Students are encouraged to meet with a Human Services Department Faculty Advisor before registering for courses in the Gerontology Certificate.

This certificate is designed for individuals who are enrolled in other human services programs and would like additional education on Gerontology or who are in professions where they will come in contact with older adults. For example, this will provide increased knowledge for individuals in the field of nursing, health care, childcare, and business. Students who are enrolled in more than one human services curriculum should speak with their advisor to discuss specific classes that are duplicated in the programs and determines available credit.

This program planning guide is for advising purposes and is subject to change. Only the Registrar can clear students for graduation.
