to be a repeat offender in flagrant violation of this Ordinance.

**Section 5. Failure to Settle Fines, Fees, and Charges**
Failure to settle outstanding traffic and parking fines, fees, and charges within fourteen days after issuance of a citation may result in the collection of fees in the following manner.

- Penalties owed by faculty members and other employees of the college may be deducted from payroll checks.
• Penalties owed by students will be forwarded to the Registrar and a hold will be placed on the student's records until the penalties are paid.

Section 6. Petition/Appeal Procedure
Individuals issued a parking or traffic citation may appeal by returning a Traffic Violation Appeal form to the Traffic Appeals Review Board within seven (7) calendar days, excluding official college holidays, of the date of the citation. The right to appeal a citation is waived upon expiration of the 7-day period; no untimely appeals will be accepted for review.

Appeal forms are available at the reception desk on all Wake Tech campuses.

Unless otherwise specified in this section, the appeal and all arguments in support of the appeal will be submitted in writing. The Traffic Appeals Review Board Administrator shall review the appeal, considering the written statement of the appellant and relevant documents submitted by the Director of Security Services, and respond by mail to the address provided on the appeal form.

Appeal Hearings
Individuals whose driving or parking privileges are suspended or revoked or whose vehicle is towed will be allowed to appear before the Traffic Appeals Review Board and provide relevant information in addition to the information provided in writing. A written request for an appeal hearing must be submitted directly to the Director of Security Services and received within 14 days of the date of the decision giving rise to the appeal. The individual will be notified in writing of the hearing date, time, and location. Each person is permitted one continuance of the hearing if he/she is unable to attend on a specified date.

The Traffic Appeals Review Board
The Board will consist of a Traffic Appeals Review Board Administrator, one faculty member, one staff member, and two student members. The President of the Faculty Association will appoint the faculty member. The President of the Staff Council will appoint the staff member. The Student Government Association President will appoint student members. The term of office will be for one year, September to August, with no limit to the number of terms served. Members will serve until successors are appointed. The Director of Security Services or his designee may attend each hearing to clarify any operational questions that may arise.

The Board Administrator will chair the hearing: bring the hearing to order and introduce the appellant, provide written or oral summation of the ruling, disperse completed appeal forms to each member of the board, maintain time restrictions with regard to testimony, dismiss the appellant, and call for a vote from each member of the Board. The Board Administrator will make note of the decision regarding the appeal. The Administrator is a non-voting member of the Board, except when it is necessary to break a tie vote.

The Board will meet as necessary. The Board Administrator is responsible for notifying the appellant and Board members of the time, date, and location of the hearing. In emergency situations (such as a student not being allowed to register for classes or an employee not receiving an employment contract due to pending traffic appeals) and between regularly scheduled meetings of the Traffic Appeals Review Board, the Board Administrator may render decisions on traffic appeals.

Decisions of the Traffic Appeals Review Board are final, except as otherwise provided by college policy and procedure. If an appeal is denied, payment of the fine is due immediately.

Section 7. Judgment Factors
• All facts stated on the appeal form and presented by the appellant.
• Any information provided by the Director of Security Services to include previous violations records.
• Information noted on the parking violation notice.
• The issuing officer's testimony.
• The rules and regulations of this Ordinance.

Remember to check the online College Catalog for the most up-to-date information at http://catalog.waketech.edu
I. GENERAL

This section covers student conduct, rights, and responsibilities while pursuing an education at Wake Technical Community College. Wake Tech has specific expectations regarding student conduct. The college is a learning community with the goal of providing a safe and healthy environment that facilitates the Wake Tech mission and promotes the core values of respect, responsibility, communication, collaboration, critical thinking, and accountability.

When a student’s conduct adversely affects the learning environment or the pursuit of Wake Tech’s educational objectives, action will be taken to first resolve the problem and secondly to assist students in learning from mistakes. Discipline issues will be resolved informally whenever possible.

II. RIGHTS AND RESPONSIBILITIES

The submission of an application for admission to Wake Technical Community College represents a voluntary decision on each student’s part to participate in the programs offered by the institution pursuant to its policies, rules, and regulations.

College acceptance of the application represents the extension of a privilege to join the college community and to remain a part of it, as long as the required academic and conduct standards are met.

Each student has the privilege of exercising the following rights without fear or prejudice, as long as respect is given to federal and state laws, policies of the college, and the rights of others on campus:

A. Students are free to pursue educational goals through appropriate opportunities for learning in the classroom and on the campus. Student performance will be evaluated on an academic basis, not on opinions or conduct matters unrelated to academic standards.

B. Students have the right to freedom of expression, inquiry, and assembly without restraint or censorship, subject to reasonable and non-discriminatory rules and regulations regarding time, place, and manner.

C. Students have the right to inquire about and to propose improvements to policies, regulations, and procedures affecting their welfare through established student government procedures, campus committees, and college offices.

D. Students have the right to expect that their official college records will be safeguarded. The Family Educational Rights and Privacy Act of 1974 (as amended) provides safeguards regarding confidentiality of and access to student records. Students and former students have the right to review their official records and to request a hearing if they challenge the contents of these records. Other than directory information, no records shall be made available to unauthorized personnel or groups inside or outside the college without the consent of the student involved, except under legal compulsion.

E. Students have the right to expect a safe environment that ensures the continuity of the educational process.

F. Students have the right to appeal academic penalties – See Section V.

G. Students have the right to appeal disciplinary actions – See Section V.

H. Students have the right to a fair hearing of grievances – See Section VI.

I. Students have the right to appeal course grades – See Section VIII.

III. ACADEMIC INTEGRITY POLICY

A. Expectations

When college officials award course credits, degrees, diplomas, and certificates, they assume integrity on the part of the student who has completed the work. Wake Technical Community College expects students to demonstrate the highest personal integrity in all academic work and behavior. Effective education depends on an atmosphere that is conducive to learning, based on a commitment to honesty, trust, fairness, respect, and individual responsibility. Creating such an atmosphere is the responsibility of students and instructors and requires integrity on the part of both. Students may be asked to sign a statement of academic integrity upon entering Wake Tech classes.
Cheating and plagiarism, as defined below, are forms of academic dishonesty that violate the integrity of the academic process.

B. Violations of the Academic Integrity Policy

1. **Cheating**, including:
   a. receiving, giving, or helping another student receive or give any information during a quiz, test, examination, or individual assignment;
   b. using unauthorized materials or equipment during a quiz, test, or examination, e.g., notes or books;
   c. communicating the subject matter or contents of a quiz, test, or examination to another student unless specifically authorized by the instructor to share it;
   d. taking a quiz, test, or examination for another student;
   e. obtaining quiz, test, or examination questions beforehand;
   f. tampering with the grading of a quiz, test, or examination; or
   g. working with others in completing take-home quizzes, tests, examinations, or individual assignments unless the instructor specifically authorizes collaborative work.

2. **Plagiarism**
   Plagiarism is stealing, or passing off as one's own, the ideas or words of another person. When students present others' words or ideas in a written assignment, they must document the source(s), as described in the MLA Handbook or as directed by the instructor of the course. Plagiarism also includes:
   a. having another person write a paper and submitting it as one's own;
   b. copying all or part of a paper from another student or another source, such as the internet; or
   c. allowing another person to copy one's work.

3. Buying, selling, stealing, or soliciting any materials purported to be unreleased contents of a forthcoming examination, quiz, test, or project/assignment or the use of such material.

4. Substituting for another person in any of the above-mentioned situations or allowing another person to substitute for oneself.

5. Collusion with another person in the preparation or editing of assignments submitted for credit, unless such collaboration has been approved in advance by the instructor.

6. Knowingly furnishing false information to the college; forgery, alteration and or use of college documents or instruments of identification with the intent to defraud.

C. Disciplinary Actions

The following disciplinary actions may be imposed by an instructor or college official for violation of the Academic Integrity Policy. A copy of any written warnings or reprimands should be forwarded to a student conduct officer for appropriate recordkeeping.

1. **Admonition**: A warning to the student that the behavior is unacceptable and that if the pattern of behavior continues, the student will face disciplinary action up to and including suspension from the college. Verbal warnings shall be documented by the instructor or college official and included as evidence in the event of subsequent violations.
2. **Reprimand:** A reprimand is a written communication which gives official notice to the student that a violation of the Student Code has occurred and that any subsequent violation of the Student Code may carry heavier penalties because of this prior infraction.

3. **Emergency (Interim) Suspension:** Instructors or college officials may impose interim suspension for conduct that poses a threat to the health or well-being of any member of the academic community or the activities of the college.
   a. Interim suspension shall not exceed more than two class periods. Instructors must notify their department head or next ranking available supervisor immediately upon suspending a student.
   b. A completed form 1069 should be submitted to a student conduct officer within 24 hours of the suspension.
   c. Any student who receives an interim suspension must meet with a student conduct officer or designee prior to returning to class.
   d. If readmission to class is permitted, the student conduct officer or designee will give the student a class readmission notice. Instructors who have not received notification of a suspended student’s return to class may deny entry until such notification is received.

D. **Academic Penalties**

The following academic penalties can be imposed by an instructor, a department head, or a division dean for violation of the Academic Integrity Policy:

1. Loss of Grade: A zero for the assignment.
2. Loss of Credit: An "F" for the course and loss of rights to attend the remaining class sessions.

Written notice of any academic penalty must be submitted on form 1069 to a student conduct officer for appropriate recordkeeping.

IV. **STUDENT CODE**

Students are expected to conduct themselves in accordance with generally-accepted standards of scholarship and conduct. The purpose of the Student Code of Conduct (the Student Code) is not to restrict student freedom but to protect the rights of all students in their academic pursuits.

A. **Prohibited Conduct**

   Students are prohibited from engaging in any conduct which materially and adversely affects the educational process, including the following:

1. Violation of the Academic Integrity Policy.
2. Disruption or obstruction of teaching, research, administration, disciplinary proceedings, or other college activities.
3. Theft of, misuse of, or intentional damage to college property; or theft of or damage to property of a member of the college community or a campus visitor on college premises or at college functions.
4. Trespassing, including unauthorized entry or presence on the property of the college or in a college facility or any portion thereof to which entry or presence has been restricted.
5. Violation of the Drug and Alcohol Policy.
6. Lewd or indecent conduct on college premises or at college-sponsored or college-supervised functions.
7. The use of profane, lewd, or obscene speech or like expressive behavior (including the wearing of clothing displaying such language, pictures, or symbols); the use of defamatory or racist speech or like expressive
behavior; or the use of any speech or behavior implying a physical threat or likely to provoke violence or retaliation in person or via electronic means, including but not limited to texting, email, and social networking sites.

8. Mental or physical abuse of any person on college premises or at college-sponsored or college-supervised functions, including verbal or physical actions which threaten or endanger an individual’s health or safety.

9. Violation of the Sexual Harassment Policy.

10. Intentional obstruction or disruption of teaching, administration, or disciplinary proceedings or other college activities, including public service functions and other duly-authorized activities, on college premises.

11. Occupation, refusal to depart, seizure, commandeering or threatening to do so in any manner of college property, a college facility, or any portion thereof for a use inconsistent with prescribed, customary, or authorized use.

12. Participating in or conducting an assembly, demonstration, or gathering in a manner which threatens or causes injury to persons or property; which interferes with free access to, ingress, or egress of college facilities; which is harmful, obstructive, or disruptive to the functions of the college; remaining at the scene of such an assembly after being asked to leave by a college official.

13. Possession of firearms, fireworks, explosives, incendiaries, knives of any kind, and other types of weapons on college property or at any college function (except in connection with a college-approved activity).

14. Setting off a fire alarm or using or tampering with fire safety equipment on college premises or at college-sponsored or college-supervised functions, except with reasonable belief in the need for such alarm or equipment.

15. Gambling or unauthorized raffles on college premises or at college-sponsored or college-supervised functions.

16. Smoking and/or use of any forms of tobacco products and e-cigarettes on all properties owned or rented by the college.

17. Violation of college regulations regarding the operation and parking of motor vehicles.

18. Forgery, alteration, or misuse of college documents, records, or instruments of identification with intent to deceive.

19. Failure to comply with instructions of college officials acting in performance of their duties.

20. Violation of the terms of disciplinary probation or any college regulation during the period of probation.

21. Fiscal irresponsibility, such as failure to pay college-levied fines, failure to repay college-funded loans, or the passing of worthless checks to college officials.

22. Violation of a local, state, or federal criminal law on college premises adversely affecting the college community’s pursuit of its proper educational purposes.

23. The unauthorized access or attempt to access, manipulation, or retrieval of files, programs, or data from any college computer system.

24. Disruption, disturbance, or interference with any classroom activity or staff operation by the playing of loud, threatening, or obscene music.

25. Engaging in any action that is disruptive to orderly classroom instruction without limitations to the use of cell phones or pager calls; students are therefore required to disengage all such devices when present in a classroom.
26. Engaging in any action that is disruptive or in violation of established rules and regulations regarding use of college areas, including but not limited to computer labs, library, ILC, student lounges, and cafeteria.

27. Willfully encouraging others to commit any of the acts that have been herein prohibited.

B. Disciplinary Penalties for Violations of the Student Code

The following disciplinary actions may be imposed by an instructor or college official for violation of the Student Code. A copy of any written warnings or reprimands must be forwarded to a student conduct officer for appropriate recordkeeping.

1. **Admonition**: A warning to the student that the behavior is unacceptable and that if the pattern of behavior continues, the student will face disciplinary action up to and including suspension from the college. Verbal warnings will be documented by the instructor or college official and included as evidence in the event of subsequent violations.

2. **Reprimand**: A written communication which gives official notice to the student that a violation of the Student Code has occurred and that any subsequent violation of the Student Code may carry heavier penalties because of this prior infraction.

3. **Emergency (Interim) Suspension**: Instructors or college officials may impose interim suspension for conduct that poses a threat to the health or well-being of any member of the academic community or the activities of the college.
   
   a) Interim suspension will not exceed more than two class periods. Instructors must notify their department head or next ranking available supervisor immediately upon suspending a student.
   
   b) A completed form 1069 must be submitted to a student conduct officer within 24 hours of the suspension.
   
   c) Any student who receives an interim suspension must meet with a student conduct officer or designee prior to returning to class.
   
   d) If class readmission is approved, the student conduct officer will give the student a class readmission notice. Instructors who have not received notification of a suspended student’s return to class may deny entry until such notification is received.

The following disciplinary actions may be imposed only by the Disciplinary Review and Grievance Committee (DRGC), Vice President of Student Services, Student Conduct Officer, or Registrar when applicable:

1. **General Probation**: An individual may be placed on general probation when involved in a substantive disciplinary offense. General probation has two (2) important implications: 1) the individual is given a chance to show capability and willingness to observe the Student Code without further penalty; and 2) if the student errs again, additional sanctions will be imposed for this violation. This probation will be in effect for no more than two (2) terms.

2. **Restrictive Probation**: Restrictive probation results in loss of good standing, and notation of such is made in the individual’s conduct record. Restrictive conditions may limit activity in the college community and/or access to specified college facilities. The individual will not be eligible for initiation into any local or national organization, and may not receive any college award or other honorary recognition. The individual may not occupy a position of leadership or responsibility with any college or student organization, publication, or activity. This probation will be in effect for not less than two (2) terms. Any violation of restrictive probation may result in immediate suspension.

3. **Restitution**: Paying for damaging, misusing, destroying, or losing property belonging to the college, college personnel, or students.

4. **Withholding**: Transcript, diploma, or right to register will be withheld (denied) when financial obligations are not met.
5. **Suspension**: Exclusion from a class, program of the college, or all college activities for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation, or for repeated misconduct. Students who receive this sanction must get specific written permission from a student conduct officer before returning.

6. **Expulsion**: Dismissing a student from campus for an indefinite period. The student loses his/her student status. The student may be readmitted to the college only with the approval of the Vice President of Student Services.

7. **Group Probation**: This is given to a college club or other organized group for a specified period of time. If group violations are repeated during the probationary period, the group's charter may be revoked or activities restricted.

8. **Group Restriction**: Removing college recognition during the term or semester in which the offense occurred or for a longer period (usually not more than one additional term). While under restriction the group may not seek or add members, hold or sponsor events in the college community, or engage in other activities as specified.

9. **Group Charter Revocation**: Removal of college recognition from a group, club, society, or other organization for a minimum of two years. Re-charter after that time must be approved by the Vice President of Student Services.

C. **Disciplinary Procedures for Violations of Student Code**

1. **Student – Instructor or College Official**
   When an incident takes place in which a student is alleged to have violated any portion of the Student Code, these steps must be followed:
   a. The instructor or official will give the student a verbal warning for a minor infraction.
   b. If the violation is not minor or for a subsequent violation, the instructor or college official will give the student a written reprimand and forward the report on a form 1069 to a student conduct officer. Form 1069 is available online at [http://eaglesnest.waketech.edu](http://eaglesnest.waketech.edu). The student should be referred to a student conduct officer or designee.
   c. After referring the student to the Student Conduct Officer or designee and depending upon the severity of the incident, the instructor or official may impose an interim suspension. Instructors must notify the department head, division dean, or college official immediately upon giving the student an interim suspension. An interim suspension should be given if the behavior is violent or the disruption creates an atmosphere in which classroom instruction cannot continue. Interim suspensions can also be given after verbal and written warnings have been issued to the student. The suspension should not exceed more than two class periods.
   d. The student should be referred to the Student Conduct Officer or designee. The student may not return to class until he or she has met with the Student Conduct Officer or designee. Once the student meets with the Student Conduct Officer or designee a form will be given to the student, indicating that he or she can return to class when applicable.
   e. The instructor must send a Student Code Violation Report, Form 1069, within two (2) business days of the incident to the Student Conduct Officer or designee and department head indicating action taken. Form 1069 is available online at [http://eaglesnest.waketech.edu](http://eaglesnest.waketech.edu).
   f. The Student Conduct Officer will notify the student, instructor, and department head in writing of any disciplinary action taken.

2. **Disciplinary Review and Grievance Committee (DRGC)**
   The Disciplinary Review and Grievance Committee is a judicial body designed to provide due process and participatory justice to students for college incidents requiring disciplinary actions or grievances. Whenever possible, a student conduct officer will attempt to resolve the problem informally. If the student disagrees with the decision of a student conduct officer, the student may request a hearing with the DRGC. Request for a hearing must be made within two (2) business days after the discipline or sanction is given by a student conduct officer.
a. Composition of the DRGC: The committee is composed of three members, each of whom may serve up to one year – a student in good standing academically and otherwise, a staff member, and a faculty member – plus a Presiding Chairperson, who will serve a two-year term.

b. Powers and functions of the DRGC: The committee may confirm, deny, or modify the decision of the Department Head, Division Dean, or Student Conduct Officer. The decision of the Committee is final except in cases of alleged discrimination or denial of due process.

c. Dual role of DRGC: The Disciplinary Review and Grievance Committee will serve two distinct roles. In cases involving student or faculty appeals of disciplinary decisions, rules relating to disciplinary due process apply. In cases involving grievances, rules pertaining to grievances as well as due process are followed. Each case brought before the DRGC will clearly state its purpose.

d. Role of the DRGC Committee Chair:
   i. The Chair will not be a voting member of the Committee and will intervene in proceedings only to advise on points of order and procedure.
   ii. The Chair is expected to make electronic recordings of the hearing, which will be maintained in the office of the Student Conduct Officer.
   iii. The Chair will be responsible for delivering the recommendations of the DRGC to the office of the Vice-president of Student Services within two (2) business days.

e. Meeting date and time: The DRGC will meet each Thursday afternoon to hear cases. DRGC members will be notified 24 hours in advance if there are cases to be heard.

V. GRIEVANCES AND OTHER COMPLAINTS

Student enrolled at Wake Technical Community College may use the grievance procedure to challenge decisions or actions taken by college officials that allegedly violate their rights as defined in Section II, Rights and Responsibilities. The grievance procedure does not apply to grade appeals or any other disputes.

Concerns involving harassment or discrimination by a college faculty member or staff member on the basis of race, color, religion, sex, sexual orientation, age, national origin, disability, or veteran status should be directed to the college’s affirmative action officer and or Title IX officer.

Any other COMPLAINT about college services, programs, or activities NOT addressed in Section II, Rights and Responsibilities, should be put in writing and sent to the appropriate vice president of the service or program area, who will forward it to the appropriate administrator for review and response.

A. Academic Grievance Procedure

1. The student should contact the instructor within 3 business days of the incident to seek resolution.

2. If the student is not satisfied with the instructor’s resolution, the student should submit a Student Appeal/Grievance Form 1070 to the department head within 2 business days of receiving the instructor’s response. The department head will review the matter and contact the student within 5 business days with a decision.

3. If the student is not satisfied with the department head’s resolution, the student should submit the Student Appeal/Grievance Form to the division dean within 2 business days of receiving the department head’s response. The division dean will review the matter and contact the student within 5 business days with a decision.

4. If the student is not satisfied with the division dean’s resolution, the student should notify a student conduct officer within 2 business days of receiving the division dean’s decision that he or she would like the matter reviewed by the Disciplinary Review and Grievance Committee (DRGC).
5. The conduct officer will forward all documents to the DRGC Chair and contact the student within 5 days to schedule the DRGC committee hearing. The decision of the DRGC will be final and not subject to appeal.

6. At whatever stage the grievance is concluded, either due to amicable resolution or time limitations, all documentation should be maintained by a student conduct officer in accordance with the state records and retention policies.

B. Role of Student Conduct Officer

In DRGC hearings, the Student Conduct Officer’s only role is to inform students of their rights and responsibilities in seeking to resolve differences and disputes.

VI. DISCRIMINATION AND DUE PROCESS

A. Definition of Discrimination
Discrimination is the unlawful and intentional act of unfair treatment of a person based on race, ethnicity, sex (gender), sexual orientation, religion, national origin, physical or mental disability, or age.

B. Definition of Due Process
A Disciplinary Review and Grievance Committee shall guarantee the student the following basic due process procedural rights:

1. The right to present relevant evidence and witnesses in his or her defense.
2. The right to a hearing before an impartial Disciplinary Review and Grievance Committee.
3. The right to know the identity of the person(s) bringing the charge(s) against him or her.
4. The right to hear the evidence against him or her and the right to cross-examine witnesses against him or her.

C. Avenues of Action
1. The instructor or college official meets with the student to discuss charges and may issue a warning depending upon the severity of the infraction within five (5) business days of the violation.
2. If a subsequent incident takes place or if the infraction threatens the safety of the instructor or other students, the instructor may impose an interim suspension from the class and submit a Student Code Violation Report, Form 1069, to the Student Conduct Officer or designee (available at http://eaglesnest.waketech.edu) within two (2) business days. The instructor must also notify his or her department head and dean immediately of an interim suspension. The interim suspension should not last longer than two class periods.
3. The Student Conduct Officer or designee will meet with student within three (3) business days to discuss charges and make a determination to impose a sanction if warranted. The sanctions are as follows:
   a. General probation
   b. Restrictive probation
   c. Restitution
   d. Withholding Academic Records
   e. Suspension
   f. Expulsion
   g. Group Probation
   h. Group Restriction
   i. Group Charter Revocation
4. If student is not satisfied with the sanctions imposed, the student is to file an appeal by completing a Form 1070.
5. A hearing with the DRGC will be scheduled within five (5) business days of the submission of the Form 1070. Student notification will be given in person or by phone, through college-issued email account, or through certified mail to the last address provided, at least five (5) business days before a scheduled hearing.
6. Decision of the DRGC is final except for cases of discrimination on the basis of age, sex, race, national origin, religion, or disability; and for cases in which student contends that procedural due process was denied. Notification of the decision will be forwarded to the student within five (5) business days of the DRGC decision. Official notification will be sent from the Senior Vice President to the student regarding the decision rendered. Grievances may not be heard by the President or the Board of Trustees if related to individual grades or the result of reported disciplinary action.

7. An appeal or grievance based upon alleged discrimination (on the basis of age, sex, race, national origin, religion, or disability) or denial of due process may be further directed to the appropriate Senior Vice President (SVP of Curriculum for academic violations, and SVP of Student Services for violations of the Student Code). The senior vice president will review the appeal or grievance to determine if discrimination occurred or due process denied. If the senior vice president agrees that it does qualify under the above-mentioned definitions, the student shall follow the steps outlined below:

   a. **Appeal to the President**

      A student may appeal a decision of the DRGC by submitting a written request for such appeal to the President within three (3) business days of receipt of the Senior Vice President’s decision.

      The request should describe in detail all reasons or bases upon which the student contends that the decision of the DRGC is erroneous. After an appeal has been made to the President, the college will, within approximately twenty (20) business days of receipt of the appeal, cause the recording of the evidentiary hearing before the DRGC to be transcribed and copies of such transcript to be distributed to the President. The President may affirm, remand, modify, or reverse the decision or the findings of the committee. Within approximately twenty (20) business days of receiving the transcript, the President shall send the student his decision by certified mail, return receipt requested.

   b. **Appeal to the Board of Trustees**

      A student who disagrees with the decision of the President may appeal the ruling to a committee of trustees appointed by the Chairman of the Board of Trustees. This committee will serve as the final administrative authority.

      To initiate this final step of the grievance process the appeal must be made in writing within fifteen (15) business days after the date the President's determination is mailed to the student and must be addressed to the Secretary, Board of Trustees of Wake Technical Community College, 9101 Fayetteville Road, Raleigh, North Carolina 27603.

      After an appeal has been made to the full Board of Trustees, the College will, within ten (10) business days of receipt of the appeal, cause copies of the recording of the evidentiary hearing before the Disciplinary Review and Grievance Committee to be distributed to the student or to his or her legal counsel and to each member of the Board of Trustees. At a time designated by the Chairman of the Board, within approximately fifteen (15) business days after the notice to the parties, the full Board of Trustees will endeavor to meet in closed session to consider the appeal. At such meeting, the student or his or her attorney, the President, and the President's legal counsel or delegate will be permitted to appear before the full Board of Trustees in Executive Session and to present a summary argument of not more than fifteen (15) minutes in length relating to the merits of the appeal. At the conclusion of these arguments, the full Board of Trustees will excuse the parties and those who presented the summary arguments (except the Board's legal counsel), and continuing in closed session, the Board will then act to sustain, reverse, or modify the actions of the President. The Board may postpone, adjourn, and reconvene the meeting as often as it deems desirable to discuss and consider the evidence and to accommodate the schedules of the members. Within approximately ten (10) business days after the full Board of Trustees has concluded its deliberations on the appeal, the Board will notify the parties by mail of its determination. The decision of the full Board of Trustees is final, except as otherwise expressly provided by law.

**VII. ATTORNEY INVOLVEMENT IN PROCEEDINGS**

   A. **Student Initiation**

      A student may engage legal counsel, for advising only, at any point in his or her disciplinary, academic appeal, or grievance proceeding. The student must give advance notice (24 hours) of his or her decision to engage counsel.
B. **College Initiation**
   The DRGC or a college official may elect to be advised by legal counsel at any time in any disciplinary, academic appeal, or grievance proceeding.

C. **Staff/Faculty Initiation**
   Any staff or faculty member involved in any disciplinary, academic appeal, or grievance proceeding may avail themselves of legal counsel, at their expense, as they see fit. The college attorney is not automatically bound to represent any individual staff or faculty member.

VIII. **COURSE GRADE APPEAL POLICY**

A. **Faculty Responsibility for Grades**
   A part of faculty responsibility at Wake Technical Community College is the assignment of student grades according to methods which are professionally acceptable, communicated to everyone in the class, and applied to all students equally.

A student who has a disagreement with an instructor's professional judgment in grading should attempt to resolve the matter through dialogue with the instructor who issued the grade. The college believes that the preservation of the institution's academic integrity requires that the college ordinarily refrain from review of or participation in an instructor's evaluation of student performance in cases where the instructor is merely using his or her professional judgment.

However, the college acknowledges that, on occasion, exceptional circumstances may arise in which a student should have the opportunity to appeal a grade. When circumstances warrant, a student may make use of the following appeals process.

In the event the student is contending that the disputed grade was rendered on account of or was influenced by the student's age, race, sex, national origin, religion, or disability, the student must utilize the grievance procedure in lieu of the procedure described below.

B. **Course Grade Appeals Process**

1. A student who wishes to contest a course grade must initiate the appeals process with the instructor of the course within fifteen (15) business days of the posting of that semester's final course grades.

2. Within five (5) business days of the appeal, a student who is unable to resolve the disagreement with the instructor, and who wishes to appeal the grade beyond the authority of the instructor, must complete a Grade Appeal Form, which then becomes the document of record. This form is available from the department head.

3. Within five (5) business days, the department head will decide whether a review of student work is required, and if necessary, the manner by which any such reviews of student work will be performed. The department head will also decide on an appropriate action.

4. A student who is unable to resolve the disagreement through dialogue with the department head may appeal, within five (5) business days, to the academic dean of the division. The academic dean will investigate, and within approximately five (5) business days, decide on an appropriate action. The academic dean's assessment will be considered final.

IX. **ACADEMIC DUE PROCESS: AVENUES OF ACTION**

These steps must be followed to ensure that due process has been afforded:

1. Instructor meets with student to discuss charge and determine culpability and penalty within five (5) business days of the academic violation.

2. If the student contests the findings rendered by the instructor, the student must contact the appropriate department head within three (3) business days of the findings. The department head will hear both parties and confirm, alter, or dismiss the penalty within three (3) business days following the student contact.
3. If the student contests the findings of the department head, the student must contact the appropriate division dean within three (3) business days of the findings of Step 2. The dean will hear evidence and confirm, alter, or dismiss the penalty within (3) business days following the student contact.

4. If the student contests the findings of the division dean, the student must complete Form 1070 and submit to the Student Conduct Officer or designee of the appropriate campus within two (2) business days of the decision rendered by the division dean. A hearing will be scheduled within five (5) business days of the submission of Form 1070. The student will be notified in person, by phone, via college-issued email account, or certified mail to the last official address on record.

5. The decision of the DRGC is final except for cases of discrimination on the basis of age, sex, race, national origin, religion, or disability; and for cases in which student can provide evidence that procedural due process was denied.

Remember to check the online College Catalog for the most up-to-date information at http://catalog.waketech.edu
### CONTINUING EDUCATION PURPOSE

Wake Technical Community College plays an active role in the continuing education of the citizens of the Capital area. The College's Continuing Education programs provide courses for those who need to train, retrain, and update themselves in a vocational or professional area, for those who desire instruction enabling them to grow in basic knowledge, improve in home and community life, and develop or improve leisure time activities, and for those individuals whose education stopped short of high school graduation.

### CONTINUING EDUCATION UNITS

Wake Technical Community College awards Continuing Education Units (CEU's) for specific non-credit courses and special activities. A permanent transcript will be established for each non-credit student. The transcript will be updated each time the student completes a non-credit course. CEU's will be awarded for non-credit courses satisfactorily completed on the basis of one CEU for each ten hours of instruction. Fractions of CEU's will be awarded. Thus, a 66-hour course will earn 6.6 CEU's. CEU's will not be awarded to students who fail to complete a course satisfactorily.
The Southern Association of Colleges and Schools became the first regional accrediting agency to require that all member institutions use the CEU to document non-credit special activities.

Students who have taken non-credit classes may request copies of their official transcripts by going to http://registration.curred.waketech.edu/transcripts.php.

Unofficial transcripts may be requested by contacting the Continuing Education Registrar at http://conted.waketech.edu/index.php?page=ask.

GRADING POLICY
All classes except Adult High School classes use the S-U system.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>S</td>
<td>Satisfactory (attended at least 80% of scheduled class hours)</td>
</tr>
<tr>
<td>*U</td>
<td>Unsatisfactory</td>
</tr>
<tr>
<td>*NG</td>
<td>No grade</td>
</tr>
<tr>
<td>*W</td>
<td>Withdrew</td>
</tr>
</tbody>
</table>

*Individual courses may vary in attendance policy and requirements to attain "Satisfactory" status. Contact appropriate Continuing Education staff to establish specific requirements.

*CEU's are not awarded with these grades.

Adult High School
Adult High School classes use the A-F system.

ADMISSION & REGISTRATION
Continuing Education Registrar
This department ensures accuracy and quality in all Continuing Education programs to comply with the NC General Statues, Title 23 of the NC Administrative Code, Continuing Education Guidelines, Numbered Memoranda and the Colleges' Accountability and Credibility Plan in all of Continuing Education registration and reporting processes.

Admissions
Any adult, 18 years of age or older and not enrolled in public school, may be admitted to an adult education class. In extenuating circumstances, and upon the approval of the appropriate public school principal or superintendent, a person 16-18 years of age may enroll in certain courses. For more detailed information regarding the admissions and registration process of minors, please visit http://conted.waketech.edu/index.php?page=minors.

A course schedule is published and made available to the public prior to the beginning of each term. Information about all continuing education classes may be obtained by calling the college at 919-866-5800 or on the web at https://webadvisor.waketech.edu.

CLASS LOCATIONS
All Wake Tech campuses provide numerous continuing education courses and services. Other classes are conducted in surrounding communities or within a particular business or industry in Wake County. Almost any course can and will be organized in other areas of the county when a sufficient number of citizens indicate an interest in having a class brought to a particular location, providing there's an instructor and suitable facility.

Site locations and abbreviations can be found at http://conted.waketech.edu/index.php?page=siteabbr.

OCCUPATIONAL EXTENSION COURSE REPETITION
Legislative requirements state that “students who take an occupational extension course more than twice within a five-year period shall pay their cost for the course based on the amount of funds generated by a student membership hour of occupational extension multiplied by the number of actual hours the class is to be taught.” A rate of $6.80* per scheduled
hour will be charged to those individuals who have taken an occupational extension class more than twice and are not otherwise exempt. Students may repeat occupational extension course more than once if the repetitions are required for certifications, licensure or recertification.

*Note: Rate is set by NC Legislators and is subject to change without notice.

**COURSE DESCRIPTIONS**
Although course descriptions for continuing education courses are not provided in this publication, examples of the types of courses that are offered are listed. Specific course descriptions are furnished upon request. Courses, in addition to those listed in this publication, may be offered to meet expressed needs of the community when evidence of these needs is presented to the College.

**EXPENSES**
A registration fee is charged for Community Service and Occupational Continuing Education courses:

<table>
<thead>
<tr>
<th>Number of Hours</th>
<th>Registration Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-24</td>
<td>$65</td>
</tr>
<tr>
<td>25-50</td>
<td>$120</td>
</tr>
<tr>
<td>51+</td>
<td>$175</td>
</tr>
</tbody>
</table>

Specific classes may require additional fees including: facility, technology, and/or lab fees.

Self-supporting classes have a pro-rated cost per individual or group and are not waiver eligible.

The registration fee may be waived for students enrolling in specific classes for fire service, rescue, law enforcement personnel, and citizens over the age of 65 (one occupational extension course per term).

A registration fee is not charged for Adult Basic Education programs, for preparatory instructional programs for the High School Diploma Equivalency Certificate (GED), for the Adult High School Diploma program, or for English as a Second Language program. There is a $25.00 fee for final GED testing.

**WITHDRAWALS & REFUNDS**
Refund requests and withdrawals must be made in writing by the student (no exceptions). Refund request forms are available at each class site. A request for refund may be made by letter.

- A **100% refund** shall be made if the student officially withdraws from the class before the first class meeting by submitting a written request.
- A **75% refund** shall be made if the student officially withdraws from the class prior to or on the 10% date of scheduled hours. Community school, facility, and lab fees are not refundable.

A full refund shall be made for classes canceled by the College. You do not have to request a refund.

**CONTINUING EDUCATION TRANSFER POLICY**
Transfers to a different course in the same semester are allowed under the following conditions:

1. Neither course has surpassed the census point; and
2. The request does not cross semesters.

Transfer requests must be in writing. Requests received after the 10% deadline will not be considered and a refund will not be processed.

**BASIC SKILLS ADMISSION & PLACEMENT POLICY**
Wake Tech admits all adults into the College and makes every effort to place students in programs where they can experience success and meet their goals. Basic Skills offers educational opportunities in several areas, including Adult Basic Education (ABE), General Educational Development (GED), Adult High School (AHS), English as a Second Language (ESL), and Compensatory Education (CED). Placement into these programs is determined by standardized assessment tools. If students do not demonstrate progress within 50 hours of attendance, they will be moved to another level in Basic Skills or referred to other College programs or an appropriate agency.

**Basic Skills Ability to Benefit Policy**
Wake Technical Community College offers Adult Basic Education (ABE), General Educational Development (GED), Adult High School (AHS), Compensatory Education (CED), and English as Second Language (ESL) as basic skills programs for
adults, 16 or older, who are out of school but do not have a high school diploma; or who have a high school diploma (or its equivalent) but are functioning below high school level.

Adults wishing to enroll in basic skills programs must demonstrate the ability to benefit from the programs by taking the TABE, CASAS, or the BEST, pre-tests approved by the United States Department of Education. Students unable to complete a pre-test may be admitted to the program at a later date, once they have completed it.

According to performance measures outlined in the Workforce Investment Act of 1998, students in basic skills programs must demonstrate “improvements in literacy skills levels in reading, writing, and speaking the English language, numeracy, problem solving, English language acquisition, and other literacy skills.” Improvements should be sufficient to move students to higher levels of educational functioning. Students who do not demonstrate sufficient improvement to move to higher placement levels on the TABE or BEST tests after one year will be dropped from the program and/or referred to more appropriate agencies.

Admission of Minors and Non-High School Graduates
This policy applies to Wake Technical Community College and is in addition to State Board of Community College policies as published in North Carolina Administrative Code, 23 NCAC 2C.0301, Admission to Colleges and 23 NCAC 2C.0305, Education Services for Minors. This policy specifically addresses non-high school graduates’ admission into the Basic Skills Program excluding English as a Second Language (ESL):

- Non-high school graduates who are 16 or 17 years of age will not be allowed to enroll in the Basic Skills Program before a minimum of six months from the official date of withdrawal from a public or private high school or from a home school program.

- The student must exhaust any suspension period given the student by a public or private high school or a home school program in addition to the College's six-month waiting period before being eligible for enrollment in the College's Basic Skills Program.

The Administration of Wake Technical Community College has the express authority of the Board of Trustees to implement necessary procedures for enforcement and regulation of this policy.

BASIC SKILLS PROGRAM
Basic Skills programs include Adult Basic Education, General Educational Development (GED), Adult High School, Compensatory Education, English as a Second Language (ESL), and the High School Equivalency Program (HEP). These programs are offered throughout Wake County for the primary purposes of helping adults:

- Learn to read;
- Improve math, reading, and writing skills;
- Earn a high school diploma or GED high school diploma equivalency;
- Learn English as a second language; and
- Develop basic skills needed in the workplace.

Adult Basic Education
Adult Basic Education is designed to assist individuals who need to improve their skills in reading, writing, and/or mathematics. Instruction covers the fundamentals of mathematics, reading, and oral and written communications.

There are no fees or charges of any kind. All materials have been especially prepared for adults, and instructional plans emphasize individual needs and interests. Students enroll in Adult Basic Education to improve skills for the workplace, achieve personal goals, or prepare for enrollment in one of the College's high school completion programs. Classes are offered on the main campus, at the Adult Education Center, and at community sites throughout Wake County.

General Educational Development (GED)
The General Educational Development program offers instruction for adults who are preparing for the GED exam. Instruction covers high school level reading, writing, mathematics, science, and social studies skills. Students may prepare for the exam on the main campus, at the Adult Education Center, at a community site, or by enrolling in Wake Tech's online GED program. Tuition is free, and course materials are provided for students.

Those achieving a passing score on all five sections of the GED exam receive a high school equivalency diploma from the North Carolina State Board of Community Colleges. The GED is generally recognized as a high school equivalency for purposes of college admission and employment.

Students enrolled in the GED program, who demonstrate GED test readiness by passing two official GED practice tests in each of the five test areas, may be signed up to take GED tests at the Adult Education Center. Students are required to pay a one-time-only fee of $25.00 when they take the official GED exam.
Adult High School Diploma
The Adult High School Diploma is offered through a cooperative agreement between Wake Tech and the Wake County Board of Education, with the College serving as the administering agency. Adult High School provides academic courses in a lab setting or online setting. Students are placed in English, mathematics, social studies, science, and elective courses based on their high school transcripts and scores on a standard battery of tests.

The Adult High School diploma is offered at the Adult Education Center. Upon completion of "job connecting activities" (activities designed specifically for the students to complete, which are related to exploring work, school, or military opportunities) and the required credits, students are awarded an adult high school diploma.

Compensatory Education
Compensatory Education is for adults with intellectual disabilities or Traumatic Brain Injury (TBI) who want to achieve a higher level of independence by focusing on academic, social, vocational and life skills to fulfill their goals. The Compensatory Education program is available year-round. There are no fees for classes; however documentation of an intellectual disability or TBI is required. For more information or to make an appointment for orientation and testing, call 919-334-1507.

Compensatory Education Ability to Benefit Policy
The Wake Technical Community College Compensatory Education program (CED) is an educational program specifically designed for adults 17 years of age and older with intellectual disabilities or TBI. These adults may not have attended public schools, attended on a limited basis, or may simply need additional educational opportunities after leaving public school. All interested participants must demonstrate the ability to benefit from the program by being able to take the CASAS pre-test. Students unable to complete the pre-test will be admitted to the program at a future date once they are able to complete the pre-test.

An outcome for students participating in a Basic Skills program, according to the Workforce Investment Act of 1998, is to have demonstrated achievement of a goal from the State Mandated Compensatory Education Program of Study in Language, Math, Social Science, Community Living, Consumer Education, Health, or Vocational Education.

CED students who cannot demonstrate a goal achievement within two program years will be referred to more appropriate agencies or dropped from the program.

English as a Second Language
English as a Second Language (ESL) is designed for persons whose native language is not English. The program focuses on English for life skills, such as filling out forms or seeking medical attention, and helps parents navigate the public school system. ESL classes encourage participants to improve their level of communication, with emphasis on speaking, listening, reading, and writing skills. Instructors assist students in pre-employment preparation, community interaction, cultural enrichment, and professional and academic advancement.

ESL classes are offered free of charge at the Adult Education Center and at various locations throughout the county.

High School Equivalency Program
The High School Equivalency Program (HEP) is funded by a grant from the U.S. Department of Education, Migrant Education Division, for the purpose of providing migrant and seasonal farm workers and their families the instruction needed to obtain a GED (high school equivalency certificate). The program is administered by Wake Tech in collaboration with other service organizations in the community.

BIOPROTEC CAPSTONE CENTER AT BTEC
The BioNetwork Capstone Center provides affordable, high-quality, hands-on training in biotechnology, biomanufacturing, and biopharmaceutical/pharmaceutical operations in a simulated industrial (cGMP) environment. The Capstone Center is also home to the Validation Academy, which provides training and education in the philosophies and skills of validation. Importantly, short-course training (1-5 days) at the Capstone Center is carried out by highly qualified professionals with extensive experience in the biopharmaceutical/biomanufacturing industry.

The Capstone Center is situated in the Golden LEAF Biomanufacturing Training and Education Center (BTEC) on the Centennial Campus of North Carolina State University. Built in 2007 at a cost exceeding $38 million, the BTEC is the largest facility of its kind in the nation. It provides a training environment that mirrors a biomanufacturing plant facility. The Capstone Center's training facilities within BTEC include state-of-the-art classrooms, laboratories, and a certified cleanroom suite.

The Capstone Center serves:
- Incumbent workers
- New hires
- Workers in job transition
• Community college and college students enrolled in the life sciences, especially those in biotechnology-related degree and certificate programs, providing an invaluable extended hands-on learning experience
• College/university and community college faculty.

Six certificates are offered by the BioNetwork Capstone Center:

• Certificate in Biomanufacturing
• Certificate in Analytical Lab Skills
• Certificate for Instrumentation/Calibration Technicians in Support of Biomanufacturing
• Certificate for Maintenance Technicians in Support of Biomanufacturing
• Certificate in Computer Validation
• Certificate for Validation Specialists - Levels I and II
• Course offerings focus upon a variety of critical skill sets within areas important to biomanufacturing: good manufacturing practices (cGMP), aseptic manufacturing, operations in biotechnology processes, industrial microbiology, good laboratory practices, analytical operations, and validation.

BUSINESS & INDUSTRY SERVICES
Wake Tech's Business and Industry Services Division focuses on the lifelong learning needs of the business community. To thrive in today's fast-paced, digital economy; businesses must continue to learn and to leverage new technologies.

The Business and Industry Center (BIC) at Wake Tech's Western Wake Campus provides classes and seminars and offers customized employee training at employer sites and other locations, including our Northern Wake Campus in north Raleigh.

APPRENTICESHIP TRAINING
Wake Tech has been designated by the North Carolina Community College System as a center for formal apprenticeship training. We assist companies' customized apprenticeship training programs by providing the instructional component of the apprenticeship experience.

INDUSTRY TRAINING
Wake Tech assists area industries in training and retraining employees to keep them competitive and up-to-date with industry standards. Courses range from fundamental skills to more sophisticated technical skills; specialized skills in PLC, CNC, Six Sigma, Lean Manufacturing, welding, electricity, and more; and leadership skills for management and supervision.

CUSTOMIZED TRAINING PROGRAM (CIT)
Wake Tech's customized training programs support North Carolina's economic development initiatives by providing training assistance for eligible business and industries. The programs enhance the workforce with the skills required for successful employment in emerging industries.

PROFESSIONAL DEVELOPMENT AND CORPORATE TRAINING
To meet the supervisory and managerial needs of business and industry, Wake Tech offers management development programs in sales training, computer skills, problem solving, office occupations, project management, import logistics, and international marketing.

WAKE TECH/WELLS FARGO CENTER FOR ENTREPRENEURSHIP
The center was established to contribute to local workforce and economic development by supporting small business owners and entrepreneurs – increasing the number of new businesses and improving the success rates of both new and existing businesses.

SMALL BUSINESS CENTER (SBC)
Wake Tech's small business center works to increase the number and success rate of small businesses in North Carolina by providing high quality, readily-accessible assistance to current and prospective business owners and their employees. The SBC provides education, training, information, and referrals.

