## Neurodiagnostic Technology Program Checklist

## **Priority Admissions Process**

To select applicants for NDT, Wake Tech uses a priority admission procedure. The admissions procedure for NDT is a two-part process utilizing both a first-come, first-served process and class completion. This procedure is used if there are more applicants who have met the minimum admission requirements (MAR) than there are available program seats. Those students with the most general courses completed with a "C" or better and with the earliest program application submission date will be selected for the available seats.

Semester					
Offered	Course	Title (Credit Hours)	Prerequisites		
		Complete the classes below as part of the priority admissions process.			
F, Sp, Su	BIO 168	Anatomy and Physiology I (4)	ENG 002 and CHM 090 OR BIO 110
