Dear Dr. Scott:

Please pardon my delay in responding to your letter of March 17, 2009, in which you notified the Commission of the termination of the following programs effective August, 2009:

Certificate

High Performance Computing: Bioinformatics Computing
High Performance Computing: Linux/Red Hat Administration

Associate in Applied Science

High Performance Computing

Student admissions to the programs were halted in June, 2007 for the degree program and December, 2008 for the certificate programs. Students have been given the opportunity to complete the program or transfer to a closely related curriculum (Networking Technology) to maximize the course work they have completed. The faculty members and equipment were transferred to Networking Technology. We accept the notification and require no additional information from you.

Best regards,