The center maintains a resource library of print materials and videos to assist business owners with research and problem solving. The SBC provides these resources, along with confidential counseling services, seminars, and workshops, free of charge.

EDUCATION SERVICES & TECHNOLOGY

HUMAN RESOURCES DEVELOPMENT (HRD)
Human Resources Development (HRD) provides assessment services, employability training, and career development counseling to unemployed and underemployed individuals, age 18 and older, to prepare them for success in the workplace. Training focuses on helping students obtain and perform successfully in entry-level jobs; it is based on national skills standards, assessments, and certifications that enhance participants' ability to compete effectively in the high-tech, high-
performance, global economy. Courses are designed to enhance skills and improve employment prospects. Class times and total contact hours vary.

Employability Skills Training is the centerpiece of HRD training, the core training component around which the other four revolve. Employability Skills Training includes job preparation, job-seeking skills, job-keeping skills, lifelong learning, and life skills.

**NONCREDIT COMPUTER EDUCATION**
The goals of the Noncredit Computer Education Department are to enrich personal and workplace computer skills and to enhance opportunities for employment and job advancement.

The department consists of continuing education classes taught at various campus sites, including the State Personnel Development Center (SPDC), and online, through Education-to-Go (ed2go) and other platforms.

**INTERNATIONAL LEARNING & VOCATIONAL EDUCATION**
The International Learning and Vocational Education Department provides language instruction for all levels, beginner to advanced. Classes focus on helping students build language skills for personal enrichment and enhanced employment opportunities and allow them to learn about the world.

Command Spanish is non-grammar-based training designed to help employees use limited amounts of everyday Spanish to meet the needs of their employers and the community. The training gives employers a practical way to offer professional development to their employees.

Vocational training classes provide development in programs such as electrical wiring, HVAC, and many others. Basic computer classes help students build skills in keyboarding and operating systems and gain confidence to proceed with further computer training.

**DISTANCE LEARNING PROGRAMS**
Wake Tech's Distance Learning programs enhance the learning experience and increase student success overall. The programs succeed by 1) partnering with leading educational organizations to deliver instruction online, and 2) providing relevant courses and quality instruction. Wake Tech has a reputation for quality and for the strength of its faculty; online courses make these resources available to a greater number of students.

**SPECIAL PROJECTS & EDUCATIONAL PROGRAMS**
**Wake Tech's PLUS 50** initiative offers classes and events to help adults zero in on a new career, plan for retirement, or simply enjoy this stage of life. Although these classes are designed for those 50 and older, everyone is welcome. Participants can learn new skills, enhance their resumes, maintain health and wellness, or start new hobbies!

Wake Tech’s Early Childhood Education Certification Renewal program will provide CEUs for Early Educator Certification (EEC) renewal and Child Development contact hours. Curriculum courses, continuing education units, or a combination may be used to fulfill EEC requirements.

The Nonprofit Management Certificate provides the skills to build and manage a successful nonprofit organization.

**EVENING & WEEKEND PROGRAMS**

**Occupational Training and Upgrading**
An ongoing priority of Wake Technical Community College is to offer evening and weekend programs that provide non-credit courses appropriate to the needs of the working adult. These programs focus on assisting adult students, who attend primarily part-time, in developing new skills to obtain employment or to change career paths, and on helping students upgrade their skills to maintain employment. Programs for personal development are also offered in the evening.

Occupational training and upgrading courses provide training for specific job skills essential to successful employment.

New skills are taught and present skills are updated in order to make an employee more efficient on the job, to improve the chances for advancement to a new job, or to meet legislated requirements. The following are examples of the large variety of courses offered for this purpose:

- Automotive Repair
- Automotive Safety
- Building Trades
- Business Management
- Computer Skills
- Electrical-Electronics Trade
CONTINUING EDUCATION (NON-CREDIT)

- Foreign Languages
- Green Technology
- Internet-based Instruction
- Machine Trades & Welding
- Medical Terminology, Coding, and Transcription
- On-Board Diagnostic Emission Certification
- Plumbing
- Real Estate Updates

WAKE COUNTY COMMUNITY SCHOOL PROGRAM
The goal of Community Schools is to make quality educational and recreational experiences available in convenient locations at reasonable costs. Through interagency cooperation a variety of offerings are provided for the general public. Wake Technical Community College actively supports and participates in this program by offering credit and continuing education courses at local schools four evenings per week.

EVENING CURRICULUM PROGRAM OFFERINGS
For detailed information concerning Wake Tech's Evening Program offerings, refer to those sections of this catalog that contain descriptions of the day offerings. Current curriculum programs offered in the evening and on Saturdays include:

- College/University Transfer
- General Education
- Associate in Applied Science Diplomas
- Preparatory Classes

WEEKEND PROGRAMS
Computer Programming, which includes:
- Internet Programming
- Visual Basic Programming
- Early Childhood Credential Courses
- Information Systems: Networking
- Networking Technology: MCSE
- Visual Basic Certificate

Assorted courses from other curricula are also offered evenings and Saturdays.

PUBLIC SAFETY TRAINING
The following program areas provide training for public safety personnel and others who wish to increase competencies in specialized occupational areas.

EMERGENCY MEDICAL SERVICES (EMS)
These courses are designed to meet the needs of local emergency services agencies, healthcare providers, and the public, with an emphasis on emergency patient care in pre-clinical settings. EMS training also includes health education courses for those interested in healthcare and related institutions or retraining.

FIRE SERVICE TRAINING
Fire Service Training is delivered directly to local fire departments, allowing personnel to learn with the actual equipment they will use in controlling fires. Classes include those listed below along with related classes in industrial brigade training, home fire safety, and search and rescue:

- Arson and Unlawful Burning
- Fire Apparatus Practices
- Fire Fighting Practices
- Forcible Entry
- Hazardous Materials
- Ladder Practices
- Portable Fire Extinguishers
- Protective Breathing Equipment
- Rescue Practices
- Rope Practices
- Salvage and Overhaul Practices
- The Company Officer

Last updated 6/7/12
CONTINUING EDUCATION (NON-CREDIT)

• Ventilation
• CPR/First Aid

LAW ENFORCEMENT IN-SERVICE TRAINING
In-service training for law enforcement personnel is provided at the request of law enforcement agencies. Training emphasizes legal and technological law enforcement advancements. Programs include Criminal Investigation and the Police Law Institute, as well as those listed below:

• Child Passenger Safety Training
• Community Policing
• Domestic Disturbance Response
• D.W.I. Detection
• Effective Report Writing
• Firearms Training
• First-Line Supervision
• Homeland Security
• Juvenile Law
• Laws of Arrest, Search, and Seizure
• Motor Vehicle Laws
• Narcotics Investigation
• Radar Certification
• Spanish for Law Enforcement
• Traffic Accident Investigation

BASIC LAW ENFORCEMENT TRAINING (BLET)
The Criminal Justice Training and Standards Council Act of 1971 established entrance standards and mandatory basic training and certification for all sworn law enforcement officers. The Criminal Justice Standards Division of The North Carolina Department of Justice administers the certification program. Basic training requires a minimum of 620 hours.

The Criminal Justice and Training Standards Commission requires BLET trainees to attend classes in all 35 topic areas of Basic Law Enforcement Training. Trainees must learn basic skills in these areas to qualify for the state examination, which they must pass with a grade of at least 75%.

Further requirements of 12 NCAC 9B .0101/9B .0111 are that a BLET trainee must be a citizen of the United States; be at least 20 years of age; be examined by a physician and certified as meeting the physical requirements of the BLET program; plead no contest or guilty if convicted of a felony or serious misdemeanor; be a high school graduate or have passed the General Educational Development (GED) test indicating high school equivalency; and satisfactorily complete a reading comprehension test and demonstrate at least a 10th grade reading level.

CORRECTIONS AND DETENTION TRAINING
In-service corrections and detention training is provided for Department of Correction personnel at the request of the department. Training emphasizes officer safety and inmate security and includes courses such as those listed below:

• Inmate Movement
• Principles of Report Writing
• Quality through Teamwork
• Staff Safety
• Anger Management
• Emergency Response Team Training
• Cell Extraction
• Building Entry

OCCUPATIONAL SERVICES

SERVICE OCCUPATIONS
This program trains individuals in the areas of food service, lodging, travel information, and nursing assistant. The primary objectives include providing employers with well-trained personnel to operate their business and developing individuals with skills that will qualify them for better employment opportunities. Hospitality training is arranged and scheduled in accordance with the needs of the industry.

CORRECTIONS EDUCATION
Corrections Education is delivered to immured individuals in Wake County’s judicial system. The primary purpose of the training is to increase the safety of the general public by reducing the recidivism rate through training. Vocational training is
also provided in the areas of plumbing, electrical wiring, heating and air conditioning and carpentry.

**BIOWORK**

BioWork is a 128-hour certificate course. Students who complete the course are equipped with entry-level skills required for becoming a process technician for a biotechnology, pharmaceutical or chemical-manufacturing company.

BioWork is intended for high school graduates, for those in manufacturing industries who have lost their job, and for those who would like to start a new career.

*Collaborative Agreements

Electric Lineman Technology AAS degree – Collaborative Agreement with Nash Community College

Simulation and Game Development AAS degree – Level III instruction Service Agreement with Pitt Community College, Nash Community College, Wayne Community College, and Wilson Community College

Pharmacy Technology AAS Degree and Pharmacy Technology Diploma with Johnston Community College

Special Notes

Students should contact their advisors for updates to program offerings. Students admitted to programs that require a clinical or co-op component may be required to provide the college with an official criminal background check in order to meet the requirements of the clinical or co-op site. Convictions for certain crimes and/or evidence of drug use may disqualify students for participating in clinical or co-op experiences, which would limit their progress toward graduation.

The length of our programs is set by the North Carolina Community College System and published in the North Carolina Community College System Curriculum Procedures Reference Manual. Program length (degrees, diplomas, certificates) is the same regardless of the mode (traditional-seated, online, or hybrid) of instructional delivery and must follow the standards established by the North Carolina Community College System. Website: http://curred.waketech.edu/
The table below shows the current degrees, diplomas, and certificates the Applied Technologies division offers. The highest credential given in each area is listed first, in bold type.

The "Program Offered" column represents when the program is offered:

- D = Day
- E = Evening
- O = Distance learning or Online learning

*Collaborative Agreements

*Electric Lineman Technology AAS degree* – Collaborative Agreement with Nash Community College
AIR CONDITIONING, HEATING, AND REFRIGERATION TECHNOLOGY

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems. Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety.

AAS degree graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems and should be able to demonstrate an understanding of system selection and balance and advanced systems.

Air Conditioning, Heating, and Refrigeration Technology Degree - A35100

General Education Courses
ENG 110 Freshman Composition ............................................. 3
COM 120 Interpersonal Communication .................................... 3
HUM 121 The Nature of America ............................................. 3
PHY 211 Applied Physics I ...................................................... 2
PSY 118 Interpersonal Psychology ......................................... 3

Major Courses
AHR 110 Introduction to Refrigeration .................................. 5
AHR 111 HVACR Electricity .................................................. 3
AHR 112 Heating Technology ................................................ 4
AHR 113 Comfort Cooling .................................................... 4
AHR 114 Heat Pump Technology ............................................. 4
AHR 115 Refrigeration Systems ............................................. 2
AHR 130 HVAC Controls ..................................................... 3
AHR 133 HVAC Servicing ..................................................... 3
AHR 151 HVAC Duct Systems I ............................................. 2
AHR 160 Refrigerant Certification ......................................... 1
AHR 180 HVAC Customer Relations ....................................... 1
AHR 210 Residential Building Code ...................................... 2
AHR 211 Residential System Design ..................................... 3
AHR 212 Advanced Comfort Systems ................................... 4
AHR 215 Commercial HVAC Controls .................................. 4
AHR 225 Commercial System Design .................................... 3
AHR 240 Hydronic Heating .................................................. 2
AHR 245 Chiller Systems ..................................................... 2
AHR 250 HVAC System Diagnostics .................................... 2
AHR 263 Energy Management ............................................... 2

Graduation Requirements ................................................. 71 Credit Hours

AHR 111 HVACR Electricity .................................................. 3
AHR 112 Heating Technology ................................................ 4
AHR 113 Comfort Cooling .................................................... 4
AHR 114 Heat Pump Technology ............................................. 4

Commercial Certificate - C35100C

The Air Conditioning, Heating, and Refrigeration Technology Commercial Certificate is designed for individuals wishing to learn about commercial AHR systems. Topics covered include refrigeration processes and fundamentals of liquid chilling equipment. Certificate graduates should be able to assist in the start up, preventive maintenance, service, repair, and installation of commercial systems.

AHR 110 Introduction to Refrigeration .................................. 5
AHR 111 HVACR Electricity .................................................. 3
AHR 112 Heating Technology ................................................ 4
AHR 150 Refrigeration Certification ..................................... 1
AHR 180 HVAC Customer Relations ....................................... 1
AHR 240 Hydronic Heating .................................................. 2
AHR 245 Chiller Systems ..................................................... 2

Completion Requirements ................................................. 18 Credit Hours

Design Certificate - C35100D

The Air Conditioning, Heating, and Refrigeration Technology Design Certificate is designed for individuals interested in the basics of how to design residential and commercial AHR systems. Topics include building codes, principles and concepts of conventional residential heating and cooling system design, principles of designing heating and cooling systems for commercial buildings, and common business and customer relation practices. Certificate graduates should be able to assist in the design of residential and commercial AHR systems, and the mechanical codes that apply toward system installation.

AHR 112 Heating Technology ................................................ 4
AHR 113 Comfort Cooling .................................................... 4
AHR 160 Refrigeration Certification ..................................... 1
AHR 180 HVAC Customer Relations ....................................... 1
AHR 210 Residential Building Codes ................................... 2
AHR 211 Residential System Design ..................................... 3
AHR 225 Commercial System Design .................................... 3

Completion Requirements ................................................. 18 Credit Hours
AUTOMOTIVE SYSTEMS TECHNOLOGY

The Automotive Systems Technology curriculum prepares individuals for employment as automotive service technicians. It provides an introduction to automotive careers and increases student awareness of the challenges associated with this fast and ever-changing field.

Classroom and lab experiences integrate technical and academic coursework. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

Upon completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

BASIC LAW ENFORCEMENT TRAINING

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county, or municipal governments, or with private enterprise.

Constitutional Law...
**Construction Management Technology Basic Certificate – C35190C**

The Construction Management Technology Basic Certificate is designed for individuals already in the construction industry who wish to study the basic principles of construction management. Topics include safety/OSHA regulations and compliance, residential and commercial blueprint reading, project planning and scheduling, human relations, issues, and professional construction supervision.

Individuals who complete this certificate will have taken an essential step in the process of qualifying as a construction project manager, superintendent, foreman, or estimator.

**Completion Requirements** ........................................ 16 Credit Hours

**Electrical/Electronics Technology**

The Electrical/Electronics Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical/electronic systems found in residential, commercial, and industrial facilities.

Training, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, digital electronics, programmable logic controllers, industrial motor controls, the National Electrical Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronics field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical/electronic systems.

**Wiring Methods and the NEC Certificate – C35220D**

The Wiring Methods and the NEC Certificate is designed to provide training for those interested in the installation and maintenance of electrical systems found in residential and commercial facilities.

Training, most of which is hands-on, will include such topics as basic residential and commercial wiring practices, the National Electrical Code, and other subjects as local needs require.

Certificate graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of residential and commercial electrical systems.
HEAVY EQUIPMENT & TRANSPORT TECHNOLOGY

The Heavy Equipment and Transport Technology curriculum is designed to provide individuals with the knowledge and skills needed to troubleshoot and repair medium- and heavy-duty vehicles.

The core course work includes the theory of operations, troubleshooting techniques, and repair procedures for engines, electrical, and hydraulic systems. Other courses cover transmissions, brakes, and steering/suspension. Additional related courses will be required.

Graduates of the curriculum should qualify for entry-level employment opportunities at businesses that repair medium- and heavy-duty vehicles. Entry and advancement levels depend on the amount of training completed, knowledge and ability levels, work performance, and ethics.

HEAVY EQUIPMENT & TRANSPORT TECHNOLOGY / AGRICULTURAL SYSTEMS

Agricultural Systems is a concentration under the curriculum title of Heavy Equipment and Transport Technology. This curriculum is designed to provide individuals with the knowledge and skills needed to repair agricultural equipment.

The course work includes diesel engines, power trains, hydraulics, electrical systems, and fuel systems. Other topics include time management, inventory, and parts control. Graduated of the curriculum should qualify for entry-level employment opportunities in a dealership as technicians qualified to be contributing members of the work team.

# Heavy Equipment and Transport Technology/Construction Equipment Systems

Construction Equipment Systems is a concentration under the curriculum title of Heavy Equipment and Transport Technology. This curriculum is designed to provide individuals with the knowledge and skills needed to troubleshoot and repair construction equipment systems. Construction equipment includes dozers, scrapers, loaders, and forklifts.

The core course work includes the theory of operations, troubleshooting techniques, and repair procedures for engines and electrical and hydraulics systems. The concentration courses will include transmissions, brakes, undercarriage, and equipment repair. Other related courses will be required.

Graduates of the curriculum should qualify for entry-level employment opportunities at businesses that repair construction equipment. Entry and advancement levels depend on the amount of training completed, knowledge and ability levels, work performance, and ethics.

---

# Fuel Injection, Electrical, & Electronics Certificate – C6024BC

The Fuel Injection, Electrical, and Electronics certificate curriculum is under Heavy Equipment and Transport Technology/Construction Equipment Systems. This certificate curriculum is designed to provide individuals with the knowledge and skills needed to troubleshoot and repair fuel injection, electrical, and electronic systems in construction equipment. Construction equipment includes dozers, scrapers, loaders, and forklifts.

The core course work includes the theory of operations, troubleshooting techniques, and repair procedures for electrical and electronic systems. The concentration courses will also include fuel injection systems.

Graduates of the curriculum should qualify for entry-level employment opportunities at businesses, which repair construction equipment. Entry and advancement levels depend on the amount of training completed, knowledge and ability levels, work performance, and ethics.
MECHANICAL DRAFTING TECHNOLOGY

The Mechanical Drafting Technology curriculum prepares technicians to produce drawings of mechanical parts, components of mechanical systems, and mechanisms. CAD and the importance of technically correct drawings and designs based on current standards are emphasized.

Course work includes mechanical drafting, CAD, and proper drawing documentation. Concepts such as machine shop processes, basic materials, and physical sciences as they relate to the design process are also included. The use of proper dimensioning and tolerance techniques is stressed.

Graduates should qualify for employment in mechanical areas such as manufacturing, fabrication, research and development, and service industries.

MACHINING TECHNOLOGY

The Machining Technology certificate is designed to develop basic skills in the theory and safe use of hand tools, power machinery, computerized equipment, and precision inspection instruments.

Students will learn to interpret blueprints, set up manual and CNC machines, perform basic machining operations, and make decisions to insure that work quality is maintained.

Employment opportunities exist in manufacturing industries, public institutions, governmental agencies, and in a wide range of specialty machining job shops.

Hydraulics, Engines, and
Transmissions Certificate - C6024BB

The Hydraulics, Engines, and Transmissions certificate is under the Heavy Equipment and Transport Technology/Construction Equipment Systems curriculum. This certificate is designed to provide individuals with the knowledge and skills needed to troubleshoot and repair hydraulics, engines, and transmissions in construction equipment.

The core course work includes the theory of operations, troubleshooting techniques, and repair procedures for engines and hydraulics systems. The concentration courses will also include transmissions.

Graduates of the curriculum should qualify for entry-level employment opportunities at businesses, which repair construction equipment. Entry and advancement levels depend on the amount of training completed, knowledge and ability levels, work performance, and ethics.

WELDING TECHNOLOGY
The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading,
metallurgy, welding inspection, and destructive and non-destructive testing provides the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology diploma curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

ACCOUNTING

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble, analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Accounting Diploma - D25100
-Day, Evening, and Online

The Accounting Diploma provides students with a basic accounting skill set and overall knowledge enhanced by selected accounting electives and a potential cooperative education experience. After the Accounting Diploma is started, a student may elect to pursue an A.A.S Degree in Accounting or after the Accounting Diploma is awarded, a student may return to Wake Tech to earn an A.A.S. Degree in Accounting.

The curriculum is designed to provide students with the knowledge and skills necessary for employment and growth in the accounting profession. Diploma graduates should be able to pursue a variety of entry-level accounting positions in private industry, accounting firms, and government agencies. In order to complete the diploma program in three semesters, the program must begin in the summer semester.

BAKING & PASTRY ARTS
The Baking and Pastry Arts curriculum is designed to prepare students with the skills and knowledge required for employment in the baking/pastry industry including restaurants, hotels, independent bakeries/pastry shops, wholesale/retail markets, and high-volume bakeries.

Course offerings emphasizing practical application, a strong theoretical knowledge base, and professionalism provide the critical competencies to meet industry demands. Course work includes specialty/artisan baked goods, pastries, cakes, and dessert production.

Graduates should qualify for entry-level positions, such as pastry/bakery assistant, area pastry chef and assistant pastry chef.

American Culinary Federation certification is available to graduates.

Baking and Pastry Arts Diploma -D55130
- Day Only

The Baking and Pastry Arts diploma includes basic and more advanced courses to help prepare students for entry into the baking field or to advance in their current foodservice positions.

Courses address both the art and the science of baking. Students learn basic sanitation, cooking and baking principles, and garnishing and presentation skills. Modern supervision techniques are also studied and practiced. The majority of class time is devoted to actual hands-on kitchen skill development.

Course credits are transferable to the Culinary Arts associate degree program.

Graduation Requirements

Business Administration
The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in marketing, management operations, and some graduates have started up their own small businesses.

BUSINESS ADMINISTRATION /HUMAN RESOURCES MANAGEMENT

Human Resource Management (HRM) is the organizational function responsible for creating and supporting the systems that are used to effectively manage an organization’s employees. HRM managers, professionals and support staff work in areas such as compensation, benefits, staffing and training.

The Business Administration / Human Resources curriculum prepares students to perform these roles in organizations of varying size and type and, depending on individual and organizational factors, roles can be performed at the administrative support, individual contributor / professional or managerial level.

Critical thinking, project and problem solving skills are emphasized in the program course work. Because the degree requires the general study of business and management as well as HRM, students are prepared to begin careers in both disciplines. The degree is fully online and can be completed in four full-time semesters.

COSMETOLOGY

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

CRIMINAL JUSTICE TECHNOLOGY

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on the history, structure, functions, and philosophy of the criminal justice system with regard to corrections; juvenile justice systems and related issues; corrections alternatives, treatment programs, inmate control; statutory/case law as it applies to correctional concepts, facilities, and related practices; and the study of offenders, diversion, house arrest, restitution, community service, probation and parole. Upon completion of this certificate, employment opportunities exist in a variety of local, state, and federal corrections facilities.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Principles of Identification & Information Certificate - C5518A

-Court Procedure & Evidence

Crime scene investigation is a complex process that includes the initial response; evaluation, processing, and documentation of the scene. Throughout the investigation process it is vital to maintain the integrity of the investigation. This is done through crime scene processing, investigative skills, interview and interrogation of the suspects, proper documentation, which includes written documentation, diagrams and sketches, crime scene photography and basic friction ridge analysis. Crime Scene investigators can pursue a number of professional accreditations in order to meet basic and advanced standards. The competent CSI will seek continuing education opportunities through attendance at conferences and training seminars, as well as advanced educational programs such as this certificate with Wake Technical Community College.

CULINARY ARTS

The Culinary Arts curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of food service settings including full service restaurants, hotels, resorts, clubs, catering operations, contract food service, and health care facilities.

Course offerings emphasize practical application, a strong theoretical knowledge base, and professionalism and provide the critical competencies to successfully meet industry demands. Courses also include sanitation, food/beverage service and control, baking, garde manger, American/International cuisines, and hospitality supervision.

Graduates should qualify for entry-level positions such as line cook, station chef, and assistant pastry chef. American Culinary Federation certification is available to graduates. With experience, graduates may advance to positions such as sous-chef, executive chef, or food service manager.

Please Note: CUL 140, Basic Culinary Skills is a pre-requisite for CUL 160, Baking I.

Culinary Arts Diploma - D55150

-Day Only

The culinary arts diploma includes basic and more advanced courses to help prepare students for entry into the culinary field or to advance in their current foodservice positions.

Courses address both the art and the science of food preparation. Students learn basic sanitation, cooking and baking principles, and garnishing and presentation skills. Modern supervision techniques are also studied and practiced. The majority of class time is devoted to actual hands on kitchen skill development.

Course credits are transferable to the Culinary Arts associate degree program.

FIRE PROTECTION TECHNOLOGY

The Fire Protection Technology curriculum is designed to provide individuals with technical and professional knowledge to make decisions regarding fire protection for both public and private sectors. It also provides a sound foundation for continuous higher learning in fire protection, administration, and management.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of fire protection. Students will learn technical and administrative skills such as hydraulics, hazardous materials, arson investigation, fire protection safety, fire suppression management, law, and codes.

Graduates should qualify for employment or advancement in governmental agencies, industrial firms, insurance rating organizations, educational organizations, and municipal fire departments. Employed persons should have opportunities for skilled and supervisory-level positions within their current organizations.

- FIP 220 Firefighting Strategies ............................................ 3
- FIP 221 Advanced Fire Fighting Strategies ............................. 3

**Graduation Requirements ............................... 15 Credit Hours**

Loss Control/Investigation Certificate - C55240B

**-Day**

The Loss Control/Investigation certificate prepares students to function effectively and lead within a fire department’s inspections and investigations division. The program provides an overview into the theories, practices, and scope of the fire prevention function, including the study of fire cause investigation, fire protection law, model fire codes, life safety, public education, fire protection systems, employee supervision and expository writing. Upon completion, certificate holders may qualify for supervisory or entry-level management positions in fire prevention, training, or fire suppression. Additional employment opportunities in fire and life safety protection may also be found in hospitals, colleges, manufacturing facilities or insurance companies.
GLOBAL LOGISTICS TECHNOLOGY

The Global Logistics Technology curriculum prepares individuals for a multitude of career opportunities in distribution, transportation, and manufacturing organizations. Classroom instruction, field of study experiences, and practical laboratory applications of logistics management and global technology capabilities are included in the program of study.

Course work includes computer applications, accounting, business law, economics, management, industrial sciences, and international studies. Students will solve different levels of logistics-related problems through case study evaluations and supply chain projects utilizing logistical hardware and intelligent software tools.

Graduates should qualify for positions in a wide range of government agencies, manufacturing, and service organizations. Employment opportunities include entry-level purchasing, material management, warehousing, inventory, transportation coordinators, and logistics analysts. Upon completion, graduates may be eligible for certification credentials through APICS and AST&L.

LATERAL ENTRY

The Lateral Entry curriculum provides a course of study leading to the development of the general pedagogy competencies needed to become certified to teach by the North Carolina Department of Public Instruction.

Course work includes human growth and development, learning theory, instructional technology, school policies and procedures, home, school, and community collaborations, and classroom organization and management to enhance learning. Courses offered by partnering senior institutions include instructional methods, literacy, and diversity.

Graduates should meet the general pedagogical competencies within the first three years of teaching, including a minimum of six semester hours per school year. Additional requirements, such as pre-service training and passing the PRAXIS, are required for licensure.

OFFICE ADMINISTRATION

The Office Administration curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated office software, oral and written communication, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on non-technical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level positions to supervisor to middle management.

SPA 111, 112, 211, 212

Social/Behavioral Sciences ........................................... 12
Select 4 courses from at least 3 discipline areas.
At least 1 history course is required.
ANT 210, 220, 221, (230 and 230A), 240
ECO 151, 251, 252
GEO 111, 112
HIS 111, 112, 121, 122, 131, 132
POL 110, 120
PSY 150, 237, 239, 241, 281
SOC 210, 213, 220, 225, 230

Natural Sciences .......................................................... 8
Select from the following list. (If you select BIO 110, you may not select BIO 111 or BIO 112.)
AST (111 and 111A), (151 and 151A), (152 and 152A)
BIO 110, 111, 112, 120, 130, (140 and 140A)

Mathematics ..................................................................... 6
A. Select 1 course (and lab) from the following list.
MAT 140 (and 140A)
MAT 263 (and 263A)
MAT 271
MAT 272
MAT 273

B. Select 1 course (and lab) from the following list.
*If MAT 161 was selected from List A, then
MAT 171 or MAT 175 may not be selected.

*If MAT 171 was selected from List A, then
MAT 161 or MAT 175 may not be selected.)
MAT 151 (and 151A)
MAT 155 (and 155A)
MAT 161 (and 161A)
MAT 165 (and 165A)
MAT 171 (and 171A)
MAT 172 (and 172A)
MAT 175 (and 175A)
MAT 263 (and 263A)
MAT 271
MAT 272
MAT 273

**Humanities/Fine Arts** .......................................................... 9

Three (3) courses from three (3) discipline areas are required.

One (1) literature course is required; select from the following:

- ENG 131, 231, 241, 242, 261, 262

Select two (2) additional courses from two of the following discipline areas:

- **ART** 111, 114, 115, 116, 117
- **COM** 110, 120, 231
- **DRA** 111, 112, 115, 122, 126
- **FRE** (111 and 181)
- **HUM** 110, 115, 130, 211, 212, 220
- **MUS** 110, 112, 113, 114, 213
- **PHI** 210, 215, 220, 240
- **SPA** (111 and 181), 141, 151, 161, (211 and 281), (212 and 282), 221

**Social/Behavioral Sciences** .................................................. 9

Three (3) courses from three (3) discipline areas are required.

One (1) history course is required; select from the following:

- HIS 111, 112, 121, 122, 131, 132

Select two (2) additional courses from two (2) of the following discipline areas:

- **ANT** 210
- **ECO** 251, 252
- **GEO** 111, 112
- **POL** 110, 120, 210
- **PSY** 150
- **SOC** 210, 213, 220, 225

**Natural Sciences** ................................................................. 8

Select one (1) of the following two-course sequences:

- **BIO** 111 and 112
- **CHM** 151 and 152
- **PHY** 151 and 152
- **PHY** 251 and 252

**Mathematics** ................................................................................. 6

(MAT 171 and 171A), (172 and 172A)

Higher mathematics courses may be substituted if placement warrants.

**Additional Natural Sciences/ Mathematics Requirements** ........ 6

- **AST** 111, 111A, 151, 151A, 152, 152A
- **BIO** 110, 111, 112, 120, 130, 140, 140A (You may not select both BIO 110 and BIO 111)
- **CHM** 151, 152
- **GEL** 111, 113, 120, 230
- **MAT** (151 and 151A) or (155 and 155A), (175 and 175A), 271, 272, 273 (You may not select both MAT 151/151A and MAT155/155A)
- **PHY** 151, 152, 252 (You may not select both PHY 151/152 and PHY 251/252)

**General Education Core Requirements** .................. 44 Credit Hours
## Associate in Science (A.S.)

ADVERTISING & GRAPHIC DESIGN

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession that emphasizes design, advertising, illustration, and digital and multimedia preparation of printed and electronic promotional materials.

Students will be trained in the development of concept and design for promotional materials, such as newspaper and magazine advertisements, posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media.

Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, and a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

Web and Graphic Design Certificate - C30100B
-Online Only

The Web and Graphic Design certificate curriculum is designed to provide students with the knowledge and skills necessary for employment in the graphic design profession. It emphasizes design, advertising, illustration, and digital and multimedia preparation of electronic, especially Web-based, promotional materials.

Students will be trained in the use of typography, computer design, and Web development tools to develop concept and design for electronic media promotional materials.

Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, and a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

**Completion Requirements** ............................................ 18 Credit Hours

**Digital Media Certificate - C30100C**

-Day or Online

Students will learn the skills to create static and animation 2D and 3D digital graphic plus interactive multimedia using industry standard tools.

**Completion Requirements** ............................................ 17 Credit Hours

ARCHITECTURAL TECHNOLOGY

The Architectural Technology curriculum provides individuals with knowledge and skills that can lead to employment in the field of architecture or one of the associated professions.

Students receive instruction in construction document preparation, materials and methods, environmental and structural systems, building codes and specifications, and computer applications as well as complete a design project. Optional courses may be provided to suit specific career needs.

Upon completion, graduates have career opportunities within the architectural, engineering, and construction professions as well as positions in industry and government.

**Architectural CAD Certificate - C40100A**

-Day and Evening

The evening Architectural CAD certificate is designed for students employed full-time in architectural engineering or construction positions that require microcomputer knowledge. Courses include basic hands-on architectural drafting in residential construction and
Computer & Engineering Technologies

Computer courses in different types of computer-aided drafting software from basic to advanced levels.

Opportunities for employment exist as junior technicians within architectural practices and engineering and contracting companies. Courses in this program can be transferred directly into the Architectural Technology associate degree program.

* Cooperative education (6 hours) or an equivalent is required during these terms. Students must have approval from the Dean and pre-register with the Co-op Office.

Applied Biotechnology Certificate - C20180A

The BioPharmaceutical Technology Certificate shows the student how biotechnology is applied to solving problems and how it has been used to develop test methods, treat wastes, formulate pharmaceuticals or develop alternatives to current harmful chemical uses. This certificate program will show the student how biotechnology is being used and look to the future of biotechnological applications. Students will also be exposed to how the regulatory authorities evaluate new processes and products developed by biotechnology.

Last updated 6/7/12

2012-2013 Catalog Volume 34 | Wake Technical Community College 133
The Civil Engineering Technology Certificate allows students to complete the certificate in two to three semesters. Students are then able to work in the civil field. This certificate is designed to address the all time high demand for technicians, and to train for jobs in these fields with just a small amount of college. This certificate is for students that are not sure which path they would like to follow. The Civil Design certificate will allow you to work as an engineering technician in engineering offices throughout the country. One job function would be to place ideas down on the computer by working directly with an engineer.

C LANGUAGE PROGRAMMING CERTIFICATE - C40160B
-Day and Evening

This certificate provides a solid programming foundation in C and C++, the primary programming languages used for Linux kernel, system, and utility code. Students may choose to substitute Java instead, with permission of the CET department head. Once a solid foundation is built with respect to the key elements of open source programs (i.e. threads, processes, dynamic libraries, and so on), the student will master some of the many tools that support the open source development community. Examples of such tools are CVS, SourceForge, Bugzilla, GNU tools, Eclipse, and scripting languages. The tools covered may evolve to keep pace with the fast changing open source landscape.

Upon completion, students should be able to participate in open source code development, whether contributing bug reports to existing SourceForge projects or sponsoring their own projects.

COMPUTER INFORMATION TECHNOLOGY

The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible program, designed to meet community information systems needs.

Course work includes computer systems terminology and operations, logic, operating systems, database, data communications/networking, and related business topics. Studies will provide experience for students to implement, support, and customize industry-standard information systems. Graduates should qualify for a wide variety of computer-related, entry-level positions that provide opportunities for advancement with increasing experience and ongoing training. Duties may include systems maintenance and troubleshooting, support and training, and business applications design and implementation.

IT Support Management Certificate - C25260L
-- Day, Evening

This curriculum provides students with the knowledge and practical skills necessary to prepare them to supervise or manage a support technology team.

Graduates should qualify for employment opportunities that will lead to supervisory and management position in helpdesk support or with businesses, educational systems, and governmental agencies that rely on computer systems to manage information.

**Help Desk management position are not typically entry level positions and require at least 2 years experience as a support technician.

IT Support Technician Certificate - C25260K
-Day and Evening

This certificate provides students with the knowledge and practical skills necessary to support users of computing technologies. The course work will help students prepare for the Microsoft Certified Tech Support (MCTS) certification and develop the ability to work in helpdesk and technical support positions.

- CTS 155 Tech Support Functions ........................................ 3
- CTS 220 Advanced Hardware/Software Support .................... 3
- NOS 130 Windows Single User .......................................... 3
- NOS 230 Windows Admin I ............................................. 3
Microsoft Application Specialist (MCAS) Certificate - C25260A

-Day and Evening

This certificate offers entry-level courses for individuals planning to use computers to process and manage information. Beginning with the basics, students acquire intermediate and advanced skills using a software package designed for word processing, spreadsheet presentations, and business presentations. A program prerequisite of CIS 110 or CIS 111 is required.

Upon completion, students should be able to integrate data to produce documents using multiple technologies. Students will also gain necessary skills to pursue the Microsoft Certified Application Specialist (MCAS) Proficient Level certification examinations in word processing, spreadsheet, as well as the Expert Level certification examination in presentation software.

Spreadsheet Specialist Certificate - C25260E

-Day and Evening

This certificate provides advanced-level courses for individuals who wish to acquire expert level spreadsheet skills. Topics include: creating professional looking spreadsheets, macro customization techniques, financial calculations, and utilizing advanced spreadsheet features.

Upon completion, students will gain necessary skills to pursue the Microsoft Certified Application Specialist (MCAS) certification examinations in Excel at the Core Level and the Expert Level.

CIS 110 Introduction to Computers....................................3
CTS 135 Integrated Software Introduction .................................4

Completion Requirements ............................................13 Credit Hours

Computer Programming

This curriculum prepares individuals for employment as computer programmers and related positions through study and applications in computer concepts, logic, programming procedures, languages, generators, operating systems, networking, data management, and business operations.

Students will solve business computer problems through programming techniques and procedures, using appropriate languages and software. The primary emphasis of the curriculum is hands-on training in programming and related computer areas that provide the ability to adapt as systems evolve.

Graduates should qualify for employment in business, industry, and government organizations as programmers, programmer trainees, programmer/analysts, software developers, computer operators, systems technicians, database specialists, computer specialists, software specialists, or information systems managers.

Visual Basic Programming Certificate - C25130B
-Day and Evening

Designed for individuals interested in acquiring the advanced programming skills necessary to design and implement Visual BASIC programs. The student will learn how to design Visual BASIC programs using event-driven programming techniques, implement current interface design standards, create reusable code, manipulate records in both a file-based system and a database system, and program customization using API calls. Emphasis is placed on proper program design techniques.

C++ Programming Certificate - C25130C
-Day and Evening

The C++ Programming certificate offers courses for students interested in upgrading their programming skills by acquiring proficiency in an object-oriented programming language. This program is also appropriate for individuals who are new to programming. Instruction in C++ programming includes object-oriented programming topics (classes, inheritance, and polymorphism) as well as procedural programming topics (data types, control structures, functions, arrays, pointers and strings).

Completion Requirements ............................................... 15 Credit Hours

DATABASE MANAGEMENT

The Database Management curriculum prepares graduates for employment with organizations that use database management system software to process, manage, and communicate information. Additionally, the curriculum provides the student with a foundation to begin professional certification with Microsoft or ORACLE database programs.

Course work includes terminology and design, database administration, backup and recovery, performance and tuning, database programming and tools, and related topics. Studies will provide an opportunity for students to implement, support, and manage industry standard database systems.

Graduates should qualify for a wide variety of database and...
computer related entry-level positions that provide opportunities for advancement with increasing experience and ongoing training.

ELECTRONICS ENGINEERING TECHNOLOGY

The Electronics Engineering Technology curriculum prepares individuals to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems.

A broad-based core of courses, including basic electricity, solid-state fundamentals, digital concepts, and microprocessors, ensures the student will develop the skills necessary to perform entry-level tasks. Emphasis is placed on developing the student's ability to analyze and troubleshoot electronic systems.

Graduates should qualify for employment as engineering assistants or electronic technicians with job titles such as electronics engineering technician, field service technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

Basic Electronics Certificate - C40200A
The Basic Electronics certificate provides the student with a program of study necessary for developing basic electronic skills. The student will gain an understanding of AC/DC circuits, digital circuits, and basic electronic devices. Courses are an adjunct of the Electronics Engineering Technology program and may be transferred directly toward completion of the A.A.S. degree in Electronics Engineering Technology.

PLC Programming Certificate - C40200B
The PLC Programming Certificate provides the student with the basic technical skills and knowledge necessary to work with the Programmable Logic Controllers typically found in an industrial environment. The program investigates the operation and programming of PLCs and the interfacing of PLCs to electronic devices and sensors routinely found in industrial controls. Students entering the program are expected to have a basic knowledge of AC and DC electrical circuits.

Computer Electives
Select 2 hours from the following courses
ATR 214 Advanced PLCs ................................................... 4
ATR 215 Sensors and Transducers ........................................ 3
ELC 128 Intro to PLC's ..................................................... 3
ELN 231 Industrial Controls ................................................ 3

Completion Requirements .................................................. 13 Credit Hours

Robotics Certificate - C40200C
The Robotics Certificate provides the student with the basic technical skills and knowledge necessary to work with PLCs and the types of industrial robots typically found in an automated production environment. The program investigates the operation and programming of several industrial robots from desktop trainers to SCARA and pick-and-place robots. Students entering the program are expected to have a basic knowledge of AC/DC electrical circuits.
ENVIRONMENTAL SCIENCE TECHNOLOGY
The Environmental Science Technology curriculum is designed to prepare individuals for employment in environmental testing/consulting and related industries. Major emphasis is placed on biological and chemical evaluation of man's impact on his environment.

Course work includes general education, computer applications, biology, chemistry, industrial safety, and an extensive array of detailed environmentally specific classes.

Graduates should qualify for numerous positions within the industry. Employment opportunities include, but are not limited to, the following: Chemical Analysis, Biological Analysis, Water/Wastewater Treatment, EPA Compliance Inspection, Hazardous Material Handling, Waste Abatement/Removal, and Contaminated Site Assessment/Remediation.

INDUSTRIAL ENGINEERING TECHNOLOGY
The industrial engineering technology curriculum prepares graduates to perform as technical leaders in manufacturing and service organizations. The curriculum incorporates the study and application of methods and techniques for developing, implementing and improving integrated systems involving people, material, equipment, information, and quality systems. The course work emphasizes analytical and problem solving techniques for process development and improvement.

The curriculum includes systems analysis, quality and productivity improvement techniques, cost analysis, facilities planning, organizational management, effective communications and computer usage as a problem-solving tool.

Graduates of the curriculum will qualify for positions in a wide range of manufacturing, quality and service organizations. Employment opportunities include industrial engineering technology, quality assurance, supervision, team leadership and facilities management. Certification is available through organizations such as ASQC, SME and APICS.

**INFORMATION SYSTEMS SECURITY**

Information Systems Security covers a broad expanse of technology concepts. This curriculum provides individuals with the skills required to implement effective and comprehensive information security controls.

Course work includes networking technologies, operating systems administration, information policy, intrusion detection, security administration, and industry best practices to protect data communications.

Graduates should be prepared for employment as security administrators. Additionally, they will acquire the skills that allow them to pursue security certifications.

**INTERIOR DESIGN**

The Interior Design curriculum is designed to prepare students for a variety of job opportunities in the field of both residential and nonresidential interior design. The focus of the studies is technical knowledge, professional practices, and aesthetic principles.

Students receive instruction in basic design, graphic presentation, construction document preparation, materials and methods, environmental and structural systems, building codes and specifications, computer-aided design, history of interiors and furnishings, color theory, products, business practices, and general education courses.
Upon completion, graduates have career opportunities in residential or commercial interior design, architecture, set design, showroom design, furniture/textiles/accessories sales, and any business dealing with interiors.

LANDSCAPE ARCHITECTURE TECHNOLOGY

The Landscape Architecture Technology curriculum prepares individuals as landscape architecture technicians in landscape design, construction, and architecture fields. The well-trained landscape technician will find excellent prospects for employment and advancement, including large-scale site design and supervision and residential landscape design.

Students receive instruction in landscape construction materials and methods, environmental planning, principles of horticulture, building codes, and computer applications. They develop drafting and computer skills through progressive hands-on courses. Students may choose from a library of courses to suit specific interest areas.

Graduates will demonstrate a working knowledge of landscape architectural practices, including site planning, storm water engineering, road and parking layouts, and grading and plant selection according to zoning/code requirements.

MECHANICAL ENGINEERING
TECHNOLOGY

The Mechanical Engineering Technology curriculum provides a
board and diverse educational experience. Course work includes
computer-aided drafting and design, applied mechanics, materials
engineering, quality control, manufacturing methods and processes,
computer usage, mathematics, physics and oral and written
communications. The courses will stress critical thinking, planning
and problem solving.

The diversity of Mechanical Engineering Technology degree enables
students to pursue exciting careers in following fields:
- Engineering/Architectural
- Mechanical Design
- Manufacturing
- Quality
- Service

If elected, students can pursue a 4 year Engineering Technology
degree after graduation.

NETWORKING TECHNOLOGY

The Networking Technology curriculum prepares individuals for employment supporting local- and wide-area networks. Students will learn how to use technologies to provide for data, voice, image, and video communications in business, industry, and education.

Course work includes design, installation, configuration, and management of local- and wide-area network hardware and software. Emphasis is placed on developing proficiency in the use of network management software and the use of hardware such as bridges and routers.

Graduates may find employment in entry-level jobs as local area network managers, network operators, network analysts, and network technicians. Graduates may also be qualified to take certification examinations for various network products, depending on their local program.

CISCO Certified Network Associate (CCNA)
Certificate - C25340C
This certificate is designed to prepare students for the CISCO Certified Network Associate (CCNA) examination. Topics include network topologies and design, router configuration and protocols, switching theory, virtual LANS and threaded case studies.

Upon completion of the four-course sequence, students will have the expertise they need to pass the test required to achieve CCNA status. Completion of NET 110 or CIS 262 or its equivalent is required to begin this program.

SIMULATION & GAME DEVELOPMENT
The Simulation and Game Development curriculum provides a broad background in simulation and game development with practical applications in creative arts, visual arts, audio/video technology, creative writing, modeling, design, programming and management. Students will receive hands-on training in design, 3D modeling, software engineering, database administration and programming for the purpose of creating simulations and games. Graduates should qualify for employment as designers, artists, animators, programmers, database administrators, testers, quality assurance analysts, engineers and administrators in the
COMPUTER & ENGINEERING TECHNOLOGIES

entertainment industry, the health care industry, engineering, forensics, education, NASA and government agencies.

