### Priority Admissions Process

To select applicants for the Medical Lab Tech program, Wake Tech uses a priority admissions procedure – NOT a waiting list. There are 24 seats available each year. If more students meet the Minimum Admissions Requirements than there are seats, a two-part selection process is used: Applicants with the most general education courses complete with the earliest program submission date will be selected for available MLT seats. Applicants earn 2 points for completion of BIO 163 and 1 point for completion all other required general education classes with a grade of “C” or better (see list below).
