

ARTICULATION AGREEMENT

SIENA HEIGHTS UNIVERSITY

And

WAKE TECHNICAL COMMUNITY COLLEGE

Siena Heights University, located at 1247 E. Siena Heights Drive, Adrian, MI 49221, with several Michigan degree completion centers and an online program, and **Wake Technical Community College, Perry Health Sciences Campus**, located at 2901 Holston Lane, Raleigh NC 27610, believe that collaborative programs benefit the community, employers, and students in their regions. It allows smooth transition for students transferring between institutions and maximizes allowable transfer of credits. Therefore, **Siena Heights University** and **Wake Technical Community College** are entering into the following agreement for articulation for the Associate in Applied Science in Electroneurodiagnostic Technology at **Wake Technical Community College** and the Bachelor of Applied Science in Neurodiagnostic Technology at **Siena Heights University**.

PRINCIPLES OF AGREEMENT

Siena Heights University (hereafter known as “SHU”) and **Wake Technical Community College** (hereafter known as “WTCC”) confirm the following points of agreement, to assure equal treatment of university/college and transfer students:

1. Credit completed at WTCC will transfer towards a SHU baccalaureate degree according to the parameters below and the transfer guide for the Neurodiagnostic major.
2. To receive a baccalaureate degree from SHU, WTCC students must complete the admissions and program requirements of the SHU program of study, as identified in SHU’s undergraduate catalog. Upon fulfillment of baccalaureate degree requirements, the degree conferred is a Siena Heights University degree.
3. Candidates must submit an official WTCC transcript to SHU showing completion of WTCC coursework (including completion and designation of an associate degree, where applicable). WTCC coursework will be posted to the student’s SHU transcript after initial enrollment at SHU. Coursework will be posted in accordance with the SHU baccalaureate degree requirements and requisite transfer policies.
4. WTCC graduates with a minimum of a cumulative 2.0 GPA (courses numbered 100 and above) entering under the terms of this agreement will transfer into SHU if the courses apply to their program requirements and admissions requirements are met.

5. No time limit (years) shall be placed on the acceptance of credit transferable from WTCC to SHU unless there is a specific policy limitation identified by SHU. A maximum of 90 hours of transfer credit can be applied to a SHU undergraduate program.
6. SHU and WTCC will ensure that they maintain accreditation with the appropriate Regional or National accrediting body and ensure that all operations will be in keeping with accreditation requirements of the two institutions.
7. This agreement will automatically renew unless personnel from WTCC and SHU determine that a meeting is necessary to review and/or amend this agreement. Either institution may terminate this agreement at any time by written notice of at least one (1) year in advance of the effective date of termination. All students currently enrolled will be allowed to complete their designated program of study at SHU.
8. SHU and WTCC agree to the development of joint promotional and communications efforts to graduates and current students. Ongoing promotional opportunities will be reviewed and determined periodically as approved between the appropriate representatives at each institution. This may include but are not limited to virtual classroom visits, marketing materials, mailing list, email lists and virtual advising sessions.
9. Responsibility for communication related to this agreement will rest with the Director of University Partnerships for WTCC and the Associate Director of Partnership Relations for SHU.
10. Both institutions will provide counseling and advising to current and prospective students about their respective program of study and the transfer process between institutions.
11. Full time and part time employees of WTCC will be eligible for an \$80 per credit hour tuition discount for undergraduate and graduate degrees completed at SHU degree completion centers as well as the University's online program. The student requesting the discount must complete the application, verify full time or part -time employment with HR and complete a FAFSA (Free Application for Federal Student Aid) if using financial aid for each academic year. Wake Technical Community College employees utilizing financial aid and the discount tuition rate are subject to federal regulations regarding financial aid. In this situation, the university may be required to reduce the financial aid package.
12. Each party shall be separately responsible for compliance with all federal and state laws, including nondiscrimination laws. The contract term includes applicable sections of the Michigan Handicappers Civil Rights Act (Act 220 of the Public Acts of 1976, as amended, being MCLA 37.1101 et seq.) and the Elliot-Larson Civil Rights Act (Act 453 of the Public Arts of 1976 as amended, being CMLA 37.2101 et seq.) and, in particular, the provision that illegal discrimination by either party may be considered a material breach of this agreement.
