

November 1, 2012

Dr. John B. Boone  
Director of Institutional  
Effectiveness and Research  
Wake Technical Community College  
9101 Fayetteville Road  
Raleigh, NC 27603-5696

Dear Dr. Boone:

Thank you for your letter of August 25, 2012, providing information which we requested in our letter to you, dated August 14, 2012, concerning the termination of programs at the College.

The programs terminated fall 2012, are as follows:

- C Language Programming Certificate
- Web Content Management Certificate
- Electronics Engineering Technology: Robotics Certificate
- Healthcare Informatics Certificate
- Digital Media Certificate

The College was requested to provide information concerning how students were notified of the termination of the programs. All other information had been provided. Students enrolled in the programs were sent emails informing them of the terminations. Copies of the emails were provided. As indicated earlier, students will be allowed to complete their certificate programs.

**We approve the termination of the above listed certificate programs and request no further information.**

Data Storage and Virtualization Diploma

The College provided notification in its letter, dated May 8, 2012, of the offering of this program, effective fall 2012. Acknowledgement was inadvertently left out of our letter to the College, dated August 14, 2012. The diploma consists of courses in the A.A. S. in Networking Technology degree program and thus its addition does not constitute a substantive change. Existing faculty members will teach the courses.

**We acknowledge the information, will add it to our files, and request no further information.**

Best regards,

Belle S. Wheelan, Ph.D.  
President