Game Programming and Design Diploma - D25450A
This diploma is designed for individuals seeking employment in the digital game, movie industry, or related companies, as game programmers, programmer trainees, game testers or designers/developers.
### COMPUTER & ENGINEERING TECHNOLOGIES

Topics include the study of applications in game engines, logic, graphics, game programming API’s, game design implementation techniques. Primary emphasis is hands-on training in digital game design/programming that provides a student the ability to adapt as digital game technology evolves. Upon completion, students will have the necessary skills to develop computer games using appropriate tools.

### SURVEYING TECHNOLOGY

The Surveying Technology curriculum provides training for technicians in the many areas of surveying. Surveyors are involved in land surveying, route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other areas of property description and measurements.

Course work includes the communication and computational skills required for boundary, construction, route, and control surveying, photogrammetry, topography, drainage, surveying law, and subdivision design, with emphasis upon applications of electronic data collection and related software including CAD.

Graduates should qualify for jobs as survey party chief, instrument person, surveying technician, highway surveyor, mapper, GPS technician, and CAD operator. Graduates will be prepared to pursue the requirements necessary to become a Registered Land Surveyor in North Carolina.

### WEB TECHNOLOGIES

The Web Technologies curriculum prepares graduates for careers in the information technology arena using computers and distributed computing to disseminate and collect information via the web. Course work in this program covers the terminology and use of computers, network devices, networks, servers, databases, applications, programming languages, as well as web applications, site development and design. Studies will provide opportunity for students to learn related industry standards.

Graduates should qualify for career opportunities as designers, administrators, or developers in the areas of web applications, websites, web services, and related areas of distributed computing.

#### WEB TECHNOLOGIES Degree - A25290

COURSE REQUIREMENTS CREDIT HOURS

English/Communications ........................................ 6
ENG 111 Expository Writing ..................................... 3
ENG 114 Professional Research and Reporting........... 3

Humanities/Fine Arts ........................................ 3
Select from courses in art, foreign language, humanities, literature, music, philosophy, and religion.

Social/Behavioral Sciences ..................................... 3
Select from courses in economics, history, political science, psychology, and sociology.

Natural Sciences/Mathematics ................................ 3
Select from courses in biology, chemistry, geology, physics, and mathematics.

Computer Science ........................................... 2
CIS 111 Basic PC Literacy (1 2 2)

Electives ..................................................... 47
Select from associate degree level courses in English/communications, humanities/fine arts, social/behavioral sciences, and natural sciences/mathematics, or any specialty courses as selected by the student and approved by the student's advisor.

Graduation Requirements ................................. 64 Credit Hours

ASSOCIATE IN GENERAL EDUCATION

The Associate in General Education (AGE) curriculum is designed for individuals wishing to broaden their education, with emphasis on personal interest, growth and development. The two-year General Education program provides students opportunities to study English, literature, fine arts, philosophy, social science, science and mathematics.

Many of the courses are equivalent to college transfer courses; however, the program is not principally designed for college transfer. Courses must be at the 110-199 or 210-299 level. Within the degree program, the college shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers.

VOCATIONAL AND TECHNICAL INSTRUCTORS’ OPTION

This option is designed for teachers of vocational and technical programs in technical colleges, trade schools, high schools, and similar institutions, as well as for practitioners of specific vocations. In addition to completing the core requirements for the Associate in General Education degree, the student may receive credit for previous training, experience, and formal study in the student's area of specialization. A maximum of sixteen hours of elective credit may be granted as follows:

I. Sixteen semester hours of credit for full-time trade school instruction (twelve months/1440 hours) in one special skilled area. Certified by transcript, diploma, or letter from trade school. Maximum sixteen semester hours of credit.

II. One semester hour of credit per ninety hours of full-time trade school instruction for programs of less than one-year duration. Certified by transcript, diploma, or letter from trade school. Maximum sixteen semester hours of credit.

III. One semester hour of credit per sixty hours of special short course instruction by a company-sponsored school. Certified by diploma, certificate, or letter from company school. Maximum three semester hours of credit.

IV. Three semester hours of credit for a full year of employment (outside of Wake Technical Community College) in a situation where teaching was the primary employment. Maximum three semester hours of credit.

V. Five semester hours of credit for each full year of employment at Wake Technical Community College with teaching the specialty courses as the primary responsibility. Maximum fifteen semester hours of credit.

VI. One semester hour of credit for each full year of employment in the specialty occupation qualified to teach. Maximum five semester hours of credit.

Credits earned in industrial and/or vocational programs offered by regionally-accredited, collegiate-level institutions are acceptable in meeting requirements in the area of specialization.

The student will be required to provide sufficient documentation to substantiate the suitability of previous training, experience, and formal study for credit.
The table below shows the current degrees, diplomas, and certificates the Health Sciences division offers. The highest credential given in each area is listed first, in bold type.

The "Program Offered" column represents when the program is offered:

- **D** = Day
- **E** = Evening
- **O** = Distance learning or Online learning

HEALTH SCIENCES

ASSOCIATE DEGREE
NURSING

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

COMPUTED TOMOGRAPHY TECHNOLOGY

The Computed Tomography Technology curriculum prepares the individual to use specialized equipment to visualize cross-sectional anatomical structures and aid physicians in the demonstration of pathologies and disease processes. Individuals entering this curriculum must be registered or registry-eligible radiologic technologists, radiation therapists, or nuclear medicine technologists.

Course work prepares the technologist to provide patient care and perform studies utilizing imaging equipment, professional communication, and quality assurance in scheduled and emergency procedures through academic and clinical studies.

Graduates may be eligible to sit for the American Registry of Radiologic Technologist Advanced-Level testing in Computed Tomography examination. They may find employment in facilities which perform these imaging procedures.

DENTAL ASSISTING

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chairside and related office and laboratory procedures.

The Dental Assisting Program at Wake Technical Community College is accredited by the American Dental Association and therefore a graduate is classified as a DA II by the North Carolina State Board of Dental Examiners. The student may also be eligible to take the General Chairside Exam in order to be a Certified Dental Assistant (CDA). As a Dental Assistant II (DAII), defined by the Dental Laws of North Carolina, graduates can perform identified expanded functions including coronal polishing.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory or pre-clinical, and clinical experiences provide the students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures. The students receive their hands-on patient care clinical experience with rotations at the UNC School of Dentistry, Wake County Human Services-Dental Clinic, and private general and specialty dental practices within Wake County.

DENTAL HYGIENE

The Dental Hygiene curriculum provides individuals with the knowledge and skills to assess, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operatory, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care.

Graduates of this program may be eligible to take national and state/regional examinations for licensure which are required to practice dental hygiene. Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

EMERGENCY MEDICAL SCIENCE

The Emergency Medical Science curriculum is designed to prepare graduates to enter the workforce as paramedics. Additionally, the program can provide an Associate Degree for individuals desiring an opportunity for career enhancement.

The course of study provides the student an opportunity to acquire basic and advanced life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, hospital clinical experience, and field internships with emergency medical service agencies.

Students progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include emergency medical service, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and government agencies.

GENERAL OCCUPATIONAL TECHNOLOGY

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from associate degree-level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities.

HUMAN SERVICES TECHNOLOGY

The Human Services Technology curriculum prepares students for entry-level positions in institutions and agencies that provide social, community, and educational services. Along with core courses, students take courses that prepare them for specialization in specific human service areas.

Students will take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes in human services. Fieldwork experience will provide opportunities for application of knowledge and skills learned in the classroom.

Graduates should qualify for positions in mental health, child care, family services, social services, rehabilitation, correction, and educational agencies. Former graduates have successfully transferred into select 4-year colleges and universities.

HUMAN SERVICES TECHNOLOGY / SUBSTANCE ABUSE
The Human Services Technology/Substance Abuse concentration prepares students to assist in drug and alcohol counseling, prevention-oriented educational activities, rehabilitation with recovering clients, managing community-based programs, counseling in residential facilities, and pursuit of four-year degrees.

Course work includes classroom and experiential activities oriented toward an overview of chemical dependency, psychological/sociological process, the twelve Core Functions, intervention techniques with individuals in groups, and follow-up activities with recovering clients.

Graduates should qualify for positions as substance abuse counselors, DUI counselors, halfway house workers, residential facility employees, and substance education specialists. With educational and clinical experiences, graduates can obtain certification by the North Carolina Substance Abuse Board.

MAGNETIC RESONANCE IMAGING TECHNOLOGY
The Magnetic Resonance Imaging (MRI) curriculum prepares students to become MRI technologists and skilled health care professionals who are educated to use magnetic energy fields to produce images of the human body. Individuals entering this program must be registered or registry-eligible radiologic technologists by the American Registry of Radiologic Technologists.

Course work includes imaging fundamentals, MRI physics, procedures, anatomy, pathology, patient care, imaging ethics and law, in a medical environment. Students should be able to demonstrate all functional areas related to the magnetic resonance imaging fields.

Graduates may be eligible to take the American Registry of Radiologic Technologists (ARRT) national examination for certification as MRI technologists.

Graduates may be employed in hospitals, outpatient clinics, physicians’ offices, government agencies, and research. It is essential that the MRI technologist understands ethical standards and the legal framework for MRI. In addition, the MRI technologist must be committed to professional development and the care of others.

MEDICAL ASSISTING
The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical, and laboratory procedures.
HEALTH SCIENCES

Course work includes instruction in scheduling appointments, coding and processing insurance accounts, billing, collections, computer operations; assisting with examinations/treatments, performing routine laboratory procedures, electro-cardiography, supervised medication administration; and ethical/legal issues associated with patient care.

The Medical Assisting Education Review Board (MAERB), an autonomous unit within the Endowment, evaluates medical assisting programs according to Standards adopted by the American Association of Medical Assistants (AAMA), the American Medical Association (AMA), and the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The MAERB then recommends programs to CAAHEP for accreditation.

Graduates of CAAHEP accredited medical assisting diploma program may be eligible to sit for the American Association of Medical Assistants’ Certification Examination, the CMA (AAMA) exam, to become Certified Medical Assistants. Employment opportunities include physicians’ offices, health maintenance organizations, health departments, and outpatient clinics.

MEDICAL LABORATORY TECHNOLOGY

The Medical Laboratory Technology curriculum prepares individuals to perform clinical laboratory procedures in chemistry, hematology, microbiology, and immunohematology that may be used in the maintenance of health and diagnosis/treatment of disease.

Course work emphasizes mathematical and scientific concepts related to specimen collection, laboratory testing and procedures, quality assurance, and reporting/recording and interpreting findings involving tissues, blood, and body fluids.

Graduates may be eligible for the examination given by the Board of Certification of the American Society for Clinical Pathology. Employment opportunities include laboratories in hospitals, medical offices, industry, and research facilities.

PHARMACY TECHNOLOGY

The Pharmacy Technology Program prepares individuals to become pharmacy technicians. These allied health professionals assist and support licensed pharmacists in providing medications and other health care products to patients. Pharmacy technicians maintain patient’s records; fill prescriptions; maintain inventories; set up, package, and label medication doses; prepare solutions and intravenous additives; and perform clerical duties, including insurance forms and forms required by third-party payers. Students will obtain a broad knowledge of the actions and uses of drugs, pharmacology, pharmaceutical calculations, anatomy and physiology, drug delivery systems, pharmacy administration, medical terminology and abbreviations through the course work. Through the simulated pharmacy technology laboratory activities and the clinical experiences, students will increase their management, organizational, interpersonal, customer relations, computer and communication skills as well as their skills in performing pharmacy-related functions. The clinical practice will take place in medical centers and retail pharmacies. The Pharmacy Technology Program has been designed to meet the accreditation standards of the American Society of Health-System Pharmacists.

Graduates may be employed in hospitals, nursing homes, private and chain drug stores, research laboratories, wholesale drug companies, and pharmaceutical manufacturing facilities. Graduates will qualify to take the National Certification Examination developed by the Pharmacy Technician Certification Board.

The Pharmacy Technology program is a collaborative program offered by Johnston Community College and Wake Technical Community College.

RADIOGRAPHY

The Radiography curriculum prepares the graduate to be a radiographer, a skilled health care professional who uses radiation to produce images of the human body. The radiographer must be committed to professional development and the care of others.

Course work includes clinical rotations to area health care facilities, radiographic exposure, image processing, radiographic procedures, physics, pathology, patient care and management, radiation protection, quality assurance, anatomy and physiology, and radiobiology.

Graduates of accredited programs are eligible to apply to take the American Registry of Radiologic Technologists’ national examination for certification and registration as medical radiographers. Graduates may be employed in hospitals, clinics, physicians’ offices, medical laboratories, government agencies, and industry.

THERAPEUTIC MASSAGE

The Therapeutic Massage curriculum prepares graduates to work in direct client care settings to provide manipulation, methodical pressure, friction and kneading of the body for maintaining wellness or treating alterations in wellness throughout the lifespan.

Courses will include content in normal human anatomy and physiology, therapeutic massage, ethical/legal issues, business practices, nutrition and psychology.

Employment opportunities in North Carolina may be found in hospitals, rehabilitation centers, health departments, home health, medical offices, nursing homes, spas, health and sports clubs, and private practice. Graduates may be eligible to take the Massage and Bodywork Licensing Exam, and apply for Licensure in North Carolina.

### ACADEMIC RELATED (ACA Prefix)

**ACA 090 Study Skills**
- **Class**: 2
- **Lab**: 3
- **Clin/WExp**: 0
- **Credit Hours**: 3
- **Prerequisites**: None
- **Corequisites**: None

This course is intended for those who placed into credit-level course work but who are not maintaining satisfactory academic progress toward meeting program goals. Topics include study skills, note taking, learning styles and strategies, test taking, goal setting, and self-assessment skills. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals.

**ACA 111 College Student Success**
- **Class**: 1
- **Lab**: 0
- **Clin/WExp**: 0
- **Credit Hours**: 1
- **Prerequisites**: None
- **Corequisites**: None

This course introduces the college’s physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.

**ACA 115 Success and Study Skills**
- **Class**: 0
- **Lab**: 2
- **Clin/WExp**: 0
- **Credit Hours**: 1
- **Prerequisites**: None
- **Corequisites**: None

This course provides an orientation to the campus resources and academic skills necessary to achieve educational objectives. Emphasis is placed on an exploration of facilities and services, study skills, library skills, self-assessment, wellness, goal-setting, and critical thinking. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals.

**ACA 118 College Study Skills**
- **Class**: 1
- **Lab**: 2
- **Clin/WExp**: 0
- **Credit Hours**: 2
- **Prerequisites**: None
- **Corequisites**: None

This course covers skills and strategies designed to improve study behaviors. Topics include time management, note taking, test taking, memory techniques, active reading strategies, critical thinking, communication skills, learning styles, and other strategies for effective learning. Upon completion, students should be able to apply appropriate study strategies and techniques to the development of an effective study plan.

**ACA 120 Career Assessment**
- **Class**: 1
- **Lab**: 0
- **Clin/WExp**: 0
- **Credit Hours**: 1
- **Prerequisites**: None
- **Corequisites**: None

This course provides the information and strategies necessary to develop clear personal, academic, and professional goals. Topics include personality styles, goal setting, various college curricula, career choices, and campus leadership development. Upon completion, students should be able to clearly state their personal, academic, and professional goals and have a feasible plan of action to achieve those goals.

**ACA 122 College Transfer Success**
- **Class**: 1
- **Lab**: 0
- **Clin/WExp**: 0
- **Credit Hours**: 1
- **Prerequisites**: RED 090 and ENG 090
- **Corequisites**: None

This course provides information and strategies necessary to develop clear academic and professional goals beyond the community college experience. Topics include the CAA, college culture, career exploration, gathering information on senior institutions, strategic planning, critical thinking, and communications skills for a successful academic transition. Upon completion, students should be able to develop an academic plan to transition successfully to senior institutions. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

**ACA 220 Professional Transition**
- **Class**: 1
- **Lab**: 0
- **Clin/WExp**: 0
- **Credit Hours**: 1
- **Prerequisites**: None
- **Corequisites**: None

This course provides preparation for meeting the demands of employment or education beyond the community college experience. Emphasis is placed on strategic planning, gathering information on workplaces or colleges, and developing human interaction skills for professional, academic, and/or community life. Upon completion, students should be able to successfully make the transition to appropriate workplaces or senior institutions.

</table>

**Prerequisites:** None  
**Corequisites:** None  

This course provides an overview of federal income taxes for individuals, partnerships, and corporations. Topics include tax law, electronic research and methodologies and the use of technology for the preparation of individual and business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax laws, and complete federal tax returns for individuals, partnerships, and corporations.
COURSE DESCRIPTIONS

ACC 132  NC Business Taxes  2 0 0 2
Prerequisites: None
Corequisites: None
This course introduces the relevant laws governing North Carolina taxes as they apply to business. Topics include sales taxes, income taxes for business entities, payroll taxes, unemployment taxes, and other taxes pertaining to the State of North Carolina. Upon completion, students should be able to maintain a company's records to comply with the laws governing North Carolina business taxes.

ACC 140  Payroll Accounting  1 2 0 2
Prerequisites: ACC 115 or ACC 120, CIS 110 or CIS 111
Corequisites: None
This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology. This course is also available through the Virtual Learning Community (VLC).

ACC 149  Intro to Acc Spreadsheets  1 2 0 2
Prerequisites: ACC 115 or ACC 120, CIS 110 OR CIS 111
Corequisites: None
This course provides a working knowledge of computer spreadsheets and their use in accounting. Topics include pre-programmed problems, model-building problems, beginning-level macros, graphics, and what-if analysis enhancements of template problems. Upon completion, students should be able to use a computer spreadsheet to complete many of the tasks required in accounting.

ACC 150  Acct Software Appl  1 2 0 2
Prerequisites: ACC 115 or ACC 120, CIS 110 or CIS 111
Corequisites: None
This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to solve accounting problems. This course is also available through the Virtual Learning Community (VLC.)

ACC 151  Acct Spreadsheet Appl  1 2 0 2
Prerequisites: ACC 149
Corequisites: None
This course is designed to facilitate the use of spreadsheet technology as applied to accounting principles. Emphasis is placed on using spreadsheet software as a problem-solving and decision-making tool. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 152  Adv Software Appl  1 2 0 2
Prerequisites: ACC 150
Corequisites: None
This course provides continued exposure to commercial accounting software and the opportunity to refine skills developed in ACC 150. Emphasis is placed on advanced applications of software packages. Upon completion, students should be able to use commercial software to complete complex accounting tasks.

ACC 170  Technical Accounting  2 2 0 3
Prerequisites: None
Corequisites: None
This course introduces the use of accounting for decision making and covers integration of financial accounting with managerial concepts. Topics include essentials of financial accounting and analysis, product costing, activity-based costing systems, budgeting, and financial planning. Upon completion, students should be able to understand and develop financial statements and demonstrate an understanding of accounting transactions and product costing systems.

ACC 175  Hotel and Restaurant Accounting  3 2 0 4
Prerequisites: MAT 115
Corequisites: None
This course covers generally accepted accounting principles and the uniform system of accounts for small hotels and motels of the American Hotel and Motel Association. Emphasis is placed on the accounting cycle, analysis of
financial statements, and payroll procedures including treatment of tips. Upon completion, students should be able to demonstrate competence in the accounting principles and procedures used in hotels and restaurants.

COURSE DESCRIPTIONS

ACC 240  Governmental and Not-for-Profit Accounting  3 0 0 3  
Prerequisites: ACC 121  
Corequisites: None  
This course introduces principles and procedures applicable to governmental and not-for-profit organizations. Emphasis is placed on various budgetary accounting procedures and fund accounting. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 250  Adv Accounting  3 0 0 3  
Prerequisites: ACC 220  
Corequisites: None  
This course is designed to analyze special accounting issues, which may include business combinations, partnerships, international accounting, estates, and trusts. Emphasis is placed on analyzing transactions and preparing working papers and financial statements. Upon completion, students should be able to solve a wide variety of problems by advanced application of accounting principles and procedures.

ACC 268  Information Systems and Internal Controls  3 0 0 3  
Prerequisites: ACC 121  
Corequisites: None  
This course covers the design and operation of accounting information systems, with emphasis placed upon transaction cycles and the necessary controls for reliable data. Topics include accounting procedures; authorizing, documentation, and monitoring; flowcharting, data flow diagrams, and scheduling; and some auditing concepts. Upon completion, students should be able to demonstrate an analytical problem-solving ability and to communicate effectively their analysis in written or oral presentations.

ACC 269  Audit & Assurance Services  3 0 0 3  
Prerequisites: ACC 220  
Corequisites: None  
This course introduces selected topics pertaining to the objectives, theory and practices in engagements providing auditing and other assurance services. Topics will include planning, conducting and reporting, with emphasis on the related professional ethics and standards. Upon completion, students should be able to demonstrate an understanding of the types of professional services, the related professional standards, and engagement methodology.

AIR CONDITIONING, HEATING, AND REFRIGERATION (AHR Prefix)

AHR 110  Introduction to Refrigeration  
Prerequisites: None  
Corequisites: None  
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

AHR 111  HVACR Electricity  2 2 0 3  
Prerequisites: None  
Corequisites: None  
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 112  Heating Technology  2 4 0 4  
Prerequisites: None  
Corequisites: None  
This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system.

marketing materials and a presentation strategy using conventional and/or digital design media. Upon completion, students should be able to produce an architectural portfolio of selected projects.

**ARC 240 Site Planning**
Prerequisites: ARC 111 or LAR 111
Corequisites: None
This course introduces the principles of site planning, grading plans, and earthwork calculations. Topics include site analysis, site work, site utilities, cut and fill, soil erosion control, and other related topics. Upon completion, students should be able to prepare site development plans and details and perform cut and fill calculations.

**ARC 241 Contract Administration**
Prerequisites: ARC 111 and ARC 112, or LAR 111 and LAR 112
Corequisites: None
This course covers the techniques for reviewing the progress of construction projects. Topics include site observations, field reports, applications for payment, change orders, and other related topics. Upon completion, students should be able to review construction progress and produce appropriate documentation.

**ARC 250 Survey of Architecture**
Prerequisites: None
Corequisites: None
This course introduces the historical trends in architectural form. Topics include historical and current trends in architecture. Upon completion, students should be able to demonstrate an understanding of significant historical and current architectural styles.

**ARC 261 Solar Technology**
Prerequisites: ARC 111
Corequisites: None
This course introduces passive and active solar design theory and application. Topics include passive solar design, active solar theory, heat loss analysis, and other related topics. Upon completion, students should be able to design a passive solar system.

**ARC 264 Digital Architecture**
Prerequisites: None
Corequisites: ARC 213
This course covers multiple digital architectural techniques. Topics include spreadsheets and word processing procedures, on-line resources, modems, e-mail, image capture, multimedia, and other related topics. Upon completion, students should be able to transmit/receive electronic data, create multimedia presentations, and produce a desktop publishing document.

**ARC 291 Selected Topics in Architectural Technology**
Prerequisites: Varies, based on topic
Corequisites: None
This course provides an opportunity to explore areas of current interest in Architectural Technology. Emphasis is placed on subject matter appropriate to architectural technologies. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

**ARC 292 Selected Topics in Architectural Technology**
Prerequisites: Varies, based on topic
Corequisites: None
This course provides an opportunity to explore areas of current interest in Architectural Technology. Emphasis is placed on subject matter appropriate to architectural technologies. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

**ARC 293A Selected Topics in Architecture**
Prerequisites: ARC 261 or LAR 120 or DES 235
Corequisites: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on the subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study. Students should be able to submit to a Green Building Design Competition.
ART       (ART Prefix)

ART 111  Art Appreciation
Prerequisites: ENG 090, RED 090, or placement
Corequisites: None
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media.

ART 113  Art Methods and Materials
Prerequisites: None
Corequisites: None
This course provides an overview of media and techniques. Emphasis is placed on exploration and manipulation of materials. Upon completion, students should be able to demonstrate familiarity with a variety of methods, materials, and processes.

ART 114  Art History Survey I
Prerequisites: ENG 090, RED 090, or placement
Corequisites: None
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development.

ART 115  Art History Survey II
Prerequisites: ENG 090, RED 090, or placement
Corequisites: None
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development.

ART 116  Survey of American Art
Prerequisites: RED 090, ENG 090, or placement
Corequisites: None
This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience.

ART 117  Non-Western Art History
Prerequisites: ENG 090, RED 090, or placement
Corequisites: None
This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development.

ART 121  Design I
Prerequisites: None
Corequisites: None
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art.

ART 130  Basic Drawing
Prerequisites: None
Corequisites: None
This course introduces basic drawing techniques and is designed to increase observation skills. Emphasis is placed on the fundamentals of drawing. Upon completion, students should be able to demonstrate various methods and their application to representational imagery.

ART 131  Drawing I
Prerequisites: None
Corequisites: None
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on...
drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

This course covers the laws, procedures, and specifications needed to perform a North Carolina State Safety and Emissions inspection. Topics include brake, steering and suspension, lighting, horn, windshield wiper, tire, mirrors, and emission control devices inspection. Upon completion, students should be able to perform complete and thorough North Carolina State Safety and Emissions inspections.

This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

This course covers the diagnosis, repair and service of the vehicle powertrain and related systems. Topics include fundamental operating principles of engines and transmissions and use of proper service procedures for diagnosis, service and removal and replacement of major components. Upon completion, students should be able to perform basic service and diagnosis of the powertrain and related systems, and to perform in vehicle repairs and remove and replace components.

This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

| **AUT 161 Basic Auto Electricity** | 4 3 0 5 |
| Prerequisites: None | |
| Corequisites: None | |
| This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of batteries, starters, and alternators. Topics include Ohm's Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns. |

| **AUT 161A Basic Auto Electricity Part 1** | 3 0 0 3 |
| Prerequisites: None | |
| Corequisites: None | |
| This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of batteries, starters, and alternators. Topics include Ohm's Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns. This is part one of a two-part course. |

| **AUT 161B Basic Auto Electricity Part 2** | 1 3 0 2 |
| Prerequisites: AUT 161A | |
| Corequisites: AUT 163, AUT 163A, AUT 181 | |
| This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of batteries, starters, and alternators. Topics include Ohm's Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, battery, starting, charging, and electrical concerns. This is part two of a two-part course. |

| **AUT 163 Adv Auto Electricity** | 2 3 0 3 |
| Prerequisites: AUT 161 | |
| Corequisites: AUT 163A, AUT 181 | |
| This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns. |

| **AUT 163A Adv Auto Electricity Lab** | 0 3 0 1 |
| Prerequisites: None | |
| Corequisites: AUT 163 | |
| This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns. |

| **AUT 171 Auto Climate Control** | 2 4 0 4 |
| Prerequisites: AUT 161 or (AUT 161A and AUT 161B) | |
| Corequisites: None | |
| This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information. |

| **AUT 181 Engine Performance 1** | 2 3 0 3 |
| Prerequisites: AUT 161A | |
| Corequisites: AUT 161B, AUT 163, AUT 163A | |
| This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control |
devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.

**AUT 183  Engine Performance 2**  2 6 0 4
Prerequisites:  AUT 181, AUT 141, AUT 141A, AUT 151, AUT 151A, AUT 281
Corequisites:  AUT 221, AUT 221A
This course covers study of the electronic engine control systems, the diagnostic process used to locate engine performance concerns, and procedures used to restore normal operation. Topics will include currently used fuels and fuel systems, exhaust gas analysis, emission control components and systems, OBD II (on-board diagnostics) and inter-related electrical/electronic systems. Upon completion, students should be able to diagnose and repair complex engine performance concerns using appropriate test equipment and service information.

**AUT 213  Automotive Servicing 2**  1 3 0 2
Prerequisites:  AUT 116, AUT 116A, AUT 123, AUT 161A
Corequisites:  AUT 181
This course is a lab used as an alternative to co-op placement. Emphasis is placed on shop operations, troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and to operate appropriate equipment.

**AUT 221  Auto Transm/Transaxles**  2 3 0 3
Prerequisites:  AUT 141, AUT 141A, AUT 151, AUT 151A
Corequisites:  AUT 183, AUT 221A
This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains.

**AUT 221A  Auto Transm/Transax Lab**  0 3 0 1
Prerequisites:  None
Corequisites:  AUT 221
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains.

**AUT 231  Man Trans/Axles/Drtrains**  2 3 0 3
Prerequisites:  None
Corequisites:  AUT 231A
This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair manual drive trains.

**AUT 231A  Man Trans/Ax/Drtrains Lab**  0 3 0 1
Prerequisites:  None
Corequisites:  AUT 231
This course is an optional lab for the program that needs to meet the NATEF hour standards but does not have a co-op component in the program. Topics include manual drive train diagnosis, service and repair using appropriate service information, tools, and equipment. Upon completion, student should be able to diagnose and repair manual drive trains.

**AUT 281  Adv Engine Performance**  2 2 0 3
Prerequisites:  AUT 161A, AUT 161B, AUT 163, AUT 163A, AUT 181
Corequisites:  None
This course utilizes service information and specialized test equipment to diagnose and repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion, students should be able to perform diagnosis and repair.

</thead>
<tbody>
<tr>
<td>BIO 120</td>
<td>Introductory Botany</td>
<td>3</td>
<td>This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. Laboratory exercises are correlated with lecture topics.</td>
</tr>
<tr>
<td>BIO 130</td>
<td>Introductory Zoology</td>
<td>3</td>
<td>This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. The evolutionary relatedness of the organisms studied will be emphasized.</td>
</tr>
<tr>
<td>BIO 140</td>
<td>Environmental Biology</td>
<td>3</td>
<td>This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental inter-relationships and of contemporary environmental issues. Individual action as part of the solution to regional environmental problems is stressed.</td>
</tr>
<tr>
<td>BIO 140A</td>
<td>Environmental Biology Lab</td>
<td>0</td>
<td>This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. Environmentally responsible behavior at the individual level is investigated.</td>
</tr>
<tr>
<td>BIO 145</td>
<td>Ecology</td>
<td>3</td>
<td>This course provides an introduction to ecological concepts using an ecosystems approach. Topics include energy flow, nutrient cycling, succession, population dynamics, community structure, and other related topics. Upon completion, students should be able to demonstrate comprehension of basic ecosystem structure and dynamics. The laboratory component of this course provides an introduction to basic field techniques used in modern ecological research.</td>
</tr>
<tr>
<td>BIO 150</td>
<td>Genetics in Human Affairs</td>
<td>3</td>
<td>This course describes the importance of genetics in everyday life. Topics include the role of genetics in human development, birth defects, cancer and chemical exposure, and current issues including genetic engineering and fertilization methods. Upon completion, students should be able to understand the relationship of genetics to society today and its possible influence on our future. Through the analysis of current topics in genetics, students will develop skills in reading scientific articles and in compiling information into written and oral communications.</td>
</tr>
<tr>
<td>BIO 155</td>
<td>Nutrition</td>
<td>3</td>
<td>This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs. Topics include cultural, religious, and economic factors that influence a person’s acceptance of food as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion, and the nutritional requirements of all age groups.</td>

</table>
BIO 180 Biological Chemistry 2 2 0 3  
Prerequisites: BIO 110 or BIO 111  
Corequisites: None  
This course provides an introduction to basic biochemical processes in living systems. Topics include properties of carbohydrates, lipids, proteins, nucleic acids, vitamins, and buffers, with emphasis on biosynthesis, degradation, function, and equilibrium. Upon completion, students should be able to demonstrate an understanding of fundamental biochemical concepts. Laboratory exercises will complement the basic principles presented in lecture.

BIO 230 Entomology 3 3 0 4  
Prerequisites: BIO 112  
Corequisites: None  
This course covers the biology of insects. Topics include harmful and beneficial insects, their identification, classification, life cycles, behavior, distribution, economic importance, and the methods involved in collection and preservation. Upon completion, students should be able to identify common insects and describe their biology and ecology.

BIO 231 Invertebrate Zoology 3 3 0 4  
Prerequisites: BIO 112  
Corequisites: None  
This course introduces the principles of invertebrate animal biology. Emphasis is placed on the diversity, comparative anatomy, reproduction, development, behavior, ecology, evolution, and the importance of the major invertebrate phyla. Upon completion, students should be able to demonstrate knowledge of life at the invertebrate level. Modern evolutionary theory is used to interpret the relationships among the organisms studied in this course.

BIO 232 Vertebrate Zoology 3 3 0 4  
Prerequisites: BIO 112  
Corequisites: None  
This course introduces the principles of animal biology of the chordate phylum. Emphasis is placed on the diversity, morphology, reproduction, development, behavior, ecology, evolution, and importance of the chordates. Upon completion, students should be able to demonstrate increased knowledge and comprehension of zoology as it applies to life. Local species are emphasized in the laboratory component of this course.

BIO 242 Natural Resources Conservation 3 0 0 3  
Prerequisites: BIO 112  
Corequisites: None  
This course describes the importance of natural resources and their role in our environment. Emphasis is placed on the physical, biological, and ecological principles underlying natural resource conservation with attention to the biological consequences of human impacts. Upon completion, students should be able to demonstrate an understanding of natural resource conservation. Local environmental issues dealing with resource conservation are emphasized.

BIO 243 Marine Biology 3 3 0 4  
Prerequisites: BIO 110 or BIO 111  
Corequisites: None  
This course covers the physical and biological components of the marine environment. Topics include major habitats, the diversity of organisms, their biology and ecology, marine productivity, and the use of marine resources by humans. Upon completion, students should be able to identify various marine habitats and organisms and to demonstrate a knowledge of their biology and ecology.

BIO 250 Genetics 3 3 0 4  
Prerequisites: BIO 112  
Corequisites: None  
This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles.

BIO 271 Pathophysiology 3 0 0 3  
Prerequisites: BIO 163 or BIO 166  
Corequisites: None  
This course provides an in-depth study of human pathological processes and their effects on homeostasis. Emphasis
is placed on interrelationships among organ systems in deviations from homeostasis. Upon completion, students should be able to demonstrate a detailed knowledge of pathophysiology.

**BIO 275 Microbiology**

Prerequisites: A grade of "C" or better in BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168
Corequisites: None

This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BAKING AND PASTRY ARTS (BPA Prefix)**

**BPA 120 Petit Fours & Pastries**

Prerequisites: CUL 110, CUL 160, and BPA 210
Corequisites: None

This course introduces the basic principles of the preparation of petit fours and individual dessert pastries. Emphasis is placed on traditional and contemporary petit fours and pastries, utilizing updated production methods. Upon completion, students should be able to produce individual pastries and petit fours for buffet and special event settings.

**BPA 130 European Cakes and Tortes**

Prerequisites: CUL 110, CUL 160, and BPA 210
Corequisites: None

This course introduces the production of a wide variety of classical and modern cakes suitable for restaurants, retail shops and large-scale production. Emphasis is placed on classic cakes using the methods of mixing, filling, glazing and icing. Upon completion, students should be able to prepare, assemble, and decorate gelatin-based and layered tortes and cakes such as Bavarian, Dobos, and Sacher.

**BPA 150 Artisan & Specialty Bread**

Prerequisites: CUL 110, CUL 140, and CUL 160
Corequisites: None

This course provides an advanced study in the art and craft of bread making. Topics include pertinent formulas and techniques associated with naturally leavened loaves, hearth breads, focaccia, flat breads, and other breads utilizing a variety of grains. Upon completion, students should be able to prepare artisan and specialty breads that meet or exceed the expectations of restaurant and retail publics.

**BPA 165 Hot and Cold Desserts**

Prerequisites: CUL 110, CUL 160
Corequisites: None

This course covers the principles and techniques of frozen desserts, soufflés, cobblers, crisps, and strudel dough products. Topics include bombes, parfaits, baked Alaska, ice cream, sorbets, sherbets and granites; hand-stretched strudel products, crepes, and hot/cold soufflés. Upon completion, student should be able to prepare and plate hot and cold desserts with suitable sauces and garnishes.

**BPA 210 Cake Design & Decorating**

Prerequisites: CUL 110, CUL 140 and CUL 160
Corequisites: None

This course covers advanced concepts in the design and decoration of wedding cakes and other specialty cakes. Topics include baking, filling, and assembling cakes; cake design; finishing techniques utilizing gum paste, fondant, and royal icing; and advanced piping skills. Upon completion, students should be able to design, create, finish and evaluate the quality of wedding and specialty cakes.

**BPA 220 Confection Artistry**

Prerequisites: BPA 150, BPA 210, CUL 110, and CUL 160
Corequisites: None

This course introduces the principles and techniques of decorative sugar work and confectionary candy. Topics include nougat, marzipan modeling, pastillage and cocoa painting, confection candy and a variety of sugar techniques including blown, spun, poured and pulled. Upon completion, students should be able to prepare edible centerpieces and confections to enhance dessert buffets and plate presentations.

Last updated 6/7/12
BPA 230  Chocolate Artistry  1  4  0  3
Prerequisites: CUL 110, CUL 160
Corequisites: BPA 150, BPA 210
This course provides a study in the art and craft of chocolate. Topics include chocolate tempering, piping, molding; decorative work associated with cakes and centerpieces; and the candy production techniques of filling enrobing and dipping. Upon completion, students should be able to properly temper chocolate, produce a variety of chocolate candies and decorative elements for garnishing.

BPA 230A  Chocolate Artistry Lab  0  2  0  1
Prerequisites: CUL 110 and CUL 160
Corequisites: BPA 230
This course provides a laboratory experience for enhancing student skills in the art and craft of chocolate. Emphasis is placed on chocolate tempering, piping, and molding; decorative work associated with cakes and centerpieces; and candy production techniques of filling, enrobing and dipping. Upon completion, students should be able to demonstrate a basic proficiency in the preparation of decorative chocolate centerpieces, garnishes and candies.

BPA 240  Plated Desserts  1  4  0  3
Prerequisites: CUL 110, CUL 160, and BPA 130
Corequisites: None
This course provides a study in the elements and principles of design as it relates to plated desserts. Topics include plate composition, portioning, flavor combinations, textures, eye appeal, balance, color harmony and plate decorating techniques such as stenciling, chocolate striping, and plate painting. Upon completion, students should be able to demonstrate competence in combining a variety of dessert components enhanced with plate decorating techniques.

BPA 250  Dessert/Bread Production  1  8  0  5
Prerequisites: BPA 130, BPA 150, and BPA 210
Corequisites: None
This course is designed to merge artistry and innovation with the practical baking and pastry techniques utilized in a production setting. Emphasis is placed on quantity bread and roll-in dough production, plated and platter presentations, seasonal/theme product utilization and cost effectiveness. Upon completion, students should be able to plan, prepare and evaluate breads and desserts within a commercial environment and determine production costs and selling prices.

BPA 260  Pastry & Baking Marketing  2  2  0  3
Prerequisites: BPA 150 and BPA 210
Corequisites: BPA 220, BPA 230, and BPA 250
This course is designed to cover the marketing concepts and merchandising trends utilized in bakery and pastry operations. Emphasis is placed on menu planning, pricing products/strategies, resale and wholesale distribution methods, legal implications, and advertising techniques. Upon completion, students should be able to create a marketing plan that will serve as a basis for a capstone experience.

BLUEPRINT READING (BPR Prefix)

BPR 111  Blueprint Reading  1  2  0  2
Prerequisites: None
Corequisites: None
This course introduces the basic principles of blueprint reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic blueprints and visualize the features of a part.

BPR 130  Blueprint Reading/Construction  1  2  0  2
Prerequisites: None
Corequisites: None
This course covers the interpretation of blueprints and specifications that are associated with the construction trades. Emphasis is placed on interpretation of details for foundations, floor plans, elevations, and schedules. Upon completion, students should be able to read and interpret a set of construction blueprints.

BPR 230  Commercial Blueprints  1  2  0  2
Prerequisites: BPR 130
Corequisites: None
This course covers blueprints specific to commercial structures and requires basic blueprint reading skills and/or a commercial construction background. Topics include site, structural, mechanical, electrical, and plumbing blueprints.
and specifications. Upon completion, student should be able to interpret commercial blueprints and specifications.

| **BUS 151** People Skills | 3 0 0 3 |
| Prerequisites: None |
| Corequisites: None |
| This course introduces the basic concepts of identity and communication in the business setting. Topics include self-concept, values, communication styles, feelings and emotions, roles versus relationships, and basic assertiveness, listening, and conflict resolution. Upon completion, students should be able to distinguish between unhealthy, self-destructive, communication patterns and healthy, non-destructive, positive communication patterns. |

| **BUS 153** Human Resource Management | 3 0 0 3 |
| Prerequisites: None |
| Corequisites: None |
| This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns. |

| **BUS 193** Selected Topics in Business Administration | - - - 3 |
| Prerequisites: BUS 137 |
| Corequisites: None |
| This course provides an opportunity to explore areas of current interest in business topics. Emphasis is placed on subject matter appropriate to business. Upon completion, students should be able to demonstrate an understanding of the specific area of study. |

| **BUS 217** Employment Law and Regulations | 3 0 0 3 |
| Prerequisites: None |
| Corequisites: None |
| This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law. |

| **BUS 225** Business Finance | 2 2 0 3 |
| Prerequisites: ACC 120 |
| Corequisites: None |
| This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management. |

| **BUS 228** Business Statistics | 2 2 0 3 |
| Prerequisites: MAT 115, MAT 140, or MAT 161 |
| Corequisites: None |
| This course introduces the use of statistical methods and tools in evaluating research data for business applications. Emphasis is placed on basic probability, measures of spread and dispersion, central tendency, sampling, regression analysis, and inductive inference. Upon completion, students should be able to apply statistical problem solving to business. |

| **BUS 230** Small Business Management | 3 0 0 3 |
| Prerequisites: MTH 110 |
| Corequisites: MTH 120 |
| This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan. |

| **BUS 234** Training and Development | 3 0 0 3 |
| Prerequisites: None |
| Corequisites: None |
| This course covers developing, conducting, and evaluating employee training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches,
designing the learning environment, and locating learning resources. Upon completion, students should be able to design, conduct, and evaluate a training program. *This course is also available through the Virtual Learning Community (VLC).*

**BUS 245 Entrepreneurship II**

| Prerequisites: | BUS 139 |
| Corequisites: | None |

This course is designed to allow the student to develop a business plan. Topics include the need for a business plan, sections of the plan, writing the plan, and how to find assistance in preparing the plan. Upon completion, students should be able to design and implement a business plan based on sound entrepreneurship principles.

**BUS 256 Recruitment, Selection, and Personnel Planning**

| Prerequisites: | None |
| Corequisites: | None |

This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and screening techniques, maintaining employee records; and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives.

**BUS 258 Compensation and Benefits**

| Prerequisites: | None |
| Corequisites: | None |

This course is designed to study the basic concepts of pay and its role in rewarding performance. Topics include wage and salary surveys, job analysis, job evaluation techniques, benefits, and pay-for-performance programs. Upon completion, students should be able to develop and manage a basic compensation system to attract, motivate, and retain employees.

**BUS 259 HRM Applications**

| Prerequisites: | BUS 217, BUS 234, BUS 256, and BUS 258 |
| Corequisites: | None |

This course provides students in the Human Resource Management concentration the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing in-basket exercises and through simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work. *This course is a unique concentration requirement of the Human Resources Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).*

**BUS 260 Business Communication**

| Prerequisites: | ENG 111 |
| Corequisites: | None |

This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place.

**BUS 280 REAL Small Business**

| Prerequisites: | None |
| Corequisites: | None |

This course introduces hands-on techniques and procedures for planning and opening a small business, including the personal qualities needed for entrepreneurship. Emphasis is placed on market research, finance, time management, and day-to-day activities of owning/operating a small business. Upon completion, students should be able to write and implement a viable business plan and seek funding.

### COMPUTED TOMOGRAPHY (CAT Prefix)

<table>
<thead>
<tr>
<th>CAT 210 CT Physics and Equipment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prerequisites:</td>
</tr>
<tr>
<td>Corequisites:</td>
</tr>
</tbody>
</table>

This course covers the system operations and components, image processing and display, image quality, and artifacts in computed tomography. Emphasis is placed on the data acquisition components, tissue attenuation conversions, image manipulation, and factors controlling image resolution. Upon completion, students should be able to understand the physics and instrumentation used in computed tomography.

Last updated 6/7/12
CAT 211  CT Procedures  4 0 0 4  
Prerequisites: None  
Corequisites: CAT 210  
This course is designed to cover specialized patient care, cross-sectional anatomy, contrast media, and scanning procedures in computed tomography. Emphasis is placed on patient assessment and monitoring, contrast agents’ use, radiation safety, methods of data acquisition, and identification of cross-sectional anatomy. Upon completion, students should be able to integrate all facets of the imaging procedures in computed tomography.

CAT 223  CT Clinical Practicum  0 0 9 3  
Prerequisites: None  
Corequisites: None  
This course provides the opportunity to apply knowledge gained from classroom instruction to the computed tomography clinical setting. Emphasis is placed on patient care and positioning, scanning procedures, and image production in computed tomography. Upon completion, students should be able to assume a variety of duties and responsibilities within the computed tomography clinical environment.

CAT 225  CT Clinical Practicum  0 0 15 5  
Prerequisites: None  
Corequisites: None  
This course provides the opportunity to apply knowledge gained from classroom instruction to the computed tomography clinical setting. Emphasis is placed on patient care and positioning, scanning procedures, and image production in computed tomography. Upon completion, students should be able to assume a variety of duties and responsibilities within the computed tomography clinical environment.

CAT 261  CT Exam Prep  1 0 0 1  
Prerequisites: None  
Corequisites: None  
This course is a review of the components specific to CT imaging technology as practiced in didactic and clinical settings. Emphasis is placed on content specifications of the ARRT post primary certification in CT. Upon completion, students should be able to demonstrate an understanding of the topics presented for successful completion of the ARRT post-primary certification exam.

