Dear Dr. Scott:

Thank you for your letter of March 27, 2009, providing information concerning programs offered online, effective Spring 2009, for which students may earn 50% or more of the required credits. We apologize for the delay in responding to the letter.

The programs, all leading to an associate degree, are as follows.

Civil Engineering
Civil Engineering Technology
Computer Engineering Technology
Early Childhood
Human Services Technology
Human Services Technology—Substance Abuse
Information Systems Security
Simulation and Game Development
Surveying Technology

Since the institution is already approved to offer 50% or more of a program's credits electronically, this is not a substantive change. We accept the notification and require no additional information from you.

Best regards,
