Power Up Your Future!

Power Up Your Future with Duke Energy Technology Scholarships.

The Biotechnology, Engineering & Skilled Technologies (BEST) Division at Wake Tech has been awarded funding to continue the Duke Energy Opportunity Grant (DEOG) to provide scholarships for new students in the following programs:

- Air Conditioning, Heating, and Refrigeration Technology
- Architectural Technology
- Civil Engineering Technology
- Construction Management Technology
- Electrical Systems Technology
- Electronics Engineering Technology
- Facilities Maintenance Technology
- Geomatics Technology
- Interior Design Technology
- Mechanical Engineering Technology
- Plumbing Technology
- Welding Technology

Who Can Apply for a Scholarship?

All new part-time or full-time students in the first year of the above programs can apply for these technology scholarships, with priority given to females and underrepresented groups. Students may receive up to \$1000 for the first semester — and up to another \$1000 for the second semester, if students remain in good academic standing and continue in an approved program.

Are There Other Forms of Assistance?

The DEOG provides Hardship Assistance for students facing expenses which could prevent them from continuing their education. Plus, this grant offers Certificate Reimbursement for industry standard certifications paid for by the student. Students from the programs previously listed, including Associate in Engineering, may apply for either of these awards.

Duke Energy's Mission.

Duke Energy wants to make sure students have the opportunity to begin an educational pathway in an energy sector related program — and remain on that chosen pathway.

How To Apply.

Applications for the Duke Energy Opportunity Grant scholarships can be found using the DEOG banner at **best.waketech.edu**

Spring '22 Scholarship applications are due by February 1, 2022. All Hardship and Certificate Reimbursement applications will continue to be accepted beyond the February deadline. So, complete your application today or ask your instructor or advisor for more information.