CYBER CRIME TECHNOLOGY  (CCT Prefix)  

CCT 121  Computer Crime Invest  3 2 0 4  
Prerequisites: None  
Corequisites: None  
This course introduces the fundamental principles of computer crime investigation processes. Topics include crime scene/ incident processing, information gathering techniques, data retrieval, collection and preservation of evidence, preparation of reports and court presentations. Upon completion, students should be able to identify cyber crime activity and demonstrate proper investigative techniques to process the scene and assist in case prosecution.

CCT 240  Data Recovery Techniques  2 3 0 3  
Prerequisites: None  
Corequisites: None  
This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes. Topics include hardware and software issues, recovering erased files, overcoming encryption, advanced imaging, transient data, Internet issues and testimony considerations. Upon completion, students should be able to recover digital evidence, extract information for criminal investigation and legally seize criminal evidence.

COMPUTER ENGINEERING TECHNOLOGY  (CET Prefix)  

CET 111  Computer Upgrade/Repair I  2 3 0 3  
Prerequisites: None  
Corequisites: None  
This course is the first of two courses covering repairing, servicing, and upgrading computers and peripherals in preparation for industry certification. Topics include safety practices, CPU/memory/bus identification, disk subsystem, hardware/software installation/configuration, common device drivers, data recovery, system maintenance, and other related topics. Upon completion, students should be able to safely repair and/or upgrade...
COURSE DESCRIPTIONS

computer systems to perform within specifications.

**CET 193A Selected Topics in LabView**
Prerequisites: None
Corequisites: None
This course provides an opportunity to explore areas of current interest in Computer Engineering Technology. Emphasis is placed on the use of LabVIEW. Upon completion, students should be able to demonstrate an understanding of the use of this simulation software.

**CET 211 Computer Upgrade/Repair II**
Prerequisites: CET 111
Corequisites: None
This course is the second of two courses covering repairing, servicing, and upgrading computers and peripherals in preparation for industry certification. Topics include resolving resource conflicts and system bus specifications, configuration and troubleshooting peripherals, operating system configuration and optimization, and other related topics. Upon completion, students should be able to identify and resolve system conflicts and optimize system performance.

**CET 222 Computer Architecture**
Prerequisites: None
Corequisites: None
This course introduces the organization and design philosophy of computer systems with respect to resource management, throughput, and operating system interaction. Topics include instruction sets, registers, data types, memory management, virtual memory, cache, storage management, multi-processing, and pipelining. Upon completion, students should be able to evaluate system hardware and resources for installation and configuration purposes.

**CET 225 Digital Signal Processing**
Prerequisites: None
Corequisites: None
This course covers the theory and use of digital signal processing techniques. Topics include Fourier analysis, digital filtering, Z transforms, IIR, FIR, convolution, pulse methods, and DSP programming. Upon completion, students should be able to implement and troubleshoot DSP systems in hardware and software.

**CET 251 Software Engineering Principles**
Prerequisites: CSC 133 or CSC 134
Corequisites: None
This course introduces the methodology used to manage the development process for complex software systems. Topics include the software life cycle, resource allocation, team dynamics, design techniques, and tools that support these activities. Upon completion, students should be able to design and build robust software in a team setting.

<td>This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. Students will perform basic synthetic and analytic techniques on organic compounds.</td>
</tr>
</tbody>
</table>
**CHM 252 Organic Chemistry II**

3 3 0 4

Prerequisites: A grade of “C” or better in CHM 251
Corequisites: None

This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. Students will conduct a multi-step synthetic scheme in the laboratory component.

**CHM 261 Quantitative Analysis**

2 6 0 4

Prerequisites: CHM 152
Corequisites: None

This course introduces classical methods of chemical analysis with an emphasis on laboratory techniques. Topics include statistical data treatment; stoichiometric and equilibrium calculations; and titrimetric, gravimetric, acid-base, oxidation-reduction, and compleximetric methods. Upon completion, students should be able to perform classical quantitative analytical procedures.

This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).
CIS 118 See CTS 118
CIS 120 See CTS 130
CIS 121 See CTS 250
CIS 122 Introduction to Business Computers  2 2 0 3
Prerequisites: CIS 110 or CIS 111
Corequisites: None
This course provides preparation in solving business problems using computers. Topics include hardware and software concepts, the DOS operating system, Windows, spreadsheets, and communications. Upon completion, students should be able to use DOS commands, navigate a Windows environment, use spreadsheet capabilities, and access information in a business environment.

CIS 155 Database Theory/Analysis  2 2 0 3
Prerequisites: CIS 152 or CIS 157
Corequisites: None
This course introduces database design theories and analyses. Emphasis is placed on data dictionaries, normalization, data integrity, and data modeling. Upon completion, students should be able to design normalized database structures that exhibit data integrity.

CIS 162 MM Presentation Software  2 2 0 3
Prerequisites: None
Corequisites: None
This course is designed to integrate visual and audio resources using presentation software in a simple interactive multimedia project. Emphasis is placed upon design and audience considerations, general prototyping, and handling of media resources. Upon completion, students should be able to demonstrate an original interactive multimedia presentation implementing all of these resources in a professional manner.

CIS 163 Programming Interfaces Internet  2 2 0 3
Prerequisites: CIS 110 or CIS 111, CIS 172 or CSC 160
Corequisites: None
This course creates interactive multimedia applications and applets for the Internet using web-specific languages. Emphasis is placed on audio, video, graphic, and network resources and various file formats. Upon completion, students should be able create an interactive multimedia application or applet for the Internet.

CIS 166 Desktop Publishing II  2 2 0 3
Prerequisites: CIS 165
Corequisites: None
This course provides advanced training in the use of a variety of desktop publishing software. Emphasis is placed on evaluation of software and hardware available for desktop publishing. Upon completion, students should be able to create and design complex publications using a variety of page layout software.

</table>
include configuring and troubleshooting peripherals, installing device drivers, resolving resource conflicts, configuring and optimizing operating systems, and related topics. Upon completion, students should be able to install peripherals and upgrade personal computers components, diagnose problems, resolve resource conflict, and optimize system performance.

CIS 254 See DBA 210
CIS 255 See DBA 230
CIS 256 See DBA 240
CIS 257 Database Programming II
Prerequisites: CIS 157
Corequisites: None
This course is designed to enhance programming skills developed in CIS 157. Topics include application development with GUI front ends and embedded programming. Upon completion, students should be able to develop a DBMS application which includes a GUI front end and report generation.

CIS 258 See DBA 289
CIS 260 Business Graphics Applications
Prerequisites: CIS 110 or CIS 111
Corequisites: None
This course utilizes graphics software in a variety of business applications. Topics include terminology, design and evaluation, graphics formats and conversion, practical applications of graphics software, and integration of peripherals. Upon completion, students should be able to create and incorporate graphic designs to enhance business communications.

CIS 270 See CTS 270
CIS 278 See CTS 289
CIS 293 Selected Topics in Information Systems: FrontPage
Prerequisites: CIS 110 or CIS 111
Corequisites: CIS 172
This course introduces the peripherals and attendant software needed to create stand-alone or networked interactive multimedia applications. Emphasis is placed on using audio, video, graphic, and resources; using peripheral-specific software; and understanding file formats. Upon completion, students should be able to utilize multimedia peripherals to create various sound and visual files to create a multimedia application.

CIS 297 Seminar in MCDST
Prerequisites: CIS 116
Corequisites: None
This course provides an opportunity to explore areas of current interest in Microsoft Certified Desktop Support Technician (MCDST). Emphasis is placed on the development of critical listening skills and the presentation of seminar issues. Upon completion, students should be able to critically analyze issues and establish informed opinions.

CIS 298 Seminar in Information Systems
Prerequisites: CIS 153
Corequisites: None
This course provides an opportunity to explore areas of current interest in Information Systems. Emphasis is placed on the development of critical listening skills and the presentation of seminar issues. Upon completion, students should be able to critically analyze issues and establish informed opinions.

CIV 110 Statics/Strength of Materials
Prerequisites: MAT 121
Corequisites: None
This course includes vector analysis, equilibrium of force systems, friction, sectional properties, stress/strain, and deformation. Topics include resultants and components of forces, moments and couples, free-body diagrams, shear

CIV 110 Statics/Strength of Materials
Class Lab Clin/WExp Credit Hours
2 6 0 4

Last updated 6/7/12

2012-2013 Catalog Volume 34 | Wake Technical Community College
CIV 111 Soils and Foundations  
Prerequisites: CIV 110 or MEC 250  
Corequisites: None  
This course presents an overview of soil as a construction material using both analysis and testing procedures. Topics include index properties, classification, stress analysis, compressibility, compaction, dewatering, excavation, stabilization, settlement, and foundations. Upon completion, students should be able to perform basic soil tests and analyze engineering properties of soil.

CIV 125 Civil/Surveying CAD  
Prerequisites: ARC 114 or DFT 110  
Corequisites: None  
This course introduces civil/surveying computer-aided drafting (CAD) software. Topics include drawing, editing, and dimensioning commands; plotting; and other related civil/surveying topics. Upon completion, students should be able to produce civil/surveying drawings using CAD software.

CIV 210 Engineering Materials  
Prerequisites: None  
Corequisites: None  
This course covers the behavior and properties of Portland cement and asphaltic concretes and laboratory and field testing. Topics include cementing agents and aggregates; water and admixtures; proportioning, production, placing, consolidation, and curing; and inspection methods. Upon completion, students should be able to proportion concrete mixes to attain predetermined strengths and other properties and perform standard control tests.

CIV 215 Highway Technology  
Prerequisites: SRV 111  
Corequisites: CIV 211  
This course introduces the essential elements of roadway components and design. Topics include subgrade and pavement construction, roadway drawings and details, drainage, superelevation, and North Carolina Department of Transportation Standards. Upon completion, students should be able to use roadway drawings and specifications to develop superelevation, drainage, and general highway construction details.

CIV 221 Steel and Timber Design  
Prerequisites: CIV 110 or MEC 250  
Corequisites: None  
This course introduces the basic elements of steel and timber structures. Topics include the analysis and design of steel and timber beams, columns, and connections and the use of appropriate manuals and codes. Upon completion, students should be able to analyze, design, and draw simple steel and timber structures.

CRIMINAL JUSTICE (CJC Prefix)

CJC 100 Basic Law Enforcement Training  
Prerequisites: None  
Corequisites: None  
This course covers the basic skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in the topics and areas required for the state comprehensive certification examination. This is a certificate-level course.

This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning consideration involving threat assessments. Upon completion, the student should be able to identify and discuss the methods used in terrorists’ activities and complete a threat assessment for terrorists’ incidents.

This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations.

This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs.

This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation.

This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.
CJC 223 Organized Crime 3 0 0 3
Prerequisites: None
Corequisites: None
This course introduces the evolution of traditional and non-traditional organized crime and its effect on society and the criminal justice system. Topics include identifying individuals and groups involved in organized crime, areas of criminal activity, legal and political responses to organized crime, and other related topics. Upon completion, students should be able to identify the groups and activities involved in organized crime and the responses of the criminal justice system.

CJC 225 Crisis Intervention 3 0 0 3
Prerequisites: None
Corequisites: None
This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution.

CJC 231 Constitutional Law 3 0 0 3
Prerequisites: None
Corequisites: None
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts.

CJC 232 Civil Liability 3 0 0 3
Prerequisites: None
Corequisites: None
This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Upon completion, students should be able to explain civil trial procedures and discuss contemporary liability issues.

CJC 233 Correctional Law 3 0 0 3
Prerequisites: None
Corequisites: None
This course introduces statutory/case law pertinent to correctional concepts, facilities, and related practices. Topics include examination of major legal issues encompassing incarceration, probation, parole, restitution, pardon, restoration of rights, and other related topics. Upon completion, students should be able to identify/discuss legal issues which directly affect correctional systems and personnel.

CJC 241 Community-Based Corrections 3 0 0 3
Prerequisites: None
Corequisites: None
This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss the various programs from the perspective of the criminal justice professional, the offender, and the community.

CJC 245 Friction Ridge Analysis 2 3 0 3
Prerequisites: None
Corequisites: None
This course introduces the basic elements of fingerprint technology and techniques applicable to the criminal justice field. Topics include the history and meaning of fingerprints, pattern types and classification, filing sequence, searching and referencing. Upon completion, students should be able to discuss and demonstrate the fundamental techniques of basic fingerprint technology. This course is a unique concentration requirement in the Latent Evidence concentration in the Criminal Justice Technology Program.

CJC 246 Adv Friction Ridge Analysis 2 3 0 3
Prerequisites: CJC 245
Corequisites: None
This course introduces the theories and processes of advanced friction ridge analysis. Topics include evaluation of
friction ridges, chart preparation, comparative analysis for valued determination rendering proper identification, chemical enhancement and AFIS preparation and usage. Upon completion, students must show an understanding of proper procedures for friction ridge analysis through written testing and practical exercises. This course is a unique concentration requirement in the Latent Evidence concentration in the Criminal Justice Technology Program.

CJC 260 Threat Assessment
Prerequisites: None
Corequisites: None
This course prepares students to perform extensive security audits for private corporations and for local and state government, identifying weaknesses in their overall security programs. Emphasis will be placed on risk analysis studies that examine the methods, procedures, and systems for security gaps and vulnerabilities. Upon completion, students should be able to evaluate all facets of a protective program from corporate disaster response planning to security teams guarding local/state officials.

CJC 262 High-Risk Event Planning
Prerequisites: None
Corequisites: None
This course introduces students to the principles of high-risk executive protection and the planning associated with security during visits from government officials and other dignitaries. Emphasis will be placed on conducting advance surveys, residential security, restaurant and banquet security, surveillance detection, and counter surveillance operations. Upon completion, students should be able to demonstrate the ability to write security plans for high-risk events.

CONSTRUCTION MANAGEMENT (CMT Prefix)

CMT 112 Construction Mgt I
Prerequisites: None
Corequisites: None
This course introduces students to the field of construction management technology. Topics include job planning, work methods, materials, equipment, and other related topics. Upon completion, students should be able to demonstrate basic knowledge of methods, materials, equipment, and the logical sequence of a construction project.

CMT 112A Construction Mgt I, Part 1
Prerequisites: None
Corequisites: None
This course introduces students to the field of construction management technology. Topics include job planning, work methods, materials, equipment, and other related topics. Upon completion, students should be able to demonstrate basic knowledge of methods, materials, equipment, and the logical sequence of a construction project.

CMT 112B Construction Mgt I, Part 2
Prerequisites: CMT 112A
Corequisites: None
This course introduces students to the field of construction management technology. Topics include job planning, work methods, materials, equipment, and other related topics. Upon completion, students should be able to demonstrate basic knowledge of methods, materials, equipment, and the logical sequence of a construction project.

CMT 120 Codes and Inspections
Prerequisites: None
Corequisites: None
This course covers building codes and the code inspections process used in the design and construction of residential and commercial buildings. Emphasis is placed on commercial, residential, and accessibility (handicapped) building codes. Upon completion, students should be able to understand the building code inspections process and apply building code principals and requirements to construction projects.

CMT 210 Professional Construction Supervision
Prerequisites: None
Corequisites: None
This course introduces the student to the fundamentals of effective supervision emphasizing professionalism through knowledge and applied skills. Topics include safety, planning and scheduling, contract, problem-solving, communications, conflict resolution, recruitment, employment laws and regulations, leadership, motivation, teamwork, discipline, setting objectives, and training. Upon completion, the student should be able to demonstrate the basic skills necessary to be successful as a supervisor in the construction industry.
COURSE DESCRIPTIONS

CMT 212  Total Safety Performance  3 0 0 3
Prerequisites:  None
Corequisites:  CMT 210
This course covers the importance of managing safety and productivity equally by encouraging people to take individual responsibility for safety and health in the workplace. Topics include safety management, controlling construction hazards, communicating and enforcing policies, OSHA compliance, personal responsibility and accountability, safety planning, training, and personal protective equipment. Upon completion, students should be able to supervise safety at a construction job site and qualify for the OSHA Training Certification.

CMT 214  Planning and Scheduling  3 0 0 3
Prerequisites:  CMT 210 and BPR 130
Corequisites:  None
This course covers the need for the process of planning construction projects, as well as the mechanics and vocabulary of project scheduling. Topics include project preplanning, scheduling format, planning for production, short interval planning, schedule updating and revising, and computer-based planning and scheduling. Upon completion, the student should be able to understand the need for planning and scheduling, the language and logic of scheduling, and use of planning skills.

CMT 216  Costs and Productivity  3 0 0 3
Prerequisites:  CMT 210
Corequisites:  None
This course covers the relationships between time, work completed, work-hours spent, schedule duration, equipment hours, and materials used. Topics include production rates, productivity unit rates, work method improvements, and overall total project cost control. Upon completion, the student should be able to demonstrate an understanding of how costs may be controlled and productivity improved on a construction project.

CMT 218  Human Relations Issues  3 0 0 3
Prerequisites:  CMT 210
Corequisites:  None
This course provides instruction on human relations issues as they relate to construction project supervision. Topics include relationships, human behavior, project staffing issues, teamwork, effective communication networks, laws and regulations, and identifying and responding to conflict, crisis, and discipline. Upon completion, the student will demonstrate an understanding of the importance of human relations in the success of a construction project.

CMT 226  Applications Project  2 2 0 3
Prerequisites:  None
Corequisites:  None
This course provides an individual and/or integrated team approach to a practical construction management project. Topics include project selection, research and planning, implementation, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented construction management project.

This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.
of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 114  Co-op Work Experience I**

Prerequisites: None  
Corequisites: None  
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 115  Work Experience Seminar I**

Prerequisites: None  
Corequisites: COE 111 or COE 112 or COE 113 or COE 114  
This is a seminar course designed to enrich the student's cooperative education work experience.

**COE 121  Co-op Work Experience II**

Prerequisites: None  
Corequisites: None  
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 122  Co-op Work Experience II**

Prerequisites: None  
Corequisites: None  
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 123  Co-op Work Experience III**

Prerequisites: None  
Corequisites: None  
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 124  Co-op Work Experience IV**

Prerequisites: None  
Corequisites: None  
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 125  Work Experience Seminar II**

Prerequisites: None  
Corequisites: COE 121 or COE 122 or COE 123 or COE 124  
This is a seminar course designed to enrich the student's cooperative education work experience.
of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 223 Co-op Work Experience V
Prerequisites: None
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COMMUNICATION (COM Prefix)

COM 110 Introduction to Communication
Prerequisites: None
Corequisites: None
This course provides an overview of the basic concepts of communication and the skills necessary to communicate in various contexts. Emphasis is placed on communication theories and techniques used in interpersonal group, public, intercultural, and mass communication situations. Upon completion, students should be able to explain and illustrate the forms and purposes of human communication in a variety of contexts.

COM 111 Voice and Diction I
Prerequisites: None
Corequisites: None
This course provides guided practice in the proper production of speech. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective natural speech in various contexts.

COM 120 Interpersonal Communication
Prerequisites: RED 080 and ENG 080
Corequisites: None
This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations.

COM 130 Nonverbal Communication
Prerequisites: COM 120
Corequisites: None
This course introduces the contemporary study of nonverbal communication in daily life. Topics include haptics, kinesics, proxemics, facial displays, and appearance. Upon completion, students should be able to analyze/interpret nonverbal communication and demonstrate greater awareness of their own nonverbal communication habits.

COM 140 Intro Intercultural Com
Prerequisites: RED 090 and ENG 090 or ENG 111
Corequisites: None
This course introduces techniques of cultural research, definitions, functions, characteristics, and impacts of cultural differences in public address. Emphasis is placed on how diverse backgrounds influence the communication act and how cultural perceptions and experiences determine how one sends and receives messages. Upon completion, students should be able to demonstrate an understanding of the principles and skills needed to become effective in communicating outside one’s primary culture. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts (substitute).

COM 150 Intro to Mass Comm.
Prerequisites: ENG 111
Corequisites: None
This course introduces print and electronic media and the new information technologies in terms of communication theory and as economic, political, and social institutions. Topics include the nature, history, functions, and responsibilities of mass communication industries in a global environment and their role and impact in American
society. Upon completion, students should be able to demonstrate awareness of the pervasive nature of mass media and how media operate in an advanced post-industrial society. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

COM 160 Small Group Communication 3 0 0 3
Prerequisites: RED 090 and ENG 090
Corequisites: None
This course provides an overview of the theory, practice, and critical analysis of communication in the small group setting. Emphasis is placed on group development, conflict, and conformity; leadership skills and styles; group roles and ranks; and decision making, problem solving, and conflict resolution. Upon completion, students should be able to apply topics of gender, culture, and social-emotional functions within group settings. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

COM 231 Public Speaking 3 0 0 3
Prerequisites: Grade of “C” or better in ENG 111
Corequisites: None
This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to identify and analyze techniques and styles typically used in election campaigns.

COM 232 Election Rhetoric 3 0 0 3
Prerequisites: ENG 090, RED 090
Corequisites: None
This course provides an overview of communication styles and topics characteristic of election campaigns. Topics include election speeches, techniques used in election campaigns, and election speech topics. Upon completion, students should be able to identify and analyze techniques and styles typically used in election campaigns.

COM 233 Persuasive Speaking 3 0 0 3
Prerequisites: ENG 112 or ENG 113
Corequisites: None
This course introduces theory and history of persuasive speaking, covering critical thinking skills in analyzing problems, assessing solutions, and communicating the information to an audience. Emphasis is placed on analysis, evidence, reasoning, and library and field research used to enhance persuasive public speaking skills. Upon completion, students should be able to apply the principles of persuasive speaking in a public setting.

COM 251 Debate I 3 0 0 3
Prerequisites: None
Corequisites: None
This course introduces the principles of debate. Emphasis is placed on argument, refutation, research, and logic. Upon completion, students should be able to use research skills and logic in the presentation of ideas within the context of formal debate.

COSMETOLOGY (COS Prefix)

COS 111 Cosmetology Concepts I 4 0 0 4
Prerequisites: None
Corequisites: COS 112
This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

COS 111A Cosmetology Concepts I, Part 1 2 0 0 2
Prerequisites: None
Corequisites: COS 112A
This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting. This is part one of a two-part course.

This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.
COS 117A  Cosmetology Concepts IV, Part 1  1 0 0 1  
Prerequisites: None  
Corequisites: COS 118A  
This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements. This is part one of a two-part course.

COS 117B  Cosmetology Concepts IV, Part 2  1 0 0 1  
Prerequisites: None  
Corequisites: COS 118B  
This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements. This is part two of a two-part course.

COS 118  Salon IV  0 21 0 7  
Prerequisites: None  
Corequisites: COS 117  
This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

COS 118A  Salon IV, Part 1  0 15 0 5  
Prerequisites: None  
Corequisites: COS 117A  
This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements. This is part one of a two-part course.

COS 118B  Salon IV, Part 2  0 6 0 2  
Prerequisites: None  
Corequisites: COS 117B  
This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements. This is part two of a two-part course.

COS 119  Esthetics Concepts I  2 0 0 2  
Prerequisites: None  
Corequisites: None  
This course covers the concepts of esthetics. Topics include orientation, anatomy, physiology, hygiene, sterilization, first aid, chemistry, basic dermatology, and professional ethics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements.

COS 119A  Esthetics Concepts I, Part 1  1 0 0 1  
Prerequisites: None  
Corequisites: None  
This course covers the concepts of esthetics. Topics include orientation, anatomy, physiology, hygiene, sterilization, first aid, chemistry, basic dermatology, and professional ethics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements. This is part one of a two-part course.

COMPUTER SCIENCE (CSC Prefix)

CSC 120  Computing Fundamentals I  
Prerequisites: MAT 080 or MAT 090  
Corequisites: None  
This course provides the essential foundation for the discipline of computing and a program of study in computer
science, including the role of the professional. Topics include algorithm design, data abstraction, searching and sorting algorithms, and procedural programming techniques. Upon completion, students should be able to solve problems, develop algorithms, specify data types, perform sorts and searches, and use an operating system.

**CSC 125 Introduction to Parallel Programming**
Prerequisites: None
Corequisites: None
This course introduces students to the techniques and tools used to write parallel programs. Topics include principles of parallel program design including architecture, algorithms, performance modeling, parallel programming standards, Message Passing Interface (MPI), OpenMP, API, and modern parallel languages. Upon completion, students should be able to discuss programming issues in a High Performance Computing system.

**CSC 129 Technical Programming**
Prerequisites: MAT 121
Corequisites: None
This course introduces the analysis of technical problems by using different software tools. Emphasis is placed on solving technical problems using structured programming logic and tools such as a computer language, spreadsheet software, or an advanced programmable calculator. Upon completion, students should be able to derive solutions to complex technical problems using various software tools.

**CSC 130 Computing Fundamentals II**
Prerequisites: CSC 120
Corequisites: None
This course provides in-depth coverage of the discipline of computing and the role of the professional. Topics include software design methodologies, analysis of algorithm and data structures, searching and sorting algorithms, and file organization methods. Upon completion, students should be able to use software design methodologies and choose data structures and understand social/ethical responsibilities of the computing professional.

**CSC 133 C Programming**
Prerequisites: MAT 070
Corequisites: None
This course introduces computer programming using the C programming language. Topics include input/output operations, sequence, selection, iteration, arithmetic operations, arrays tables, pointers, and other related topics. Upon completion, students should be able to design, code, test, and debug C language programs.

**CSC 134 C++ Programming**
Prerequisites: CIS 115
Corequisites: None
This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

**CSC 136 FORTRAN Programming**
Prerequisites: None
Corequisites: None
This course introduces computer programming using the FORTRAN programming language. Topics include input/output operations, sequence, selection, iteration, arithmetic operations, arrays, subprograms, and other related topics. Upon completion, students should be able to design, code, test, and debug FORTRAN language programs.

**CSC 139 Visual BASIC Prog**
Prerequisites: Take 1 group: MAT 070 and RED 090 or MAT 070 and ENG 111
Corequisites: None
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**CSC 141 Visual C++ Prog**
Prerequisites: CSC 134
Corequisites: None
This course introduces computer programming using the Visual C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.
programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at a beginning level.

CSC 142 Visual COBOL Prog 2 3 0 3
Prerequisites: None
Corequisites: None
This course introduces computer programming using the Visual COBOL programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 143 Object-Oriented Prog 2 3 0 3
Prerequisites: Take 1 group: MAT 070 and RED 090 or MAT 070 and ENG 111
Corequisites: None
This course introduces the concepts of object-oriented programming. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, test, debug, and implement objects at the application level using the appropriate environment.

CSC 144 AS/400 CL Programming 2 3 0 3
Prerequisites: CIS 115 and NOS 211
Corequisites: None
This course introduces computer programming using the CL programming language. Topics include CL command structure, command parameters, creating CL programs, manipulating variables, writing commands to control jobs and workflow, and other related topics. Upon completion, students should be able to design, code, test, and debug CL programs.

CSC 148 See CSC 151

CSC 150 Visual RPG Prog 2 3 0 3
Prerequisites: None
Corequisites: None
This course introduces computer programming using the Visual RPG programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 151 JAVA Programming 2 3 0 3
Prerequisites: CIS 115
Corequisites: None
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion students should be able to design, code, test, debug JAVA language programs. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

CSC 152 SAS 2 3 0 3
Prerequisites: Take 1 group: MAT 070 and RED 090 or MAT 070 and ENG 111
Corequisites: None
This course introduces the fundamentals of SAS programming. Emphasis is placed on learning basic SAS commands and statements for solving a variety of data processing applications. Upon completion, students should be able to use SAS data and procedure steps to create SAS data sets, do statistical analysis, and general customized reports.

CSC 153 C# Programming 2 3 0 3
Prerequisites: Take 1 group: MAT 070 and RED 090 or MAT 070 and ENG 111
Corequisites: None
This course introduces computer programming using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at the beginning level.

</table>
advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug, and document programming solutions. Additional topics will include binary and textfile manipulation, virtual functions and classes, templates, class libraries, and windows programming.

CSC 236 Advanced Fortran Programming  
Prerequisites: CSC 136  
Corequisites: None  
This course is a continuation of CSC 136 using the Fortran programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 238 Adv RPG Programming  
Prerequisites: CSC 138  
Corequisites: None  
This course is a continuation of CSC 138 using the RPG programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 239 Advanced Visual BASIC  
Prerequisites: CSC 139  
Corequisites: DBA 110  
This course is a continuation of CSC 139 using Visual BASIC with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions. Emphasis will be placed on linking to and manipulating a database through tables, queries, and customization using API calls.

CSC 241 Adv Visual C++ Programming  
Prerequisites: CSC 141  
Corequisites: None  
This course is a continuation of CSC 141 using the Visual C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 242 Advanced Visual COBOL Programming  
Prerequisites: CSC 142  
Corequisites: None  
This course is a continuation of CSC 142 using the Visual COBOL programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 244 Advanced C/C++ Programming  
Prerequisites: CSC 133, CSC 134, CSC 140, CSC 141, or CSC 145  
Corequisites: None  
This course covers additional operations using C dialects primarily relating to operating system interfacing. Topics include advanced file handling, interprocess communications, messages, semaphores, inter-language calls, signals, device drivers, sockets, and client/server techniques. Upon completion, students should be able to write and modify programs using advanced functions.

CSC 245 Advanced CICS  
Prerequisites: CSC 235  
Corequisites: None  
This course provides an in-depth study of interactive transaction processing using command level CICS. Topics include pseudoconversational programming, basic mapping support, control tables, storage areas, file maintenance, screen design, and EDF debugging. Upon completion, students should be able to design, code, test, debug, and document command level CICS programs for menuing, record processing, browsing, and temporary storage.

CSC 246 Realtime Programming  
Prerequisites: A high-level or assembly programming language  
Corequisites: None  
This course covers the techniques for programming in a real-time environment. Topics include signals, critical
sections, polling, interface devices, timing, open and closed loop control, speed/size optimization, and special
considerations for embedded controllers. Upon completion, students should be able to write and modify interface
routines used with time-critical applications.

**CSC 247 Advanced Assembly Language**

- Prerequisites: None
- Corequisites: None

This course covers additional techniques used in efficient assembly language programs. Topics include memory
models, re-entrant code, recursion, ROM-able code, disassembly, patching, device drivers, and interfacing to high-
level languages. Upon completion, students should be able to create, patch, and optimize sub-programs for use in
solving problems.

**CSC 249 Data Structures and Algorithms**

- Prerequisites: CSC 132, CSC 133, CSC 134, CSC 135, CSC 136, CIS 137, CSC 151
- Corequisites: None

This course introduces the data structures and algorithms frequently used in programming applications. Topics
include lists, stacks, queues, dequesues, heaps, sorting, searching, mathematical operations, recursion, encryption,
random numbers, algorithm testing, and standards. Upon completion, students should be able to design data
structures and implement algorithms to solve various problems.

**CSC 250 Advanced Visual RPG Programming**

- Prerequisites: CSC 150
- Corequisites: None

This course is a continuation of CSC 150 using the Visual RPG programming language with structured programming
principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures,
sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able
to design, code, test, debug and document programming solutions.

**CSC 251 Advanced JAVA Programming**

- Prerequisites: CSC 151
- Corequisites: None

This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming
principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects,
classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to
design, code, test, debug, and implement objects using the appropriate environment.

**CSC 253 Advanced C# Programming**

- Prerequisites: CSC 153
- Corequisites: None

This course is a continuation of CSC 153 using the C# programming language with object-oriented programming
principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects,
classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to
design, code, test, debug, and implement objects using the appropriate environment.

**CSC 255 OpenMP Programming**

- Prerequisites: CSC 125
- Corequisites: None

This course introduces students to the basics of using the OpenMP programming standard. Topics include directive-
based shared memory parallel processing, incremental parallelization, and developing portable code for shared
memory architectures using the OpenMP model. Upon completion, students should be able to design and code a
program using the OpenMP standard.

**CSC 258 JAVA Enterprise Programs**

- Prerequisites: CSC 151
- Corequisites: CSC 251

This course provides a continuation to CSC 151 using the Java Enterprise Edition (JEE) programming architecture.
Topics include distributed network applications, database connectivity, Enterprise Java Beans, servlets, collection
frameworks, JNDI, RMI, JSP, multithreading XML and multimedia development. Upon completion, students should
be able to program a client/server enterprise application using the JEE framework.

**CSC 260 Programming in Another Language**

- Prerequisites: CSC 120
- Corequisites: None

This course provides in-depth coverage, with applications, of a programming language which was not covered in
COURSE DESCRIPTIONS

CSC 120, 130, 220, or 230. Emphasis is placed on using the covered language to develop well-structured programs to solve appropriate problems. Upon completion, students should be able to understand the uses, syntax, and limitations of the language while comparing similarities and differences with other languages.

This course introduces students to the various algorithms available for HPC environments. Topics include distributed algorithms, programming models for massively parallel machines, various parallel standard template libraries, distributed-memory message-passing algorithms, minimal communication and latency-tolerant algorithms. Upon completion, students should be able to discuss and code a program using HPC algorithms.

This course introduces the student to the Java Message Service (JMS), an application program interface that supports messaging between computers in a network. Topics include point-to-point models, transactions, reliability issues, durable subscriptions and introduces messaging within Enterprise JavaBeans technology. Upon completion, students should be able to complete a project using the JMS technology.

This course provides students with the latest technologies and strategies in the field of Computer Programming. Emphasis is placed on the evaluation of developing Computer Programming Technologies and presenting those findings to the class. Upon completion, students should be able to critically analyze emerging Computer Programming Technologies and establish informed opinions.

This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation.

This course provides an opportunity to explore areas of current interest in Computer Programming. Emphasis is placed on subject matter appropriate to computer programming. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

This course provides an opportunity to explore areas of current interest in Computer Programming. Emphasis is placed on subject matter appropriate to computer programming. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

This course provides an opportunity to explore areas of current interest in Computer Programming. Emphasis is placed on subject matter appropriate to computer programming. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

This course provides an opportunity to explore areas of current interest in Computer Programming. Emphasis is placed on subject matter appropriate to computer programming. Upon completion, students should be able to demonstrate an understanding of the specific area of study.
placed on the development of critical listening skills and the presentation of seminar issues. Upon completion, students should be able to critically analyze issues and establish informed opinions.

**CSC 297 ADO.NET**

Prerequisites: None
Corequisites: None
This course provides an opportunity to explore areas of current interest in Computer Programming. Emphasis is placed on the development of critical listening skills and the presentation of seminar issues. Upon completion, students should be able to critically analyze issues and establish informed opinions. Course will review the ADO.NET component of the Visual Studio. NET Framework to build applications and web services.

**CSC 298 Seminar in Computer Programming**

Prerequisites: CIS 256
Corequisites: None
This course provides an opportunity to explore areas of current interest in Computer Programming. Emphasis is placed on the development of critical listening skills and the presentation of seminar issues. Upon completion, students should be able to critically analyze issues and establish informed opinions.

components and basic computer operations including introduction to operating systems, the Internet, web browsers, and communication using World Wide Web. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations.

**CTS 112 Windows™**  
Prerequisites: None  
Corequisites: None  
This course includes the fundamentals of the Windows™ software. Topics include graphical user interface, icons, directories, file management, accessories, and other applications. Upon completion, students should be able to use Windows™ software in an office environment.

**CTS 115 Information Systems Business Concepts**  
Prerequisites: CIS 110 or CIS 111 or SGD 111  
Corequisites: None  
The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the ‘hybrid business manager’ and the potential offered by new technology and systems.

**CTS 118 IS Professional Communication**  
Prerequisites: CTS 120, CTS 135, and CIS 110 or CIS 111  
Corequisites: None  
This course prepares the information systems professional to communicate with corporate personnel from management to end-users. Topics include information systems cost justification tools, awareness of personal hierarchy of needs, addressing these needs, and discussing technical issues with non-technical personnel. Upon completion, students should be able to communicate information systems issues to technical and non-technical personnel.

**CTS 120 Hardware/Software Support**  
Prerequisites: CIS 110 or CIS 111  
Corequisites: None  
This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

**CTS 125 Presentation Graphics**  
Prerequisites: CIS 110 or CIS 111  
Corequisites: None  
This course provides hands-on experience with a graphics presentation package. Topics include terminology, effective chart usage, design and layout, integrating hardware components, and enhancing presentations with text, graphics, audio and video. Upon completion, students should be able to design and demonstrate an effective presentation.

**CTS 130 Spreadsheet**  
Prerequisites: CIS 110 or CIS 111 or OST 137  
Corequisites: None  
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

**CTS 135 Integrated Software Introduction**  
Prerequisites: CIS 110 or CIS 111  
Corequisites: None  
This course instructs students in the Windows or Linux based program suites for word processing, spreadsheet, database, personal information manager, and presentation software. This course prepares students for introductory level skills in database, spreadsheet, personal information manager, word processing, and presentation applications to utilize data sharing. Upon completion, students should be able to design and integrate data at an introductory level to produce documents using multiple technologies.

implement networked database solutions.

DBA 263 MySQL DBMS Admin  
Prerequisites: DBA 120  
Corequisites: None  
This course examines advanced MySQL database administration issues and distributed database concepts. Topics include backup and recovery, transporting of data between databases, database networking concepts, and resolution of database networking issues. Upon completion, students should be able to manage backup recovery and implement networked database solutions.

DBA 264 SAS DBMS Administration  
Prerequisites: None  
Corequisites: None  
This course examines advanced SAS database administration issues and distributed database concepts. Topics include backup and recovery, transporting of data between databases, database networking concepts, and resolution of database networking issues. Upon completion, students should be able to manage backup recovery and implement networked database solutions.

DBA 270 Oracle Performance Tuning  
Prerequisites: NOS 130  
Corequisites: None  
This course covers Oracle performance tuning concepts and techniques. Topics include database tuning and Oracle performance tools. Upon completion, students should be able to configure and diagnose an Oracle database for optimal performance.

**DESIGN DRAFTING** (DDF Prefix)

## DEN 232 Community Dental Health

**Prerequisites:** None  
**Corequisites:** None  

This course provides a study of the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess, plan, implement, and evaluate a community dental health program.

## DEN 233 Professional Development

**Prerequisites:** None  
**Corequisites:** None  

This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, résumés, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

**DES 125 Graphic Presentation I**

**Prerequisites:** None  
**Corequisites:** ARC 111 and DES 135  

This course introduces graphic presentation techniques for communicating ideas. Topics include drawing, perspective drawing, and wet and dry media. Upon completion, students should be able to produce a pictorial presentation.

**DES 135 Prin & Elem of Design I**

**Prerequisites:** None  
**Corequisites:** None  

This course introduces the basic concepts and terminology of design as they relate to the design profession. Topics include line, pattern, space, mass, shape, texture, color, unity, variety, rhythm, emphasis, balance, proportion, scale, and function. Upon completion, students should be able to demonstrate an understanding of the principles covered through hands-on application.

**DES 210 Bus Prac/Interior Design**

**Prerequisites:** DES 125, DES 135, ARC 111  
**Corequisites:** None  

This course introduces contemporary business practices for interior design. Topics include employment skills, business formations, professional associations, preparation of professional contracts and correspondence, and means of compensation. Upon completion, students should be able to describe the basic business formations and professional associations and compose effective letters and contracts.

**DES 220 Prin of Interior Design**

**Prerequisites:** Take One Set:  
Set One: DES 135 and ARC 111, or DES 110, or DFT 110,  
Set Two: DES 125 and ARC 114  
**Corequisites:** None  

This course covers the basic principles of design as they relate specifically to interior design, furniture arrangement, wall composition, color, furnishings, collages, and illustration. Emphasis is placed on spatial relationships, craftsmanship, and visual presentation techniques. Upon completion, students should be able to arrange furnishings in rooms for various purposes, select furnishings and colors, and illustrate ideas graphically.

**DES 225 Textiles/Fabrics**

**Prerequisites:** None  
**Corequisites:** None  

This course includes the study of woven and non-woven fabrics for interiors. Topics include characteristics of fibers, yarns, weaving, felting, and knitting; processing of leather; and adorning and finishing of interior fabrics. Upon completion, students should be able to recognize and use correct terminology for upholstery, window treatments, and rugs/carpets with regard to flammability, performance, and durability.

**DES 230 Residential Design I**

**Prerequisites:** ARC 111, ARC 114, DES 125  
**Corequisites:** None  

This course includes principles of interior design for various residential design solutions. Emphasis is placed on visual
presentation and selection of appropriate styles to meet specifications. Upon completion, students should be able to complete scaled floorplans, elevations, specifications, color schemes and fabrics, and finishes and furniture selection.

**DES 235  Products**  
Prerequisites: ARC 111, DES 125  
Corequisites: None  
This course provides an overview of interior finishing materials and the selection of quality upholstery and case goods. Topics include hard and resilient floor coverings; wall coverings and finishes; ceilings, moldings, and furniture construction techniques; and other interior components. Upon completion, students should be able to use correct terminology, select appropriate materials for interior surfaces, and choose furniture based on sound construction.

**DES 240  Comm/Contract Design I**  
Prerequisites: DES 220  
Corequisites: ARC 131  
This course introduces commercial/contract design including retail, office, institutional, restaurant, and hospitality design. Emphasis is placed on ADA requirements, building codes and standards, space planning, and selection of appropriate materials for non-residential interiors. Upon completion, students should be able to analyze and design introductory non-residential projects using graphic presentation concepts.

**DES 255  History/Int & Furn I**  
Prerequisites: None  
Corequisites: None  
This course covers interiors, exteriors, and furnishings from ancient Egypt through French Neo-Classicism. Emphasis is placed on vocabulary, chronology, and style recognition. Upon completion, students should be able to classify and date interior and exterior architecture and furnishings and be conversant with pertinent vocabulary.

**DES 265  Lighting/Interior Design**  
Prerequisites: ARC 111, DES 125, DES 135  
Corequisites: None  
This course introduces theory and contemporary concepts in lighting. Topics include light levels, light quality, lamps and fixtures, and their use in interior design. Upon completion, students should be able to determine light levels and requirements based on national standards and select luminaries for specific light qualities.

**DES 286  Interior Design/Advanced**  
Prerequisites: DES 230, DES 240  
Corequisites: None  
This course covers advanced techniques in designing either a residential or non-residential project: a residence, health care facility, retail establishment, or office complex. Emphasis is placed on the development of a total concept based on client profile and specifications and a presentation of appropriate and creative design solutions. Upon completion, students should be able to complete a detailed floorplan, space planning, furniture plan specifications, schedules, and detailed window treatments.

### DRAFTING (DFT Prefix)

</tbody>
</table>
| Prerequisites: None  
Corequisites: None  
This course introduces basic drafting skills, terminology, and applications. Topics include basic mathematics, sketching, introduction to CAD, ANSI and ISO drafting standards, and a survey of various drafting applications. Upon completion, students should be able to perform basic calculations for CAD drafting, sketch drawings using appropriate standards, and recognize drawings from different fields. This course is an introductory course utilizing AutoCAD software. |

| Prerequisites: None  
Corequisites: None  
This course introduces basic drafting skills, equipment, and applications. Topics include sketching, measurements, lettering, dimensioning, geometric construction, orthographic projections and pictorials drawings, sections, and auxiliary views. Upon completion, students should be able to understand and apply basic drawing principles and practices. |
### DFT 111A  Technical Drafting I Lab
- **Prerequisites:** None
- **Corequisites:** DFT 111

This course provides a laboratory setting to enhance basic drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 111. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 111.

### DFT 112  Technical Drafting II
- **Prerequisites:** DFT 111
- **Corequisites:** None

This course provides for advanced drafting practices and procedures. Topics include detailed working drawings, hardware, fits and tolerances, assembly and sub-assembly, geometric dimensioning and tolerancing, intersections, and developments. Upon completion, students should be able to produce detailed working drawings.

### DFT 112A  Technical Drafting II Lab
- **Prerequisites:** None
- **Corequisites:** DFT 112

This course provides a laboratory setting to enhance advanced drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 112. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 112.

### DFT 115  Architectural Drafting
- **Prerequisites:** None
- **Corequisites:** None

This course introduces basic drafting practices used in residential and light commercial design. Topics include floor plans, foundations, details, electrical components, elevations, and dimensioning practice. Upon completion, students should be able to complete a set of working drawings for a simple structure.

### DFT 119  Basic CAD
- **Prerequisites:** None
- **Corequisites:** None

This course introduces computer-aided drafting software for specific technologies to non-drafting majors. Emphasis is placed on understanding the software command structure and drafting standards for specific technical fields. Upon completion, students should be able to create and plot basic drawings. This course is utilizes MicroStation software.

### DFT 120  Advanced CAD
- **Prerequisites:** DFT 119
- **Corequisites:** None

This course is designed for non-drafting majors to build upon basic computer-aided drafting skills by the use of application-specific assignments. Emphasis is placed on advanced 2D, 3D, isometric, and modeling applications via the CAD system. Upon completion, students should be able to generate, manage, and output engineering drawings via the computer, printer, and plotter. This course utilizes GEOPAK software.

### DFT 121  Introduction to GD and T
- **Prerequisites:** None
- **Corequisites:** None

This course introduces basic geometric dimensioning and tolerancing principles. Topics include symbols, annotation, theory, and applications. Upon completion, students should be able to interpret and apply basic geometric dimensioning and tolerancing principles to drawings.

### DFT 151  CAD I
- **Prerequisites:** None
- **Corequisites:** None

This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

### DFT 152  CAD II
- **Prerequisites:** DFT 151
- **Corequisites:** None

This course introduces extended CAD applications. Emphasis is placed upon intermediate applications of CAD skills. Upon completion, students should be able to use extended CAD applications to generate and manage drawings.
COURSE DESCRIPTIONS

DFT 153 CAD III  
Prerequisites: None  
Corequisites: None  
This course introduces advanced CAD applications. Emphasis is placed upon advanced applications of CAD skills. Upon completion, students should be able to use advanced CAD applications to generate and manage data.

DFT 154 Introduction to Solid Models/Rendering  
Prerequisites: None  
Corequisites: None  
This course covers basic principles of three-dimensional CAD wireframe and surface models. Topics include user coordinate systems, three-dimensional viewpoints, three-dimensional wireframes, and surface components and viewpoints. Upon completion, students should be able to create and manipulate three-dimensional wireframe and surface models. This course is advanced solid modeling using ProE software.

