Dr. John B. Boone
Dean of Institutional Effectiveness,
Accreditation and Research
Wake Technical Community College
9101 Fayetteville Road
Raleigh, NC 27603-5696

Dear Dr. Boone:

Thank you for your letter of February 7, 2017, notifying the Commission of your plans to offer a new Associate in Applied Science in Building Automation Technology degree program, effective fall 2017. The program will be offered on the Main and North campuses. The A.A.S. in Building Automation Technology requires 68 credit hours. The curriculum for the program is a combination of existing (54 credit hours) and new courses (14 credit hours). The curriculum does not appear to be a significant departure for the institution. No additional resources will be required to implement the program.

We accept notification of the Associate in Applied Science in Building Automation Technology degree program and require no additional information.

Best regards,

Kevin W. Sightler, Ph.D.
Director of Substantive Change
