SCHEDULED ACTIVITIES

A selection of workshops and lectures for career development or personal interest.

9:45 a.m.

Room #	Title and Description	
225B	A Peek Inside the World of Clinical Research	Steve Pope, MSHS, CCRP The RTP region is the center of the international clinical research industry. Come learn about the industry's ecosystem, key companies and organizations, and the skills and training required for career advancement. Mr. Pope teaches the Healthcare Clinical Research Specialist and the Pathways to Launching a Career in Clinical Research courses.
236B	Drones and FAA Certification	Kenneth Shorsher Unmanned aerial systems (UAS), or drones, have a wide variety of commercial and recreational uses. You have to know the rules – but once you do, there's money to be made! The FAA now requires all commercial drone pilots to pass a test. Our courses will prepare you for that test through classroom and flight instruction.
403D	Substitute Effective Teacher Training	Paul Jenkins We have 20-hour classes that will help you develop instructional preparation, time management and presentation skills, discipline strategies, and hands-on activities for the classroom. You'll also become familiar with state and local school laws and administrative expectations. Upon completion of this course, you'll be eligible for employment with Wake County Public Schools.
233B	The New Vocational Training: It's Not Your Parents' Home Ec Class!	James Frawley Improve or add to your current skills with vocational training classes offered at multiple Wake Tech campuses. Programs include electrical wiring, plumbing, HVAC, building/construction, basic welding, automotive programs (including On-Board Diagnostic (OBD) Emission Certification), and more.
404D	Wake Tech Resources for Entrepreneurs	Katie Gailles Wake Tech serves more than 400 entrepreneurs and small business owners each year through the Small Business Center and the Wake Tech/Wells Fargo Center for Entrepreneurship. Learn more about how these centers can help you start and grow a successful small business.
224B	WordPress – for Your Blogs and Websites	Rob Rode Understand the value of WordPress for your blogging and website needs.

SCHEDULED ACTIVITIES

A selection of workshops and lectures for career development or personal interest.

10:30 a.m.

Room #	Title and Description	
225B	A Peek Inside the World of Clinical Research	Steve Pope, MSHS, CCRP The RTP region is the center of the international clinical research industry. Come learn about the industry's ecosystem, key companies and organizations, and the skills and training required for career advancement. Mr. Pope teaches the Healthcare Clinical Research Specialist and the Pathways to Launching a Career in Clinical Research courses.
223B	Auto Detailing	Clark Webster Explore the profession of auto detailing, including the myth that detailing and washing are one and the same. Find out what you need to know to be a detail professional – and what to ask when someone offers to detail your car.
236B	Drones and FAA Certification	Kenneth Shorsher Unmanned aerial systems (UAS), or drones, have a wide variety of commercial and recreational uses. You have to know the rules – but once you do, there's money to be made! The FAA now requires all commercial drone pilots to pass a test. Our courses will prepare you for that test through classroom and flight instruction.
402D	Learn About College & Career Readiness (CCR) Options	Faith Palmer and Ellen Overington Learn what College & Career Readiness options await you! Join us in a fun game of "Jeopardy!" to learn about CCR programs and all that we have to offer.
234B	Learn How to Teach English As a Second Language	Susan Ballard This workshop provides an overview of the ESL Teaching Certificate – a program that trains and credentials those who want to teach English as a second language to adults. Whether you're looking for a career change, a ticket to see the world, or a profitable part-time income, this course can help you reach your goals!
403D	Online Courses: Learn What We Have for You!	Paul Jenkins Workforce Continuing Education is expanding its online offerings. This workshop will showcase courses from a variety of areas that you can take from anywhere with internet access.
235B	Self Defense Demonstration	Jon Gregory Instructors will demonstrate self-defense techniques.
404D	Wake Tech Resources for Entrepreneurs	Katie Gailles Wake Tech serves more than 400 entrepreneurs and small business owners each year through the Small Business Center and the Wake Tech/Wells Fargo Center for Entrepreneurship. Learn more about how these centers can help you start and grow a successful small business.

INFORMATION BOOTHS, TOURS, AND ACTIVITIES—Open all day!

11:15 a.m.

Room #	Title and Description	
223B	Auto Detailing	Clark Webster
	Explore the profession of auto detailing, including the myth that detailing and washing are one and the same. Find out what you need to know to be a detail professional – and what to ask when someone offers to detail your car.	
234B	Becoming a Translator and Interpreter	Jamila Kribil
	If you speak English and another language, you may find that employment opportunities await you. Learn the difference between interpreters and translators – and find out if this field is right for you.	
403D	BioNetwork Training: Want a Job Manufacturing Pharmaceuticals?	David Farrell
	The BioNetwork with WCE offers short courses for employment readiness in biomanufacturing. Learn about biomanufacturing and the types of products produced in NC. Our courses provide hands-on experience with instrumentation and equipment that can lead to employment in the biopharmaceutical manufacturing industry.	
222B	Career Opportunities in the IT Industry	Raymond Isler
	Learn about hot IT career opportunities such as cybersecurity, CompTIA, Cisco, and Open Technologies.	
404D	Craft Beer Brewing Program	Ben Wagoner
	Learn about Wake Tech's craft beer brewing program. Find out about brewing fundamentals, area partnerships, and the future of the program and this growing field.	
235B	Self Defense Demonstration	Jon Gregory
	Instructors will demonstrate basic self-defense techniques.	
233B	The New Vocational Training: It's not Your Parents' Home Ec Class!	James Frawley
	Improve and add to your current skills with vocational training classes, offered at multiple Wake Tech campuses. Programs include electrical wiring, plumbing, HVAC, building/construction, basic welding, automotive programs (including On-Board Diagnostic (OBD) Emission Certification), and more.	
225B	WAVES Volunteer Tutoring Program	Anne Tekmen
	Make a profound difference in someone's life – become a tutor! Work one-on-one or with small groups helping adult students master literacy, basic math, and other subjects. Full-time Wake Tech staff members have 20 hours of paid volunteer time each year that can be used for this purpose.	

12:00 Noon

Room #	Title and Description	
234B	Becoming a Translator and Interpreter	Jamila Kribil
	If you speak English and another language, you may find that employment opportunities await you. Learn the difference between interpreters and translators – and find out if this field is right for you.