DFT 170 Engineering Graphics  
Prerequisites: None  
Corequisites: None  
This course introduces basic engineering graphics skills, equipment, and applications (manual and computer-aided). Topics include sketching, measurements, lettering, dimensioning, geometric construction, orthographic projections and pictorial drawings, and sectional and auxiliary views. Upon completion, students should be able to demonstrate an understanding of basic engineering graphics principles and practices. This course utilizes Solidworks software.

DFT 214 Descriptive Geometry  
Prerequisites: DFT 111, DFT 111A  
Corequisites: None  
This course includes a graphic analysis of space problems. Topics include points, lines, planes, connectors, and combinations of these. Upon completion, students should be able to solve real world spatial problems using descriptive geometry techniques.

DFT 221 Electrical Drafting  
Prerequisites: DFT 111, DFT 111A, DFT 151  
Corequisites: None  
This course covers the practices used for making electrical drawings. Emphasis is placed on symbol identification and various types of electrical diagrams. Upon completion, students should be able to properly utilize electrical symbols in the construction of various electrical diagrams.

DRAMA/THEATRE (DRA Prefix)

DRA 111 Theatre Appreciation  
Prerequisites: ENG 090, RED 090  
Corequisites: None  
This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists.

DRA 112 Literature of the Theatre  
Prerequisites: ENG 111  
Corequisites: None  
This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 115 Theatre Criticism  
Prerequisites: DRA 111  
Corequisites: None  
This course is designed to develop a critical appreciation of the theatre from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theatre performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing.

</table>

This course provides guided practice in the proper production of speech for the theatre. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech.

This course introduces the dramatistic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature.

This course provides a theoretical and applied introduction to the medium of readers' theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Upon completion, students should be able to adapt and present a literary script following the conventions of readers' theatre.

This course provides a theoretical and applied introduction to the medium of readers' theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Upon completion, students should be able to adapt and present a literary script following the conventions of readers' theatre.

This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, techniques of the storyteller, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world's repertory of traditional lore.

This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children.

This course provides an applied study of the actor's craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble.

This course provides additional hands-on practice in the actor's craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble.

This course provides an applied study of selected principles of stage movement for actors. Topics include improvisation, mime, stage combat, clowning, choreography, and masks. Upon completion, students should be able to focus properly on stage, to create characters, and to improvise scenes, perform mimes, fight, clown, juggle, and waltz.

This course provides an applied study of the camera actor's craft. Topics include commercial, dramatic, and print performance styles. Upon completion, students should be able to explore their creativity in on-camera performance.

*This course has been approved to satisfy the Comprehensive Articulation Agreement general education core*
requirement in humanities/fine arts.

### DRA 260 Directing

Prerequisites: DRA 130  
Corequisites: DRA 140  

This course provides an analysis and application of the techniques of theatrical directing. Topics include script selection, analysis, casting, rehearsal planning, blocking, stage business, tempo, and technical considerations. Upon completion, students should be able to plan, execute, and critically discuss a student-directed production.

### DRA 270 Play Production III

Prerequisites: DRA 171  
Corequisites: None  

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production.

### DRA 271 Play Production IV

Prerequisites: DRA 270  
Corequisites: None  

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production.

This course provides a survey of the world of electronic business. Topics include the definition of electronic business, current practices as they evolve using Internet strategy in business, and application of basic business principles to the world of Electronic Commerce. Upon completion, students should be able to define electronic business and demonstrate an understanding of the benefits of Electronic Commerce as a foundation for developing plans leading to electronic business implementation.

This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup a working Electronic Commerce Internet web site. *This course is also available through the Virtual Learning Community (VLC).*

This course introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

This course introduces economic analysis of individual, business, and industry choices in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives.
ECO 252 Principles of Macroeconomics 3 0 0 3
Prerequisites: None
Corequisites: None
This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals.

EDU 113 Family/Early Child Credentials 2 0 0 2
Prerequisites: EDU 119
Corequisites: None
This course covers business/professional practices for family early childhood providers, developmentally appropriate practices, positive guidance, and methods of providing a safe and healthy environment. Topics include developmentally appropriate practices; health, safety and nutrition; and business and professionalism. Upon completion, students should be able to develop a handbook of policies, procedures, and practices for a family child care home.

EDU 114 Intro to Family Childcare 3 0 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080, MAT 060 Set 2: ENG 085, MAT 060
Corequisites: None
This course introduces the student to family child care home environments with emphasis on standards and developmentally effective approaches for supporting diverse children and families. Topics include standards for quality, curriculum for multiple age groups, authentic assessment methods, business practices, building positive family and community partnerships, and professionalism. Upon completion, students should be able to design a family child care handbook that reflects a healthy, respectful, supportive, and stimulating learning environment.

EDU 119 Intro to Early Child Educ 4 0 0 4
Prerequisites: None
Corequisites: None
This course covers the foundations of the education profession, the diverse educational settings for young children, professionalism and planning developmentally appropriate programs for all children. Topics include historical foundations, program types, career options, professionalism and creating inclusive environments and curriculum responsive to the needs of all children and families. Upon completion, students should be able to design career plans and develop schedules, environments and activity plans appropriate for all children. *This course is also available through the Virtual Learning Community (VLC)*.

EDU 131 Child, Family, & Commun 3 0 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085
Corequisites: None
This course covers the development of partnerships between culturally and linguistically diverse families, children, schools and communities. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources. Upon completion, students should be able to explain appropriate relationships between families, educators, and professionals that enhance development and educational experiences of all children. *This course is also available through the Virtual Learning Community (VLC)*.

EDU 144 Child Development I 3 0 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085
Corequisites: None
This course includes the theories of child development, needs, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. *This course is also available through the Virtual Learning Community (VLC)*.

EDU 145 Child Development II 3 0 0 3
Prerequisites: Take one set Set 1: ENG 080, RED 080 Set 2: ENG 085, EDU 119
Corequisites: None
This course includes the theories of child development, needs, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on developmental sequences in physical/motor,
emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. *This course is also available through the Virtual Learning Community (VLC).*

**Prerequisites:**
- Take one set **Set 1:** ENG 080, RED 080, EDU 119, EDU 131
- **Set 2:** ENG 085, EDU 119, and EDU 131

**Corequisites:**
- None

This course introduces students to early childhood settings and applying skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on observing children and assisting in the implementation of developmentally appropriate activities/environments for all children; and modeling reflective/professional practices. Upon completion, students should be able to demonstrate developmentally appropriate interactions with children and ethical/professional behaviors as indicated by assignments and onsite faculty visits.
EDU 188 Issues in Early Child Ed  2 0 0 2
Prerequisites:  Take One Set:  Set 1: ENG 080, RED 080, and EDU 119 or Set 2: ENG 085, EDU 119
Corequisites:  None
This course covers topics and issues in early childhood education. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain current topics and issues in early childhood education.

EDU 216 Foundations of Education (replaced EDU 116)  4 0 0 4
Prerequisites:  ENG 090 and RED 090
Corequisites:  None
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues, and experiences in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement at select institutions only. This course is also available through the Virtual Learning Community (VLC).

EDU 221 Children with Exceptional  3 0 0 3
Prerequisites:  Take one set Set 1: ENG 090, RED 090, EDU 144, EDU 145, and EDU 119
Set 2: ENG 090, RED 090, PSY 244 PSY 245, and EDU 119
Set 3: ENG 095, EDU 144 EDU 145, and EDU 119, or
Set 4: ENG 095, PSY 244 PSY 245 and EDU 119
Corequisites:  None
This course introduces children with exceptionalities, their families, support services, inclusive/diverse settings, and educational/family plans based on the foundations of child development. Emphasis is placed on the characteristics of exceptionalities, observation and assessment of children, strategies for adapting the learning environment, and identification of community resources. Upon completion, students should be able to recognize diverse abilities, describe the referral process, and depict collaboration with families/professionals to plan/implement, and promote best practice. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement at select institutions only. This course is also available through the Virtual Learning Community (VLC).

EDU 234 Infants, Toddlers, & Twos  3 0 0 3
Prerequisites:  Take one set Set 1: ENG 090, RED 090, EDU 144 or Set 2: ENG 095, EDU 119, and EDU 144
Corequisites:  None
This course covers the unique needs and rapid changes that occur in the first three years of life and the inter-related factors that influence development. Emphasis is placed on recognizing and supporting developmental milestones through purposeful strategies, responsive care routines and identifying elements of quality, inclusive early care and education. Upon completion, students should be able to demonstrate respectful relationships that provide a foundation for healthy infant/toddler/twos development, plan/select activities/materials, and partner with diverse families.

EDU 235 School-Age Dev & Program  3 0 0 3
Prerequisites:  Take one set Set 1: ENG 090, RED 090, EDU 119 Set 2: ENG 095, EDU 119
Corequisites:  None
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for all children ages five to twelve and plan and implement developmentally-appropriate activities.

EDU 243 Learning Theory  3 0 0 3
Prerequisites:  Take one set Set 1: ENG 090, RED 090 Set 2: ENG 095
Corequisites:  None
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation.

EDU 244 Human Growth/Development  3 0 0 3
Prerequisites:  Take one set Set 1: ENG 090, RED 090 Set 2: ENG 095
Corequisites:  None
This course introduces lateral entry teachers to theories and ages and stages related to human growth and development from birth through adolescence. Emphasis is placed on development through the stages of a child’s life.
in the areas of physical, emotional, social, intellectual, and moral development. Upon completion, students should be able to identify and describe milestones of each stage in all areas of development and discuss factors that influence growth.

**EDU 245 Policies and Procedures**  
3 0 0 3  
Prerequisites: Take one set  
Set 1: ENG 090 and RED 090  
Set 2: ENG 095  
Corequisites: None  
This course is designed to introduce new lateral entry teachers to the policies and procedures established by the local education agency. Topics include emergency situation procedures, acceptable discipline, chain of command, role of mentors, evaluation procedures, employment requirements, dress codes, and other policies and procedures. Upon completion, students should be able to explain the policies and procedures to students, parents, or others and discuss the purpose of each policy category.

**EDU 251 Exploration Activities**  
3 0 0 3  
Prerequisites: Take one set  
Set 1: ENG 090, RED 090, EDU 151, ENG 112  
Set 2: ENG 095, EDU 151, ENG 112  
Corequisites: None  
This course covers discovery experiences in science, math, and social studies. Emphasis is placed on developing concepts for each area and encouraging young children to explore, discover, and construct concepts. Upon completion, students should be able to discuss the discovery approach to teaching, explain major concepts in each area, and plan appropriate experiences for children.

**EDU 261 Early Childhood Admin I**  
3 0 0 3  
Prerequisites: Take one set  
Set 1: ENG 090, RED 090  
Set 2: ENG 095  
Corequisites: EDU 119  
This course introduces principles of basic programming and staffing, budgeting/financial management and marketing, and rules and regulations of diverse early childhood programs. Topics include program structure and philosophy, standards of NC child care programs, finance, funding resources, and staff and organizational management. Upon completion, students should be able to develop components of program/personnel handbooks, a program budget, and demonstrate knowledge of fundamental marketing strategies and NC standards. This course is also available through the Virtual Learning Community (VLC).

**EDU 262 Early Childhood Admin II**  
3 0 0 3  
Prerequisites: Take one set  
Set 1: ENG 090, RED 090, EDU 261  
Set 2: ENG 095, EDU 261  
Corequisites: EDU 119  
This course focuses on advocacy/leadership, public relations/community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs. This course is also available through the Virtual Learning Community (VLC).

**EDU 263 School-Age Program Admin**  
2 0 0 2  
Prerequisites: Take one set  
Set 1: ENG 090, RED 090, EDU 119  
Set 2: ENG 095, AND EDU 119  
Corequisites: None  
This course introduces the methods and procedures for development and administration of school-age programs in the public or proprietary setting. Emphasis is placed on the construction and organization of the physical environment. Upon completion, students should be able to plan, develop and administer a quality school-age program.

**EDU 271 Educational Technology**  
2 2 0 3  
Prerequisites: CIS 111, ENG 112, PSY 150, and BIO 110 or MAT 140, or GEL 120  
Corequisites: None  
This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. Upon completion, students should be able to apply technology enhanced instructional strategies, use a variety of technology resources and demonstrate appropriate technology skills in educational environments. This course is also available through the Virtual Learning Community (VLC).

**EDU 280 Language & Literacy Exp**  
3 0 0 3  
Prerequisites: EDU 282  
Corequisites: None  
This course is designed to expand students’ understanding of children’s language and literacy development and provides strategies for enhancing language/literacy experiences in an enriched environment. Topics include selection of diverse literature and interactive media, the integration of literacy concepts throughout the curriculum, appropriate
EDU 282  Early Childhood Lit  
Prerequisites: Take One Set:  
  Set 1: ENG-090 and RED-090, EDU 119, EDU 144, EDU 145, EDU 146, ENG 111  
  Set 2: ENG-095 and EDU 119, EDU 144, EDU 145, EDU 146, ENG 111  
Corequisites: None  
This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children's literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques.

EDU 284  Early Child Capstone Prac  
Prerequisites: Take one set  
  Set 1: ENG 090, RED 090, EDU119, EDU 144, EDU 145, EDU 146, EDU 151, EDU 131, EDU 221, EDU 251, EDU 261, EDU 282  
  Set 2: ENG 090, RED 090, EDU 119, PSY 244, PSY 245, EDU 144, EDU 146, EDU 151, EDU 131, EDU 221, EDU 251, EDU 261, EDU 282  
  Set 3: ENG 090, RED 090, EDU 119, PSY 245, EDU 144, EDU 146, EDU 151, EDU 131, EDU 221, EDU 251, EDU 261, EDU 282  
  Set 4: ENG 090, RED 090, EDU 119, PSY 244, EDU 145, EDU 146, EDU 151, EDU 131, EDU 221, EDU 251, EDU 261, EDU 282  
  Set 5: ENG 095, EDU 119, EDU 144, EDU 145, EDU 146, EDU 151, EDU131, EDU 221, EDU 251, EDU 261, EDU 282  
  Set 6: ENG 095, EDU 119, PSY 244, PSY 245, EDU 146, EDU 151, EDU 131, EDU 221, EDU 251, EDU 261, EDU 282  
  Set 7: ENG 095, EDU 119, EDU 144, PSY 245, EDU 146, EDU 151, EDU 131, EDU 221, EDU 251, EDU 261, EDU 282  
  Set 8: ENG 095, EDU 119, EDU 145, PSY 244, EDU 146, EDU 151, EDU 131, EDU 221, EDU 251, EDU 261, EDU 282  
Corequisites: None  
This course is designed to allow students to apply skills in a three star (minimum) or NAECY accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and onsite faculty visit.

EDU 287  Leadership/Early Child Ed  
Prerequisites: Take one set  
  Set 1: ENG 090, RED 090, EDU 119, EDU 131, EDU 144, EDU 145, EDU 251, EDU 261, EDU 282  
  Set 2: ENG 090, RED 090, EDU 119, EDU 131, PSY 244, PSY 245, EDU 251, EDU 261, EDU 282  
  Set 3: ENG 095, EDU 119, EDU 131, EDU 144, EDU 145, EDU 151, EDU 251, EDU 261, EDU 282  
  Set 4: ENG 095, EDU 119, EDU 131, PSY 244, PSY 245, EDU 251, EDU 261, EDU 282  
Corequisites: None  
This course is designed to facilitate and guide the development of early childhood professionals preparing for leadership roles in improving community early childhood services. Topics include principles of social change, characteristics of effective leaders, techniques of action research, childcare funding mechanisms, quality initiatives, and key issues in early care. Upon completion, students should be able to identify key issues; develop strategic plans; establish relationships with community leaders; and identify opportunities and barriers for advocacy.

ENGLISH AS A FOREIGN LANGUAGE  
(EFL Prefix)

EFL 001  Skills Lab  
Prerequisites: None  
Corequisites: None  
This skills lab provides supplemental instruction to non-native speakers of English enrolled in pre-curriculum and curriculum classes. The skills lab requires instructor referrals.

EFL 030  English for Special Purposes  
Prerequisites: None  
Corequisites: None  
This course will provide instruction in academic and professional language for non-native speakers of English.
Emphasis is placed on development of integrated language use for carrying out a specific academic task. Upon completion, students should be able to demonstrate improved language skills for participation and success within the particular topic area. This 3-credit elective is appropriate for students who would like to improve accuracy and fluency in spelling and reading of academic English.

**EFL 050 English for Academic Purposes**

| Prerequisites:   | None |
| Corequisites:    | None |

This course will provide instruction in academic and professional language skills for non-native speakers of English. Emphasis is placed on development of integrated language skills for use in studying a particular content area. Upon completion, students should be able to demonstrate improved academic language, content-specific vocabulary and skills, and cultural knowledge in the topic area. This 5-credit elective is appropriate for students who would like to improve pronunciation of academic English.

**EFL 061 Listening/Speaking I**

| Prerequisites:   | EFL 061 |
| Corequisites:    | None |

This course is designed to provide the basic oral/aural language skills needed for essential daily conversation on campus and in the community. Emphasis is placed on vocabulary building, communication in various social and academic situations, and various spoken grammatical skills. Upon completion, students should be able to produce and understand English dealing with routine topics using basic syntax and vocabulary skills. This course is intended for non-native speakers of English.

**EFL 062 Listening/Speaking II**

| Prerequisites:   | EFL 061 |
| Corequisites:    | None |

This course is designed to enhance intermediate listening and speaking skills of non-native speakers of English. Emphasis is placed on the ability to hold extended conversation and on the ability to understand extended spoken discourse. Upon completion, students should be able to demonstrate improved listening skills and strategies in a variety of settings.

**EFL 063 Listening/Speaking III**

| Prerequisites:   | EFL 062 |
| Corequisites:    | None |

This course is designed to increase the ability and confidence of high intermediate-level non-native speakers of English in verbal expression and listening comprehension. Emphasis is placed on listening/speaking skills which would be appropriate for group discussions, oral presentations, and note taking. Upon completion, students should be able to successfully participate in high intermediate-level listening and speaking activities.

**EFL 064 Listening/Speaking IV**

| Prerequisites:   | EFL 063 |
| Corequisites:    | None |

This course is designed to prepare advanced-level non-native speakers of English for academic and professional speaking and listening activities. Emphasis is placed on learning and practicing strategies of effective oral expression and comprehension of spoken discourse in informal and formal settings. Upon completion, students should be able to effectively participate in activities appropriate to academic and professional settings.

**EFL 071 Reading I**

| Prerequisites:   | None |
| Corequisites:    | None |

This course is designed to help those with literacy skills achieve reading fluency in English at the beginning level. Emphasis is placed on basic academic and cultural vocabulary and reading strategies which include self-monitoring, and recognizing organizational styles and context clues. Upon completion, students should be able to use these strategies to read and comprehend basic academic, narrative, and expository texts. This course is intended for non-native speakers of English.

**EFL 072 Reading II**

| Prerequisites:   | EFL 071 |
| Corequisites:    | None |

This course provides preparation in academic and general purpose reading in order to achieve reading fluency at the low-intermediate level. Emphasis is placed on expanding academic and cultural vocabulary and developing effective reading strategies to improve comprehension and speed. Upon completion, students should be able to read and comprehend narrative and expository texts at the low-intermediate instructional level. This course is intended for non-native speakers of English.
### EFL 073 Reading III
- **Prerequisites:** EFL 072
- **Corequisites:** None
- This course is designed to develop fundamental reading and study strategies at the intermediate level needed for curriculum programs. Emphasis is placed on building vocabulary and cultural knowledge, improving comprehension, and developing study strategies on basic-level college materials and literary works. Upon completion, students should be able to read and comprehend narrative and expository texts at the intermediate instructional level. This course is intended for non-native speakers of English.

### EFL 074 Reading IV
- **Prerequisites:** EFL 073
- **Corequisites:** None
- This course is designed to enhance the academic reading skills for successful reading ability as required in college-level courses. Emphasis is placed on strategies for effective reading and the utilization of these strategies to improve comprehension, analytical skills, recall, and overall reading speed. Upon completion, students should be able to comprehend, synthesize, and critique multi-disciplinary college-level reading/textbook materials. This course is intended for non-native speakers of English.

### EFL 081 Grammar I
- **Prerequisites:** None
- **Corequisites:** EFL 091
- This course provides non-native speakers of English with a variety of fundamental grammatical concepts which enrich language skills and comprehension. Emphasis is on key basic grammatical structures and opportunities for practice which incorporate grammatical knowledge into various skills areas. Upon completion, students should be able to demonstrate comprehension and correct usage of specified grammatical concepts.

### EFL 082 Grammar II
- **Prerequisites:** EFL 081
- **Corequisites:** None
- This course provides non-native speakers of English with a variety of basic grammatical concepts which enrich language skills and comprehension. Emphasis is on key low-intermediate grammatical structures and opportunities for practice which incorporate grammatical knowledge into various skills areas. Upon completion, students should be able to demonstrate by written and oral means the comprehension and correct usage of specified grammatical concepts.

### EFL 083 Grammar III
- **Prerequisites:** EFL 082
- **Corequisites:** None
- This course is designed to provide high-intermediate non-native speakers of English with a knowledge of grammatical structures that improves academic communication. Emphasis is placed on using high-intermediate grammatical structures in meaningful contexts through exercises integrating the use of newly acquired structures with previously learned structures. Upon completion, students should be able to demonstrate improved proficiency, comprehension, and grammatical accuracy.

### EFL 084 Grammar IV
- **Prerequisites:** EFL 083
- **Corequisites:** None
- This course is designed to give non-native speakers of English a full understanding of advanced grammatical structures and techniques. Emphasis is placed on oral and written communicative fluency through the study of advanced grammatical forms. Upon completion, students should be able to incorporate the structures covered in both spoken and written form, demonstrating improved proficiency, comprehension, and grammatical accuracy.

### EFL 091 Composition I
- **Prerequisites:** None
- **Corequisites:** EFL 081
- This course introduces basic sentence structure and writing paragraphs. Emphasis is placed on word order, verb tense-aspect system, auxiliaries, word forms, and simple organization and basic transitions in writing paragraphs. Upon completion, students should be able to demonstrate a basic understanding of grammar and ability to write English paragraphs using appropriate vocabulary, organization, and transitions. This course is intended for non-native speakers of English.

### EFL 092 Composition II
- **Prerequisites:** EFL 091
- **Corequisites:** None
- This course provides preparation in low-intermediate academic and general-purpose writing. Emphasis is placed on
writing as a process, paragraph development, and basic essay organization. Upon completion, students should be able to write and independently edit and understand the major elements of the writing process, sentence, paragraph, and essay. This course is intended for non-native speakers of English.

**EFL 093 Composition III**  
Prerequisites: EFL 092  
Corequisites: None  
This course covers intermediate-level academic and general-purpose writing. Emphasis is placed on the writing process, content, organization, and language use in formal academic compositions in differing rhetorical modes. Upon completion, students should be able to effectively use the writing process in a variety of rhetorical modes. This course is intended for non-native speakers of English.

**EFL 094 Composition IV**  
Prerequisites: EFL 093  
Corequisites: None  
This course prepares low-advanced non-native speakers of English to determine the purpose of their writing and to write paragraphs and essays to fulfill that purpose. Emphasis is placed on unity, coherence, completeness, audience, and the writing process; and the grammatical forms and punctuation appropriate for each kind of writing. Upon completion, students should be able to write unified, coherent, and complete paragraphs and essays which are grammatical and appropriate for the intended audience. This course is intended for non-native speakers of English.

**EFL 095 Composition V**  
Prerequisites: EFL 094  
Corequisites: None  
This course is designed to prepare advanced non-native speakers of English for college-level composition courses. Emphasis is placed on the study and process of writing formal essays and research papers and the analysis of literary, expository, and descriptive writings. Upon completion, students should be able to write and analyze professional and peer compositions and apply basic research principles. This course is intended for non-native speakers of English.

---

**ENGINEERING (EGR Prefix)**

**EGR 115 Introduction to Technology**  
Class: 2  
Lab: 3  
Clin/WExp: 0  
Credit Hours: 3  
Prerequisites: None  
Corequisites: None  
This course introduces the basic skills and career fields for technicians. Topics include career options, technical vocabulary, dimensional analysis, measurement systems, engineering graphics, calculator applications, professional ethics, safety practices, and other related topics. Upon completion, students should be able to demonstrate an understanding of the basic technologies, prepare drawings and sketches, and perform computations using a scientific calculator. This course is an introduction to CAD using AutoCAD software.

**EGR 120 Eng and Design Graphics**  
Class: 2  
Lab: 2  
Clin/WExp: 0  
Credit Hours: 3  
Prerequisites: None  
Corequisites: None  
This course introduces the graphical tools used for engineering and design communications. Emphasis is placed upon selecting the appropriate methods and tools and conveying ideas using sketches, orthographic views and projections, and computer graphics applications. Upon completion, students should be able to communicate essential features of two-dimensional and three-dimensional objects using the proper tools and methods.

**EGR 125 Appl Software for Tech**  
Class: 1  
Lab: 2  
Clin/WExp: 0  
Credit Hours: 2  
Prerequisites: None  
Corequisites: None  
This course introduces personal computer software and teaches students how to customize the software for technical applications. Emphasis is placed on the use of common office applications software such as spreadsheets, word processing, graphics, and Internet access. Upon completion, students should be able to demonstrate competency in using applications software to solve technical problems and communicate the results in text and graphical formats.

**EGR 130 Engineering Cost Control**  
Class: 2  
Lab: 2  
Clin/WExp: 0  
Credit Hours: 3  
Prerequisites: MAT 121, MAT 161, or MAT 171  
Corequisites: None  
This course covers the management of projects and systems through the control of costs. Topics include economic analysis of alternatives within budget constraints and utilization of the time value of money approach. Upon completion, students should be able to evaluate the cost effectiveness of proposed projects.

---

Last updated 6/7/12
completion, students should be able to make choices that optimize profits on both short-term and long-term decisions.

**EGR 131 Introduction to Electronics Technology**  
Prerequisites: None  
Corequisites: None  
This course introduces the basic skills required for electrical/electronics technicians. Topics include soldering/desoldering, safety practices, test equipment, scientific calculators, AWG wire table, the resistor color code, electronic devices, problem solving, and use of hand tools. Upon completion, students should be able to solder/desolder, operate test equipment, apply problem-solving techniques, and use a scientific calculator.

**EGR 150 Intro to Engineering**  
Prerequisites: None  
Corequisites: None  
This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals.  
This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**EGR 220 Engineering Statics**  
Prerequisites: A grade of “C” or better in PHY 251 or MAT 272  
Corequisites: None  
This course introduces the concepts of engineering based on forces in equilibrium. Topics include concentrated forces, distributed forces, forces due to friction, and inertia as they apply to machines, structures, and systems. Upon completion, students should be able to solve problems which require the ability to analyze systems of forces in static equilibrium.  
This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**EGR 225 Engineering Dynamic**  
Prerequisites: EGR 220  
Corequisites: MAT 273  
This course introduces the concepts of engineering based on the analysis of motion in Cartesian, cylindrical, and Spherical coordinate systems. Topics include the two and three dimensional motion of particles and rigid bodies, the forces associated with that motion, and relative motion between two coordinate systems. Upon completion, students should be able to solve problems which require the ability to analyze the motion and forces involved in a dynamic system.  
This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**EGR 285 Design Project**  
Prerequisites: None  
Corequisites: None  
This course provides the opportunity to design an instructor-approved project using previously acquired skills. Emphasis is placed on selection, proposal, design, testing, and documentation of the approved project. Upon completion, students should be able to present and demonstrate projects.

This course introduces the fundamental concepts of electricity and test equipment to non-electrical/electronic majors. Topics include basic DC and AC principles (voltage, resistance, current, impedance); components (resistors, inductors, and capacitors); power; and operation of test equipment. Upon completion, students should be able to construct and analyze simple DC and AC circuits using electrical test equipment.

This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion,
students should be able to construct, verify, troubleshoot, and repair DC/AC circuits.

**ELC 113 Basic Wiring I**  
Prerequisites: None  
Corequisites: None  
This course introduces the care/usage of tools and materials used in electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical blueprint reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with basic electrical installations.

**ELC 114 Basic Wiring II**  
Prerequisites: ELC 113  
Corequisites: None  
This course provides instruction in the application of electrical tools, materials, and test equipment associated with electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with electrical installations.

**ELC 115 Industrial Wiring**  
Prerequisites: ELC 114  
Corequisites: None  
This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.

**ELC 117 Motors and Controls**  
Prerequisites: ELC 111, ELC 112, or ELC 131  
Corequisites: None  
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

**ELC 118 National Electrical Code**  
Prerequisites: None  
Corequisites: ELC 113  
This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

**ELC 119 NEC Calculations**  
Prerequisites: ELC 118  
Corequisites: None  
This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.

**ELC 121 Electrical Estimating**  
Prerequisites: ELC 113, ELC 114  
Corequisites: None  
This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects.

**ELC 126 Electrical Computations**  
Prerequisites: None  
Corequisites: None  
This course introduces the fundamental applications of mathematics that are used by an electrical/electronics technician. Topics include whole numbers, fractions, decimals, powers, roots, simple electrical formulas, and usage of a scientific calculator. Upon completion, students should be able to solve simple electrical mathematical problems.

**ELC 127 Software for Technicians**  
Prerequisites: None  
Corequisites: None  
This course introduces computer software which can be used to solve electrical/electronics problems. Topics include
COURSE DESCRIPTIONS

electrical/electronics calculations and applications. Upon completion, students should be able to utilize a personal computer for electrical/electronics-related applications.

**ELC 128 Intro to PLC**  
Prerequisites: ELC 117 or ELC 131  
Corequisites: None  
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to install PLCs and create simple programs.

**ELC 131 DC/AC Circuit Analysis**  
Prerequisites: None  
Corequisites: None  
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

**ELC 134 Transformer Applications**  
Prerequisites: ELC 112  
Corequisites: ELC 117  
This course covers single and three phase transformer applications as found in industrial/commercial buildings and machinery. Topics include transformer principles, single and three phase calculations, and connections. Upon completion, students should be able to understand single and three phase transformers, make transformer connections, and make calculations.

**ELC 229 Applications Project**  
Prerequisites: ELC 113, ELC 128, ELN 133, and ELN 229  
Corequisites: None  
This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.

**ELC 231 Electric Power Systems**  
Prerequisites: None  
Corequisites: None  
This course covers the basic principles of electric power systems, including transmission lines, generator and transformer characteristics, and fault detection and correction. Emphasis is placed on line diagrams and per unit calculations for circuit performance analysis in regards to voltage regulation, power factor, and protection devices. Upon completion, students should be able to analyze simple distribution subsystems, calculate fault current, and compare different types and sizes of circuit protection devices.

**ELC 233 Energy Management**  
Prerequisites: None  
Corequisites: None  
This course covers energy management principles and techniques typical of those found in industry and commercial facilities, including load control and peak demand reduction systems. Topics include load and peak demand calculations, load shedding, load balance and power factor, priority scheduling, remote sensing and control, and supplementary/alternative energy sources. Upon completion, students should be able to determine energy management parameters, calculate demand and energy use, propose energy management procedures, and implement alternative energy sources.

---

**ELECTRONICS (ELN Prefix)**

**ELN 112 Diesel Electronics System**  
Prerequisites: None  
Corequisites: None  
This course introduces electronic theory and applications as used in medium and heavy duty vehicles. Emphasis is placed on the basic function and operation of semiconductor and integrated circuits. Upon completion, students should be able to identify electronic components, explain their use and function, and use meters and flow charts to diagnose and repair systems.
COURSE DESCRIPTIONS

ELN 113  Electronic Fuel Injection  1  2  0  2
Prerequisites: None
Corequisites: None
This course covers the function of the various sensors used to provide feedback control to current model diesel engines. Emphasis is placed on the operation of ECM-controlled fuel injectors and testing using current industry methods. Upon completion, students should be able to obtain information from the electronic fuel system using current test programs, fault tree, and digital meters.

ELN 116  Telecommunications Digital Logic  3  3  0  4
Prerequisites: None
Corequisites: None
This course covers the application of binary logic circuits to digital systems. Emphasis is placed on circuits that are utilized in telecom systems. Upon completion, students will be able to construct, analyze, verify, and troubleshoot telecom digital systems using appropriate techniques and test equipment.

ELN 131  Electronics Devices  3  3  0  4
Prerequisites: None
Corequisites: ELC 112, ELC 131, or ELC 140
This course includes semiconductor-based devices such as diodes, bipolar transistors, FETs, thermistors, and related components. Emphasis is placed on analysis, selection, biasing, and applications in power supplies, small signal amplifiers, and switching and control circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment.

ELN 132  Linear IC Applications  3  3  0  4
Prerequisites: ELN 131
Corequisites: None
This course introduces the characteristics and applications of linear integrated circuits. Topics include op-amp circuits, waveform generators, active filters, IC voltage regulators, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot linear integrated circuits using appropriate techniques and test equipment.

ELN 133  Digital Electronics  3  3  0  4
Prerequisites: None
Corequisites: None
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, MSI and LSI circuits, AD/DA conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment. This course is also available through the Virtual Learning Community (VLC).

ELN 136  Telecommunications Digital Systems  3  3  0  4
Prerequisites: None
Corequisites: None
This course covers the applications of microprocessors in digital communication circuits. Emphasis is placed on interfacing I/O peripherals, data communication circuits, DSP circuits, UART's modems, and other communication circuits. Upon completion, students will be able to design, construct, verify, analyze, and troubleshoot using appropriate techniques and test equipment.

ELN 150  CAD for Electronics  1  3  0  2
Prerequisites: CIS 110, CIS 111, or ELC 127
Corequisites: None
This course introduces computer-aided drafting (CAD) with an emphasis on applications in the electronics field. Topics include electronics industry standards (symbols, schematic diagrams, layouts); drawing electronic circuit diagrams; and specialized electronic drafting practices and components such as resistors, capacitors, and ICs. Upon completion, students should be able to prepare electronic drawings with CAD software.

ELN 154  Intro to Data Comm  2  3  0  3
Prerequisites: ELN 133
Corequisites: None
This course introduces the principal elements and theory (analog and digital techniques) of data communication systems and how they are integrated as a complete network. Topics include an overview of data communication, OSI model, transmission modes, interfaces, applications of ICs, protocols, network configurations, modems, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with data communication systems and high speed networks.

Last updated 6/7/12
ELN 193A  Selected Topics in Electronics Engineering Technology
Prerequisites: Varies, based on topic
Corequisites: None
This course provides an opportunity to explore areas of current interest in Electronics Engineering Technology. Emphasis is placed on subject matter appropriate to electronics engineering technology. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

ELN 229  Industrial Electronics
Prerequisites: ELC 112
Corequisites: None
This course covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices. Upon completion, students should be able to install and/or troubleshoot these devices for proper operation in an industrial electronic circuit.

ELN 229A  Industrial Electronics Part 1
Prerequisites: ELC 112
Corequisites: None
This course covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices. Upon completion, students should be able to install and/or troubleshoot these devices for proper operation in an industrial electronic circuit. This is part one of a two-part course.

ELN 229B  Industrial Electronics Part 2
Prerequisites: ELN 229A
Corequisites: None
This course covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices. Upon completion, students should be able to install and/or troubleshoot these devices for proper operation in an industrial electronic circuit. This is part two of a two-part course.

ELN 231  Industrial Controls
Prerequisites: ELC 112 or ELC 131 or ELC 140
Corequisites: None
This course introduces the fundamental concepts of solid-state control of rotating machinery and associated peripheral devices. Topics include rotating machine theory, ladder logic, electromechanical and solid state relays, motor controls, pilot devices, three-phase power systems, and other related topics. Upon completion, students should be able to interpret ladder diagrams and demonstrate an understanding of electromechanical and electronic control of rotating machinery.

ELN 232  Introduction to Microprocessors
Prerequisites: ELN 133
Corequisites: None
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include assembly language programming, bus architecture, bus cycle types, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.

ELN 233  Microprocessor Systems
Prerequisites: ELN 232
Corequisites: None
This course covers the application and design of microprocessor control systems. Topics include control and interfacing of systems using AD/DA, serial/parallel I/O, communication protocols, and other related applications. Upon completion, students should be able to design, construct, program, verify, analyze, and troubleshoot fundamental microprocessor interface and control circuits using related equipment.

ELN 234  Communication Systems
Prerequisites: ELN 132 or ELN 140
Corequisites: None
This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.
COURSE DESCRIPTIONS

ELN 235 Data Communication System
Prerequisites: None
Corequisites: None
This course covers data communication systems and the transmission of digital information from source to destination. Topics include data transmission systems, interfaces and modems, protocols, networks, and other related topics. Upon completion, students should be able to demonstrate knowledge of the concepts associated with data communication systems.

ELN 236 Fiber Optics and Lasers
Prerequisites: None
Corequisites: None
This course introduces the fundamentals of fiber optics and lasers. Topics include the transmission of light; characteristics of fiber optic and lasers and their systems; fiber optic production; types of lasers; and laser safety. Upon completion, students should be able to understand fiber optic communications and basic laser fundamentals.

ELN 237 Local Area Networks
Prerequisites: CIS 110 or CIS 111 or CET 111 or ELC 127
Corequisites: None
This course introduces the fundamentals of local area networks and their operation in business and computer environments. Topics include the characteristics of network topologies, system hardware (repeaters, bridges, routers, gateways), system configuration, and installation and administration of the LAN. Upon completion, students should be able to install, maintain, and manage a local area network.

ELN 252 Introduction to Communication Protocols
Prerequisites: TNE 111, TNE 231
Corequisites: None
This course introduces various communication protocols and their place within the OSI Model. Topics include background information, historical protocols, various individual physical, link and network layer protocols, and the integration of individual layer protocols. Upon completion, students should be able to effectively use existing and future communication protocols. Emphasis will be placed on data communications over WAN.

ELN 275 Troubleshooting
Prerequisites: None
Corequisites: ELN 133
This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers’ specifications.

EMERGENCY MEDICAL CARE  (EMS Prefix)

EMS 110 EMT-Basic
Class Lab Clin/WExp Credit Hours
5 6 0 7
Prerequisites: ENG 090 and RED 090 or ENG-111
Corequisites: None
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT-Basic certification.

EMS 110A EMT-Basic Part 1
Class Lab Clin/WExp Credit Hours
2 3 0 3
Prerequisites: None
Corequisites: None
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT-Basic certification. This course is offered only for Huskins eligible high school students.

EMS 110B EMT-Basic Part 2
Class Lab Clin/WExp Credit Hours
3 3 0 4
Prerequisites: EMS 110A
Corequisites: None
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to
demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT-Basic certification. This course is offered only for Huskins eligible high school students.

**EMS 120 Intermediate Interventions**
Prerequisites: EMS 110
Corequisites: EMS 121, EMS 130, EMS 131
This course is designed to provide the necessary information for interventions appropriate to the EMT-Intermediate and is required for intermediate certification. Topics include automated external defibrillation, basic cardiac electrophysiology, intravenous therapy, venipuncture, acid-base balance, and fluids and electrolytes. Upon completion, students should be able to properly establish an IV line, obtain venous blood, utilize AEDs, and correctly interpret arterial blood gases.

**EMS 121 EMS Clinical Practicum I**
Prerequisites: EMS 110
Corequisites: EMS 120, EMS 130, EMS 131
This course is the initial hospital and field internship and is required for intermediate and paramedic certification. Emphasis is placed on intermediate-level care. Upon completion, students should be able to demonstrate competence with intermediate-level skills.

**EMS 125 EMS Instructor Methodology**
Prerequisites: None
Corequisites: None
This course covers the information needed to develop and instruct EMS courses. Topics include instructional methods, lesson plan development, time management skills, and theories of adult learning. Upon completion, students should be able to teach EMS courses and meet the North Carolina EMS requirements for instructor methodology. Students must be admitted into the Emergency Medical Science program to be able to register for this course.

**EMS 130 Pharmacology I for EMS**
Prerequisites: EMS 110
Corequisites: EMS 120, EMS 131
This course introduces the fundamental principles of pharmacology and medication administration and is required for intermediate and paramedic certification. Topics include terminology, pharmacokinetics, pharmacodynamics, weights, measures, drug calculations, legislation, and administration routes. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

**EMS 131 Advanced Airway Management**
Prerequisites: EMS 110
Corequisites: EMS 120, EMS 130
This course is designed to provide advanced airway management techniques and is required for intermediate and paramedic certification. Topics include respiratory anatomy and physiology, airway, ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.

**EMS 140 Rescue Scene Management**
Prerequisites: None
Corequisites: None
This course introduces rescue scene management and is required for paramedic certification. Topics include response to hazardous material conditions, medical incident command, and extrication of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment. Students must be admitted into the Emergency Medical Science program to be able to register for this course.

**EMS 150 Emerg Vehicles & EMS Comm**
Prerequisites: None
Corequisites: None
This course examines the principles governing emergency vehicles, maintenance of emergency vehicles, and EMS communication equipment and is required for paramedic certification. Topics include applicable motor vehicle laws affecting emergency vehicle operation, defensive driving, collision avoidance techniques, communication systems, and information management systems. Upon completion, students should have a basic knowledge of emergency vehicles, maintenance, and communication needs. Students must be admitted into the Emergency Medical Science program to be able to register for this course.
### EMS 210 Advanced Patient Assessment

**Prerequisites:** EMS 120, EMS 121, EMS 130, EMS 131  
**Corequisites:** None

This course covers advanced patient assessment techniques and is required for paramedic certification. Topics include initial assessment, medical-trauma history, field impression, complete physical exam process, on-going assessment, and documentation skills. Upon completion, students should be able to utilize basic communication skills and record and report collected patient data.

### EMS 220 Cardiology

**Prerequisites:** EMS 120, EMS 130, EMS 131  
**Corequisites:** None

This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, rhythm interpretation, cardiac pharmacology, and patient treatment. Upon completion, students should be able to certify at the Advanced Cardiac Life Support Provider level utilizing American Heart Association guidelines.

### EMS 221 EMS Clinical Practicum II

**Prerequisites:** EMS 121  
**Corequisites:** None

This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

### EMS 230 Pharmacology II for EMS

**Prerequisites:** EMS 130  
**Corequisites:** None

This course explores the fundamental classification and action of common pharmacologic agents. Emphasis is placed on the action and use of compounds most commonly encountered in the treatment of chronic and acutely ill patients. Upon completion, students should be able to demonstrate general knowledge of drugs covered during the course.

### EMS 231 EMS Clinical Practicum III

**Prerequisites:** EMS 221 or EMS 222 and COE 121  
**Corequisites:** None

This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

### EMS 235 EMS Management

**Prerequisites:** None  
**Corequisites:** None

This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantsmanship, finance, regulatory agencies, system management, legal issues, and other topics relevant to the EMS manager. Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems. *This course is also available through the Virtual Learning Community (VLC).*

### EMS 240 Special Needs Patients

**Prerequisites:** EMS 120, EMS 121 or EMS 122 and EMS 130, and EMS 131  
**Corequisites:** None

This course includes concepts of crisis intervention and techniques of dealing with special needs patients and is required for paramedic certification. Topics include behavioral emergencies, abuse, assault, challenged patients, personal well-being, home care, and psychotherapeutic pharmacology. Upon completion, students should be able to recognize and manage frequently encountered special needs patients.

### EMS 241 EMS Clinical Practicum IV

**Prerequisites:** EMS 231 or EMS 232 and COE 131  
**Corequisites:** None

This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic.

### EMS 250 Advanced Medical Emergencies

**Prerequisites:** EMS 120, EMS 130, EMS 131, and either EMS 121 or EMS 122  
**Corequisites:** None

This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is
required for paramedic certification. Topics include pulmonology, neurology, endocrinology, anaphylaxis, gastroenterology, toxicology, and environmental emergencies integrating case presentation and emphasizing pharmacotherapeutics. Upon completion, students should be able to recognize and manage frequently encountered medical conditions based upon initial patient impression.

EMS 260  Advanced Trauma Emergencies  
Prerequisites: EMS 120, EMS 130, EMS 131, and either EMS 121 or COE 111 and EMS 122  
Corequisites: None  
This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include hemorrhage control, shock, burns, and trauma to head, spine, soft tissue, thoracic, abdominal, and musculoskeletal areas with case presentations utilized for special problems situations. Upon completion, students should be able to recognize and manage trauma situations based upon patient impressions and should meet requirements of BTLS or PHTLS courses.

EMS 270  Life Span Emergencies  
Prerequisites: EMS 120, EMS 130, EMS 131  
Corequisites: None  
This course, required for paramedic certification, covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies and certify at the Pediatric Advanced Life Support Provider level.

EMS 285  EMS Capstone  
Prerequisites: EMS 220, EMS 250, EMS 260  
Corequisites: None  
This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.

---

**ENGLISH (ENG Prefix)**

ENG 001  Writing Skills Lab  
Prerequisites: None  
Corequisites: None  
Designed to support courses across the curriculum that require writing by providing assistance to help students overcome deficiencies in organization and development, grammar and usage, mechanics, sentence structure and style, literary analysis and documentation.

ENG 070  Basic Language Skills  
Prerequisites: None  
Corequisites: None  
This course introduces the fundamentals of standard written English. Emphasis is placed on effective word choice, recognition of sentences and sentence parts, and basic usage. Upon completion, students should be able to generate a variety of sentences that clearly express ideas. Regular readings will provide the basis for frequent writing practice.

ENG 075  Reading and Language Essentials  
Prerequisites: None  
Corequisites: None  
This course uses whole language to develop proficiency in basic reading and writing. Emphasis is placed on increasing vocabulary, developing comprehension skills, and improving grammar. Upon completion, students should be able to understand and create grammatically and syntactically correct sentences.

ENG 075A  Reading and Language Essentials Lab  
Prerequisites: None  
Corequisites: ENG 075  
This laboratory provides the opportunity to practice the skills introduced in ENG 075. Emphasis is placed on practical skills for increasing vocabulary, developing comprehension skills, and improving grammar. Upon completion, students should be able to apply those skills in the production of grammatically and syntactically correct sentences.
<table>

<tbody>
<tr>
<td><strong>ENG 080</strong> Writing Foundations</td>
</tr>
<tr>
<td>Prerequisites: ENG 070 or ENG 075 or placement</td>
</tr>
<tr>
<td>Corequisites: None</td>
</tr>
<tr>
<td>This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph. Regular readings will provide the basis for additional, less structured writing practice.</td>
</tr>
</tbody>
</table>

| **ENG 090** Composition Strategies | 3 0 0 3 |
| Prerequisites: ENG 080 or ENG 085 or placement |
| Corequisites: None |
| This course provides practice in the writing process and stresses effective paragraphs. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay. |

| **ENG 090A** Composition Strategies Lab | 0 2 0 1 |
| Prerequisites: ENG 080 or ENG 085 or placement |
| Corequisites: ENG 090 |
| This writing lab is designed to practice the skills introduced in ENG 090. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay. |

| **ENG 110** Freshman Composition | 3 0 0 3 |
| Prerequisites: ENG 090 and RED 080 |
| Corequisites: None |
| This course is designed to develop informative and business writing skills. Emphasis is placed on logical organization of writing, including effective introductions and conclusions, precise use of grammar, and appropriate selection and use of sources. Upon completion, students should be able to produce clear, concise, well-organized short papers. |

| **ENG 111** Expository Writing | 3 0 0 3 |
| Prerequisites: ENG 090 and RED 090, or placement |
| Corequisites: None |
| This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course will also introduce students to the skills needed to produce a college-level research essay. |

| **ENG 111A** Expository Writing Lab | 0 2 0 1 |
| Prerequisites: ENG 090 and RED 090, or placement |
| Corequisites: ENG 111 |
| This writing laboratory is designed to apply the skills introduced in ENG 111. Emphasis is placed on the editing and revision components of the writing process. Upon completion, students should be able to apply those skills in the production of final drafts in ENG 111. |

| **ENG 112** Argument-Based Research | 3 0 0 3 |
| Prerequisites: A grade of “C” or better in ENG 111 |
| Corequisites: None |
| This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing data and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to synthesize information from primary and secondary sources using standard research format and style. |

| **ENG 113** Literature-Based Research | 3 0 0 3 |
| Prerequisites: A grade of “C” or better in ENG 111 |
| Corequisites: None |
| This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. This course may include a variety of critical approaches. |

| ENG 261     | World Literature I                       | 3       |
|             | Prerequisites: ENG 112, ENG 113, or ENG 114 |         |
|             | Corequisites: None                        |         |
|             | This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. |         |

| ENG 262     | World Literature II                      | 3       |
|             | Prerequisites: ENG 112, ENG 113, or ENG 114 |         |
|             | Corequisites: None                        |         |
|             | This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. |         |

| ENG 271     | Contemporary Literature                  | 3       |
|             | Prerequisites: ENG 112, ENG 113, or ENG 114 |         |
|             | Corequisites: None                        |         |
|             | This course includes a study of contemporary literature. Emphasis is placed on literary and cultural trends of selected texts. Upon completion, students should be able to interpret, analyze, and respond to the literature. |         |

| ENG 272     | Southern Literature                      | 3       |
|             | Prerequisites: ENG 112, ENG 113, or ENG 114 |         |
|             | Corequisites: None                        |         |
|             | This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. |         |

| ENG 273     | African-American Literature              | 3       |
|             | Prerequisites: ENG 112, ENG 113, or ENG 114 |         |
|             | Corequisites: None                        |         |
|             | This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. |         |

| ENG 274     | Literature by Women                      | 3       |
|             | Prerequisites: ENG 112, ENG 113, or ENG 114 |         |
|             | Corequisites: None                        |         |
|             | This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. |         |

| ENG 275     | Science Fiction                          | 3       |
|             | Prerequisites: ENG 112, ENG 113, or ENG 114 |         |
|             | Corequisites: None                        |         |
|             | This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, world view, and science fiction literature. |         |

</tbody>
</table>
ENV 214 Water Quality 3  2  0  4
Prerequisites: CHM 131, ENV 110 or BIO 140 and BIO 140A
Corequisites: None
This course examines the constituents of natural waters from a biological and geochemical perspective. Topics include common components of water, water sources, water law, health consequences, water treatment procedures, and the design of water treatment plants. Upon completion, students should be able to demonstrate an understanding of the biological, chemical, and geological factors affecting water quality.

ENV 218 Environmental Health 3  0  0  3
Prerequisites: ENV 110 or BIO 140 and BIO 140A
Corequisites: None
This course covers the influence of environmental conditions on human health. Emphasis is placed on environmental contaminants and the major exposure routes of the human body. Upon completion, students should be able to examine segments of the environment, including air, water, and food, and determine how the conditions of these influence human health.

ENV 220 Applied Ecology 3  2  0  4
Prerequisites: ENV 110 or BIO 140 and BIO 140A and BIO 111
Corequisites: None
This course covers the relationships between organisms and their environment and the interactions among organisms. Topics include environmental factors affecting aquatic and terrestrial systems, regulation and dynamics of populations, interactions among species, and the ecological viewpoint in modern land management. Upon completion, students should be able to demonstrate an understanding of the relationship between man and his environment and the ecological impact of human activities.

ENV 222 Air Quality 3  2  0  4
Prerequisites: CHM 131, ENV 110 or BIO 140 and BIO 140A
Corequisites: None
This course introduces the study of air quality and air pollution. Emphasis is placed on air pollution basics, current atmospheric conditions, effects of air pollution, air quality analysis and measurement, and regulatory control of air pollution. Upon completion, students should be able to demonstrate an understanding of the environmental hazards associated with air pollution from a human health and welfare perspective.

ENV 226 Environmental Law 3  0  0  3
Prerequisites: ENV 110 or BIO 140 and BIO 140A
Corequisites: ENV 218
This course covers federal laws and acts concerning environmental quality standards and the use of resources, legal procedures for enforcing laws, and problems concerning enforcement. Emphasis is placed on environmental law basics, water quality laws, air quality laws, waste disposal laws, and biological resource protection laws. Upon completion, students should be able to demonstrate an understanding of federal/state environmental laws and their importance to the protection of environmental quality.

ENV 228 Environmental Issues 1  0  0  1
Prerequisites: None
Corequisites: None
This course provides a forum for the discussion of current environmental issues. Emphasis is placed on environmental news, regulations, accidents, and areas of controversy. Upon completion, students should be able to demonstrate an understanding of the impact of local, state, national, and global events on environmental quality.

ENV 232 Site Assessment and Remediation 2  3  0  3
Prerequisites: ENV 110 or BIO 140 and BIO 140A
Corequisites: None
This course introduces the concepts and techniques utilized in the assessment and remediation of contaminated soils and groundwater. Emphasis is placed on hydrogeology, environmental sampling, and remediation practices. Upon completion, the student should be able to properly sample environmental media, demonstrate a knowledge of groundwater dynamics, and discuss various remediation approaches.

FIRE PROTECTION (FIP Prefix)

FIP 120 Intro to Fire Protection 3  0  0  3
Prerequisites: None
Corequisites: None
This course provides an overview of the history, development, methods, systems, and regulations as they apply to
the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and other related topics. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field. *This course is also available through the Virtual Learning Community (VLC).*

| This course covers public and private sector OSHA work site requirements. Emphasis is placed on accident prevention and reporting, personal safety, machine operation, and hazardous material handling. Upon completion,
students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance.

**FIP 220**  Fire Fighting Strategies  
Prerequisites: None  
Corequisites: None  
This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system related to operations involving various emergencies in fire/non-fire situations, meeting NFPA 1021. *This course is also available through the Virtual Learning Community (VLC).*

**FIP 221**  Adv Fire Fighting Strat  
Prerequisites: FIP 220  
Corequisites: None  
This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced ICS, advanced incident analysis, command-level fire operations, and control of both man made and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command.

**FIP 228**  Local Govt Finance  
Prerequisites: None  
Corequisites: None  
This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, taxation, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operation of a department.

**FIP 229**  Fire Dynamics and Combust  
Prerequisites: None  
Corequisites: None  
This course covers the theories and fundamentals of how and why fires start and spread, and how they are safely controlled. Topics include components of fire, fire sources, fire behavior, properties of combustible solids, classification of hazards, and the use of fire extinguishing agents. Upon completion, students should be able to describe the properties of matter and dynamics of fire, identify fuel sources, and compare suppressants and extinguishment techniques.

**FIP 230**  Chem of Hazardous Mat I  
Prerequisites: None  
Corequisites: None  
This course covers the evaluation of hazardous materials. Topics include use of the periodic table, hydrocarbon derivatives, placards and labels, parameters of combustion, and spill and leak mitigation. Upon completion, students should be able to demonstrate knowledge of the chemical behavior of hazardous materials.

**FIP 232**  Hydraulics & Water Dist  
Prerequisites: MAT 115, MAT 120, MAT 121, MAT 140, MAT 151, MAT 161, MAT 171, or MAT 175  
Corequisites: None  
This course covers the flow of fluids through fire hoses, nozzles, appliances, pumps, standpipes, water mains, and other devices. Emphasis is placed on supply and delivery systems, fire flow testing, hydraulic calculations, and other related topics. Upon completion, students should be able to perform hydraulic calculations, conduct water availability tests, and demonstrate knowledge of water distribution systems.

**FIP 236**  Emergency Management  
Prerequisites: None  
Corequisites: None  
This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles of government agencies at all levels. Upon completion, students should be able to demonstrate a knowledge of comprehensive emergency management and the integrated emergency management system.

**FIP 240**  Fire Service Supervision  
Prerequisites: None  
Corequisites: None  
This course covers supervisory skills and practices in the fire protection field. Topics include the supervisor's job, supervision skills, the changing work environment, managing change, organizing for results, discipline and grievances, and safety. Upon completion, students should be able to demonstrate an understanding of the roles and
responsibilities of the effective fire service supervisor, meeting elements of NFPA 1021

FIP 244 Fire Protection Project 3 0 0 3
Prerequisites: None
Corequisites: None
This course provides an opportunity to apply knowledge covered in previous courses to employment situations that the fire protection professional will encounter. Emphasis is placed on the development of comprehensive and professional practices. Upon completion, students should be able to demonstrate knowledge of the fire protection service through written and performance evaluations.

FIP 248 Fire Svc Personnel Adm 3 0 0 3
Prerequisites: None
Corequisites: None
This course covers the basics of setting up and administering the personnel functions of fire protection organizations. Emphasis is placed on human resource planning, classification and job analysis, equal opportunity employment, affirmative action, recruitment, retention, development, performance evaluation, and assessment centers. Upon completion, students should be able to demonstrate knowledge of the personnel function as it relates to managing fire protection.

FIP 256 Munic Public Relations 3 0 0 3
Prerequisites: None
Corequisites: None
This course is a general survey of municipal public relations and their effect on the governmental process. Topics include principles of public relations, press releases, press conferences, public information officers, image surveys, and the effects of perceived service on fire protection delivery. Upon completion, students should be able to manage the public relations functions of a fire service organization, which meet elements of NFPA 1021 for Fire Officer I and II.

FIP 277 Fire and Social Behavior 3 0 0 3
Prerequisites: None
Corequisites: None
This course covers fire-related aspects of human behavior, with an emphasis on research and a systems approach to human-behavior analysis. Topics include identification of populations and structures at high risk, evaluation of systems models, and use of computer models to predict human behavior during fires. Upon completion, students should be able to identify and anticipate human behavior in response to various residential, commercial, board-and-care facility, and wildland/rural fire events.

FIP 260 Fire Protect Planning 3 0 0 3
Prerequisites: None
Corequisites: None
This course covers the need for a comprehensive approach to fire protection planning. Topics include the planning process, using an advisory committee, establishing goals and objectives, and techniques used to approve and implement a plan. Upon completion, students should be able to demonstrate a working knowledge of the concepts and principles of planning as it relates to fire protection.

FIP 276 Managing Fire Services 3 0 0 3
Prerequisites: None
Corequisites: None
This course provides an overview of fire department operative services. Topics include finance, staffing, equipment, code enforcement, management information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to understand concepts and apply fire department management and operations principles, meeting NFPA 1021.

FRENCH (FRE Prefix)

FRE 111 Elementary French I 3 0 0 3
Prerequisites: ENG 090 and RED 090, or ENG 111
Corequisites: FRE 181
This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness.
<table>

<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>GEL 113 Historical Geology</strong></td>
<td>3</td>
<td>2</td>
<td>4</td>
</tr>
</tbody>
</table>

Prerequisites: A grade of “C” or better in GEL 111 or GEL 120  
Corequisites: None

This course covers the geological history of the earth and its life forms. Emphasis is placed on the study of rock strata, fossil groups, and geological time. Upon completion, students should be able to identify major fossil groups and associated rock strata and approximate ages of geological formations.
GEL 120 Physical Geology  
Prerequisites: ENG 090, MAT 070, RED 090, or placement  
Corequisites: None  
This course provides a study of the structure and composition of the earth's crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth's crust.

GEL 230 Environmental Geology  
Prerequisites: A grade of "C" or better in GEL 111 or GEL 120 or PHS 130  
Corequisites: None  
This course provides insights into geologic forces that cause environmental changes influencing man's activities. Emphasis is placed on natural hazards and disasters caused by geologic forces. Upon completion, students should be able to relate major hazards and disasters to the geologic forces responsible for their occurrence.

GEOGRAPHY (GEO Prefix)

GEO 111 World Regional Geography  
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships.  
This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

GEO 112 Cultural Geography  
Prerequisites: RED 090, ENG 090  
Corequisites: None  
This course is designed to explore the diversity of human cultures and to describe their shared characteristics. Emphasis is placed on the characteristics, distribution, and complexity of earth's cultural patterns. Upon completion, students should be able to demonstrate an understanding of the differences and similarities in human cultural groups.  
This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

GEOGRAPHIC INFORMATION SYSTEMS (GIS Prefix)

GIS 111 Introduction to GIS  
Prerequisites: None  
Corequisites: None  
This course introduces the hardware and software components of a Geographic Information System and reviews GIS applications. Topics include data structures and basic functions, methods of data capture and sources of data, and the nature and characteristics of spatial data and objects. Upon completion, students should be able to identify GIS hardware components, typical operations, products/applications, and differences between database models and between raster and vector systems.

GIS 112 Introduction to GPS  
Prerequisites: None  
Corequisites: None  
This course provides an overview of Global Positioning Systems (GPS). Topics include the theory, implementation, and operations of GPS, as well as alternate data source remote sensing. Upon completion, students should be able to demonstrate an understanding of the fundamentals of GPS.

GIS 120 Introduction to Geodesy  
Prerequisites: None  
Corequisites: None  
This course introduces the fundamental concepts behind map projections, datums, and coordinate systems.
Topics include the theory of how the earth's shape is defined and how geographic features are positioned using spherical coordinate systems. Upon completion, students should be able to demonstrate an understanding of the fundamentals of geodesy as it relates to the measurement and representation of the earth.

**GIS 121 Georeferencing & Mapping**  
Class: 2  
Lab: 2  
WExp: 0  
Credit Hours: 3  
Prerequisites: GIS 111  
Corequisites: None

This course introduces coordinate systems, fundamentals of surveying, and cartography. Topics include the theory, acquisition, and use of locational data using both continuous and discrete georeferencing methods. Upon completion, students should be able to identify appropriate coordinate systems for a situation and translate data into correct map form.

**GIS 125 CAD for GIS**  
Class: 2  
Lab: 2  
WExp: 0  
Credit Hours: 3  
Prerequisites: None  
Corequisites: None

This course introduces the concepts of Computer Aided Drafting (CAD) as well as software that is used for building geographic data for a GIS. Emphasis is placed on the learning of basic commands used in building spatial data. Upon completion, student will be able to operate within a CAD environment.

**GIS 161 Intro to Comp /BASIC & C++**  
Class: 1  
Lab: 4  
WExp: 0  
Credit Hours: 3  
Prerequisites: None  
Corequisites: None

This course introduces the electronic computer and includes a general description of computer design and operation, associated vocabulary, and most widely used applications. Emphasis is placed on hands-on experience with software. Upon completion, students should be able to utilize and depict calculations, decision-making and branching and looping functions processing, and top-down programming methodology.

**GIS 230 GIS Data Creation**  
Class: 2  
Lab: 2  
WExp: 0  
Credit Hours: 3  
Prerequisites: None  
Corequisites: None

This course introduces the fundamental concepts of primary GIS data creation. Topics include the collection of field data, digital conversion of existing hardcopy maps, and the construction of spatial data from known geodetic locations. Upon completion, students should be able to demonstrate an ability to collect, create, and process spatial data within a variety of environments.

**GIS 241 Cartographic Production**  
Class: 2  
Lab: 2  
WExp: 0  
Credit Hours: 3  
Prerequisites: GIS 111  
Corequisites: None

This course covers the application of computerized cartography, to include the science and art of map design. Topics include the use of maps as an effective medium, efficient map layout and large-scale map production. Upon completion, students should be able to create a variety of map products for an audience or client.

**GIS 251 Computer Graphics Mapping**  
Class: 1  
Lab: 2  
WExp: 0  
Credit Hours: 2  
Prerequisites: None  
Corequisites: None

This course introduces the various methods and techniques of computer assisted and generated images. Emphasis is placed upon know of and use of draw and paint software, basic word processing, and map production. Upon completion, students should be able to produce and utilize computer generated images.

**GRA 255 Image Manipulation I**  
Prerequisites: GRA 151 or GRD 151  
Corequisites: None

This course covers applications associated with electronic image manipulation, including color correction, color separation, special effects, and image conversion. Topics include image-capturing hardware, image-processing software, and output options. Upon completion, students should be able to utilize hardware and software to acquire, manipulate, and output images to satisfy design and production.

</tbody>
</table>
### GRD 271 Multimedia Design I
- **Prerequisites:** GRD 151 or GRA 151
- **Corequisites:** None
This course introduces the fundamentals of multimedia design and production for computer-related presentations. Topics include interface design, typography, storyboarding, scripting, simple animation, graphics, digital audio/video, and copyright issues. Upon completion, students should be able to design and produce multimedia presentations.

### GRD 280 Portfolio Design
- **Prerequisites:** GRD 142 and GRD 152 or GRA 152, and WEB 140
- **Corequisites:** None
This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a résumé and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

### GRD 281 Design of Advertising
- **Prerequisites:** None
- **Corequisites:** None
This course explores the origins, roles, scope, forms, and development of advertising. Emphasis is placed on advertising development from idea through production and the interrelationship of marketing to types of advertising, media, and organizational structure. Upon completion, students should be able to demonstrate an understanding of the complexities and relationships involved in advertising design.

### GRD 282 Advertising Copywriting
- **Prerequisites:** ENG 111 or ENG 110; GRD 110 or GRD 151
- **Corequisites:** None
This course covers copywriting for print, electronic, and broadcast advertising and promotion. Topics include advertising strategies, proposals, headlines, slogans, and text copy for various types of advertising. Upon completion, students should be able to write and articulate advertising proposals and understand the ethical and regulatory environment for advertising.

### GRD 285 Client/Media Relations
- **Prerequisites:** GRD 142 and GRA 121 or GRA 152 or GRD 152 and ENG 111
- **Corequisites:** None
This course introduces media pricing, scheduling, and business ethics. Emphasis is placed on communication with clients and determination of clients’ advertising needs. Upon completion, students should be able to use professional communication skills to effectively orchestrate client/media relationships.

### GRD 292 Selected Topics in Advertising and Graphic Design
- **Prerequisites:** GRD-152
- **Corequisites:** None
This course provides an opportunity to explore areas of current interest in Advertising and Graphic Design. Emphasis is placed on subject matter appropriate to advertising and graphic designing. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

### GRD 293 Selected Topics in Advertising and Graphic Design
- **Prerequisites:** Varies, based on topics
- **Corequisites:** None
This course provides an opportunity to explore areas of current interest in Advertising and Graphic Design. Emphasis is placed on subject matter appropriate to advertising and graphic designing. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

### GRD 298 Selected Topics in Advertising and Graphic Design
- **Prerequisites:** Varies, based on topics
- **Corequisites:** None
This course provides an opportunity to explore areas of current interest in Advertising and Graphic Design. Emphasis is placed on subject matter appropriate to advertising and graphic designing. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

Last updated 6/7/12
GERONTOLOGY (GRO Prefix)

GRO 120 Gerontology
Prerequisites: ENG 090, RED 090
Corequisites: None
This course covers the psychological, social, and physical aspects of aging. Emphasis is placed on the factors that promote mental and physical well-being. Upon completion, students should be able to recognize the aging process and its psychological, social, and physical aspects.

HEALTHCARE BUSINESS INFORMATIC (HBI Prefix)

HBI 110 Issues and Trends in HBI
Prerequisites: None
Corequisites: None
This course is a survey of current and emerging technology applications and data standards in the healthcare industry. Topics include the history, implementation, use, management, and impact of information technology in healthcare settings. Upon completion, students should have an understanding of the current trends and issues in healthcare informatics.

HBI 113 Survey of Med Insurance
Prerequisites: HBI 110
Corequisites: None
This course is a survey of the healthcare insurance system. Emphasis is placed on the foundation necessary for understanding the healthcare delivery system, terminology and practices of healthcare insurance, and provider reimbursement. Upon completion, students should have an understanding of healthcare insurance and how outcomes are addressed through healthcare informatics.

HEALTH (HEA Prefix)

HEA 110 Personal Health/Wellness
Prerequisites: None
Corequisites: None
This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. This course will include practical, real-life applications to the material presented in the text that encourage students to apply the material to their own lives.

HEA 112 First Aid and CPR
Prerequisites: None
Corequisites: None
This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained.

HEAVY EQUIPMENT MAINTENANCE (HET Prefix)

HET 110 Diesel Engines
Prerequisites: None
Corequisites: None
This course introduces theory, design, terminology, and operating adjustments for diesel engines. Emphasis is placed on safety, theory of operation, inspection, measuring, and rebuilding diesel engines according to factory specifications. Upon completion, students should be able to measure, diagnose problems, and repair diesel engines.
COURSE DESCRIPTIONS

Prerequisites: None
Corequisites: None

This course introduces theory, design, terminology, and operating adjustments for diesel engines. Emphasis is placed on safety, theory of operation, inspection, measuring, and rebuilding diesel engines according to factory specifications. Upon completion, students should be able to measure, diagnose problems, and repair diesel engines. This is part one of a two-part course.

HET 110B Diesel Engines Part 2  1  3  0  2
Prerequisites: HET 110A
Corequisites: None

This course introduces theory, design, terminology, and operating adjustments for diesel engines. Emphasis is placed on safety, theory of operation, inspection, measuring, and rebuilding diesel engines according to factory specifications. Upon completion, students should be able to measure, diagnose problems, and repair diesel engines. This is part two of a two-part course.

HET 112 Diesel Electrical Systems  3  6  0  5
Prerequisites: None
Corequisites: None

This course introduces electrical theory and applications as they relate to diesel powered equipment. Topics include lighting, accessories, safety, starting, charging, instrumentation, and gauges. Upon completion, students should be able to follow schematics to identify, repair, and test electrical circuits and components.

HET 114 Power Trains  3  6  0  5
Prerequisites: None
Corequisites: None

This course introduces power transmission devices. Topics include function and operation of gears, chains, clutches, planetary gears, drive lines, differentials, and transmissions. Upon completion, students should be able to identify, research specifications, repair, and adjust power train components.

HET 115 Electronic Engines  2  3  0  3
Prerequisites: None
Corequisites: None

This course introduces the principles of electronically controlled diesel engines. Emphasis is placed on testing and adjusting diesel engines in accordance with manufacturers' specifications. Upon completion, students should be able to diagnose, test, and calibrate electronically controlled diesel engines.

HET 116 Air Conditioning/Diesel Equipment  1  2  0  2
Prerequisites: None
Corequisites: None

This course provides a study of the design, theory, and operation of heating and air conditioning systems in newer models of medium and heavy duty vehicles. Topics include component function, refrigerant recovery, and environmental regulations. Upon completion, students should be able to use proper techniques and equipment to diagnose and repair heating/air-conditioning systems according to industry standards.

HET 120 Intro to Mobile Equipment  1  2  0  2
Prerequisites: None
Corequisites: None

This course introduces the functions and systems of modern medium and heavy duty vehicles. Topics include use of technical manuals, tools and equipment, record keeping, material safety data sheets, and work habit safety. Upon completion, students should be able to use technical manuals, tools, equipment, and material safety data sheets.

HET 128 Med/Heavy Duty Tune-up  1  2  0  2
Prerequisites: None
Corequisites: None

This course introduces tune-up and troubleshooting according to manufacturers' specifications. Topics include troubleshooting engine systems, tune-up procedures, and use and care of special test tools and equipment. Upon completion, students should be able to troubleshoot, diagnose, and repair engines and components using appropriate diagnostic equipment.

HET 134 Mechanical Fuel Injection  2  2  0  3
Prerequisites: None
Corequisites: None

This course introduces the principles of mechanical fuel injection. Emphasis is placed on test equipment, component functions, and theory. Upon completion, students should be able to diagnose, service, and repair fuel systems and governors.
COURSE DESCRIPTIONS

HET 192 Selected Topics in Heavy Equipment and Transport Technology
- - - 2
Prerequisites: Varies, based on topic.
Corequisites: None
This course provides an opportunity to explore areas of current interest in heavy equipment and transport technology. Emphasis is placed on subject matter appropriate to heavy equipment. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

HET 211 Ag Harvesting Equipment 2 4 0 4
Prerequisites: None
Corequisites: None
This course covers the theory, design, principles of operation and adjustment, and troubleshooting and repair of harvesting equipment including combines and hay and forage equipment. Emphasis is placed on operating and troubleshooting harvest equipment hydraulics and monitoring equipment. Upon completion, students should be able to diagnose, adjust, or repair new or used harvesting equipment in accordance with manufacturers’ specifications. This course is a unique concentration requirement of the Agricultural Systems concentration in the Heavy Equipment and Transport Technology program.

HET 217 Tractor Performance 1 2 0 2
Prerequisites: None
Corequisites: None
This course covers procedures for attaining optimum performance of agricultural tractors. Emphasis is placed on problem solving using dynamometers, test procedures, and safety. Upon completion, students should be able to use test equipment to diagnose engines and drive components and adjust tractors to achieve optimum performance. This course is a unique concentration requirement of the Agricultural Systems concentration in the Heavy Equipment and Transport Technology program.

HET 231 Med/Heavy Duty Brake Sys 1 3 0 2
Prerequisites: None
Corequisites: None
This course covers the theory and repair of braking systems used in medium and heavy duty vehicles. Topics include air, hydraulic, and ABS system diagnosis and repair. Upon completion, students should be able to troubleshoot, adjust, and repair braking systems on medium and heavy duty vehicles.

HET 232 Med/Hvy Duty Brake Sys Lab 0 3 0 1
Prerequisites: None
Corequisites: HET 231
This course provides a laboratory setting to enhance the skills for troubleshooting, adjusting, and repairing brake systems on medium and heavy duty vehicles. Emphasis is placed on practical experiences that enhance the topics presented in HET 231. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in HET 231.

HET 233 Suspension and Steering 2 4 0 4
Prerequisites: None
Corequisites: None
This course introduces the theory and principles of medium and heavy duty steering and suspension systems. Topics include wheel and tire problems, frame members, fifth wheel, bearings, and coupling systems. Upon completion, students should be able to troubleshoot, adjust, and repair suspension and steering components on medium and heavy duty vehicles.

HISTORY (HIS Prefix)

HIS 111 World Civilizations I
- - 0 3
Prerequisites: ENG 090, and RED 090, or placement
Corequisites: None
This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 112 World Civilizations II
- - 0 3

Last updated 6/7/12
**COURSE DESCRIPTIONS**

Prerequisites: ENG 090, RED 090, or placement
Corequisites: None
This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

**HIS 121 Western Civilization I**
3 0 0 3
Prerequisites: ENG 090 and RED 090, or placement
Corequisites: None
This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.* This course is also available through the Virtual Learning Community (VLC).

**HIS 122 Western Civilization II**
3 0 0 3
Prerequisites: ENG 090 and RED 090, or placement
Corequisites: None
This course introduces western civilization from the early modern era to the present. Topics include the religious wars, the Industrial Revolution, World Wars I and II, and the Cold War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern western civilization. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.* This course is also available through the Virtual Learning Community (VLC).

**HIS 131 American History I**
3 0 0 3
Prerequisites: ENG 090, RED 090, or placement
Corequisites: None
This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history.

**HIS 132 American History II**
3 0 0 3
Prerequisites: ENG 090, RED 090, or placement
Corequisites: None
This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War.

**HIS 151 Hispanic Civilization**
3 0 0 3
Prerequisites: ENG 090 and RED 090 or ENG 111
Corequisites: None
This course surveys the cultural history of Spain and its impact on the New World. Topics include Spanish and Latin American culture, literature, religion, and the arts. Upon completion, students should be able to analyze the cultural history of Spain and Latin America. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

**HIS 162 Women and History**
3 0 0 3
Prerequisites: ENG 090 and RED 090, or placement
Corequisites: None
This course surveys the experience of women in historical perspective. Topics include the experiences and contributions of women in culture, politics, economics, science, and religion. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural contributions of women in history. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

**HIS 167 The Vietnam War**
3 0 0 3
Prerequisites: ENG 090 and RED 090, or placement
Corequisites: None
This course covers the American political and military involvement in Vietnam from 1944 to 1975. Topics include the French colonial policy, Vietnamese nationalism, the war with France, American involvement, and resolution of the conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural...
developments that influenced the Vietnam War. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America’s discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and Reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy.
Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**HIS 242** Russian History from 1917  
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
This course covers the development of Russia from 1917 to the present. Topics include the Russian Revolution, Stalinism, Marxist foreign policy, the world wars, the Cold War, and the present. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in Russia since 1917. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**HIS 251** English History I  
Prerequisites: ENG 090 and RED 090, or placement  
Corequisites: None  
This course traces the political, social, and economic development of England to the Elizabethan period. Topics include the early development of England, the Norman conquest, medieval society, and Elizabethan England. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early English history. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**HIS 252** English History II  
Prerequisites: ENG 090 and RED 090, or placement  
Corequisites: None  
This course traces the political, social, and economic development of England from the Elizabethan period to the present. Topics include imperialism, industrial development, civil wars, and world wars. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in English history from Elizabethan England to the present. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**HIS 271** The French Revolution Era  
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
This course traces the causes and effects of the French Revolution. Topics include the Enlightenment; Jacobins; Reign of Terror; Napoleon's republic, empire, and wars; and the French Revolution's impact upon world history. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments during the French revolutionary era. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**HORTICULTURE** (HOR Prefix)

**HOR 268** Advanced Propagation  
Prerequisites: None  
Corequisites: None  
This course covers applied production techniques for asexual and sexual plant propagation. Emphasis is placed on the major accepted methods of asexual propagation and sexual propagation of woody ornamental plants, with evaluation of all initiated propagation. Upon completion, students should be able to successfully propagate a variety of plant materials utilizing methods covered in the course.

**HIGH PERFORMANCE COMPUTING** (HPC Prefix)

**HPC 150** HPC Networking Technology  
Prerequisites: HPC 110 or NET 110  
Corequisites: None  
This course introduces students to the networking topologies in a HPC environment. Topics include multiprocessor networks, network interface, testing methods and prototype development for high-speed network technologies, interoperability among high-speed network products and virtual networks. Upon completion, students should be able to discuss network issues for a HPC environment.
This course introduces students to performance analysis tools to measure, predict, locate, and analyze bottleneck situations in parallel and cluster application. Topics include system software, parallel software life-cycle issues and a review of parallel developmental options in a HPC environment. Upon completion, students should be able discuss various HPC development tools and their appropriate usage in the HPC environment.

HPC 162 HPC Security  
Prerequisites: HPC 110  
Corequisites: None  
This course provides an overview of distributed computer security issues as related to HPC services. Topics include cryptographic technologies, protocols used to construct secure and private systems, internet service security mechanisms, firewalls, auditing, and related topics. Upon completion, students should be able to implement security procedures for a HPC system.

HPC 170 Introduction to HPC Data Mining  
Prerequisites: HPC 110  
Corequisites: None  
This course provides an introduction to data intensive computing on HPC machines. Topics include distributed mass storage, efficient retrieval techniques, data management tools, appropriate data structures and case studies. Upon completion, students should be able to define and discuss performance evaluation of a database in a HPC environment.

HPC 172 HPC Applications  
Prerequisites: HPC 110  
Corequisites: None  
This course introduces students to currently available HPC applications highlighting software approaches and hardware platforms. Topics include a review of successfully deployed HPC systems in industry and research environments and decision-making techniques when selecting HPC. Upon completion, students should be able to discuss, in oral as well as written form, current HPC applications highlighting strengths and weaknesses.

HPC 193 Selected Topics in HPC  
Prerequisites: None  
Corequisites: None  
This course provides an opportunity to explore areas of current interest in High Performance Computing. Emphasis is placed on the subject matter appropriate to High Performance Computing. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

HPC 198 Seminar in HPC  
Prerequisites: None  
Corequisites: None  
This course provides an opportunity to explore areas of current interest in High Performance Computing. Emphasis is placed on the development of critical listening skills and the presentation of seminar issues. Upon completion, students should be able to critically analyze issues and establish informed opinions.

HPC 230 Advanced HPC Communication  
Prerequisites: HPC 130  
Corequisites: None  
This course introduces students to advanced communication and networking topics in a HPC environment. Topics include switch queuing strategy, performance modeling, review of current high-speed communication networks and available tools and libraries for improving high-speed communications. Upon completion, students should be able to design and defend a reliable high-speed communication model for a HPC environment.

HPC 240 Advanced HPC Architecture  
Prerequisites: HPC 140  
Corequisites: None  
This course introduces students to advanced hardware architecture for a (HPC) system. Topics include topology of parallel computer architecture, arithmetic pipeline design, array machines, distributed architecture, multi-processor computers, SIMD, MIMD machines and current recent parallel machines. Upon completion, students should be able to design and discuss a user specified HPC architecture system.
HPC 245  Grid Technologies  
Prerequisites: HPC 110  
Corequisites: None  
This course introduces students to Grid technologies and distributed computing architecture. Topics include distributed security architecture, data formats, distributed file systems, access control of shared resources and multi-institutional collaborative environments. Upon completion, students should be able to discuss, in oral and written form, issues related to creating a scalable, distributed and secure HPC Grid environment.

HPC 262  Advanced HPC Security  
Prerequisites: HPC 162  
Corequisites: None  
This course introduces students to advanced security topics and various security applications. Topics include authentication for distributed systems, authorization models, developing secure distributed operating systems and databases, distributed intrusion detection, advanced cryptographic algorithms. Upon completion, students should be able to design a secure distributed system in a HPC environment.

HPC 264  HPC Security Management  
Prerequisites: HPC 162  
Corequisites: None  
This course is designed to provide students with a review of access and security management practices in a HPC environment. Topics include HPC disaster recovery, business continuity, redundancy and reliability policies, HPC hardware, software and network security models and physical security. Upon completion, students should be able to prepare a HPC disaster recovery continuity plan, and review security practices in every area of the HPC environment.

HPC 270  Advanced HPC Data Mining  
Prerequisites: HPC 170  
Corequisites: None  
This course introduces students to advance data mining and database design techniques in a HPC environment. Topics include data retrieval algorithms, text mining techniques, document clustering, query clusters, mathematical models, data fusion and software design for information retrieval. Upon completion, students should be able to design and implement a database using data mining techniques in a HPC environment.

HPC 272  Emerging HPC Technologies  
Prerequisites: HPC 110  
Corequisites: None  
This course introduces students to emerging technologies in the field of High Performance Computing (HPC). Emphasis is placed on the new technologies in the HPC field and a review of HPC and cluster systems already implemented. Upon completion, students should be able to discuss, in written and oral form emerging technologies in the HPC field.

HPC 280  Advanced Cluster Computing  
Prerequisites: HPC 180  
Corequisites: None  
This course introduces students to advanced design techniques and related issues in cluster computing. Topics include a review of successfully deployed cluster systems used in commerce, industry and research environments. Upon completion, students should be able to summarize findings and draw conclusions about current cluster technology, discuss emerging technology trends and clusters of the future.

HPC 285  Systems Analysis and Design  
Prerequisites: HPC 110  
Corequisites: None  
This course provides an opportunity for students to complete a significant HPC systems project with minimal instructor support. Emphasis is placed on project definition, documentation, testing, and presentation. Upon completion, students should be able to complete a HPC project.

HPC 298  Seminar in HPC  
Prerequisites: MAT 070, RED 090  
Corequisites: None  
This course provides an opportunity to explore areas of current interest in High Performance Computing. Emphasis is placed on the development of critical listening skills and the presentation of seminar issues. Upon completion, students should be able to critically analyze issues and establish informed opinions.
## COURSE DESCRIPTIONS

### HOSPITALITY MANAGEMENT (HRM Prefix)

</table>
COURSE DESCRIPTIONS

HSE 220  Case Management  2  2  0  3
Prerequisites:  HSE 110, ENG 090, RED 090
Corequisites:  None
This course covers the variety of tasks associated with professional case management. Topics include treatment planning, needs assessment, referral procedures, and follow-up and integration of services. Upon completion, students should be able to effectively manage the care of the whole person from initial contact through termination of services.

HSE 225  Crisis Intervention  3  0  0  3
Prerequisites:  None
Corequisites:  None
This course introduces the basic theories and principles of crisis intervention. Emphasis is placed on identifying and demonstrating appropriate and differential techniques for intervening in various crisis situations. Upon completion, students should be able to assess crisis situations and respond appropriately.

HSE 245  Stress Management  2  2  0  3
Prerequisites:  ENG 090, RED 090
Corequisites:  None
This course covers stressors and techniques for stress management. Topics include anger, assertiveness, breathing, change, coping skills, family, time management, meditation, guided imagery, and journaling. Upon completion, students should be able to identify areas of stress and the skills and management techniques for dealing with stressors.

HUMANITIES  (HUM Prefix)

HUM 110  Technology and Society  3  0  0  3
Prerequisites:  ENG 090 and RED 090, or placement
Corequisites:  None
This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology.  This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.  This course is also available through the Virtual Learning Community (VLC).

HUM 115  Critical Thinking  3  0  0  3
Prerequisites:  ENG 095 or RED 090 and ENG 090 or placement
Corequisites:  None
This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. Students will also explore the parameters of selected ethical issues.

HUM 121  The Nature of America  3  0  0  3
Prerequisites:  None
Corequisites:  None
This course provides an interdisciplinary survey of the American cultural, social, and political experience. Emphasis is placed on the multicultural character of American society, distinctive qualities of various regions, and the American political system. Upon completion, students should be able to analyze significant cultural, social, and political aspects of American life.  This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 122  Southern Culture  3  0  0  3
Prerequisites:  RED 090 and ENG 090
Corequisites:  None
This course explores the major qualities that make the South a distinct region. Topics include music, politics, literature, art, religion, race relations, and the role of social class in historical and contemporary contexts. Upon completion, students should be able to identify the characteristics that distinguish Southern culture.  This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.  This course is also available through the Virtual Learning Community (VLC).

HUM 130  Myth in Human Culture  3  0  0  3
Prerequisites:  ENG 090 and RED 090, or placement
Corequisites:  None
This course provides an in-depth study of myths and legends. Topics include the varied sources of myths and their
influence on the individual and society within diverse cultural contexts. Upon completion, students should be able to demonstrate a general familiarity with myths and a broad-based understanding of the influence of myths and legends on modern culture. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 160  Introduction to Film  2  2  0  3
Prerequisites:  ENG 111  
Corequisites:  None  
This course introduces the fundamental elements of film artistry and 7165 production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films.

HUM 161  Advanced Film Studies  2  2  0  3
Prerequisites:  HUM 160  
Corequisites:  None  
This course provides an advanced study of film art and production, building on skills learned in HUM 160. Topics include film production techniques, film genres, examination of master directors’ styles, and the relation of film to culture. Upon completion, students should be able to recognize and critically analyze advanced elements of film production.

HUM 170  The Holocaust  3  0  0  3
Prerequisites:  ENG 090, RED 090, or placement  
Corequisites:  None  
This course provides a survey of the destruction of European Jewry by the Nazis during World War II. Topics include the anti-Semitic ideology, bureaucratic structures, and varying conditions of European occupation and domination under the Third Reich. Upon completion, students should be able to demonstrate an understanding of the historical, social, religious, political, and economic factors which cumulatively resulted in the Holocaust. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

HUM 211  Humanities I  3  0  0  3
Prerequisites:  ENG 111  
Corequisites:  None  
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from ancient through early modern times. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 212  Humanities II  3  0  0  3
Prerequisites:  ENG 111  
Corequisites:  None  
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from early modern times to the present. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 220  Human Values and Meaning  3  0  0  3
Prerequisites:  ENG 111  
Corequisites:  None  
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 230  Leadership Development  3  0  0  3
Prerequisites:  ENG 111  
Corequisites:  None  
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.
**HYDRAULICS AND PNEUMATICS**  (HYD Prefix)

This course covers hydraulic components on mobile equipment including construction equipment, transportation, and farm equipment. Topics include servicing of pumps, testing and adjusting components, test points, and proper use and care of test equipment. Upon completion, students should be able to use proper test equipment to locate and repair problems on equipment.

| ISC 128     | Industrial Leadership                    | 2 0 0 2 |
| Prerequisites: | None                                    |         |
| Corequisites: | None                                    |         |
| This course introduces principles and techniques for managers in modern industry. Topics include leadership traits, management principles and processes, managing conflict, group dynamics, team building, counseling, motivation, and communication. Upon completion, students should be able to understand and apply leadership and management principles in work situations. |

| ISC 132     | Manufacturing Quality Control            | 2 3 0 3 |
| Prerequisites: | None                                    |         |
| Corequisites: | None                                    |         |
| This course introduces quality concepts and techniques used in industry. Topics include elementary statistics and probability, process control, process capability, and quality improvement tools. Upon completion, students should be able to demonstrate an understanding of the concepts and principles of quality and apply them to the work environment. Each student will be taught statistical analysis techniques, using computer software in a laboratory environment. |

| ISC 133     | Manufacturing Management Practices       | 2 0 2 2 |
| Prerequisites: | None                                    |         |
| Corequisites: | None                                    |         |
| This course covers successful industrial organizations and management practices for improving quality and productivity. Topics include self-managed work teams, problem-solving skills, and production management techniques. Upon completion, students should be able to demonstrate an understanding of day-to-day plant operations, team management processes, and the principles of group dynamics. |

| ISC 136     | Productivity Analysis I                  | 2 3 0 3 |
| Prerequisites: | None                                    |         |
| Corequisites: | None                                    |         |
| This course covers modern methods of improving productivity. Topics include methods analysis, standardized practices, process analysis, and human factors. Upon completion, students should be able to apply productivity improvement techniques. |

| ISC 175     | QA Fundamentals                           | 1 0 0 1 |
| Prerequisites: | None                                    |         |
| Corequisites: | None                                    |         |
| This course is designed to increase fundamental knowledge in the philosophies, principles, and practice of quality in the work environment. Topics include the history and basics of quality, philosophies of quality, daily application of principles, and roles of quality professionals with emphasis on cGMP environment. Upon completion, students should be able to discuss quality fundamentals, components of quality systems, and identify standards and programs of quality. |

| ISC 221     | Statistical Quality Control              | 3 0 0 3 |
| Prerequisites: | None                                    |         |
| Corequisites: | None                                    |         |
| This course covers the principles and techniques of statistical process control for the improvement of productivity. Emphasis is placed on basic statistics for quality control, organization and procedures for efficient quality control including inspections, process control, and tests of significance. Upon completion, students should be able to apply statistical principles and techniques to enhance production. |

| ISC 226     | Facilities Design                        | 3 2 0 4 |
| Prerequisites: | ISC 136 and ISC 243                     |         |
| Corequisites: | None                                    |         |
| This course introduces the methods and principles used to design efficient facilities. Emphasis is placed on efficient processes required to optimize facilities design. Upon completion, students should be able to design efficient facilities. |

| ISC 230     | Simulation Production Processes          | 1 3 0 2 |
| Prerequisites: | None                                    |         |
| Corequisites: | None                                    |         |
| This course covers the principles and techniques of statistical process control for the improvement of productivity. Emphasis is placed on basic statistics for quality control, organization and procedures for efficient quality control including inspections, process control, and tests of significance. Upon completion, students should be able to apply statistical principles and techniques to enhance production.
### COURSE DESCRIPTIONS

Prerequisites: None  
Corequisites: None  
This course introduces fundamental principles and procedures for simulation modeling of production processes. Emphasis is placed on problem-solving and engineering applications of simulation modeling for quality enhancement and productivity improvement. Upon completion, students should be able to analyze and model a production process to obtain optimum productive operations.

JOURNALISM (JOU Prefix)

JOU 110 Introduction to Journalism
Prerequisites: ENG 090 and RED 090, or ENG 111
Corequisites: None
This course presents a study of journalistic news, feature, and sports writing. Emphasis is placed on basic news writing techniques and on related legal and ethical issues. Upon completion, students should be able to gather, write, and edit news, feature, and sports articles.

JOU 111 Publication Workshop I
Prerequisites: JOU 110
Corequisites: None
This course introduces the basic techniques of producing a publication. Emphasis is placed on writing, editing, layout, design, and printing. Upon completion, students should be able to demonstrate competence in the various phases of publication production.

JOU 242 Introduction to Multimedia
Prerequisites: CIS 110, ENG 090, and RED 090
Corequisites: None
This course is an introduction to the basic formatting skills necessary to create messages for the multimedia environment such as web-based and other digital formats. Emphasis is on the use of computers to present and combine text, graphics, audio, and video. Upon completion, students should be able to create state-of-the-art multimedia presentations. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

LANDSCAPE ARCHITECTURE (LAR Prefix)

LAR 111 Introduction to Landscape Architectural Technology
Prerequisites: None
Corequisites: None
This course introduces basic architectural drafting techniques, lettering, and use of architectural and engineering scales. Topics include creating landscape architectural plans, sections, and details; reprographic techniques; and other related topics. Upon completion, students should be able to prepare and print scaled drawings within minimum landscape architectural standards.

LAR 112 Landscape Materials and Methods
Prerequisites: None
Corequisites: None
This course introduces landscape architecture construction materials and their methodologies. Topics include landscape construction terminology, materials and their properties, manufacturing processes, landscape construction techniques, and other related topics. Upon completion, students should be able to detail landscape construction materials and properties.

LAR 113 Residential Landscape Design
Prerequisites: LAR 111
Corequisites: None
The course covers the creation of residential landscape design working drawings. Topics include residential plans, elevation, sections, plant selection/lists, and other related topics. Upon completion, students should be able to prepare a set of residential landscape working drawings which are within accepted architectural standards.

This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry. *This course is also available through the Virtual Learning Community (VLC).*

This course covers the role and importance of the transportation industry. This is an overview of transportation emphasizing its environmental and sociological aspects, economic impact, services, regulatory guidelines, policies, and its future. Upon completion, students should be able to identify modes of transportation, interpret governing regulations, and describe the principles and terminology used in the transportation industry.

This course covers the functions, techniques, and tools utilized in warehousing and distribution centers and their role in business and logistics. Emphasis is placed on warehouse and distribution center management, operations, productivity, software systems, picking, automation, cross docking, safety, security, material handling, benchmarking, and cost. Upon completion, students should be able to describe the role of warehouses and distribution centers, apply industry principles and terminology, and understand distribution productivity measures.

This course covers all activities involved in the flow of products and information between the suppliers, customers, producers, and service providers. Topics include acquiring, purchasing, manufacturing, assembling, and distributing goods and services throughout the supply chain organizations. Upon completion, students should be able to identify the supply chain units, describe the materials management processes, and prepare for the APICS CPIM examination.

This course covers the design, implementation, and application of logistics software systems utilized by businesses to improve accountability, and capabilities of their logistics processes. Emphasis is placed on an in-depth understanding of logistical software applications, optimization models, automated data collection, electronic data interchange, and other logistics software tools. Upon completion, students should be able to identify the various logistics software applications and explain how they are utilized to improve business and logistics processes.

This course introduces the elements of import and export operations, from transportation to documentation, finance, and security and the effects on the global supply chain. Emphasis is placed on existing import/export regulations, customs documentation, intermodal transportation, foreign freight forwarders, global technology, and homeland security initiatives. Upon completion, students should be able to perform import/export operations, channels of distribution, implemented technologies, and associate with operating a secure supply chain.

This course introduces the various aspects of purchasing, and their impact on materials management, supply chain, transportation, and global logistics processes. Emphasis is placed on the different methods of electronic sourcing, negotiating and pricing principles, and on the internal and external considerations associated with international logistics. Upon completion, students should be able to describe and apply the principles and terminology used in procurement including electronic data interchange services, purchasing and logistics systems.
LOG 245 Logistics Security 3 0 0 3
Prerequisites: LOG 110
Corequisites: None
This course covers the role and importance of securing the domestic and global transportation and supply chain networks. Emphasis is placed on Customs and Border Protection, Department of Homeland Security, the Transportation Security Agency and how they affect businesses, logistics and transportation processes. Upon completion, students should be able to apply the principles and terminologies used in securing the logistics and transportation networks and identify potential threats.

LOG 250 Advanced Global Logistics 3 2 0 4
Prerequisites: LOG 125
Corequisites: None
This course covers the advanced application of global operations and logistics strategies, planning, technology, risk, and management necessary to cope with the global business environment. Emphasis is placed on an in-depth understanding of global sourcing, shipping, tracking, and e-logistics systems necessary to operate inbound/outbound logistics in a global market. Upon completion, students should be able to identify the different global markets and logistics technology available to process international inbound/outbound logistics transactions.

MAC 111 Machining Technology I 2 12 0 6
Prerequisites: None
Corequisites: None
This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 111A Machining Technology I, Part 1 1 6 0 3
Prerequisites: None
Corequisites: None
This course is the first half of MAC 111 (see the description for MAC 111 above).

MAC 111B Machining Technology I, Part 2 1 6 0 3
Prerequisites: MAC 111A
Corequisites: None
This course is the second half of MAC 111 (see the description for MAC 111 above).

MAC 121 Introduction to CNC 2 0 0 2
Prerequisites: None
Corequisites: None
This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.

MAC 151 Machining Calculations 1 2 0 2
Prerequisites: None
Corequisites: None
This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

MAC 229 CNC Programming 2 0 0 2
Prerequisites: MAC 121, MAC 122, MAC 124, or MAC 226
Corequisites: None
This course provides concentrated study in advanced programming techniques for working with modern CNC machine tools. Topics include custom macros and subroutines, canned cycles, and automatic machining cycles currently employed by the machine tool industry. Upon completion, students should be able to program advanced CNC functions while conserving machine memory.

### MAT 001 Mathematics Skills Lab
- Prerequisites: None
- Corequisites: None

Designed to support all curriculum mathematics courses and other curriculum courses requiring the use of mathematics skills.

### MAT 050 Basic Math Skills
- Prerequisites: None
- Corequisites: None

This course is designed to strengthen basic math skills. Topics include properties, rounding, estimating, comparing, converting, and computing whole numbers, fractions, and decimals. Upon completion, students should be able to perform basic computations and solve relevant mathematical problems.

### MAT 051 Fast Track Basic Math
- Prerequisites: None
- Corequisites: None

This course is designed to offer a fast-paced review of basic arithmetic skills for students who have previously mastered these skills. Topics include all arithmetic operations on whole numbers, fractions, decimals and percents. Upon completion, students should be able to demonstrate mastery of basic computational skills, as well as their application to relevant mathematical problems. Students will be required to register for a companion MAT 060 course in the same semester.

### MAT 060 Essential Mathematics
- Prerequisites: MAT 050 or placement
- Corequisites: None

This course is a comprehensive study of mathematical skills which should provide a strong mathematical foundation to pursue further study. Topics include principles and applications of decimals, fractions, percents, ratio and proportion, order of operations, geometry, measurement, and elements of algebra and statistics. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate.

### MAT 061 Fast Track Essential Math
- Prerequisites: MAT 050
- Corequisites: None

This course is designed to offer a fast-paced, intensive review of skills taught in MAT 060. Emphasis is placed on working with signed numbers, problems involving proportions and per cents, as well as simplifying expressions and solving equations in algebra. Upon completion, students should be able to demonstrate mastery of pre-algebra computations and to solve relevant, multi-step problems. Students will be required to register for a companion MAT 070 course in the same semester.

### MAT 070 Introductory Algebra
- Prerequisites: MAT 060 or placement
- Corequisites: RED 080 or ENG 085

This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

### MAT 071 Fast Track Introductory Algebra
- Prerequisites: MAT 060
- Corequisites: RED 080 or ENG 085

This course is designed to offer a fast-paced, intensive review of skills taught in MAT 070. Emphasis is placed on working with exponents, order of operations, simplifying algebraic expressions, solving linear equations and inequalities, graphing, formulas, polynomials, and factoring. Upon completion, students should be able to demonstrate mastery of introductory algebra concepts and apply these principles in solving problems. Students will be required to register for a companion MAT 080 course in the same semester.

### MAT 080 Intermediate Algebra
- Prerequisites: MAT 070 or placement
- Corequisites: RED 080 or ENG 085

This course continues the study of algebraic concepts with emphasis on applications. Topics include factoring;
rational expressions; rational exponents; rational, radical, and quadratic equations; systems of equations; inequalities; graphing; functions; variations; complex numbers; and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

MAT 090  Accelerated Algebra
Prerequisites: MAT 060 or MAT 080 or placement
Corequisites: RED 080 or ENG 085
This course covers algebraic concepts with emphasis on applications. Topics include those covered in MAT 070 and MAT 080. Upon completion, students should be able to apply algebraic concepts in problem solving using appropriate technology.

MAT 095  Algebraic Concepts
Prerequisites: MAT 080
Corequisites: None
This course covers algebraic concepts with an emphasis on applications. Topics include linear, quadratic, absolute value, rational and radical equations, sets, real and complex numbers, exponents, graphing, formulas, polynomials, systems of equations, inequalities, and functions. Upon completion, students should be able to apply the above topics in problem solving using appropriate technology.

MAT 099  Using Technology in Math
Prerequisites: None
Corequisites: None
This course provides an introduction to the technology used in the study of mathematics. Topics include the use of technology to perform calculations, graph and analyze functions, create algebraic models, perform statistical analysis, and make tables of values. Upon completion, students should be able to effectively use graphing calculators and spreadsheets as mathematical tools to explore functions, analyze data, and solve problems.

MAT 101  Applied Mathematics I
Prerequisites: MAT 060
Corequisites: None
This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study.

MAT 110  Mathematical Measurement
Prerequisites: MAT 070
Corequisites: None
This course provides an activity-based approach to utilizing, interpreting, and communicating data in a variety of measurement systems. Topics include accuracy, precision, conversion, and estimation within metric, apothecary, and avoirdupois systems; ratio and proportion; measures of central tendency and dispersion; and charting of data. Upon completion, students should be able to apply proper techniques to gathering, recording, manipulating, analyzing, and communicating data.

MAT 115  Mathematical Models
Prerequisites: MAT 070
Corequisites: None
This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include applications to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their groups, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathematics, and work confidently, collaboratively, and independently.

MAT 121  Algebra and Trigonometry I
Prerequisites: MAT 070
Corequisites: None
This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include simplification, evaluation, and solving of algebraic and radical functions; complex numbers; right triangle trigonometry; systems of equations; and the use of technology. Upon completion, students should be able to demonstrate an understanding of the use of mathematics and technology to solve problems and analyze and communicate results.
COURSE DESCRIPTIONS

MAT 122 Algebra/Trigonometry II
Prerequisites: MAT 121
Corequisites: None
This course extends the concepts covered in MAT 121 to include additional topics in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, translation and scaling of functions, Sine Law, Cosine Law, vectors, and statistics. Upon completion, students should be able to demonstrate an understanding of the use of technology to solve problems and to analyze and communicate results.

MAT 140 Survey of Mathematics
Prerequisites: MAT 070
Corequisites: MAT 140A
This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics may include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently.

MAT 140A Survey of Mathematics Lab
Prerequisites: MAT 070
Corequisites: MAT 140
This course is a laboratory for MAT 140. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively.

MAT 141 Mathematical Concepts I
Prerequisites: Take One Set: Set 1: DMA 010, DMA 020, DMA 030, and DMA 040, Set 2: MAT 060 and MAT 080, Set 3: MAT 060 and MAT 090 Set 4: MAT 095 Set 5: MAT 120 Set 6: MAT 121 Set 7: MAT 161 Set 8: MAT 171 Set 9: MAT 175
Corequisites: None
This course is the first of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on sets, logic, number bases, elementary number theory, introductory algebra, measurement including metrics, and problem solving. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts. Under the CAA, this course satisfies the general education Mathematics requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS degree. Under the ICAA, this course satisfies the general education Mathematics requirement for the AA and AFA degrees. It does not satisfy the general education Mathematics requirement for the AS degree.

MAT 141A Mathematical Concepts I Lab
Prerequisites: MAT 141
Corequisites: MAT 141
This course is a laboratory for MAT 141. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 142 Mathematical Concepts II
Prerequisites: MAT 141
Corequisites: None
This course is the second of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on probability, statistics, functions, introductory geometry, and mathematics of finance. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts and utilize technology as a mathematical tool. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirements in natural sciences/mathematics.

MAT 142A Mathematical Concepts II Lab
Prerequisites: MAT 141
Corequisites: MAT 142
This course is a laboratory for MAT 142. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirements in natural sciences/mathematics.

</table>
### MAT 175 Precalculus  
**Courses and Credits:** 4 0 0 4  
**Prerequisites:** None  
**Corequisites:** None  
This course provides an intense study of the topics which are fundamental to the study of calculus. Emphasis is placed on functions and their graphs with special attention to polynomial, rational, exponential, logarithmic and trigonometric functions, and analytic trigonometry. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction.

### MAT 175A Precalculus Lab  
**Courses and Credits:** 0 2 0 1  
**Prerequisites:** None  
**Corequisites:** MAT 175  
This course is a laboratory for MAT 175. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively.

### MAT 223 Applied Calculus  
**Courses and Credits:** 2 2 0 3  
**Prerequisites:** MAT 122  
**Corequisites:** None  
This course provides an introduction to the calculus concepts of differentiation and integration by way of application and is designed for engineering technology students. Topics include limits, slope, derivatives, related rates, areas, integrals, and applications. Upon completion, students should be able to demonstrate an understanding of the use of calculus and technology to solve problems and to analyze and communicate results.

### MAT 263 Brief Calculus  
**Courses and Credits:** 3 0 0 3  
**Prerequisites:** A grade of “C” or better in MAT 161, MAT 171, or MAT 175  
**Corequisites:** MAT 263A  
This course is designed for students needing only one semester of calculus. Topics include functions, graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

### MAT 263A Brief Calculus Lab  
**Courses and Credits:** 0 2 0 1  
**Prerequisites:** A grade of “C” or better in MAT 161, MAT 171, or MAT 175  
**Corequisites:** MAT 263  
This course is a laboratory for MAT 263. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively.

### MAT 271 Calculus I  
**Courses and Credits:** 3 2 0 4  
**Prerequisites:** A grade of “C” or better in MAT 172 or MAT 175  
**Corequisites:** None  
This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. *This course has been approved for transfer under the CAA as a general education course in Mathematics.*

### MAT 272 Calculus II  
**Courses and Credits:** 3 2 0 4  
**Prerequisites:** A grade of “C” or better in MAT 271  
**Corequisites:** None  
This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. *This course has been approved for transfer under the CAA as a general education course in Mathematics.*

### MAT 273 Calculus III  
**Courses and Credits:** 3 2 0 4  
**Prerequisites:** A grade of “C” or better in MAT 272  
**Corequisites:** None  
This course covers the calculus of several variables and is third calculus course in a three-course sequence. Topics include functions of several variables, partial derivatives, multiple integrals, solid analytical geometry, vector-valued functions, and line and surface integrals. Upon completion, students should be able to solve problems involving vectors and functions of several variables. *This course has been approved for transfer under the CAA as a general education course in Mathematics.*
education course in Mathematics.

**MAT 280 Linear Algebra**

Prerequisites: A grade of "C" or better in MAT 271
Corequisites: None

This course provides a study of linear algebra topics with emphasis on the development of both abstract concepts and applications. Topics include vectors, systems of equations, matrices, determinants, vector spaces, linear transformations in two or three dimensions, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts and appropriate use of linear algebra models to solve application problems. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

**MAT 285 Differential Equations**

Prerequisites: A grade of "C" or better in MAT 272
Corequisites: None

This course provides an introduction to ordinary differential equations with an emphasis on applications. Topics include first-order, linear higher-order, and systems of differential equations; numerical methods; series solutions; eigenvalues and eigenvectors; Laplace transforms; and Fourier series. Upon completion, students should be able to use differential equations to model physical phenomena, solve the equations, and use the solutions to analyze the phenomena. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

**MECHANICAL (MEC Prefix)**

**MEC 111 Machine Processes I**

Prerequisites: None
Corequisites: None

This course introduces shop safety, hand tools, machine processes, measuring instruments, and the operation of machine shop equipment. Topics include use and care of tools, safety, measuring tools, and the basic setup and operation of common machine tools. Upon completion, students should be able to safely machine simple parts to specified tolerances.

**MEC 130 Mechanisms**

Prerequisites: MAT 121 or MAT 161 or MAT 171
Corequisites: None

This course introduces the purpose and action of various mechanical devices. Topics include cams, cables, gear trains, differentials, screws, belts, pulleys, shafts, levers, lubricants, and other devices. Upon completion, students should be able to analyze, maintain, and troubleshoot the components of mechanical systems.

**MEC 131 Metalworking Processes**

Prerequisites: None
Corequisites: None

This course introduces the standard practices that are found in a metal workshop. Topics include the proper care/use of basic hand tools and precision measuring instruments and layout procedures/operation of lathes, drill presses, grinders, milling machines, and power saws. Upon completion, students should be able to work safely in the metal workshop and use basic metalworking equipment.

**MEC 141 Introduction to Manufacturing Processes**

Prerequisites: None
Corequisites: None

This course covers the properties and characteristics of manufacturing materials and the processes used to form them. Emphasis is placed on manufacturing materials, heat-treating processes, and manufacturing processes. Upon completion, students should be able to identify physical characteristics of materials and describe processes used to manufacture a part.

**MEC 145 Manufacturing Materials I**

Prerequisites: None

This course introduces a variety of manufacturing materials and common processing techniques. Emphasis is placed on the processing, testing, and application of materials such as wood, metals, plastics, ceramics, and composites. Upon completion, students should be able to demonstrate an understanding of fundamental engineering applications for a variety of materials, including their process capabilities and limitations.

MED 140  Exam Room Procedures I  3  4  0  5  
Prerequisites:  BIO 161, ENG 111, MAT 110, MED 110, MED 121, MED 130, MED 138  
Corequisites:  MED 150  
This course provides instruction in clinical examining room procedures. Topics include asepsis, infection control, assisting with exams and treatment, patient education, preparation and administration of medications, EKG, vital signs, and medical emergencies. Upon completion, students should be able to demonstrate competence in exam room procedures.

MED 150  Laboratory Procedures I  3  4  0  5  
Prerequisites:  BIO 161, ENG 111, MAT 110, MED 110, MED 121, MED 130, MED 138  
Corequisites:  MED 140  
This course provides instruction in basic lab techniques used by the medical assistant. Topics include lab safety, quality control, collecting and processing specimens, performing selective tests, phlebotomy, screening and follow-up of test results, and OSHA/CLIA regulations. Upon completion, students should be able to perform basic lab tests/skills based on course topics.

MED 232  Medical Insurance Coding  1  3  0  2  
Prerequisites:  MED 130, MED 131, MED 140 and MED 150  
Corequisites:  None  
This course is designed to develop coding skills. Emphasis is placed on advanced diagnostic and procedural coding in the outpatient facility. Upon completion, students should be able to demonstrate proficiency in coding for reimbursement.

MED 260  MED Clinical Practicum  0  0  15  5  
Prerequisites:  MED 140, MED 150  
Corequisites:  None  
This course provides the opportunity to apply clinical, laboratory, and administrative skills in a medical facility. Emphasis is placed on enhancing competence in clinical and administrative skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional.

MED 264  Med Assisting Overview  2  0  0  2  
Prerequisites:  MED140 and MED 150  
Corequisites:  MED 262  
This course provides an overview of the complete medical assisting curriculum. Emphasis is placed on all facets of medical assisting pertinent to administrative, laboratory, and clinical procedures performed in the medical environment. Upon completion, students should be able to demonstrate competence in the areas covered on the national certification examination for medical assistants.

MED 270  Symptomatology  2  2  0  3  
Prerequisites:  MED 122 and BIO 161 or BIO 163  
Corequisites:  None  
This course covers the study of disease symptoms and the appropriate actions taken by medical assistants in a medical facility in relation to these symptoms. Emphasis is placed on interviewing skills and appropriate triage, preparing patients for procedures, and screening test results. Upon completion, students should be able to recognize how certain symptoms relate to specific diseases, recognize emergency situations, and take appropriate actions.

MED 272  Drug Therapy  3  0  0  3  
Prerequisites:  MED 140 and MED 150  
Corequisites:  None  
This course focuses on major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician’s office.

MED 276  Patient Education  1  2  0  2  
Prerequisites:  MED 140, MED 150  
Corequisites:  None  
This course is designed to provide communication skills, basic education principles, and knowledge of available community resources and to apply this knowledge to the clinical setting. Emphasis is placed on identifying appropriate community resources, developing patient education materials, and perfecting written and oral communication skills. Upon completion, students should be able to instruct, communicate effectively, and act as a liaison between the patient and community agencies.
## MARKETING AND RETAILING (MKT Prefix)

</table>
students should be able to solve practical problems in the context of the medical laboratory.

**MLT 118 Medical Lab Chemistry**

Prerequisites: None  
Corequisites: None  
This course introduces the basic medical laboratory chemical principles. Emphasis is placed on selected topics from inorganic, organic, and biological chemistry. Upon completion, students should be able to demonstrate an understanding of the relationship between basic chemical principles and the medical laboratory function.

**MLT 120 Hematology/Hemostasis I**

Prerequisites: BIO 163, MLT 110, MLT 111, MLT 115, MLT 118, MLT 140  
Corequisites: None  
This course introduces the theory and technology used in analyzing blood cells and the study of hemostasis. Topics include hematology, hemostasis, and related laboratory testing. Upon completion, students should be able to demonstrate theoretical comprehension of hematology/hemostasis, perform diagnostic techniques, and correlate laboratory findings with disorders.

**MLT 125 Immunohematology I**

Prerequisites: BIO 163, MLT 110, MLT 111, MLT 115, MLT 118, MLT 140  
Corequisites: None  
This course introduces the immune system and response; basic concepts of antigens, antibodies, and their reactions; and applications in transfusion medicine and serodiagnostic testing. Emphasis is placed on immunological and blood banking techniques including concepts of cellular and humoral immunity and pretransfusion testing. Upon completion, students should be able to demonstrate theoretical comprehension of clinical chemistry, perform diagnostic techniques, and correlate laboratory findings with disorders.

**MLT 130 Clinical Chemistry I**

Prerequisites: BIO 163, MLT 110, MLT 111, MLT 115, MLT 118, MLT 140  
Corequisites: None  
This course introduces the quantitative analysis of blood and body fluids and their variations in health and disease. Topics include clinical biochemistry, methodologies, instrumentation, and quality control. Upon completion, students should be able to demonstrate theoretical comprehension of clinical chemistry, perform diagnostic techniques, and correlate laboratory findings with disorders.

**MLT 140 Intro to Microbiology**

Prerequisites: None  
Corequisites: None  
This course introduces basic techniques and safety procedures in clinical microbiology. Emphasis is placed on the morphology and identification of common pathogenic organisms, aseptic technique, staining techniques, and usage of common media. Upon completion, students should be able to demonstrate theoretical comprehension in performing and interpreting basic clinical microbiology procedures.

**MLT 217 Professional Issues**

Prerequisites: MLT 230, MLT 266, MLT 280  
Corequisites: None  
This course surveys professional issues in preparation for career entry. Emphasis is placed on work readiness and theoretical concepts in microbiology, immunohematology, hematology, and clinical chemistry. Upon completion, students should be able to demonstrate competence in career entry-level areas and be prepared for the national certification examination.

**MLT 220 Hematology/Hemostasis II**

Prerequisites: MLT 120, MLT 125, MLT 130, MLT 240  
Corequisites: None  
This course covers the theories and techniques used in the advanced analysis of human blood cells and hemostasis. Emphasis is placed on the study of hematologic disorders, abnormal cell development and morphology, and related testing. Upon completion, students should be able to demonstrate a theoretical comprehension and application of abnormal hematology and normal and abnormal hemostasis.

**MLT 230 Clinical Chemistry II**

Prerequisites: MLT 130, MLT 220, MLT 254  
Corequisites: None  
This course is designed to supplement the biochemical and physiologic theory presented in MLT 130. Emphasis is placed on special chemistry techniques and methodologies. Upon completion, students should be able to recognize and differentiate technical and physiological causes of unexpected test results.
COURSE DESCRIPTIONS

MLT 240 Special Clin Microbiology 2 3 0 3
Prerequisites: BIO 163, MLT 110, MLT 111, MLT 115, MLT 118, MLT 140
Corequisites: None
This course is designed to introduce special techniques in clinical microbiology. Emphasis is placed on advanced areas in microbiology. Upon completion, students should be able to demonstrate theoretical comprehension in performing and interpreting specialized clinical microbiology procedures.

MLT 254 MLT Practicum I 0 0 12 4
Prerequisites: MLT 120, MLT 125, MLT 130, MLT 240
Corequisites: None
This course provides entry-level clinical laboratory experience. Emphasis is placed on technique, accuracy, and precision. Upon completion, students should be able to demonstrate entry-level competence on final clinical evaluations.

MLT 266 MLT Practicum II 0 0 18 6
Prerequisites: MLT 220, MLT 254
Corequisites: None
This course provides entry-level clinical laboratory experience. Emphasis is placed on technique, accuracy, and precision. Upon completion, students should be able to demonstrate entry-level competence on final clinical evaluations.

MLT 276 MLT Practicum III 0 0 18 6
Prerequisites: MLT 230, MLT 266, MLT 280
Corequisites: None
This course provides entry-level clinical laboratory experience. Emphasis is placed on technique, accuracy, and precision. Upon completion, students should be able to demonstrate entry-level competence on final clinical evaluations.

MLT 280 Special Practice Lab 0 3 0 1
Prerequisites: MLT 220, MLT 254
Corequisites: None
This course provides additional medical laboratory experience. Emphasis is placed on laboratory skills and techniques. Upon completion, students should be able to demonstrate proficiency in laboratory skills and techniques.

MAGNETIC RESONANCE IMAGING (MRI Prefix)

MRI 213 MR Patient Care & Safety 2 0 0 2
Prerequisites: None
Corequisites: MRI 216, MRI 250
This course covers magnetic field safety issues concerning patients and other healthcare personnel. Emphasis is placed on screening skills, biological magnetic field effects, and the management of an MR facility. Upon completion, the student should be able to demonstrate a safe MR environment for patients and all personnel.

MRI 214 MRI Procedures I 2 0 0 2
Prerequisites: None
Corequisites: MRI 217, MRI 241, MRI 260
This course introduces scan procedures for the central nervous and musculoskeletal systems with MRI imaging. Emphasis is placed on patient set-up, scan parameters, methods of data acquisition, and contrast administration with each of these types of procedures. Upon completion, students should be able to demonstrate all aspects of MR imaging to successfully scan the central nervous and musculoskeletal systems.

MRI 215 MRI Procedures II 2 0 0 2
Prerequisites: MRI 214
Corequisites: MRI 218, MRI 242, MRI 270
This course provides advanced scan procedures for the neck, chest, abdomen, and pelvic systems with MR imaging. Emphasis is placed on patient set-up, scan parameters, methods of data acquisition, and contrast administration with each of these types of procedures. Upon completion, students should be able to demonstrate all aspects of MR imaging to successfully scan the chest, abdomen, and pelvic systems.

MRI 216 MRI Instrumentation 2 0 0 2
Prerequisites: None
Corequisites: MRI 213, MRI 250
This course covers instrumentation utilized to produce the magnetic fields allowing MRI imaging to take place.
Emphasis will be placed on equipment operations and use, inclusive of the static field, gradient fields, and the radiofrequency fields. Upon completion, the student should be able to demonstrate an understanding of the utilization of all MRI equipment in an MRI facility.

MTH 121  Clinical Supplement I  0  0  3  1  
Prerequisites: None  
Corequisites: MTH 110, MTH 120, MTH 125, MTH 210, or MTH 220  
This course is designed to introduce the student to a variety of clinical experiences. Emphasis is placed on applying the therapeutic massage process across the lifespan. Upon completion, students should be able to demonstrate delivery of massage techniques in a clinical setting.  

MTH 125  Ethics of Massage  2  0  0  2  
Prerequisites: MTH 120  
Corequisites: None  
This course is designed to explore issues related to the practice of massage therapy. Emphasis is placed on ethical, legal, professional, and political issues. Upon completion, students should be able to discuss issues relating to the practice of massage therapy, client/therapist relationships as well as ethical issues.  

MUSIC  
(MUS Prefix)  

MUS 110  Music Appreciation  
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).  

MUS 111  Fundamentals of Music  3  0  0  3  
Prerequisites: None  
Corequisites: None  
This course is an introductory course for students with little or no music background. Emphasis is placed on music notation, rhythmic patterns, scales, key signatures, intervals, and chords. Upon completion, students should be able to demonstrate an understanding of the rudiments of music.  

MUS 112  Introduction to Jazz  3  0  0  3  
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.  

MUS 113  American Music  3  0  0  3  
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
This course introduces various musical styles, influences, and composers of the United States from pre-Colonial times to the present. Emphasis is placed on the broad variety of music particular to American culture. Upon completion, students should be able to demonstrate skills in basic listening and understanding of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.  

MUS 114  Non-Western Music  3  0  0  3  
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
This course provides a basic survey of the music of the non-Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.  

MUS 121  Music Theory I  3  2  0  4  
Prerequisites: MUS 111 or instructor permission  
Corequisites: None  
This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental
melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**MUS 122 Music Theory II**

Prerequisites: MUS 121 or instructor permission  
Corequisites: None  
This course is a continuation of studies begun in MUS 121. Emphasis is placed on advanced melodic, rhythmic, and harmonic analysis and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**MUS 131 Chorus I**

Prerequisites: None  
Corequisites: None  
This course provides an opportunity to gain experience singing in a chorus. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance.

**MUS 132 Chorus II**

Prerequisites: MUS 131  
Corequisites: None  
This course provides a continuation of studies begun in MUS 131. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance.

**MUS 135 Jazz Ensemble I**

Prerequisite: RED 090 and ENG 090  
Corequisites: None  
This course provides an opportunity for those who play an appropriate instrument to gain experience playing in a jazz ensemble. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 136 Jazz Ensemble II**

Prerequisites: MUS 135  
Corequisites: None  
This course is a continuation of MUS 135. Emphasis is placed on jazz ensemble techniques and the study and performance of a variety of styles and periods of jazz literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 141 Ensemble I**

Prerequisites: Audition  
Corequisites: None  
This course provides an opportunity to perform in any combination of instrumental, vocal, or keyboard groups of two or more. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 142 Ensemble II**

Prerequisites: MUS 141  
Corequisites: None  
This course is a continuation of MUS 141. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance.

This course provides group instruction in skills and techniques of the particular instrument or voice for those with little or no previous experience. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. Colleges may use a letter suffix to designate a specific instrument or voice, for example MUS 151P for piano. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### MUS 210 History of Rock Music

<table>
<thead>
<tr>
<th>Credits</th>
<th>Prerequisites</th>
<th>Corequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 0 0 3</td>
<td>ENG 090 and RED 090</td>
<td>None</td>
</tr>
</tbody>
</table>

This course is a survey of Rock music from the early 1950’s to the present. Emphasis is placed on musical groups,
soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras.

MUS 212 American Musical Theatre
Prerequisites: ENG 090 and RED 090
Corequisites: None
This course covers the origins and development of the musical from *Show Boat* to the present. Emphasis is placed on the investigation of the structure of the musical and its components through listening and analysis. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. 
*This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/ fine arts.*

MUS 213 Opera and Musical Theatre
Prerequisites: ENG 090 and RED 090
Corequisites: None
This course covers the origins and development of opera and musical theatre from the works of Claudio Monteverdi to the present. Emphasis is placed on how the structure and components of opera and musicals effect dramaturgy through listening examples and analysis. Upon completion, students should be able to demonstrate analytical and listening skills in understanding both opera and the musical. 
*This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/ fine arts.*

MUS 214 Electronic Music I
Prerequisites: MUS 111
Corequisites: None
This course provides an opportunity to study and explore various electronic instruments and devices. Emphasis is placed on fundamental MIDI applications and implementation, features and application of sequences, sound modules, and digital keyboards. Upon completion, students should be able to demonstrate proficiency by creation of appropriate musical projects using the equipment and techniques covered. 
*This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

MUS 231 Chorus III
Prerequisites: MUS 132
Corequisites: None
This course is a continuation of MUS 132. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance.

MUS 232 Chorus IV
Prerequisites: MUS 231
Corequisites: None
This course is a continuation of MUS 231. Emphasis is placed on vocal techniques and the study of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance.

MUS 241 Ensemble III
Prerequisites: MUS 142
Corequisites: None
This course is a continuation of MUS 142. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. 
*This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

MUS 242 Ensemble IV
Prerequisites: MUS 241
Corequisites: None
This course is a continuation of MUS 241. Emphasis is placed on the development of performance skills and the study of styles of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. 
*This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*
MUS 261 Applied Music III  
Prerequisites: MUS 162  
Corequisites: None  
This course is a continuation of MUS 162. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. **This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.**

MUS 262 Applied Music IV  
Prerequisites: MUS 261  
Corequisites: None  
This course is a continuation of MUS 261. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. **This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.**

**NURSING ASSISTANT** (NAS Prefix)  

NAS 101 Nursing Assistant I  
Prerequisites: None  
Corequisites: None  
This course introduces basic nursing skills required to provide personal care for patients, residents, or clients in a health care setting. Topics include communications, safety, patients’ rights, personal care, vital signs, elimination, nutrition, emergencies, rehabilitation, and mental health. Upon completion, students should be able to demonstrate skills necessary to qualify as Nursing Assistant I with the North Carolina Nurse Aide I Registry.

**NETWORKING TECHNOLOGY** (NET Prefix)  

NET 110 Networking Concepts  
Prerequisites: None  
Corequisites: None  
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols. **This course is also available through the Virtual Learning Community (VLC).**

NET 112 See SEC 110

NET 125 Networking Basics  
Prerequisites: None  
Corequisites: None  
This course introduces the networking field. Emphasis is placed on network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

NET 126 Routing Basics  
Prerequisites: NET 125  
Corequisites: None  
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

</tbody>
</table>

This course introduces the student to wireless technology and interoperability with different communication protocols. Topics include Wireless Application Protocol (WAP), Wireless Mark-up language (WML), link manager, service discovery protocol, transport layer and frequency band. Upon completion, students should be able to discuss in written and oral form protocols and procedures required for different wireless applications.

This course introduces advanced router configurations, advanced LAN switching theory and design, VLANs, Novell IPX, and threaded case studies. Topics include router elements and operations, adding routing protocols to a configuration, monitoring IPX operations on the router, LAN segmentation, and advanced switching methods. Upon completion students should be able to describe LAN and network segmentation with bridges, routers, and switches and describe a virtual LAN.

**NETWORKING OPERATING SYSTEM** (NOS Prefix)

**NOS 110 Operating System Concepts**  
Class  Lab  Clin/ WExp  Credit Hours  
2 3 0 3  
Prerequisites: None  
Corequisites: None  
This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.

**NOS 120 Linux/UNIX Single User**  
Class  Lab  WExp Hours  
2 2 3  
Prerequisites: NOS 110  
Corequisites: None  
This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.

**NOS 130 Windows Single User**  
Class  Lab  WExp Hours  
2 2 3  
Prerequisites: NOS 110  
Corequisites: None  
This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

**NOS 220 Linux/UNIX Admin I**  
Class  Lab  WExp Hours  
2 2 3  
Prerequisites: NOS 120  
Corequisites: None  
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.

**NOS 221 Linux/UNIX Admin II**  
Class  Lab  WExp Hours  
2 2 3  
Prerequisites: NOS 220  
Corequisites: None  
This course includes skill-building in configuring common network services and security administration using Linux. Topics include server-side setup, configuration, basic administration of common networking services, and security administration using Linux. Upon completion, students should be able to setup a Linux server and configure common network services including security requirements.

**NOS 222 Linux/UNIX Admin III**  
Class  Lab  WExp Hours  
2 2 3  
Prerequisites: NOS 221  
Corequisites: None  
This course includes technical topics in preparing an enterprise Linux system for common uses. Topics include advanced study of hardware, installation, boot process, file system administration, software administration, user administration, system administration, kernel services, configuration, securing services, and troubleshooting. Upon completion, students should be able to administer an enterprise Linux system.

**NOS 230 Windows Admin I**  
Class  Lab  WExp Hours  
2 2 3  
Prerequisites: NOS 130  
Corequisites: None  
This course covers the installation and administration of a Windows Server network operating system. Topics include
managing and maintaining physical and logical devices, access to resources, the server environment, managing users, computers, and groups, and Managing/Implementing Disaster Recovery. Upon completion, students should be able to manage and maintain a Windows Server environment.

**NOS 231 Windows Admin II**

Prerequisites: NOS 230  
Corequisites: None  
This course covers implementing, managing, and maintaining a Windows Server network infrastructure. Topics include implementing, managing, and maintaining IP addressing, name resolution, network security, routing and remote access, and managing a network infrastructure. Upon completion, students should be able to manage and maintain a Windows Server environment.

**NOS 232 Windows Admin III**

Prerequisites: NOS 231  
Corequisites: None  
This course covers implementing and administering security in a Windows Server network. Topics include implementing, managing, and trouble shooting security policies, patch management infrastructure, security for network communications, authentication, authorization, and PKI. Upon completion, students should be able to implement, manage, and maintain a Windows Server network infrastructure.

### NURSING (NUR Prefix)

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and
nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

### NUR 212 Health System Concepts

| Prerequisites: | NUR 111 |
| Corequisites: | None |

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

### NUR 214 Nsg Transition Concepts

| Prerequisites: | ENG 111, PSY 150, PSY 241, BIO 168, BIO 169 and BIO 155 |
| Corequisites: | BIO 271 |

This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing as the LPN transitions to the ADN role. Emphasis is placed on the concepts within each domain including evidenced-based practice, quality improvement, communication, safety, interdisciplinary team, clinical decision-making, informatics, assessment, caring, and health-wellness-illness. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

### OPERATING SYSTEMS (OSS Prefix)

#### OSS 120 Introduction to AIX

| Prerequisites: | None |
| Corequisites: | None |

This course introduces students to customizing and handling common AIX system administrator tasks in a multi-user environment. Topics include installation, system management tools, print queues, device drivers, file systems security, user administration, and scheduling techniques. Upon completion, students should be able to install AIX systems, manage file systems and group accounts, configure devices and implement customized access and security tasks.

#### OSS 160 AIX Systems Administration I

| Prerequisites: | OSS 120 |
| Corequisites: | None |

This course introduces students to customizing and handling common AIX system administrator tasks in a multi-user environment. Topics include installation, system management tools, print queues, device drivers, file systems security, user administration, and scheduling techniques. Upon completion, students should be able to install AIX systems, manage file systems and group accounts, configure devices and implement customized access and security tasks.

#### OSS 220 AIX Systems Administration II

| Prerequisites: | OSS 160 |
| Corequisites: | None |

This course introduces students to the administrator skills to develop and build advanced AIX. Topics include AIX boot sequence, disk management theory and procedures, diagnostics tools, error log, volume group techniques, damp facilities, online file system backups and security. Upon completion, students should be able to perform system problem determination procedures, recovery techniques, understand disk management theory and configure auditing in an AIX environment.

### OFFICE SYSTEMS TECHNOLOGY (OST Prefix)

#### OST 080 Keyboarding Literacy

| Prerequisites: | None |
| Corequisites: | None |

This course is designed to develop elementary keyboarding skills. Emphasis is placed on mastery of the keyboard. Upon completion, students should be able to demonstrate basic proficiency in keyboarding.

completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections.

**OST 244 Med Document Production**  
Prerequisites: OST 134  
Corequisites: None  
This course provides production-level skill development in processing medical documents. Emphasis is placed on producing mallable documents through the use of medical-related materials. Upon completion, students should be able to perform competently in preparing accurate, correctly formatted, and usable documents.

**OST 247 Procedure Coding**  
Prerequisites: MED 121 or OST 141, MED 122, or OST 142 and OST 148  
Corequisites: None  
This course provides in-depth coverage of procedural coding. Emphasis is placed on CPT and HCPCS coding systems. Upon completion, students should be able to properly code procedures and services performed in a medical facility.

**OST 248 Diagnostic Coding**  
Prerequisites: MED 121 or OST 141, MED 122 or OST 142 and OST 148  
Corequisites: None  
This course provides an in-depth study of diagnostic coding. Emphasis is placed on ICD coding system. Upon completion, students should be able to properly code diagnoses in a medical facility.

**OST 252 Legal Transcription I**  
Prerequisites: OST 134 or OST 136 and OST 155  
Corequisites: None  
This course provides experience in transcribing legal correspondence, forms, and documents. Emphasis is placed on developing listening skills to transcribe documents. Upon completion, students should be able to transcribe documents with accuracy.

**OST 281 Emerg Issues in Med Ofc**  
Prerequisites: OST 148  
Corequisites: None  
This course provides a comprehensive discussion of topics familiar to the health care setting. Topics include emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of current medical office procedures and treatments.

**OST 284 Emerging Technologies**  
Prerequisites: OST 137 or OST 140  
Corequisites: None  
This course provides opportunities to explore emerging technologies. Emphasis is placed on identifying, researching, and presenting current technological topics for class consideration and discussion. Upon completion, students should be able to understand the importance of keeping abreast of technological changes that affect the office professional.

**OST 286 Professional Development**  
Prerequisites: OST 136, OST 164  
Corequisites: None  
This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

**OST 289 Administrative Office Mgt**  
Prerequisites: OST 164 and either OST 134 or OST 136, OST 138, OST 236  
Corequisites: None  
This course is designed to be a capstone course for the office professional and provides a working knowledge of modern office procedures. Emphasis is placed on scheduling, telephone procedures, travel arrangements, event planning, office design, and ergonomics. Upon completion, students should be able to adapt in an office environment.

This course provides instruction in the skills needed for the proper collection of blood and other specimens used for diagnostic testing. Emphasis is placed on ethics, legalities, medical terminology, safety and universal precautions, health care delivery systems, patient relations, anatomy and physiology, and specimen collection. Upon completion, students should be able to demonstrate competence in the theoretical comprehension of phlebotomy techniques.

PED 143 Volleyball-Beginning 0 2 0 1
Prerequisites: None
Corequisites: None
This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball. Individualized instruction enhances fundamental skills along with their use in drills and class play.

PED 145 Basketball-Beginning 0 2 0 1
Prerequisites: None
Corequisites: None
This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 154 Swimming for Fitness 0 2 0 1
Prerequisites: None
Corequisites: None
This course introduces lap swimming, aquacises, water activities, and games. Emphasis is placed on increasing cardiovascular efficiency through aquatic exercise. Upon completion, students should be able to develop an individualized aquatic fitness program. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 175 Horseback Riding I 0 2 0 1
Prerequisites: None
Corequisites: None
This course introduces beginning and non-riders to recreational horseback riding. Topics include riding skills, equipment, handling of horses, mounting, care of the horse, and coordinated horse-rider balance. Upon completion, students should be able to demonstrate riding, safety, and horse management skills.

PED 176 Horseback Riding II 0 2 0 1
Prerequisites: PED 175
Corequisites: None
This course is designed to give advanced riding experiences in a variety of specialized situations. Emphasis is placed on the development of skills such as jumping, rodeo games, and trail riding. Upon completion, students should be able to demonstrate control and management of the horse and perform various riding techniques.

PED 177 Ice Skating 0 2 0 1
Prerequisites: None
Corequisites: None
This course introduces the fundamentals of ice skating. Emphasis is placed on basic positioning, balance, and form on ice. Upon completion, students should be able to demonstrate skills necessary for recreational ice skating.

PED 186 Dancing for Fitness 0 2 0 1
Prerequisites: None
Corequisites: None
This course is designed to develop movement and recreational dance skills, safety, fitness, coordination, and techniques used to teach various groups. Emphasis is placed on participation and practice with adapting dances for ages and ability levels. Upon completion, students should be able to demonstrate knowledge of fitness through social, folk, and square dance participation and instruction. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PHILOSOPHY (PHI Prefix)

PHI 210 History of Philosophy 3 0 0 3
Prerequisites: A grade of “C” or better in ENG 111
Corequisites: None
This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the key positions of the philosophers studied.

Last updated 6/7/12
PHI 215 Philosophical Issues 3 0 0 3
Prerequisites: A grade of "C" or better in ENG 111
Corequisites: None
This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critique the philosophical components of an issue.

PHI 220 Western Philosophy I 3 0 0 3
Prerequisites: A grade of "C" or better in ENG 111
Corequisites: None
This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith.

PHI 221 Western Philosophy II 3 0 0 3
Prerequisites: A grade of "C" or better in ENG 111
Corequisites: None
This course covers Western intellectual and philosophic thought from post-medievalists through recent thinkers. Emphasis is placed on such figures as Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Mill, and representatives of pragmatism, logical positivism, and existentialism. Upon completion, students should be able to trace the development of leading ideas concerning knowledge, reality, science, society, and the limits of reason.

PHI 230 Introduction to Logic 3 0 0 3
Prerequisites: A grade of "C" or better in ENG 111
Corequisites: None
This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise inductive reasoning.

PHI 240 Introduction to Ethics 3 0 0 3
Prerequisites: A grade of "C" or better in ENG 111
Corequisites: None
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on utilitarianism, rule-based ethics, existentialism, relativism versus objectivism, and egoism. Upon completion, students should be able to apply various ethical theories to individual moral issues such as euthanasia, abortion, crime and punishment, and justice.

PHI 250 Philosophy of Science 3 0 0 3
Prerequisites: A grade of "C" or better in ENG 111 and MAT 161 or MAT 171 or MAT 175
Corequisites: None
This course introduces the concepts of empirical observations and laws and their role in scientific explanation, prediction, and theory formation. Topics include the relationship between the philosophy of science and inductive/deductive logic, analytic philosophy, logical empiricism, and explanatory paradigms. Upon completion, students should be able to describe the development and role of scientific explanation, prediction, theory formation, and explanatory paradigms in the natural and social sciences. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

PHARMACY (PHM Prefix)

PHM 110 Introduction to Pharmacy 3 0 0 3
Prerequisites: None
Corequisites: None
This course introduces pharmacy practice and the technician’s role in a variety of pharmacy settings. Topics include medical terminology and abbreviations, drug delivery systems, law and ethics, prescription and medication orders, and the health care system. Upon completion, students should be able to explain the role of pharmacy technicians, read and interpret drug orders, describe quality assurance, and utilize pharmacy references.

| PHM 115     | Pharmacy Calculations            | 3     | 0     | 0       | 3       |
| Prerequisites: None |
| Corequisites: None |
| This course provides an introduction to the metric, avoirdupois, and apothecary systems of measurement and the calculations used in pharmacy practice. Topics include ratio and proportion, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution and concentration, aliquots, specific gravity and density, and flow rates. Upon completion, students should be able to correctly perform calculations required to properly prepare a medication order. |

| PHM 115A    | Pharmacy Calculations Lab        | 0     | 2     | 0       | 1       |
| Prerequisites: None |
| Corequisites: None |
| This course provides an opportunity to practice and perform calculations encountered in pharmacy practice. Emphasis is placed on ratio and proportion, dosage calculations, percentage, reduction/enlargement formulas, aliquots, flow rates, and specific gravity/density. Upon completion, students should be able to perform the calculations required to properly prepare a medication order. |

| PHM 118     | Sterile Products                | 3     | 3     | 0       | 4       |
| Prerequisites: PHM 110 and PHM 111 |
| Corequisites: None |
| This course provides an introduction to intravenous admixture preparation and other sterile products, including total parenteral nutrition and chemotherapy. Topics include aseptic techniques; facilities, equipment, and supplies utilized in admixture preparation; incompatibility and stability; laminar flow hoods; immunizations and irrigation solutions; and quality assurance. Upon completion, students should be able to describe and demonstrate the steps involved in preparation of intermittent and continuous infusions, total parenteral nutrition, and chemotherapy. |

| PHM 120     | Pharmacology I                  | 3     | 0     | 0       | 3       |
| Prerequisites: None |
| Corequisites: None |
| This course introduces the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include nutritional products, blood modifiers, hormones, diuretics, cardiovascular agents, respiratory drugs, and gastrointestinal agents. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names. |

| PHM 125     | Pharmacology II                 | 3     | 0     | 0       | 3       |
| Prerequisites: PHM 120 |
| Corequisites: None |
| This course provides a continuation of the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include autonomic and central nervous system agents, anti-inflammatory agents, and anti-infective drugs. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names. |

| PHM 132     | Pharmacy Clinical               | 0     | 0     | 6       | 2       |
| Prerequisites: None |
| Corequisites: None |
| This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers. |

| PHM 133     | Pharmacy Clinical               | 0     | 0     | 9       | 3       |
| Prerequisites: None |
| Corequisites: None |
| This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, |
utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

**PHM 134 Pharmacy Clinical**

| Prerequisites: | None |
| Corequisites: | None |

This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

**PHM 135 Pharmacy Clinical**

| Prerequisites: | None |
| Corequisites: | None |

This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

**PHM 140 Trends in Pharmacy**

| Prerequisites: | None |
| Corequisites: | None |

This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed.

**PHM 150 Hospital Pharmacy**

| Prerequisites: | None |
| Corequisites: | PHM 118 |

This course provides an in-depth study of hospital pharmacy practice. Topics include hospital organizational structure, committee functions, utilization of reference works, purchasing and inventory control, drug delivery systems, and intravenous admixture preparation. Upon completion, students should be able to explain hospital organization/committee functions, interpret and enter patient orders, fill unit-dose cassettes, and prepare intravenous admixtures.

**PHM 155 Community Pharmacy**

| Prerequisites: | None |
| Corequisites: | None |

This course covers the operational procedures relating to retail pharmacy. Emphasis is placed on a general knowledge of over-the-counter products, prescription processing, business/inventory management, and specialty patient services. Upon completion, students should be able to provide technical assistance and support to the retail pharmacist.

**PHM 160 Pharm Dosage Forms**

| Prerequisites: | None |
| Corequisites: | None |

This course is a study of pharmaceutical dosage forms and considerations in their manufacture. Topics include bioavailability, routes of administration, tablets, capsules, solutions, syrups, suspensions, elixirs, aerosols, transdermals, topicals, ophthalmics, otics, and other dosage forms. Upon completion, students should be able to describe the characteristics of the major dosage forms and explain how these characteristics affect the action of the drug.

**PHM 165 Pharmacy Prof Practice**

| Prerequisites: | None |
| Corequisites: | None |

This course provides a general overview of all aspects of pharmacy technician practice. Emphasis is placed on pharmacy law, calculations, compounding, pharmacology, and pharmacy operations. Upon completion, students should be able to demonstrate competence in the areas required for the Pharmacy Technician Certification Examination.

Prerequisites: None  
Corequisites: None  
This course introduces the plastics processing industry, including thermoplastics and thermosets. Emphasis is placed on the description, classification, and properties of common plastics and processes and current trends in the industry. Upon completion, students should be able to describe the differences between thermoplastics and thermosets and recognize the basics of the different plastic processes.

This course introduces theory and hands-on experience in common polymer processing techniques. Topics include injection molding, extrusion, thermoforming, blow molding, casting, roll forming, thermofusion, and other processes. Upon completion, students should be able to understand the setup, operation, and troubleshooting of common plastic processing equipment.

This course provides theory and processing experience with the injection molding process. Topics include machine type, molds, controls, machine-polymer part relationship, molding factors, troubleshooting, and molding processes/solutions. Upon completion, students should be able to demonstrate an understanding of machine setup and operation and be able to optimize common injection molding machines.

This course provides an in-depth study of the design, maintenance, and repair of molds used in the plastics industry. Topics include mold/die components, materials, types, functions, heating/cooling, designs, cleaning, and repair. Upon completion, students should be able to describe and utilize various types and functions of molds and gates and understand typical plastic design rules.

This course provides an overview of polymeric materials, from commodity grade to advanced/specialty resins. Topics include chemistry, properties, material characterization, testing, and toxicity. Upon completion, students should be able to demonstrate an understanding of the hierarchy of plastics and how it affects material selection, testing, and safety.

This course provides theory and processing experience with the extrusion molding process. Topics include safe start-up, operation, and shutdown of machines, machine components, blown film, sheet, coating, pipe/profiles, wire coating, and fibers. Upon completion, students should be able to setup, operate, and troubleshoot the extrusion process and its variations.
### PLUMBING  (PLU Prefix)

This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

This course provides the biological, psychological, and sociocultural aspects of human sexuality and related research. Topics include reproductive biology, sexual and psychosexual development, sexual orientation,
contraception, sexually transmitted diseases, sexual disorders, theories of sexuality, and related issues. Upon completion, students should be able to demonstrate an overall knowledge and understanding of human sexuality. 

This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**PSY 263 Educational Psychology**  
Prerequisites: A grade of “C” or better in PSY 150  
Corequisites: None

This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**PSY 281 Abnormal Psychology**  
Prerequisites: A grade of “C” or better in PSY 150  
Corequisites: None

This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

This course examines the manufacturing processes for selected pharmaceutical dosage forms. Emphasis is placed on manufacturing and testing of tablets, capsules, sustained release drugs, solutions, emulsions, suspensions, creams, ointments, aerosols, and sterile products. Upon completion, students should be able to demonstrate the processing steps and test procedures for these dosage forms.
COURSE DESCRIPTIONS

PTC 212 Applied Microbiology 3 2 0 4
Prerequisites: BIO 110 or BIO 111, CHM 132
Corequisites: None
This course covers microbiology as it applies to the pharmaceutical industry. Emphasis is placed on types of microorganisms and identification, culture, sterilization, and contamination control. Upon completion, students should be able to explain how microbiology and microbiological control are important to the pharmaceutical industry.

PTC 214 Parenteral Processes 3 2 0 4
Prerequisites: PTC 120
Corequisites: PTC 212
This course covers quality assurance for injectable products. Emphasis is placed on environmental monitoring and sterility, pyrogen, particulate, and package integrity testing. Upon completion, students should be able to demonstrate competence in these test procedures.

PTC 222 Pharmaceutical Process Control 2 2 0 3
Prerequisites: PTC 210
Corequisites: None
This course provides a systematic study of the control of all processes within the pharmaceutical industry. Topics include production economics, plant layout, computer-integrated manufacturing, planning and controls, materials management, routing and scheduling, progress reports, and relationship with quality control. Upon completion, students should be able to demonstrate an understanding of process flow controls, economic considerations, and materials management in modern pharmaceutical manufacturing.

PTC 226 Validation 3 0 0 3
Prerequisites: PTC 210, PTC 214
Corequisites: None
This course covers the methods used in pharmaceutical process and product validation. Emphasis is placed on manufacturing processes, specific dosage forms, FDA rationale, and documentation requirements. Upon completion, students should be able to write a validation protocol and perform validation studies for a variety of pharmaceutical applications.

PTC 228 Pharmaceutical Issues 1 0 0 1
Prerequisites: PTC 110
Corequisites: None
This course provides a forum for discussion of current pharmaceutical topics. Emphasis is placed on events, news, regulations, and technology in pharmaceutical manufacturing. Upon completion, students should be able to demonstrate an understanding of the dynamic nature of the pharmaceutical industry.

RADIOGRAPHY (RAD Prefix)

RAD 110 Rad Intro & Patient Care 2 3 0 3
Prerequisites: None
Corequisites: RAD 111 and RAD 151
This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.

RAD 111 Radiographic Procedures I 3 3 0 4
Prerequisites: Enrollment in the Radiography program
Corequisites: RAD 110, RAD 151
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, spine, and pelvis. Upon completion, students should be able to demonstrate competence in these areas.

RAD 112 Radiographic Procedures II 3 3 0 4
Prerequisites: RAD 110, RAD 111, RAD 151
Corequisites: RAD 121, RAD 161
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the skull, bony thorax, and gastrointestinal, biliary, and urinary systems. Upon completion, students should be able to demonstrate competence in these areas.

COURSE DESCRIPTIONS

RAD 245  Image Analysis  1  3  0  2
Prerequisites:  RAD 211, RAD 231, RAD 241 and RAD 251
Corequisites:  RAD 261 and RAD 271
This course provides an overview of image analysis and introduces methods of quality management. Topics include image evaluation, pathology, quality control, and quality assurance. Upon completion, students should be able to demonstrate a basic knowledge of image analysis and quality management.

RAD 251  Radiographic Clinical Education IV  0  0  21  7
Prerequisites:  RAD 122, RAD 131, RAD 171
Corequisites:  RAD 211, RAD 231, RAD 241
This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 261  RAD Clinical Ed V  0  0  21  7
Prerequisites:  RAD 211, RAD 231, RAD 241 and RAD 251
Corequisites:  RAD 245 and RAD 271
This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

RAD 271  Radiography Capstone  0  3  0  1
Prerequisites:  RAD 211, RAD 231, RAD 241, RAD 251
Corequisites:  RAD 245, RAD 261
This course provides an opportunity to exhibit problem-solving skills required for certification. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the knowledge required of any entry-level radiographer.

REDD 070: Designed to support courses across the curriculum by offering study skills and providing assistance with reading skills such as literal and inferential comprehension, vocabulary skills, recalling details, finding main ideas, and retention of materials.

RED 070: This course is designed for those with limited reading skills. Emphasis is placed on basic word attack skills, vocabulary, transitional words, paragraph organization, basic comprehension skills, and learning strategies. Upon completion, students should be able to demonstrate competence in the skills required for RED 080.

RED 080: This course introduces effective reading and inferential thinking skills in preparation for RED 090. Emphasis is placed on vocabulary, comprehension, and reading strategies. Upon completion, students should be able to determine main ideas and supporting details, recognize basic patterns of organization, draw conclusions, and understand vocabulary in context.

RED 090: This course is designed to improve reading and critical thinking skills. Topics include vocabulary enhancement; extracting implied meaning; analyzing author's purpose, tone, and style; and drawing conclusions and responding to written material. Upon completion, students should be able to comprehend and analyze college-level reading material.

REL 110: This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 111: This course introduces the major Asian religious traditions. Topics include Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL 112: This course introduces the major western religious traditions. Topics include Zoroastrianism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.
COURSE DESCRIPTIONS

REL  211  Introduction to Old Testament  3  0  0  3
Prerequisites:  ENG 090, RED 090, or placement
Corequisites:  None
This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL  212  Introduction to New Testament  3  0  0  3
Prerequisites:  ENG 090, RED 090, or placement
Corequisites:  None
This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REL  221  Religion in America  3  0  0  3
Prerequisites:  ENG 090, RED 090
Corequisites:  None
This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

REAL ESTATE  (RLS Prefix)

<td>0</td>
</tr>
</tbody>
</table>
Prerequisites:  None
Corequisites:  None
This course provides basic instruction in real estate principles and practices. Topics include law, finance, brokerage, closing, valuation, management, taxation, mathematics, construction, land use, property insurance, and NC License Law and Commission Rules. Upon completion, students should be able to demonstrate basic knowledge and skills necessary for real estate sales.

<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>
Prerequisites:  RLS 112
Corequisites:  None
This course consists of advanced-level instruction on a variety of topics related to Real Estate law and brokerage practices. Topics include: real estate brokerage, finance and sales, RESPA, fair housing issues, selected NC Real Estate License Law and NC Real Estate Commission Rule issues. Upon completion, students should be able to demonstrate knowledge of real estate brokerage, law and finance.

SUBSTANCE ABUSE  (SAB Prefix)

<table>

</tr>
</tbody>
</table>
Prerequisites:  None
Corequisites:  None
This course provides an overview of the core concepts in substance abuse and dependence. Topics include the history of drug use/abuse, effects on societal members, treatment of addiction, and preventive measures. Upon completion, students should be able to demonstrate knowledge of the etiology of drug abuse, addiction, prevention, and treatment.

<table>
<thead>

</tr>
</thead>
<tbody>
<tr>
<td>SAB 120  Intake and Assessment</td>
<td>3</td>
<td>0</td>
<td>0</td>
</tr>
</tbody>
</table>
Prerequisites:  None
Corequisites:  None
This course develops processes for establishment of client rapport, elicitation of client information on which
COURSE DESCRIPTIONS

therapeutic activities are based, and stimulation of client introspection. Topics include diagnostic criteria, functions of
counseling, nonverbal behavior, collaterals and significant others, dual diagnosis, client strengths and weaknesses,
uncooperative clients, and crisis interventions. Upon completion, students should be able to establish communication
with clients, recognize disorders, obtain information for counseling, and terminate the counseling process.

SAB 125 SA Case Management 2 2 0 3
Prerequisites: ENG 090, RED 090
Corequisites: None
This course provides case management activities, including record keeping, recovery issues, community resources,
and continuum of care. Emphasis is placed on establishing a systematic approach to monitor the treatment plan and
maintain quality of life. Upon completion, students should be able to assist clients in the continuum of care as an
ongoing recovery process and develop agency networking.

SAB 210 Substance Abuse Counseling 2 2 0 3
Prerequisites: ENG 090, RED 090
Corequisites: None
This course provides theory and skills acquisition by utilizing intervention strategies designed to obtain therapeutic
information, support recovery, and prevent relapse. Topics include counseling individuals and dysfunctional families,
screening instruments, counseling techniques and approaches, recovery and relapse, and special populations. Upon
completion, students should be able to discuss issues critical to recovery, identify intervention models, and initiate a
procedure culminating in cognitive/behavioral change.

SAB 220 Group Techniques/Therapy 2 2 0 3
Prerequisites: HSE 112
Corequisites: None
This course provides a practical guide to diverse methods of group therapy models used in the specific treatment of
substance abuse and addiction. Emphasis is placed on the theory and practice of group therapy models specifically
designed to treat the cognitive distortions of addiction and substance abuse. Upon completion, students should be
able to skillfully practice the group dynamics and techniques formulated for substance abuse and addiction.

SAB 240 Substance Abuse 3 0 0 3
Prerequisites: None
Corequisites: None
This course introduces systems of professional standards, values, and issues in substance abuse counseling. Topics
include confidentiality, assessment of personal values, professional responsibilities, competencies, and ethics relative
to multicultural counseling and research. Upon completion, students should be able to understand and discuss
multiple ethical issues applicable to counseling and apply various decision-making models to current issues.

INFORMATION SYSTEMS SECURITY (SEC Prefix)

SEC 110 Security Concepts 3 0 0 3
Prerequisites: None
Corequisites: None
This course introduces the concepts and issues related to securing information systems and the development of
policies to implement information security controls. Topics include the historical view of networking and security,
security issues, trends, security resources, and the role of policy, people, and processes in information security.
Upon completion, students should be able to identify information security risks, create an information security policy,
and identify processes to implement and enforce policy.

SEC 150 Secure Communications 2 2 0 3
Prerequisites: SEC 110; and NET 110 or NET 125
Corequisites: None
This course provides an overview of current technologies used to provide secure transport of information across
networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IPSec. Upon
completion, students should be able to implement secure data transmission technologies.

SEC 160 Secure Administration I 2 2 0 3
Prerequisites: SEC 110; and NET 110 or NET 125
Corequisites: None
This course provides an overview of security administration and fundamentals of designing security architectures.
Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security
best practices. Upon completion, students should be able to identify normal network traffic using network analysis

Last updated 6/7/12
tools and design basic security defenses.

SEC 170  SOHO Security  2  2  0  3
Prerequisites: SEC 110
Corequisites: None
This course introduces security principles and topics related to the small office/home office networking environment. Topics include network topologies, network protocols, security issues, and best practices for SOHO environments. Upon completion, students should be able to design, setup, secure, and manage a small office/home office network.

SEC 210  Intrusion Detection  2  2  0  3
Prerequisites: SEC 160
Corequisites: None
This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host based systems.

SEC 220  Defense-In-Depth  2  2  0  3
Prerequisites: None
Corequisites: SEC 160
This course introduces students to the concepts of defense in-depth, a security industry best practice. Topics include firewalls, backup systems, redundant systems, disaster recovery, and incident handling. Upon completion, students should be able to plan effective information security defenses, backup systems, and disaster recovery procedures.

SEC 230  Attack Methodology  3  2  0  4
Prerequisites: SEC 220
Corequisites: None
This course provides the student with an in-depth look at common Internet, network, and host-based attack methodologies. Topics include attack methods such as social engineering, spoofing, denial of service, man-in-the-middle, session hijacking, password cracking, malicious code and web hacking techniques. Upon completion, students should be able to generate anomalous network traffic, identify common network attack patterns, and perform penetration testing.

SEC 240  Wireless Security  2  2  0  3
Prerequisites: SEC 110 and NET 175
Corequisites: None
This course introduces security principles and topics related to the wireless networking environment. Topics include network topologies, network protocols, security issues, and best practices for wireless environments. Upon completion, students should be able to design, setup, manage, and secure a wireless network.

SEC 260  Secure Administration II  2  2  0  3
Prerequisites: SEC 160
Corequisites: None
This course provides the skills necessary to design and implement information security controls. Topics include advanced networking and TCP/IP concepts, network vulnerability analysis, and monitoring. Upon completion, students should be able to distinguish between normal and anomalous network traffic, identify common network attack patterns, and implement security solutions.

SEC 270  Secure Routing/Firewalls  1  4  0  3
Prerequisites: NET 226 and SEC 110
Corequisites: None
This course introduces the principles of securing networks using routers and firewalls. Topics include networking protocols, threat mitigation, firewall configuration, authentication, authorization, intrusion detection, encryption, IPSec, VPNs, and remote access technologies. Upon completion, students should be able to secure internal networks using router and firewall technologies.

SEC 275  Advanced Firewalls  3  2  0  4
Prerequisites: SEC 270
Corequisites: None
This course covers advanced topics in securing networks using firewalls. Topics include networking protocols, firewall status and configuration, syslog configuration, security levels, NAP/PAT, Access Control Lists, Authentication, Authorization and Accounting, VPN, and Remote Access. Upon completion, students should be able to describe, configure, verify, and manage firewall technologies.
## COURSE DESCRIPTIONS

### SEC 289 Security Capstone Project

Prerequisites: SEC 220  
Corequisites: None

This course provides the student the opportunity to put into practice all the skills learned to this point. Emphasis is placed on security policy, process planning, procedure definition, business continuity, and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation.

This course provides students with an introduction to simulation and game development. Topics include setting, storytelling, narrative, character design, interface design, game play, internal economy, core mechanics, game genres, AI, the psychology of game design and professionalism. Upon completion, students should be able to demonstrate knowledge of the major aspects of simulation and game design and development.

This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulations and games. Upon completion, students should be able to design simple simulations and/or games.

This course introduces the fundamentals of programming languages and tools employed in simulation and game development. Emphasis is placed on programming concepts used to create simulations and games. Upon completion, students should be able to program simple games and/or simulations.

This course introduces the tools required to create three dimensional (3D) models. Emphasis is placed on exploring tools used to create 3D models. Upon completion, students should be able to create and animate 3D models using 3D modeling tools.

This course introduces fundamental physical concepts as applied to the simulation and game design fields. Topics include hands-on programming of vectors, matrices, graphical analyses, forces, laws of motion, work, energy, momentum, properties of matter, and problem-solving methods. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied to the simulation and game design fields.

This course introduces students to computer-based graphic design tools and their use within the context of simulation and game design. Topics include texture creation, map creation, and introduction to advanced level graphic design techniques. Upon completion, students should be able to competently use and explain industry-standard graphic design software.

This course covers the creation and application of databases for simulation and game development. Emphasis is placed on various database and software development kits. Upon completion, students should be able to apply their knowledge of databases to the creation of simulations and games.
COURSE DESCRIPTIONS

SGD 123 Windows Console Programming 2 3 0 3
Prerequisites: SGD 113
Corequisites: None
This course introduces the concepts of Windows and Consol Programming. Emphasis is placed on learning MS Windows, the operating systems of various consoles and programming techniques. Upon completion, students should be able to demonstrate an understanding of Windows and of various consoles’ operating systems.

SGD 124 MMO Programming 2 3 0 3
Prerequisites: SGD 113 or CSC 134 or CSC 151
Corequisites: None
This course introduces the concepts of Massive Multiplayer On-line Programming for simulations and games. Emphasis is on learning Massive Multiplayer On-line simulation and game programming techniques. Upon completion, students should be able to create a Massive Multiplayer On-line simulation or game.

SGD 125 SG Artificial Intellig 2 3 0 3
Prerequisites: SGD 113 or CSC 134 or CSC 151
Corequisites: None
This course introduces the artificial intelligence concepts related to simulation and game development. Emphasis is placed on expert systems. Upon completion, students should be able to describe the basic concepts and procedures related to the development of artificial intelligence systems used in simulations and games.

SGD 126 SG Engine Design 2 3 0 3
Prerequisites: SGD 113 or CSC 134 or CSC 151
Corequisites: None
This course introduces the techniques needed to design and create a simulation/game engine. Emphasis is placed on learning core techniques used to design and create simulation and/or game engines. Upon completion, students should be able to design and create a simulation or game engine.

SGD 134 SG Quality Assurance 2 2 0 3
Prerequisites: SGD 112
Corequisites: None
This course provides an introduction to software quality assurance as it relates to simulation and game development. Emphasis is placed on designing testing tools, bug databases, and on learning methodologies required for systematic, detail-oriented testing procedures for the simulation and game industry. Upon completion, students should be able to demonstrate the proper skills to obtain a job as a quality assurance tester in the simulation/game industry.

SGD 158 SGD Business Mgmt. 3 0 0 3
Prerequisites: ENG 111
Corequisites: None
This course introduces the business side of the interactive game industry. Emphasis will be placed on licenses, serious games, psychological profiling, publisher/developer relations, and contract negotiation skills. Upon completion, students should be able to understand how a game evolves from concept to the customer.

SGD 159 SGD Production Mgmt. 3 0 0 3
Prerequisites: SGD 111
Corequisites: None
This course introduces the techniques and methods used in interactive game production and how to manage a project. Emphasis is placed on scheduling, production plans, marketing and budgeting. Upon completion, students should be able to manage a team, track production, and understand the process of project management.

SGD 161 SG Animation 2 3 0 3
Prerequisites: SGD 114
Corequisites: None
This course introduces the fundamental principles of animation used in simulation and game development. Emphasis is placed on a historical survey of animation, aspects of the animation process and animation techniques. Upon completion, students should be able to produce character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 162 SGD 3D Animation 2 3 0 3
Prerequisites: SGD 114
Corequisites: None
This course introduces the fundamental principles of 3D animation used in simulation and game development. Emphasis is placed on a historical survey of 3D animation, aspects of the 3D animation process and 3D animation techniques. Upon completion, students should be able to produce 3D character sketches, morph simple objects,
create walk and run cycles and develop professional storyboards.

**SGD 163 SG Documenation**
Prerequisites: ENG 111
Corequisites: None
This course introduces the techniques and methods used to create simulation and game production and design documents. Emphasis is placed on the design document to include scheduling, production plans, marketing and budgeting. Upon completion, students should be able to create design and produce documents for any simulation or game.

**SGD 164 SG Audio/Video**
Prerequisites: SGD 111, SGD 174
Corequisites: None
This course introduces various aspects of audio and video and their application in simulations and games. Topics include techniques for producing and editing audio and video for multiple digital mediums. Upon completion, students should be able to produce and edit audio and video for simulations and games.

**SGD 165 SG Character Development**
Prerequisites: None
Corequisites: SGD 114
This course introduces the concepts needed to create a fictional personality for use in digital videos, animations, simulations and games. Topics include aspects of character, developing backgrounds, mannerisms and voice. Upon completion, students should be able to develop characters and backgrounds for simulations and games.

**SGD 166 SG Physiology/Kinesi**
Prerequisites: None
Corequisites: None
This course introduces the principles of physiology and kinesiology as they relate to simulation and game development. Topics include analysis of the human form and other living organisms. Upon completion, students should be able to demonstrate an understanding of the physiology and kinesiology concepts related to simulation and game development.

**SGD 167 SG Ethics**
Prerequisites: ENG 111
Corequisites: None
This course introduces principles of philosophy and ethics as they relate to simulation and game development. Topics include moral philosophy and ethics. Upon completion, students should be able to discuss philosophical and ethical issues related to simulation and game development.

**SGD 168 Mobile SG Programming I**
Prerequisites: SGD 113 or CIS 115
Corequisites: None
This course introduces the wireless simulation and game programming process. Topics include mobile simulation/game engine construction and performance, sprite animation, control interactions, sound effects, music and wireless networks. Upon completion, students should be able to apply wireless simulation/game programming concepts to the creation multipler simulations and games.

**SGD 169 Linux SG Programming**
Prerequisites: SGD 113 or CSC 134 or CSC 151
Corequisites: None
This course introduces the concepts of Linux programming for use in simulation and game development. Emphasis is placed on Linux programming and tools. Upon completion, students should be able to create a simple game or simulation using Linux.

**SGD 170 Handheld SG Programming**
Prerequisites: SGD 113 or CSC 134 or CSC 151
Corequisites: None
This course introduces the concepts of hand-held simulation and game development. Emphasis is placed on hand-held game API, including stylus input, system buttons, infrared communications, audio / visual creation and the physics of hand-held game API. Upon completion, students should be able to create a simple simulation or game for a hand-held device.

SCIENTIFIC GRAPHICS  (SGR Prefix)

SGR 110 Scientific Graphics
Class           Lab     Clin/ WExp Hours
2               0        0               3
Prerequisites: None  
Corequisites: None
This course introduces software packages used for graphing, drawing, image manipulation, data visualization, and 3D modeling. Emphasis is placed on solving design problems through appropriate visual communications techniques and on using the packages in combination to produce final documents. Upon completion, students should be able to prepare informal graphics and images and create rendered three-dimensional models.

SOCIOLOGY  (SOC Prefix)

SOC 210 Introduction to Sociology
Class           Lab     Clin/ WExp Hours
3               0        0               3
Prerequisites: ENG 090, RED 090, or placement  
Corequisites: None
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

SOC 213 Sociology of the Family
Class           Lab     Clin/ WExp Hours
3               0        0               3
Prerequisites: ENG 090, RED 090, or placement  
Corequisites: None
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces that influence its development and change. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

SOC 220 Social Problems
Class           Lab     Clin/ WExp Hours
3               0        0               3
Prerequisites: ENG 090, RED 090, or placement  
Corequisites: None
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

SOC 225 Social Diversity
Class           Lab     Clin/ WExp Hours
3               0        0               3
Prerequisites: ENG 090, RED 090, or placement  
Corequisites: None
This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

SOC 230 Race and Ethnic Relations
Class           Lab     Clin/ WExp Hours
3               0        0               3
Prerequisites: RED 090 and ENG 090  
Corequisites: None
This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.
## COURSE DESCRIPTIONS

### SOC 242 Sociology of Deviance

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clin/WExp</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>0</td>
<td>0</td>
<td>3</td>
</tr>
</tbody>
</table>

Prerequisites: ENG 090 and RED 090  
Corequisites: None  
This course provides an overview of deviant behavior and the processes involved in its definition, causation, prevention, control, and treatment. Topics include theories of causation, social control, delinquency, victimization, criminality, the criminal justice system, punishment, rehabilitation, and restitution. Upon completion, students should be able to identify and analyze issues surrounding the nature and development of social responses to deviance. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

### SOC 252 Sociology of Work

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clin/WExp</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>0</td>
<td>0</td>
<td>3</td>
</tr>
</tbody>
</table>

Prerequisites: ENG 090 and RED 090, or ENG 111  
Corequisites: None  
This course provides an understanding of the work experience in terms of rewards, satisfaction, exploitation, alienation, and institutional function and structure. Topics include an examination of industrial, professional, office, and executive work settings in relation to technology, management, and career opportunities. Upon completion, students should be able to understand work in its changing roles, institutions, and economic impact. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

### SPANISH (SPA Prefix)

#### SPA 111 Elementary Spanish I

<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>0</td>
<td>0</td>
<td>3</td>
</tr>
</tbody>
</table>

Prerequisites: ENG 090 and RED 090, or ENG 111  
Corequisites: SPA 181  
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).*

#### SPA 112 Elementary Spanish II

</thead>
<tbody>
<tr>
<td>3</td>
<td>0</td>
<td>0</td>
<td>3</td>
</tr>
</tbody>
</table>

Prerequisites: A grade of “C” or better in SPA 111  
Corequisites: SPA 182  
This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness.

#### SPA 120 Spanish for the Workplace

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clin/WExp</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>0</td>
<td>0</td>
<td>3</td>
</tr>
</tbody>
</table>

Prerequisites: ENG 090 and RED 090, or ENG 110 or ENG 111  
Corequisites: None  
This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity. Emphasis will be on cultural awareness and cultural context issues.

#### SPA 161 Cultural Immersion

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clin/WExp</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>3</td>
<td>0</td>

</tr>
</tbody>
</table>

Prerequisites: SPA 111  
Corequisites: None  
This course explores Hispanic culture through intensive study on campus and field experience in a host country or area. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences.

#### SPA 181 Spanish Lab 1

<table>
<thead>
<tr>
<th>Class</th>
<th>Lab</th>
<th>Clin/WExp</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>2</td>
<td>0</td>
<td>1</td>
</tr>
</tbody>
</table>

Prerequisites: ENG 090 and RED 090, or ENG 111  
Corequisites: SPA 111  
This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through
the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

SPA 182 Spanish Lab 2
Prerequisites: A grade of “C” or better in SPA 181
Corequisites: SPA 112

This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate cultural awareness.

SPA 211 Intermediate Spanish I
Prerequisites: A grade of “C” or better in SPA 112
Corequisites: SPA 281

This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future.

SPA 212 Intermediate Spanish II
Prerequisites: SPA 211
Corequisites: SPA 282

This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication.

SPA 221 Spanish Conversation
Prerequisites: SPA 212
Corequisites: None

This course provides an opportunity for intensive communication in spoken Spanish. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations.

SPA 281 Spanish Lab 3
Prerequisites: A grade of “C” or better in SPA 182
Corequisites: SPA 211

This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future.

SPA 282 Spanish Lab 4
Prerequisites: SPA 281
Corequisites: SPA 212

This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication.

SURVEYING (SUR Prefix)

SRV 110 Surveying I
Prerequisites: Take One: MAT 121, MAT 161, MAT 171, or MAT 175
Corequisites: None

This course introduces the theory and practice of plane surveying. Topics include measuring distances and angles, differential and profile leveling, compass applications, topography, and mapping. Upon completion, students should be able to use/care for surveying instruments, demonstrate field note techniques, and apply the theory and practice of plane surveying.
COURSE DESCRIPTIONS

SRV 111 Surveying II  
Prerequisites: SRV 110  
Corequisites: None  
This course introduces route surveying and roadway planning and layout. Topics include simple, compound, reverse, spiral, and vertical curves; geometric design and layout; planning of cross-section and grade line; drainage; earthwork calculations; and mass diagrams. Upon completion, students should be able to calculate and lay out highway curves; prepare roadway plans, profiles, and sections; and perform slope staking.

SRV 112 Landscape Architectural Surveying  
Prerequisites: MAT 121  
Corequisites: None  
This course covers surveying techniques commonly used by landscape architects and contractors. Topics include boundary and topographic surveying. Upon completion students should be able to create boundary and topo maps and layout construction projects both on paper and in the field.

SRV 210 Surveying III  
Prerequisites: SRV 110 and CIV 125 or SRV 293  
Corequisites: None  
This course introduces boundary surveying, land partitioning, and calculations of areas. Topics include advanced traverses and adjustments, preparation of survey documents, and other related topics. Upon completion, students should be able to research, survey, and map a boundary.

SRV 211 Introduction to Hydrology  
Prerequisites: MAT 121  
Corequisites: None  
This course introduces the basic engineering principles and characteristics of hydrology. Topics include stormwater runoff, pipes, open channel flow and erosion control methods. Upon completion, students should be able to analyze and size gravitational drainage structures.

SRV 220 Surveying Law  
Prerequisites: SRV 110  
Corequisites: None  
This course introduces the law as related to the practice of surveying. Topics include surveyors’ responsibilities, deed descriptions, title searches, eminent domain, easements, weight of evidence, riparian rights, and other related topics. Upon completion, students should be able to identify and apply the basic legal aspects associated with the practice of land surveying.

SRV 230 Subdivision Planning  
Prerequisites: SRV 111, SRV 210, and CIV 211 and CIV 125 or SRV 293  
Corequisites: None  
This course covers the planning aspects of residential subdivisions from analysis of owner and municipal requirements to plat layout and design. Topics include municipal codes, lot sizing, roads, incidental drainage, esthetic considerations, and other related topics. Upon completion, students should be able to prepare a set of subdivision plans.

SRV 240 Topo/Site Surveying  
Prerequisites: SRV 110 and CIV 125 or SRV 293  
Corequisites: None  
This course covers topographic, site, and construction surveying. Topics include topographic mapping, earthwork, site planning, construction staking, and other related topics. Upon completion, students should be able to prepare topographic maps and site plans and locate and stake out construction projects.

SRV 260 Field and Office Practices  
Prerequisites: Completion of three semesters of the Surveying Technology program  
Corequisites: None  
This course covers surveying project management, estimating, and responsibilities of surveying personnel. Topics include record-keeping, starting and operating a surveying business, contracts, regulations, taxes, personnel management, and professional ethics. Upon completion, students should be able to understand the requirements of operating a professional land surveying business.

SRV 293 Selected Topic: Carlson Software  
Prerequisites: DFT 110 or ARC 114  
Corequisites: None  
This course introduces civil/surveying computer-aided drafting (CAD) software. Topics include drawing, editing, and dimensioning commands; plotting; and other related civil/surveying topics. Upon completion, students should be able
to produce civil/surveying drawings using CAD software. This course is an introduction to Carlson Software.

**SUSTAINABILITY TECHNOLOGY** *(SST Prefix)*

**Intro to Sustainability**

Prerequisites: None

Corequisites: None

This course introduces sustainability issues and individual contributions toward environmental sustainability. Topics include management processes needed to maximize renewable/non-renewable energy resources, economics of sustainability, and reduction of environmental impacts. Upon completion, students should be able to discuss sustainability practices and demonstrate an understanding of their effectiveness and impacts.

**SURGICAL TECHNOLOGY** *(SUR Prefix)*

<table>

</table>

**Surgical Procedures I**

Prerequisites: SUR 110, SUR 111

Corequisites: SUR 123

This course introduces a comprehensive study of surgical procedures in the following specialties: general, gastrointestinal, obstetrical/gynecology, urology, otorhinolaryngology, and plastics/reconstructive. Emphasis is placed on related surgical anatomy, pathology, and procedures thereby enhancing theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics.

**Clinical Practice I**

Prerequisites: SUR 110, SUR 111

Corequisites: SUR 122

This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles.

**Introduction to Social Work**

Prerequisites: None

Corequisites: None

This course examines the historical development, values, orientation, and professional standards of social work and focuses on the terminology and broader systems of social welfare. Emphasis is placed on the various fields of practice including those agencies whose primary function is financial assistance, corrections, mental health, and protective services. Upon completion, students should be able to demonstrate an understanding of the knowledge,
values, and skills of the social work professional.

**SWK 113 Working with Diversity**

**Prerequisites:** None  
**Corequisites:** None  
This course examines and promotes understanding, sensitivity, awareness, and knowledge of human diversity. Emphasis is placed on professional responsibilities, duties, and skills critical to multicultural human services practice. Upon completion, students should be able to integrate and expand knowledge, skills, and cultural awareness relevant to diverse populations.

**TELECOMMUNICATIONS AND NETWORK ENGINEERING TECHNOLOGY (TNE Prefix)**

<table>

</tr>
</tbody>
</table>

**Prerequisites:** TNE 121  
**Corequisites:** None  
This course introduces a variety of ways to implement security into network designs and upgrades. Topics include securing the network through the use of access lists, routers, firewalls, Ipchains, and stateful packet filtering. Upon completion, students should be able to demonstrate a variety of techniques to harden the network from outside threats. This course covers security protocols and IPSec, VPNs, and firewall routers.
COURSE DESCRIPTIONS

TNE 250 Telecommunication Networks 2 3 0 3
Prerequisites: None
Corequisites: None
This course introduces the principal elements and theory (both analog and digital) of telecommunication networking systems. Topics include system network overview, subscriber loops, network testing and measurement, wiring, network transmission techniques synchronization and analysis, switching and signaling, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with telecommunication network systems. Emphasis will be placed on voice and data communication integration. This course covers the current public switch telephone system, SONET, and SS7.

TNE 251 Advanced Telecommunication Networks 2 3 0 3
Prerequisites: TNE 250
Corequisites: None
This course is a continuation of TNE 250 and introduces advanced concepts associated with telecommunication network systems. Topics include waveform coding, emerging transmission techniques and analysis, advanced switching system architectures, personal communication systems, and related topics and applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with advanced telecommunication network systems. This course covers voice-over-IP and cell phones.

TNE 261 Internet Development 2 3 0 3
Prerequisites: TNE 111, TNE 121
Corequisites: None
This course is designed to introduce Internet concepts. Topics include Internet layer operation, IP routing and addresses and operations. TCP-IP operations and ports, firewalls, gateways, e-mail, and web-site development. Upon completion, students should be able to demonstrate an understanding of the course concepts. This course covers HTML and TCP/IP application protocols.

WEB TECHNOLOGIES (WEB Prefix)

WEB 110 Internet/ Web Fundamentals 2 2 0 3
Prerequisites: Red 090
Corequisites: None
This course introduces basic markup language, various navigational tools and services of the Internet. Topics include creating web pages, using internet protocols, search engines, file compression/decompression, FTP, email, listservers, and other related topics. Upon completion, students should be able to deploy a website created with basic markup language, retrieve/decompress files, email, FTP, and utilize other internet tools. Topics include HTML and XHMTL.

WEB 111 Intro to Web Graphics 2 2 0 3
Prerequisites: None
Corequisites: None
This course introduces the creation of web graphics, and addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, optimization, RGB color, web typography, elementary special effects, transparency, animation, slicing, basic photo manipulation, and other related topics. Upon completion, students should be able to create graphics, such as animated banners, buttons, backgrounds, logos, and manipulate photographic images for Web delivery.

WEB 115 Web Markup and Scripting 2 2 0 3
Prerequisites: WEB 110 or CIS 172 or CIS 115 or CSC 151
Corequisites: None
This course introduces Worldwide Web Consortium (W3C) standard client-side Internet programming using industry-established practices. Topics include JavaScript, markup elements, stylesheets, validation, accessibility, standards, and browsers. Upon completion, students should be able to develop hand-coded web pages using current markup standards.

WEB 120 Intro Internet Multimedia 2 2 0 3
Prerequisites: WEB 111
Corequisites: None
This is the first of two courses covering the creation of internet multimedia. Topics include internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create internet multimedia.
presentations utilizing a variety of methods and applications.

WEB 125 Mobile Web Design 2 2 0 3
Prerequisites: WEB 110
Corequisites: None
This course introduces students to web design for mobile devices. Topics include planning an effective mobile Web site, industry standard Mobile Markup Language, CSS3, multimedia, m-commerce, social media, testing and publishing. Upon completion, students should be able to plan, develop, test, and publish Web content designed for mobile devices.

WEB 140 Web Development Tools 2 2 0 3
Prerequisites: RED 090, MAT 060 or ENG111, MAT 060
Corequisites: None
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

WEB 141 Mobile Interface Design 2 2 0 3
Prerequisites: RED 090, MAT 060
Corequisites: None
This course covers current design standards and emerging approaches related to the design and development of user interfaces for mobile devices. Emphasis is placed on research and evaluation of standard and emerging practices for effective interface and user experience design. Upon completion, students should be able to design effective and usable interfaces for mobile devices.

WEB 151 Mobile Application Dev 1 2 2 0 3
Prerequisites: WEB 187 or CSC 151
Corequisites: None
This course introduces students to programming technologies, design and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using an OS Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices.

WEB 180 Active Server Pages 2 2 0 3
Prerequisites: CIS 115 or WEB 115 or CSC 160
Corequisites: None
This course introduces Active Server Programming. Topics include Jscript, VBScript, HTML forms processing, and the Active Server Object Model. Upon completion, students should be able to create and maintain Active Server applications. Current trends in ASP, to include ASP.Net will be taught.

WEB 182 PHP Programming 2 2 0 3
Prerequisites: CIS 115
Corequisites: None
This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.

WEB 183 Perl Programming 2 2 0 3
Prerequisites: WEB 115 or CIS 115 or CSC 160
Corequisites: None
This course introduces students to the Perl Programming language. Topics include programming techniques using CGI script, input/output operations, sequence, iteration, selection, arithmetic operations, subroutines, modules, integrating database, pattern matching and other related topics. Upon completion, students should be able to design, code, test, and debug Perl language programs.

WEB 185 ColdFusion Programming 2 2 0 3
Prerequisites: CIS 115
Corequisites: None
This course introduces ColdFusion Programming. Topics include installing a ColdFusion development environment, using CFQUERY tags to send and receive database information, creating and displaying a form, and other related topics. Upon completion, students should be able to design, code, test, and debug using a ColdFusion environment.
### COURSE DESCRIPTIONS

<tr>
<td></td>
<td>This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards.</td>
<td></td>
</tr>
</tbody>
</table>
COURSE DESCRIPTIONS

WEB 250  Database Driven Websites  2 2 0 3
Prerequisites:  DBA 110 and WEB 140
Corequisites:  None
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WEB 251  Mobile Application Dev II  2 2 0 3
Prerequisites:  WEB 151
Corequisites:  None
This course covers advanced applications and custom programming to develop applications for mobile devices. Topics include device capabilities, OS specific Software Development Kits (SDK), scripting for functionality and designing interactivity. Upon completion, students should be able to demonstrate effective programming techniques to develop advanced mobile applications.

WEB 260  E-Commerce Infrastructure  2 2 0 3
Prerequisites:  WEB 250; and WEB 180 or ITN 120
Corequisites:  None
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, documentation, and site administration. Upon completion, students should be able to setup a working e-commerce Internet web site.

WEB 285  Emerging Web Technologies  2 2 0 3
Prerequisites:  None
Corequisites:  None
This course will explore, discuss, and research emerging technologies in the web arena. Emphasis is placed on exposure to up-and-coming technologies relating to the web, providing hands-on experience, and discussion of practical implications of these emerging fields. Upon completion, students should be able to articulate issues relating to these technologies.

WEB 287  Web E-Portfolio  1 2 0 2
Prerequisites:  WEB 210
Corequisites:  None
This course covers the creation and organization of a web-based e-portfolio that includes a resume, references, and comprehensive academic and work samples. Emphasis is placed on creating an e-portfolio with solid design and demonstrable content, the production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to present their own domain with included professional e-portfolio elements of resume, sample work, and related self-promotional materials.

WEB 289  Internet Technologies Project  1 4 0 3
Prerequisites:  WEB 230 and WEB 250
Corequisites:  None
This course provides an opportunity to complete a significant Web technologies project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete an Internet project from the definition phase through implementation.

WEB 298A  Seminar in Web Technology  2 2 0 3
Prerequisites:  None
Corequisites:  None
This course provides an opportunity to explore topics of current interest. Emphasis is placed on the development of critical listening skills and the presentation of seminar issues. Upon completion, students should be able to critically analyze issues and establish informed opinions.

WELDING  (WLD Prefix)

WLD 110  Cutting Processes  Class  Lab  Clin/ WExp  Credit Hours
Prerequisites:  None
Corequisites:  None
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and
operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.</td>
<td></td>
</tr>
</tbody>
</table>
WLD  261  Certification Practices  1  3  0  2
Prerequisites:  WLD 115, WLD 121, WLD 131
Corequisites:  None
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.
BOARD OF TRUSTEES
Each community college in North Carolina is governed by a volunteer board of trustees, with specific duties defined by state law. Among their responsibilities, trustees establish policies for the college to follow, approve the college's budget each year and serve as advocates for the college. When there is a vacancy in the college's presidency, the trustees are responsible for choosing a new president.

Wake Tech is served by 12 appointed trustees. Four are appointed by the Governor of North Carolina, four are appointed by the Wake County Commissioners and four are appointed by the Wake County Board of Education. These trustees are appointed to four-year terms of office, and the appointments are staggered so that the board always has a blend of experienced and new trustees.

In addition to the 12 appointed trustees, the college's Student Government Association president serves as an ex-officio member of the Wake Tech Board of Trustees. The SGA president is encouraged to share ideas and concerns with the board but does not vote on board issues.

The college president serves as secretary to the Wake Tech Board of Trustees but is not considered a member of the board.
